Fall Classes Inside

Washtenaw Community College
From Here to Career
Welcome to Launch

From open doors to open minds, we believe that when you start at Washtenaw Community College, your career opportunities are endless. I invite you to learn more and find out how we can help you get from Here to Career by exploring the programs we offer, the classes we teach, and the careers we help jumpstart in this edition of Launch.

More than 20,000 students register for classes at WCC every year. They join us with diverse backgrounds, goals, and challenges. Their success becomes our success and I’m excited to share these stories of personal triumph and achievement with you.

Whether you want to transition into a new field, hone your skills, or are looking to start classes with plans to transfer to a four-year institution, you can find what you need at WCC. With more than 120 degrees and certificates, an open door admission policy, and affordable tuition rates, we’re here to help you on your educational journey.

Take a peek inside to see the classes we are offering this spring – from computer networking to video production, on campus and online. And to help you plan ahead, we also have our classes for fall available on our website.

So dive into Launch and start planning your future at WCC now. We look forward to seeing you soon.

With Warm Regards,

Rose B. Bellanca, Ed. D.
President, Washtenaw Community College

ADA/EEO/Title IX/Section 504 Compliance Statements
Washtenaw Community College does not discriminate on the basis of race, sex, color, religion, national origin, age, disability, height, weight, marital status, or veteran status in provision of its educational programs and services or in employment opportunities and benefits. WCC is committed to compliance in all of its activities and services with the requirements of Title IX of the Educational Amendments of 1972, Public Act 453, Section 504 of the Rehabilitation Act of 1973, Title VII of the Civil Rights Act of 1964 as amended, Public Act 220, and the Americans with Disabilities Act of 1990. Inquiries concerning programs and services as they relate to Title IX and Section 504, and the Americans with Disabilities Act should be directed to the Office of the Vice President for Student and Academic Services, Room SC 247, Student Center Building, 734-973-3536. Inquiries regarding compliance in employment should be directed to the College Affirmative Action Officer in the Office of Human Resource Management, Room 120, Business Education Building, 734-973-3497. Inquiries concerning access to facilities should be directed to the Vice President of Facilities, Grounds, and Campus Safety, Room PO 112, Plant Operations Building, 734-677-5322.

Title II Student Right to Know and Campus Security Act Compliance Statement
The Student Right to Know and Campus Security Act of 1990 is a federal law that mandates the disclosure by all institutions of higher education of the rates of graduation, the number of incidents of certain criminal offenses, the type of security provided on campus, the pertinent policies regarding security on campus, and policies that record and deal with alcohol and drug abuse. Washtenaw Community College is in full compliance with these provisions and provides the required information annually through various means, including college publications, www.wccnet.edu or email. Inquiries concerning the Student Right to Know and Campus Security Act should be directed to Washtenaw Community College, Office of the Vice President for Student and Academic Services, Room SC 247, Student Center Building, Ann Arbor, MI 48105-4800, 734-973-3536.

Washtenaw Community College is accredited by The Higher Learning Commission of the North Central Association of Colleges and Schools, 230 South LaSalle Street, Suite 7-500, Chicago, IL 60604-1411, 312-263-0456, www.ncahlc.org.

“WCC is the best college I have ever gone to in my life. The instructors want you to succeed, they want you to learn and want you to grow.”
Securing Her Future

Welding Student Proves Hard Work Leads to Success

Lauren Williams thought she knew what she wanted to do with her life. An avid artist, she figured her passion would easily transition into a career.

“Before WCC I took art classes at a career center and tried graphic design at a local college,” remembers Williams. “It wasn’t for me.”

Not sure what direction to take with her life, Williams took a step back from her education. It was through a chance recommendation by a friend that she found the welding program at WCC.

“I never thought I would get into it as a career, but I love it,” said Williams, who will graduate from the college with a degree in welding and fabrication this year. “It has been awesome and the classes are amazing.”

Going Down the Right Career Path

“As a single mom I needed career stability for myself and my son,” said Williams. “Welding provides me with a stable career field that is challenging and fun. I love it.”

The fact that she is studying her craft at a school that has produced numerous champion welders, including the 2013 SkillsUSA national welding titleholder, doesn’t hurt either.

“WCC is the best,” said Williams. “The instructors want you to succeed, they want you to learn and want you to grow.”

Advice for Others

While juggling school and a child can be a struggle, Williams knows the effort is worth it. She has even managed to open her own business, Williams Custom Fabrications, which is thriving thanks to social media.

“You have the strength to do whatever you want to do as long as you put your mind to it,” she said. “No one else is going to do it for you. Work hard at what you do and put your passion into it.”

Welders

Median Pay: $36,300 per year

Job Outlook: Employment of welders is projected to grow six percent from 2012 to 2022.

Information from www.bls.gov
Starting at a new school can be an overwhelming endeavor, but doing so in a new country takes someone who is especially dedicated and hardworking – someone like Kedishia Grant.

**Getting a Fresh Start**  
At the age of 21, Grant left her home in Jamaica and moved to Michigan. She immigrated to the United States with her family to pursue a better life and knew that getting a good education was a critical factor. She enrolled at WCC and loved the experience.

“I did well in school in Jamaica, but it is very expensive to go to college there. So I decided to come to the U.S.,” said Grant. “WCC helped me focus my energy. When bad things happen I can put my energy on what I do well.”

**Above and Beyond**  
Grant graduated from WCC with two associate degrees: Liberal Arts Transfer and Business before transferring to the University of Michigan to pursue a degree in Economics.

During her last semester at WCC, Kedishia was one of two students from the college selected for the Phi Theta Kappa All-Michigan Academic Team. Selection was based on outstanding academic performance and service to the college and community. In total, 65 students were selected for this honor from across the state.

“This experience has shown me how strong I am. If I can overcome all these obstacles and still maintain a 3.9 grade point average, then I can handle anything.”

---

**Economists**

**Median Pay:** $91,860 per year

**Job Outlook:** Employment of economists is projected to grow fourteen percent from 2012 to 2022.

*Information from www.bls.gov*
“WCC helped me focus my energy.”
“If someone comes here looking for a job and they’re going to WCC, I’ll try them out because I know it’s a good program.”
Paesano head chef David Whitney’s love for food started at a very early age. Spending much of his youth on his grandfather’s farm in Escanaba, the WCC culinary arts graduate grew up honing his craft.

“He had a mink ranch and raspberry farm; we also planted things like potatoes and corn. So I grew up picking berries and eating meals made from the fresh produce grown in my own backyard,” said Whitney. “My grandfather made a living selling his produce to people for years and years. That’s one of the reasons I try to showcase what is available locally and in the state when it’s in season.”

Though he had many valuable experiences working in restaurants with accomplished chefs before moving to the area in the late 1990s, Whitney’s formal training really began at WCC.

**Hands-on Training**

In the WCC Culinary Arts and Hospitality Management program, students practice in instructional kitchens and are taught by chefs who are masters of their trade. They also run a full-service restaurant and a dessert shop on campus.

“My teachers at WCC were awesome,” said Whitney. “Meeting the local chefs who came in to help, and learning about the food of Ann Arbor were all great experiences. I learned a lot from all of my teachers as well as the other students.”

He says that the program’s professional network of local restaurateurs was invaluable. “If someone had an opening in the kitchen they would come to Washtenaw to fill it,” said Whitney. “The same is true for me. If someone comes here looking for a job and they’re going to WCC, I’ll try them out because I know it’s a good program.”
Figuring out where to go in life isn’t always an easy decision. Luckily stumbling onto a life-changing career path only happens in the movies, right?

Growing up in Ypsilanti, 25-year-old Rose Adler wasn’t sure what direction to take with her post-secondary career. “I wanted an affordable way to experiment with some classes and find out what I liked and what I wanted to do with my life,” said Adler.

Having always been interested in 3D animation in movies, she decided to take a class to help her better understand the process.

“It was challenging and a lot of fun,” recalls Adler. “It was such a different experience getting to see something go from a bare-bones project into a fully fledged film. The classes were also small so I got to learn a lot from my peers as well.”

Pursuing Her Dream

After graduating from the 3D Animation program at WCC in 2008, Adler transferred to the Savannah College of Art and Design where she graduated with a Bachelor of Fine Arts in Visual Effects. Since then her work has appeared in big screen blockbusters The Amazing Spider-Man (2012), Oz The Great and Powerful (2013) and the recently released Jinn (2014).

“It’s surreal seeing these fresh students come into the program,” said Adler. “I was in that seat not too long ago. I feel like I can really relate to what they are thinking and going through. Students come in here feeling like their work isn’t good enough and I can tell them that I know how they feel. I felt the same way, but I made it. I did it and so can they.”

And she credits WCC with getting her there.

“You don’t understand what a great experience WCC offers you until you go on to another school and realize how well prepared you are. You leave the college with a good understanding of what you are going to head into in your industry.”

WCC Grad Goes Hollywood
“You don’t understand what a great experience WCC offers you until you go on to another school and realize how well prepared you are.”
“The hands-on experience that I received through the college was invaluable.”
Finding His Calling

Student Discovers Love of Music at WCC

Do what you love; love what you do. And while John Dolph may not have known what he was looking for when he started at WCC, the passion he discovered for his newfound career path playing the piano is unmistakable.

“My parents were great in letting me see what I wanted to do and what route I wanted to take with my professional life,” said Dolph, who was 20 when he enrolled at the college. “I started with just a few classes and found the school was a good fit for me. After my first class in music theory I knew I wanted to do more and expand my playing capabilities.”

It was through WCC that Dolph not only received (in classroom) instruction and guidance, but also the chance to take his skills on the road and perform at live venues. “I got a lot of exposure playing at events and venues,” he recalls.

“My professors took personal time to help me and to give me experience beyond the classroom. That environment helped motivate me to do well.”

Now, seven years later, he is still performing and still doing what he loves.

More than Just Music

From music, Dolph branched out into writing, math, and science classes in order to receive his Associate of Arts degree. Since graduating he teaches his love of piano to others as a music instructor as well as maintaining a performance schedule.

A schedule that allows him to connect back to the school that started it all for him.

“I’m still in contact with many of my instructors and I actually play gigs with a few of them,” said Dolph. “The hands-on experience that I received through the college was invaluable. I found my love of music at WCC.”

Music Directors and Composers

**Median Pay:** $47,350 per year

**Job Outlook:** Employment of music directors and composers is projected to grow five percent from 2012 to 2022.

WCC Fall Classes Begin
August 22

Register for Fall Semester NOW!

Finding the right class at the right time and place is easy

What do you want to study?
Whatever your interests, you’ll probably find a WCC class on that topic.

When do you want to study?
WCC offers flexible classroom options – study on campus, online, or choose a blended class that combines online and in-class instruction.

Where do you want to study?
If you prefer classroom learning, pick the location most convenient for you: our main campus in Ann Arbor; our extension centers in Brighton, Hartland, and Dexter; or another community location.

WCC Fall 2014 Course Listings

WCC Has the Programs You Want!

WCC offers an impressive list of more than 120 different programs of study. There are choices you may not even have imagined!

Get trained for a career you can start right away, or get your associate degree here and transfer to a four-year institution.

Here’s an idea of what you can study at Washtenaw Community College. Go to wccnet.edu/programs to find the full list and learn more.

### Computer Technologies and Business

- **Business:**
  - Accounting
  - Administrative Assistant
  - Business
  - Office Administration
  - Sales and Marketing
  - Medical Billing and Coding
- **Computer:**
  - Networking
  - Programming
  - Computer Science
  - Security
  - Software
  - Systems Technology
- **Digital Media Arts:**
  - 3D Animation
  - Graphic Design
  - Photographic Imaging and Technology
  - Digital Video Production
  - Web Application Developer
  - Web Graphic Design
  - Web Technology
- **Management:**
  - Entrepreneurship
  - Human Resources
  - Retail
  - Supply Chain
  - Culinary and Hospitality

### Humanities and Social Sciences

- **Behavioral Sciences:**
  - Addiction Studies
  - Education
  - Human Services
  - Liberal Arts Transfer
- **English:**
  - Journalism
  - Technical Communication
  - Liberal Arts Transfer
- **Foreign Language:**
  - Global Studies
  - Liberal Arts Transfer
- **Humanities:**
  - Broadcast Arts
  - Film Studies
  - Liberal Arts Transfer
- **Performing Arts:**
  - Fine and Performing Arts
  - Music Production and Engineering
- **Social Sciences:**
  - Liberal Arts Transfer

### Culinary Careers

- **Culinary Arts:**
  - Baking and Pastry
  - Culinary Arts
  - Culinary and Hospitality Management

### Math, Science and Health

#### Health Care:
- Clinical Medical Assistant
- Computed Tomography

**Humanities and Social Sciences**

**Start here, transfer anywhere**

WCC is the smart and affordable start for getting your bachelor's degree! In fact, nearly 60 percent of students who come to WCC intend to transfer. WCC makes that transition seamless and easy. Use our transfer guides to learn which WCC courses are accepted at a four-year college or university that interests you.

Transfer guides are based on the official articulation agreements with four-year colleges and universities. Review them to see the full program of study. Go to wccnet.edu/transfer to learn more.

### High school students welcome

If you are still in high school, you may be able to start earning college credit now. WCC offers classes at many local high schools, on our main campus, and at extension centers around the region. Learn more about dual enrollment and how it can give you a jump-start to college by visiting wccnet.edu/dual-enrollment.

---

**We can accommodate your unique needs**

Whatever your background, whatever your needs, WCC has you covered:

**Free tutoring/disability accommodations for WCC students**
734-973-3342/Rm. 104, 1st floor Crane Liberal Arts & Science building

**Veteran services:**
734-477-8560/Veterans Center, 2nd floor Student Center building

**Support for international students:**
734-677-5158/International Center, 2nd floor Student Center building

**Student activities for all ages and abilities:**
734-973-3500/Student Activities, 1st floor Student Center building

**GED Preparation plus college and job-readiness support:**
734-677-5006/Adult Transitions (in Counseling), 2nd floor Student Center building

About $50 million in financial aid offered each year

Financial aid is money available from federal, state, and college sources to help you pay your college tuition and expenses. In general, all U.S. citizens and eligible non-citizens who are enrolled in an approved degree or certificate program, are eligible to receive some type of financial assistance. In addition, WCC offers several tuition payment plans so that you can stretch your payments over the semester.

- Apply for a Student Resource and Women’s Center scholarship at www.wccnet.edu/scholarships
- Other financial aid is in the form of low-interest loans
- WCC’s Financial Aid office can answer your questions and help you apply for aid
- For more information on financial aid visit wccnet.edu/financialaid or call 734-973-3523

Other financial aid is in the form of low-interest loans
WCC’s Financial Aid office can answer your questions and help you apply for aid
For more information on financial aid visit wccnet.edu/financialaid or call 734-973-3523

Some financial aid does not have to be repaid
WCC students pay thousands less in tuition than students at private and public four-year colleges and universities. On top of that, you can save on dorm expenses by living at home. You can save on commuting costs by attending a college near where you live. And parking at WCC is free!

- Start at WCC and remain here through the completion of a degree or certificate, and you may save enough to cover the tuition costs of your junior year at a four-year university

- Get the benefit of small classes – WCC’s average class size is 23, the lowest of local area colleges and universities

- Attentive faculty and top-rate support services help you achieve your best

- We update our curriculum to reflect the changing needs of today’s employers, and we are continually renovating our facilities to offer you the latest in labs, equipment, and technology

- Students tell us they feel better prepared after attending WCC than those students who began as freshman at a four-year institution
