0100
Greetings From President Larry L. Whitworth

On behalf of Washtenaw Community faculty and staff, welcome to the College. Now in its 32nd year, the College offers its students an educational experience of the highest quality. If you are a current student, congratulations on your decision to invest in your future by accessing the appropriate education to advance your career opportunities. If you are not currently enrolled let me encourage you to consider WCC and its excellent associate degree and certificate programs.

Washtenaw Community College offers each student an educational experience designed to meet his/her future plans. Its comprehensive mission includes broad-based occupational programs, non-credit courses and classes that prepare students for academic transfer. Nearly 100 programs of study are available at WCC. I encourage you to take the time to review this catalog; in these listings, you will discover the courses and programs that will give you the means for expanding your future opportunities.

In addition to providing academic preparation, the College offers its students an array of services such as financial aid, personal and professional counseling, academic skills improvement and tutorial services. Whatever your specific needs are, I encourage you to seek out and use the comprehensive services available to all WCC students.

All our current thinking suggests that the future is wide open for "knowledge" workers. Continuous education is the key to becoming and remaining a "knowledge" worker. But it is not only your economic viability that is enhanced by continuing your education. The quality of other important aspects of your life also will be enriched by your experience as a WCC student. Classes in the arts and humanities can expand your understanding of the beauty of our world; exposure to the social sciences can help build the intellectual foundations required to develop an appreciation of the richness of human diversity; and courses in the natural sciences will enhance your analytic and problem-solving skills.

Your future and the future of those depending on you will be greatly affected by your decision to continue your education. Let me encourage you to decide today to become a dedicated life-long learner.

Sincerely,

Larry Whitworth
President
Statement of Mission and Values

Mission of the College
Our college strives to make a positive difference in people’s lives through accessible and excellent educational programs and services.

- We provide a caring, open-door teaching and learning environment.
- We provide excellent teaching, counseling, and support services.
- We reach out to people who have limited income or other barriers to success.
- We enable people to progress in their academic and career pursuits.
- We work in partnership with the communities we serve.

We fulfill our mission by offering the following programs and services:

Occupational and Career Education: We offer certificate and associate degree programs, seminars, workshops, and courses which enable people to pursue employment or advance in a career. We develop and deliver job skills and occupational education programs in partnership with business, industry, government and labor groups.

General and Transfer Education: We offer individual courses and associate degree programs in academic disciplines which transfer to four-year colleges and universities, complement career programs, and enhance personal growth.

Continuing Education and Community Services: We offer basic courses, which strengthen reading, writing, mathematical, computer and study skills. We also offer instruction and services to people who wish to learn English as a second language.

Developmental Education: We offer basic courses, which strengthen reading, writing, mathematical, computer and study skills. We also offer instruction and services to people who wish to learn English as a second language.

Student Services: We offer orientation, academic skills assessment, assistance with program and course selection, financial aid, university transfer assistance, personal and career counseling, job placement, tutoring, child care, special needs services, computer and self-paced instructional laboratories, and library services.

Community Leadership: We cooperate with other community organizations in seeking solutions to local economic and social problems. As a primary educational resource in the community, we work to improve the quality of life in the communities we serve.

Values of the College
Teaching and Learning: We embrace teaching and learning as our central purpose.

Support: We make every effort to help learners achieve success.

Diversity: We respect differences in people and in ideas.

Partnerships: We plan and work together with respect, trust, and honesty within the college and with the communities we serve.

Innovation: We seek the best possible ways to conduct our work.

Vision Statement
WCC is a learner-centered, open-door college dedicated to student, community, and staff success. We offer a wide spectrum of community college services with an emphasis on premier technical and career education programs. The College staff continuously learns to improve learning.

Student Success: Our students come first. We are committed to their learning, success, and satisfaction. We strive to serve every student in an effective, caring, and supportive way. In order to enhance student learning outcomes, we engage in continuous improvement of teaching, programs, processes, and structures. We increase our accessibility by reaching learners where, when, and how they need instruction through the use of learning technologies, workplace learning experiences, and flexible scheduling of classes.

Community Success: We are committed to community learning, success, and satisfaction. WCC’s primary contribution to community success is the development of a highly skilled workforce. A strong partnership with area employers emphasizes customized employee training and rapid adaptation of WCC programs to changing job training needs. Through strategic alliances with business, government, labor, and other educational institutions, WCC increases its emphasis on applied technology education, joint technical education programs with the public schools, and basic job training services to under-served and at-risk groups.

Staff Success: We are committed to staff learning, success, and satisfaction. As a staff, we emphasize teamwork within college units and between the units. We support our colleagues and help them to be successful. We learn to improve learning; that is, we continuously increase our capacity to meet the educational requirements of the students, employers, and communities we serve. Through staff learning, we continuously improve services at each stage of the flow of students through WCC. All staff members align their work to contribute to improved teaching and increased student and community learning.

History of Washtenaw Community College

Washtenaw Community College (WCC) was created on January 15, 1965, when the citizens of Washtenaw County voted financial support for its establishment. A board of trustees was elected and a nationwide search for administrators and faculty was initiated while a study to look for a permanent campus location was begun. During construction of the main campus, which began in September 1966, the college held classes in temporary facilities in the Willow Run area of Ypsilanti Township. On September 12, 1966, 1,200 students were enrolled in 30 different programs. The first classes were held in Willow Run in an old elementary school, a fire station, and a bowling alley. Students in automotive programs took courses in a former dairy distribution plant, while those in health programs were taught in the basement of a church in downtown Ann Arbor. In 1969, the permanent 235-acre campus opened with completion of the Technical and Industrial Building and the Liberal Arts and Sciences Building. Today, more than 17,000 students are enrolled annually in credit courses and an additional 6,600 are enrolled in non-credit offerings each year.

Profile of Washtenaw Community College

WCC schedules courses on a semester calendar, and enrolled 11,085 credit students for the Fall 2000 semester. The college employs approximately 180 full-time faculty and more than 450 part-time faculty throughout the academic year. The College offers about 100 credit programs of study in business, health, public services, humanities and social sciences, math and natural sciences, and technology. More than 50 percent of the students enrolled at WCC pursue a degree, while others take courses for personal interest or to obtain or upgrade job skills. Each year, college certificates and associate degrees are awarded to more than 700 students.

College Governance

Washtenaw Community College is governed by a seven-member Board of Trustees. Collectively, the Board of Trustees is responsible for hiring the College president, making policy decisions and assuring that the College is fiscally sound. Assisting the President in managing the institution are the Executive Vice President for Instruction; the Vice President for Finance and Administration; the Associate Vice President for Facilities, Development and Operations; and the Associate Vice President for Student Services.
Decisions are developed with input from a variety of constituents. The college maintains several standing committees, and as needed, the administration creates ad hoc committees to explore solutions to specific questions. The College functions within a mission that seeks to promote student, community and staff success.

Current Facilities
Today, the WCC main campus includes four buildings exclusively dedicated to instructional activities: the Liberal Arts and Sciences Building, the Occupational Education Building, the Technical and Industrial Building, and the Business Education Building. The Student Center Building houses the Learning Resource Center, extensive student support services, a student cafeteria and dining room, college bookstore, and administrative offices. The college also has a child care facility for children of WCC students and staff, which is called the Family Education Building.

The Morris Lawrence Building includes classrooms; an auditorium; exhibition space; conference and special event space, instructional space for art, drama, music, the police academy and public service training, business industry and contract training.

Part-time Faculty Commons
The Part-time Faculty Commons is a one-stop resource center designed to promote student-to-instructor interaction and provide instructional support for part-time faculty. It is conveniently located on the first floor of the Liberal Arts and Sciences Building (LA 178-180). Within the Commons, part-time instructors consult with students, prepare for class at computerized workstations, and access copying and word processing services. It also serves as a communications hub with message services and campus mailboxes. The Commons provides an inviting atmosphere and gathering place for part-time faculty to consult with colleagues on instructional matters, as well as access to resources on effective teaching and learning practices. It offers extended day, evening, and weekend hours. For more information, contact: Teaching and Learning Support Services or visit our website at http://www.wccnet.org/dept/eels/fac/ptfac.htm.

Types of Study
There are many educational goals that may be obtained by attending WCC. These goals are realized by taking credit as well as non-credit courses and programs. Some students choose to attend classes for personal interest or to obtain or upgrade job skills. Other students choose to complete college certificates to become credentialled for a job or to obtain associate's degrees for transfer to four-year institutions.

WCC also offers a variety of special courses and programs to meet the diverse needs of area citizens, including employee training and skills upgrading classes tailored for specific businesses and industries. The Adult Transitions Program, offers training for the unemployed - from counseling and skill assessment through actual training and job placement. The Technical Training Office offers coursework to fulfill apprenticeship requirements. In addition, the Division of Evening, Extension and Learning Support Services offers off-campus credit courses, pre-produced televised classes, and on-line instruction.

Adult Transitions
Adult Transitions is a community outreach program that assists students who need new skills for today’s workforce. It includes counseling, skill building, and job education services. The program uses a step-by-step approach to help students move from their neighborhoods to WCC and on to the career paths of their choice. Scholarships and other forms of support, based on financial need, are available for students to enroll in WCC’s short-term Certificate programs such as Machine Operation, Nursing Assistant Skills, Child Development, and Sterile Processing and Distribution. These programs are described in more detail in the Curriculum Section of the catalog.

Adult Transitions also offers the Skill Building Program (CCSKBC), a short pre-college program that includes refreshers in reading, writing, mathematics and thinking...
Programs of Study

skills, as well as preparation for the General Education Development (GED) test and/or the COMPASS test. The program uses an open-entry/open-exit model, with instruction tailored to the needs of individual students. Students may prepare to pass the GED test and obtain a high school equivalency certification, or to enter short credit certificate programs that will give them job skills for entering the workforce. The Skill Building program and GED testing are free of charge. Orientation for enrollment is available each week.

Public Service Training and Police Academy

The WCC Public Service Training Program provides in-service training courses for employers of public service agencies such as law enforcement, corrections, security, and fire protection. Courses are developed to meet the specific needs of the agencies. They may range from one-day seminars to full-semester programs. Approval by the appropriate professional certification group is sought for all courses offered.

Students who complete Police Academy training receive Law Enforcement Certification. Students who complete the Criminal Justice program requirements in addition to the Academy are eligible for an Associate in Applied Science degree in Criminal Justice Law Enforcement.

Technical Education/Construction Institute

WCC representatives are available to assist in the development of apprenticeship and other employee training programs. Trade-related instruction can be provided for most apprenticeable trades with a college representative working directly with apprentices and sponsoring firms to meet the requirements. Apprenticeship training combines on-the-job training with related classroom instruction to ensure that apprentices master skills with confidence and precision. More than 300 occupational areas use apprenticeships to train workers. Individuals entering an apprenticeship program are hired in jobs for which vacancies exist. The Trade-Related Instruction program is approved by both the Bureau of Apprenticeship and Training and the Michigan State Department of Education.

An individual pre-apprenticeship curriculum can be arranged to help individuals prepare for most apprenticeship entrance examinations. Placement in an apprenticeship program is at the mutual discretion of employers, employees, and organizations representing the involved skill trades and cannot be guaranteed.

Washtenaw Technical Middle College

WTMC is a technical high school chartered by Washtenaw Community College that operates on the WCC campus. Using the concepts of mastery learning, skill based evaluation, and a heavy emphasis on learning life management skills that support academic activity, WTMC challenges students to take control of their education and become learners. Students initially are placed in high school courses with academic content that prepares them for entry-level college courses. Students who receive academic certification as well as life management certification are jointly enrolled in core, entry-level college courses to complete their high school requirements. Within the first year, students select a WCC technical program in which to major, and they prepare an educational plan for their course of study. Graduates of WTMC have many options including going to work in their technical field, returning to WCC to complete an advanced certificate or degree, or transferring to a four-year college to earn a bachelor's degree.
Admissions
WCC is open to all individuals who can benefit from its educational programs and service. These focus on the individual's growth and development toward academic, career, and personal goals. The college seeks to create an admission process which assists applicants in learning about WCC programs as they relate to the individual's goals, thereby facilitating the best match of student and program.

**General Admission Policy**

WCC serves a wide and diverse population through its “open-door” admission policy. Any person who has graduated from high school, passed the GED examination, or is 18 years of age or older, and can benefit from the college's programs may be admitted. All new students are required to complete an assessment and, depending on the results, may be required to take preparatory courses before they take courses in the regular curriculum. Under certain conditions, students may qualify for an exemption from the assessment (these exemptions are described on page 18). This policy has been developed in accordance with Federal Ability-to-Benefit Regulations, which require that the college demonstrate that each student it admits has the ability to benefit from their chosen educational program. Students under 18 years of age who are not high school graduates, may be admitted with the written recommendation of their high school principal or counselor and the approval of a parent or guardian unless they possess emancipated legal status, giving them full adult legal rights and responsibilities.

Admission to the college does not guarantee admission to programs, which have specific program entry requirements.

Students should not regard enrollment out of reach because of financial need. It is the policy of the college to assist with meeting college expenses to the fullest possible extent consistent with federal, state, and college financial assistance regulations.

**Programs with Admission Criteria**

Some Washtenaw Community College programs have prerequisites that must be completed prior to program enrollment. Prerequisites are determined by faculty and outside accrediting agencies based on program curriculum. In most instances, these programs require a second admission process. WCC's Office of Admissions is responsible for informing, monitoring, and processing students who are interested in enrolling in these programs.

**Admission to High-Demand Programs**

When a program is identified by the administration as a high-demand program (more applicants than openings for an entering class), a staff committee will be formed by the executive vice president for instruction to select members of the class based on published criteria, including completion of prerequisites and readiness for program success. All potential students, regardless of residency, may apply to the college. Admission to WCC does not guarantee admission to high-demand programs. These may include programs leading to certification or licensure, as well as other WCC certificate and degree programs. In cases where enrollment in a particular program is in high demand, the following additional priorities will apply to those meeting individual program entry requirements:

- **Priority 1:** Legal residents of the Washtenaw Community College district.
- **Priority 2:** Legal residents of counties adjacent to the college district.
- **Priority 3:** Legal residents of all other counties in the State of Michigan.
- **Priority 4:** Persons whose legal residence is outside the State of Michigan, but within the United States.
- **Priority 5:** Persons whose official residence is a foreign country.

**Admission Procedures**

**New Students**

All new students taking credit classes are required to complete an admission application. New students, regardless of experience or educational background, are urged to meet with a counselor or advisor to learn about opportunities the college offers. Individual assessment in English, Math and Reading is required for appropriate program planning and course selection.

**Re-admission of Former Students**

Former students who have not registered for classes at the college for one year must reenroll at the college for one year must reactivate their files at the Student Connection by completing an updated application form. Students reactivating their files are encouraged to see a counselor or advisor prior to registering for classes, or submit it online at www.wccnet.org. Individual assessment also may be recommended.
Dual Enrollment of High School Students
High school students may enroll in classes for college credit that may be counted toward their high school diploma. Application for admission must be supported by the signature of the high school principal or counselor as well as the signature of a parent or legal guardian. Students under 18 years of age who have emancipated legal status do not need the signature of a parent.

Guest Students From Other Colleges
Students enrolled at other colleges and universities may attend WCC as guest students. This status is secured through completion of a Michigan Uniform Undergraduate Guest Application. This application can be obtained from the home institution and should be sent to the WCC Office of Admissions or dropped off in person at the Student Connection. A new guest application must be submitted each semester.

Transfer Students
Students transferring from other colleges follow the same procedure as new students. Those wishing to transfer credit from an accredited college or university may do so by requesting that an official transcript be sent to the Office of Student Records for evaluation. The coursework must be evaluated, at the student’s request, after the student has successfully completed at least one credit at WCC. At the time coursework is evaluated, the student is notified of the transfer credit that will be accepted toward program requirements at WCC.

International Students (F-1 visa only)
International F-1 visa students may be admitted to Washtenaw Community College. Admission will be based on meeting the following requirements:

1. A completed WCC application for admission.
2. An original bank statement reflecting the student’s ability to meet all tuition, fees, and living expenses while attending WCC. To find out the required amount in U.S. dollars, contact the International Student Admissions office either by phone (734-973-3315) or by e-mail (f1@wccnet.org).
3. A notarized letter from the financial supporter must also be sent with the original bank statement, stating the money in the bank will be used for the student’s tuition, books, living expenses, medical expenses, and all other expenses incurred by the student while studying at Washtenaw Community College. This letter must state the name of the person providing the support for the student, the relationship of the sponsor to the student, and the student’s full legal name as it appears on the student’s passport.
4. Original certified transcripts, in English, of all previous secondary and post-secondary schools attended by the student.
5. Proof of English language proficiency:
   A. For direct admission into college level courses: a minimum score of 500 on the paper Test of English as a Foreign Language (TOEFL), or 173 on the computer Test of English as a Foreign Language (TOEFL), or 75% or better on the Michigan English Language Assessment Battery (MELAB). Original test scores must be sent to WCC by the testing agency. (NOTE: WCC’s TOEFL Identification Number is 1935.)
   B. For admission to the English as a Second Language (ESL) classes (Fall and winter semesters only): a minimum score of 450 on the paper Test of English as a Foreign Language (TOEFL), or 133 on the computer Test of English as a Foreign Language (TOEFL), or 63% or better on the Michigan English Language Assessment Battery (MELAB).
6. After arrival and before registering for classes, the student must purchase medical insurance with a repatriation clause. Failure to do so, or cancellation of the policy, will result in the student not being able to register for future semesters at WCC.
7. Upon arrival, the student must schedule an interview with International Student Admissions.
8. Upon arrival, the student must verify visa status, provide a copy of the I-94 card from the student’s passport, and provide a copy of the applicant information from the inside of the passport.
9. A WCC orientation and assessment will be scheduled after arrival and prior to class registration.

For answers to specific questions about enrollment, contact International Student Admissions either by phone at (734) 973-3315 or by e-mail (f1@wccnet.org).

Students on an F-1 visa must enroll full-time (at least 12 credit hours per semester) at WCC.

In order to be eligible for re-enrollment in the following semester, the student must earn a passing grade of A, B, C, D, P or S in 12 credit hours.

International Students (all visa classifications except F-1)
International students range from permanent resident aliens to a visitor on any visa from an A visa to an R visa, including refugees and people with asylum. Certain restrictions may apply depending on which status you may hold in the United States.

Permanent resident aliens (green-card holders) who wish to attend WCC are unrestricted in the number of credit hours for which they may register. Admission procedures for permanent resident aliens are as follows:

Submit a completed application with a copy of your green card (front and back), and also include a copy of your driver’s license or State of Michigan Identification.
International students who possess refugee status or political asylum in the United States who wish to attend WCC are unrestricted in the number of credit hours for which they may register. Admission procedures for refugees and political asylum are as follows:

Submit a completed application for admission with a copy of your passport (if applicable), appropriate documentation showing your status, and a driver's license or state identification to show where you currently reside.

Admission requirements for visa holders are as follows:

Submit a completed application for admission with a copy of your passport, I-94 card, and a copy of the visa that you currently hold.

There are two orientation programs offered for new international students:

1. International students who have taken the TOEFL and scored a minimum of 500, or have taken the MELAB and scored 75 percent or more, must be scheduled for an orientation which includes an ASSET/COMPASS assessment that must be completed before registering for classes.

2. International students other than F-1 visa holders who have not taken the TOEFL or MELAB test, or who have taken the test and scored below the minimum, must schedule an appointment for the International Student Orientation that consists of the English Placement Test before registering for classes.

Emeritus Students

Individuals who are 65 years of age or older prior to the semester of enrollment and who reside within Washtenaw County may participate in the college's educational and cultural programs without tuition costs. However, these students must follow the general admission criteria of the college and pay the registration fee and mandatory course fees, if applicable, each semester. Emeritus students not paying tuition are registered for classes on a space available basis.

Health Occupation Students - Special Admission Requirements

Applicants to the health occupations (e.g. Nursing, Dental Assisting, Pharmacy Technology, Radiography, and Surgical Technology) must meet specific admission requirements. Generally these are:

1. Compliance with the published application deadline for each program.
2. Graduation from high school or completion of the GED.
3. Completion of specific high school and/or college-level courses required for acceptance. Courses must be completed with a grade of “C” or better.
4. Qualification on certain diagnostic reading, comprehensive and/or computational tests as required for each program.
5. Completion of the program-specific application materials.
6. Submission of a high school transcript and college transcripts with the WCC application.
7. Any other program-specific admission requirements.

Residency

Aspects of Residency

1. The residency of minors (under 18) shall follow that of their parents or legal guardian. Exception: Students under 18 may qualify as in-district residents regardless of their parents’ residence if they can provide sufficient evidence that they are independently supporting themselves and reside in the Washtenaw Community College district.

2. The residency of any person, other than a parent or legal guardian, who may furnish funds for payment of college fees, shall in no way affect the residency of the student.

3. Students who are not residents of the district and are currently employed full-time in the district by an in-district company may pay in-district tuition rates at the time of registration by providing appropriate documentation of their employment from their company at the beginning of each semester before the eighth day of the semester. Such documentation should substantiate that the student is currently employed full-time and has been employed full-time for at least 30 days prior to the semester of enrollment. Spouse and dependents do not qualify for in-district rates. If such students attend the college without documentation from their company or industry, tuition rates are determined by their legal residency status.

4. Those students who are transferred to the county by the military must present appropriate documentation to qualify for immediate in-district residency.

5. Veterans whose induction address was within the college district who return to the college within six months after discharge will be classified as in-district students.

6. The student may petition the Office of Student Records to officially change residency status by supplying proof of residency within the college district for 30 days for out-district/country students (or six months for out-state students). Any residency change after the eighth day of the semester will be effective the next semester in attendance.
Residency Classifications

In-District Students:
- Independent applicants who have resided in the WCC district for 30 days immediately prior to the semester of enrollment if previous residency was within Michigan.
- Applicants who live with a spouse who has resided in the WCC district for 30 days immediately prior to the semester of enrollment if previous residency was within Michigan.
- Applicants who live with and are a dependent of the parent or legal guardian who has resided in the WCC district for a minimum of 30 days, immediately prior to the semester of enrollment if previous residency was within Michigan.
- Applicants who have resided in the WCC district for six months immediately prior to the semester of enrollment if previous residency was outside of Michigan.

Out-District Students are applicants who do not meet the requirements of an in-district student, but who have been legal residents of the State of Michigan for at least six months.

Out-State Students are applicants who do not meet the requirements for an in-district or an out-district student and are U.S. citizens or have permanent resident status through the Immigration and Naturalization Service (INS).

Out-of-Country Students are applicants who are on a visa or whose permanent address is out of the country. Students on visas pay out-state/country tuition except those who may qualify for in-district tuition through their employers. In this case, the student must have full-time employment in the WCC district (see #3 under Aspects of Residency above).

Required Student Orientation and Entry Assessment
Orientation/assessment sessions, scheduled prior to each semester, are required for new students. During these sessions, students will be provided an overview to the College including information on entry assessment, which measures their writing, math, and reading skills. Counselors and faculty advisors then assist students in selecting and scheduling courses. Orientation sessions are scheduled at a variety of times to accommodate the busy schedules of prospective students.

Exemptions from Orientation and Entry Assessment are granted under the following circumstances only:
- Student has verified completion of a degree (an associate's degree or higher) from an English-speaking college or university (60 semester credits that are fully applicable toward a bachelor's degree will qualify).
- Student has documented the completion of 15 or more semester credit hours (23 or more quarter hours) of college academic course work with a cumulative GPA of at least 2.0 (C) from a regionally accredited college/university.
- Student has completed the entry assessment at a prior orientation and can produce a copy of the results.
- Produce ACT results showing a minimum score of 19 in the Reading, Writing and Math segments.
- Student is enrolling only in courses for personal interest or is auditing courses.
- Student has completed a guest student application approved by college personnel at their home institution, and is in good standing with and eligible to return to the home institution.
- Student is enrolling only in a distance learning course and has met the prerequisites for taking distance learning courses and any specific prerequisites for the given course.

Note: Some occupational programs have an additional screening process.

Note: Physically handicapped students who need readers or writers to help them take the ASSET/COMPASS assessment should contact Learning Support Services for assistance (734-973-3342).

Note: International students who have not already taken and passed the TOEFL or MELAB test may be required to attend a special International Student Orientation, which includes an English placement test, instead of prior to attending the College Orientation. This option is not available for F-1 student visa holders.
Registration
Each semester the college publishes a class schedule, which includes detailed information on the courses available, registration procedures and dates, add/drop periods, and the refund schedule. Students are expected to pay all tuition and fees before attending class.

No person is allowed to attend a class unless he/she has registered and paid for that class.

Students are withheld from registering if they have failed to meet their financial responsibilities to the college or in certain situations as a result of disciplinary action. Any student registration restriction (“hold”) must be cleared with the office issuing it before registration may be completed. Students having difficulty meeting their financial obligations should contact the Office of Financial Aid.

All students are encouraged to see a counselor or faculty advisor before registering for classes. Students registering for 18 or more credits must have the signature of a counselor. Students on an academic (Grade Point Average hold and/or Ability to Benefit hold) or foreign student (ESL) hold must have their schedule approved by a counselor or advisor before registering for courses.

* Students registering for courses must satisfy the course prerequisites as specified in the course description.

Adding and Dropping Courses
During the official add/drop period, a student may add or drop a class or change a section without an instructor’s approval. An added course is accepted on a space-available basis during the official add and drop period. After the official add/drop period, students must have an instructor’s signature for adding classes or changing sections. Students may not add a course after the add deadline specified in the semester class schedule. Students are encouraged to discuss changes, drops, and adds with their instructors or counselors. Students should retain copies of any transactions until final grades or refunds are received. Students are responsible for paying all appropriate tuition and fees for added courses.

Students are responsible for officially dropping courses they are no longer attending. If the drop occurs after the refund deadline for the course, the student is responsible for paying full tuition for the course. Courses dropped after the refund deadline will be listed on the student’s transcript with a grade of “W”. Students may drop from courses without instructor approval during the first forty percent of the course - approximately six weeks for a fifteen-week course. After this deadline, students must consult with their instructor, indicated by the instructor’s signature on the drop card, before submitting the card to the Student Connection located on the second floor of the Student Center Building.

Drop cards for a semester must be submitted to the Student Connection before the 100% drop deadline published in the schedule of courses for that semester. Students will receive a refund of 100% of their tuition and tech fees. Other fees are non-refundable. After the 100% deadline, students may withdraw (a “W” will appear on their transcript and no refund is given) up to the date published without an instructor’s signature. After the deadline to withdraw with instructor’s signature, students must petition for instructor approval to withdraw from the course.

Changing Sections
Students changing from one section to another of the same course must complete the process at the Student Connection. Students are added on a space available basis, and instructor approval is required after the add/drop period.

Repeating a Course
Whenever a course is repeated on a credit basis, the best grade and credits earned are used in computing the grade-point average. All entries remain a part of the permanent academic record.

Auditing a Course
Students who wish to audit a course must register and pay for that course following the established registration procedures. Students do not receive credit for the course; however, the course is included on the transcript with an “AU.” Students may change from credit to audit status or vice versa through the first quarter of a course (four weeks for a 15-week course).

Transcripts/Final Grades
A permanent record of all courses, credits and grades earned by each student is kept in the Office of Student Records. Copies of transcripts are available to students upon their written request. Associate degrees and/or college certificates earned at WCC are posted on transcripts. At the end of each semester final grades are issued to all students enrolled for that semester. Final grade reports are mailed to a student’s mailing address unless the student has a financial obligation to the college.
Veteran Certification
All veterans receiving educational benefits must see the Veteran Services Technician before registering. Any drops or changes made by veteran students are to be reported to the Veteran Services Technician in the Office of Student Records immediately. Failure to do so may result in the delay of educational benefits.

New Students
Veterans and other eligible dependents receiving educational benefits under Chapters 30, 32, 34, 35 and 106, Title 38 U.S.C. who have never used their V.A. educational benefits and would like to make application for benefits should report to the Veteran Services Technician in the Office of Student Records prior to registering for classes. Students should bring certified copies of their DD-214, marriage license, and birth certificates of dependent children, if applicable. Students who have prior educational training must provide official transcripts with their application for benefits.

Transfer Students
Students who have previously received V.A. educational benefits at another school must complete V.A. Form 1995 (Change of Place of Training) and submit it to the Veteran Services Technician in the Student Records Office. The DD-214 and transcripts from colleges or universities where the student has completed previous training must accompany the application.

Previously Enrolled Veterans
All previously enrolled veterans should report to the Veteran Services Technician prior to registering to ensure proper credit. Students must turn in a completed certification form after registering for classes every semester to ensure the continuance of their benefits.

Credit for Formal Service School Experience
Credit is granted for formal service school training as recommended by the American Council on Education, through its Commission on Accreditation of Service School Experiences. For complete information contact the Veteran Services Technician in the Office of Student Records.

Standards for Receiving Educational Benefits
In compliance with the Department of Veteran Benefits, Circular 22-80-38, the college has developed standards of progress. Each veteran student must conform to these standards to be eligible for V.A. Educational Benefit Certification. Each veteran student must read, sign, and return the original copy of these standards to the Veteran Services Technician at each enrollment.
Financial Information
Financial Information

Tuition*
Residents of the College District .......... $53.00 per credit hour
Non-Resident/In-State .................... $79.00 per credit hour
Non-Resident/Out-State .......... $101.00 per credit hour
Non-Resident/Out-Country .......... $101.00 per credit hour

Fees*
Registration Fee (each semester) ........ $23.00
Late Registration Fee ..................... $22.00
Student Photo ID (replacement only) ...... $10.00
Instructional Technology Fee (per credit hour) $4.00
Credit by Exam Fee (per credit hour) ...... $10.00
Books and Supplies .......................... $10.00
Payment Plan (processing fee) .............. $25.00

* The college reserves the right to change tuition and fees without advance notice.

** Students may be required to purchase certain supplies and materials. These are available at the bookstore on the 1st floor of the college’s Student Center Building. Books and supplies average $125 per semester for full-time students, but may be as high as $300 or more depending on course selections.

Refunds
Refunds are only processed after a student has officially dropped a course(s) or a course is cancelled by the college. If a course is officially dropped, a student is eligible for a refund of tuition as follows:

1. The refund deadline for courses scheduled for parts-of-term of two or more weeks will be one calendar day for each week the course is scheduled to meet, e.g., fifteen days for fifteen week courses, ten days for ten week courses, etc.

2. The refund deadline for courses scheduled to meet in parts-of-term of less than two weeks in length will be before the first class meeting.

3. If the refund deadline falls on a non-business day of the college, the refund deadline will be set as the next official business day.

4. The refund deadline does not apply to course section changes or to instructor approved course level changes processed within a part-of-term.

5. Students dropping and adding courses after the official refund deadline are not eligible for a refund and must pay the tuition for the added classes.

6. A full refund of tuition may be administratively granted upon official withdrawal of the student for the following extenuating circumstances during the first two thirds part-of-term/semester:
   a. Induction of a student into the U.S. or foreign Armed Services
   b. Death of a spouse, child, parent, or legal guardian of a student
   c. Death of a student
   d. Verifiable error on the part of the college
   e. Verifiable incapacity, illness, or injury which prevents the student from returning to school for at least four (4) weeks of the semester

7. All fees except the instructional technology fee are non-refundable.

No refund is made if withdrawal occurs after two-thirds of the part-of-term has transpired, regardless of circumstances.

Financial Aid
WCC provides financial assistance to students in the form of scholarships, work-study employment, grants and loans. Several programs also have been developed to provide financial support to honors students and are awarded on the basis of student achievement or merit. For additional information about specific program requirements, contact the Office of Financial Aid on the second floor of the Student Center Building or call (734) 973-3523.

For information concerning grants for educational expenses, childcare and federal grants for single parents, displaced homemakers, and academically and economically disadvantaged students contact the Student Resource & Women’s Center on the second floor of the Student Center Building or call (734) 677-5105.

Types of Aid
There are four major types of aid available:

- Scholarships awarded on the basis of achievement and do not need to be repaid.
- Grants awarded on the basis of need and do not need to be repaid.
- Employment requires work for paid wages. Includes the need based College Work-study Program. Student employment opportunities exist in many offices and areas on campus.
- Loans awarded on the basis of need and must be repaid once students leave college or do not continue in college on at least a half-time basis.

Sources of financial aid include Washtenaw Community College, the WCC Foundation, the State of Michigan, and the United States federal government.
By federal regulation (ability to benefit), new and re-admit students who have not graduated from high school or earned a GED must achieve minimal passing scores on the ASSET/COMPASS assessment (administered during new student orientation) in order to be awarded federal (Title IV) financial aid.

Assessment of Need
Once students' financial aid files are complete, the Financial Aid Office reviews the information in light of individual circumstances. After determining the “expected family contribution,” the staff then subtracts that amount from the “cost to attend Washtenaw Community College.” The difference is the student’s financial aid need.

Application
Because the financial aid process can take several months to complete, the earlier you begin, the more likely it is that your application will be approved in time for registration. Obtain the following forms from the Office of Financial Aid as early as possible:

1. The Free Application for Federal Student Aid (FAFSA) must be completed and mailed in the envelope provided. When you receive your Student Aid Report from the processing center, bring it to the Office of Financial Aid for evaluation of your financial aid eligibility.

2. If you have attended other colleges and are transferring to WCC at mid-year, a financial aid transcript may be required. Contact the Office of Financial Aid, (734) 973-3523, for details.

3. Additional documentation of student and/or family resources may be required for evaluation of your application. Such documentation may include federal income tax returns.

After the federal processing center evaluates your financial status and sends the information electronically to the college, the Office of Financial Aid will review the information and notify you in writing of your eligibility for aid. Awards are made in June and July prior to the beginning of the fall semester. Students who wish maximum consideration for financial aid should have all applications in the Office of Financial Aid by the following dates:

- Fall Semester: June 1
- Winter Semester: November 1
- Spring-Summer Semester: February 1

Applications received after the above deadline dates are processed only as funding allows.

Academic Progress Criteria for Financial Aid
The academic progress criteria of the Office of Financial Aid requires that all students receiving aid maintain at least a 2.0 grade point average and complete 75 percent of their semester credits. Students failing to meet this minimum requirement are placed on probation and allowed one additional semester to meet this require-
Financial Information

Distribution
Most students who have been awarded and approved for financial aid prior to the start of a semester have their tuition paid at the time they register and receive a check for books on the first day of class. The book check is for the remainder of their financial aid. Students who are approved after the start of a semester have their account credited and receive a check for the balance of their award within two weeks. The following funds are disbursed in this manner:

1. Federal Direct Stafford Loan
2. Federal Direct Unsubsidized Stafford Loan
3. Federal Plus Loan
4. Federal Pell Grant
5. Federal SEOG Grant
6. Scholarships
7. Student

Stafford Loans and PLUS Loans are distributed to students as they are received from the lending institution. Students will be notified when funds have been applied to their account and when they can pick up their balance.

Student Employment on Campus
In addition to the various student financial aid programs previously mentioned, there are a variety of campus employment opportunities for students who would like to gain meaningful work experience while receiving a competitive wage rate. These opportunities can be realized through the College Work-study Program and other employment available to students on campus. Contact the Office of Financial Aid for further details.
Alumni Association
The college stays in contact with former students through the Alumni Association. All former students are eligible to join. The office is located in SC 207; the phone number is (734) 973-3492.

Bookstore
Book Ends, the WCC bookstore is located on the lower level of the Student Center Building and is open during the following hours during the Fall and Winter semesters:

M-Th ..................................................8:30 a.m. - 6:30 p.m.
F..........................................................8:30 a.m. - 3:00 p.m.
S..........................................................9:30 a.m. - 1:00 p.m.

Hours during the Spring/Summer semester vary.

Book Rush Hours
During registration and the start of each semester, the bookstore has extended evening and weekend hours posted at the bookstore and campus information.

Book Buyback
Students can sell back books any time during the semester providing there is a need at that time for the book.

Shopping at the Bookstore
Books, instructional aids, equipment, materials, and supplies are readily accessible for students and staff. Also available are WCC insignia clothing and gifts, computer software (at education prices), postage stamps, and AATA bus tokens. Special orders are welcome. The WCC Bookstore accepts Visa, MasterCard, Discover, American Express, and personal checks with proper identification.

Receipts must accompany returned merchandise; policies regarding returns are posted in the Bookstore.

Children’s Center/Day Care Facility
WCC provides a licensed child care facility in the Family Education Building for children of WCC students, staff, and faculty. The Center is accredited by the National Association for the Education of Young Children and offers a comprehensive child development program, which emphasizes the child’s identity and feelings of self-worth. Children are supported in strengthening learning in key areas through active learning, discovery, and problem solving.

The staff is fully trained in early childhood education and development. Additional care is also offered by work-study students and foster grandparents. Practicum students in the child care professional program provide additional new experiences for children. Check with the Children’s Center for details on age limitations, enrollment, attendance requirements, fees, hours of operation, meals, and other information. Visitors are always welcome; no appointment is needed.

Counseling/Advising
Counseling services are located on the second floor of the Student Center Building. Hours of operation for each semester are posted on the Counseling Center bulletin board, but are typically 8 a.m.-7 p.m. Monday through Thursday, 8 a.m. to 5 p.m. Friday, and 9 a.m. to noon on Saturday.

Academic Advising
Counselors and instructors are available to facilitate the development of academic plans. They assist students with planning schedules, meeting program requirements, placement in the appropriate level of courses, and transferring to four-year colleges and universities, as well as referrals to other support services.

Faculty members who are your classroom instructors are especially helpful in providing advice and assistance regarding courses within their field of expertise. They can also assume the role of academic advisor for certain certificate and degree programs.

Students intending to transfer to a four-year college or university should contact the Counseling Office located on the second floor of the Student Center Building for information regarding current transfer agreements between WCC and other area institutions (e.g., Eastern Michigan University, Cleary College). Students transferring to four-year institutions within Michigan should contact a WCC counselor regarding WCC’s participation in the Michigan Association of Collegiate Registrars and Admissions Officers (MACRAO) Agreement. For more information see Appendix A.

Career Counseling
Counselors are available to help students make career changes and career decisions. Counselors may suggest career testing and/or use of information in the Counseling and Career Planning Center located on the 2nd floor of the Student Center Building Room 201.

Personal Counseling
The counseling and social work staff also work with students experiencing personal or emotional problems, or
problems associated with drug or alcohol abuse. The staff provides referrals to the appropriate agency or service in the community for specialized assistance as necessary.

Learning Support Services
The college provides services to differently abled, economically disadvantaged, and limited-English-speaking students. These services include tutors, interpreters for the deaf, readers for the blind, and other assistance to help students successfully complete their programs. In order to provide timely services, requests should be made three (3) weeks in advance. For additional information on eligibility for services, contact Learning Support Services (formerly Special Populations), located on the 1st floor of the Liberal Arts Building, Room 104. Hours of service are 9 a.m. - 7 p.m. Monday - Thursday and 9 a.m. - 3 p.m. on Friday. Tutoring is also available on Saturday and Sunday from 10 a.m. - 3 p.m., contingent upon tutor availability. For more information call (734) 973-3342. If you are hearing-impaired, call the TTY number: (734) 973-3635.

Learning Disability Services
The college employs a Learning Disability Specialist who provides diagnostic testing for WCC students who suspect they may have a learning disability (LD) and who have not been tested previously, or whose testing is outdated. In addition to providing cognitive and achievement testing to diagnose and document a learning disability, the LD specialist also provides consultation for students with other learning difficulties and makes recommendations for learning/study strategies, recommends educational accommodations appropriate to specific learning disabilities, and provides information recommendations, or appropriate referrals for other conditions, for example, ADHD/ADD (attention deficit/hyperactivity disorder), that may interfere with learning. These services are offered free of charge to currently registered WCC students. The goals of LD assessment and services are to identify learning problems and educational needs, assist in arranging appropriate remediation programs and accommodations, and help all students develop the confidence and means to reach their potential. The office is located on the 1st floor of the Liberal Arts and Sciences Building, Room 100 and can be reached at (734) 973-3493.

Job Placement/Career Planning/College Transfer Services
The college offers comprehensive services to assist students in career advising, career preparation, job placement and transfer. Counseling/Career Planning is located on the second floor of the Student Center Building in Rooms 227 and 201. College Placement is located in the Student Center Building, Room 201.
**Student Clubs**

Student Clubs are established by students to offer a venue for students to learn leadership skills, meet other students with similar interests and to have fun. The Student Activities office is the clearing house for Student Clubs. Interested students can contact the Student Activities assistant director for information about current clubs and how to begin a new club. Currently active groups and clubs include:

**African-American Student Association - (A.A.S.A.)**
Advisor: Iota Frye, 973-3565 (SC 227)
Meets to unite African, African-American, and other students to help members succeed in academic and other endeavors.

**Apostolic Internationals of WCC Club**
Advisor: Linda Nwokeji, 677-5230,971-8678

**Association of Information 'Technology Professionals”**
Advisor: Usha Jindal, 973-3603 (BE 206)
Builds awareness of professional opportunities for computer students.

**Business Professionals of America Association**
Advisor: Dosye Thompson, 677-5111 (BE 237)
Prepares students for the business world through advancing leadership, citizenship, academic and technological skills.

**Creative Expression Club**
Advisor: Michael Naylor, 677-5039 (ML 150)
Michelle Shankwiler, 547-5674

**Dance Club**
Advisor: Noonie Anderson, 973-3378 (LA 300)
Offers students a venue for experiencing dance in all its forms.

**Drama Club**
Advisor: Tracy Komarmy, 677-5101 (LA 130)
Creates a community where students can experience the theater and grow as actors in a relaxed, academically challenging and supportive atmosphere.

**Forever Living in God’s Holy Truth Club (FLIGHT)**
Advisor: Lester Jordan, 973-3740 (Auto Lab)
A Bible study group.

**French Club**
Advisor: Juan Redondo, 677-5068 (LA 300)
For language students and those interested in the French culture.

**Gay, Lesbian, Bi-Sexual & Transgendered Student Support Group**
Advisor: Betty Reisman, 677-5102 (SC 227)
The GLBT is open to all WCC students and staff who are gay, lesbian, bi-sexual or transgendered or friends and family who want to offer support and educate themselves.

**Hispanic Student Association**
Advisor: Cecilia Canstano Pasas, 677-5128 (SC 227)
Supports activities and interaction among students from a Spanish heritage.

**International Student Association**
Advisor: Cecilia Canstano Pasas, 677-5128 (SC 227)
Supports activities and interaction among international students.

**Japanese Animation Club**
Advisor: Arnett Chisholm, 973-3484 (Counseling)
Provides discussion and sharing of techniques in animation.

**Musical Theater Society Club**
Advisor: Ron Fracker, 677-5095 (ML 105)
Members enjoy the opportunity to participate in and support musical theater productions.

**Muslim Student Association**
Advisor: Cole Jordan, 677-5102 (SC 227)
Share information about the Muslim religion with other students at the College.

**Native American Student Association**
Advisor: Cecilia Canstano Pasas, 677-5128 (SC 227)
Supports activities and interaction among students of Native American heritage.

**Orchard Internet Radio Club**
Advisor: Jim Scheafer, 477-8522

**Phi Theta Kappa Honors Society Association**
Advisor: Gregg Heidebrink, 973-3367 (BE 235)
An academic honorary fraternity, with the goal of promoting scholarship, leadership, service, and fellowship for WCC students.

**Radiography Club**
Advisor: Jerry Baker, 973-3336 (OE 102)
The Radiography Club offers support for radiography students and prepares them for participation in state and regional contests.

**Washtenaw Christian Cadre Club (WCC2)**
Advisor: Philip Geyer, 973-3604 (TI 214)
WCC Jazz Club
Advisors: Cole Jordan, 677-5102 (SC 227)
        Michael Naylor, 677-5039 (ML 150)
Offers members the opportunity to play jazz music and
explore the history of jazz.

Women in Math, Science and Computers (AWIS)
Advisors: Cathy Gilgenbach, 973-3653 (Women’s Center)
        Kathleen Strnad, 677-5067 (LA 230)
A club for women students interested in careers in the
sciences.

Northern Spies
Students also have the opportunity to contribute to or be
involved in the production of a major campus publication.
Northern Spies is a yearly publication that includes poetry,
short stories, essays, plays, and journal selections written
by former and current WCC students through the
English/Writing program.

The Student Voice
The Student Voice is a bi-monthly newspaper produced by
and for the students of WCC. The newspaper’s content is
the sole responsibility of the staff and the newspaper’s
Editorial Board. The newspaper’s editorial policy encour-
ages active participation in the exchange of ideas by
members of the student body, faculty, and administration.
The Student Voice is located in the Student Center
Building in Room 117. For more information call (734)
677-5125.

Orchard Radio
Orchard Internet Radio welcomes all students interested
in participating in national and international, interactive
opportunities, whether as program hosts or as off-air
assistants. Students can learn real skills from their expe-
riences with a working radio station located in the
Student Center Building. Contact the Orchard Radio
office at (734) 424-8522 or e-mail radio@wccnet.org and
help make your dreams come true.

Gallery One
Located on the 1st floor of the Student Center Building,
Gallery One is an art gallery that showcases original art.
The shows change frequently and feature local artists in
a variety of mediums. The gallery is open during the day
and some evenings. See postings for hours.

Club Sports
Club Sports are open to both men and women who wish
to participate on recreational teams. Club sports currently
include baseball, basketball, cross country, hockey, golf,
soccer, softball and volleyball. Some activity is starting
almost every month. The College’s practice field (North
Athletic Field) with softball diamond, soccer field, and
sand volleyball court is located across Huron River Drive
from the main campus. Contact the Club Sports office
located in the Student Center Building, Room 117, or call
(734) 973-3720 for information and sign-up.

Student Resource and Women’s Center
The Center provides comprehensive support services,
maintaining program, networking opportunities, workshops,
cultural events, financial assistance and services that
relate specifically to women. The Center advocates on
behalf of students to help them overcome barriers that
impede their success and to promote an educational envi-
ronment that values diversity, inclusiveness and equality.
Although everyone is welcome to use the Center, the staff
is especially sensitive to the needs of the adult student
who most likely has the responsibility of a home, family
and full time employment to factor into their educational
objectives.

The Center utilizes a case management and holistic
approach to providing services to students. This means
that within the confines of our established guidelines, it is
our goal to consider each student’s circumstances individ-
ually and whenever possible, and to provide solutions that
are prescriptive to his/her particular needs.

The Student Resource and Women’s Center offers the fol-
lowing support services:
• Academic, career and professional advising
• Assessment of individual learning styles
• Development of an educational plan
• Financial assistance with educational expenses to stu-
dents in occupational programs who qualify as single
parents, displaced homemakers, men and women
entering nontraditional careers, and economically
and/or academically disadvantaged
• Emergency financial assistance through grants by the
Washtenaw Community College Foundation
• Mentoring programs, library resources, workshops,
and cultural events that relate specifically to women

The Center is located on the second floor of the Student
Center Building.

Student Rights and Responsibilities
The College maintains a policy on student rights and
responsibilities. It addresses student rights and responsi-
bilities as well as student complaint and disciplinary pro-
cedures. Copies of the policy may be secured from the
Associate Vice President for Student Services office.
Substance Abuse

Alcohol and Drug Policy

The College has adopted the following position, consistent with requirements of the new federal drug-free campus regulation and with federal, state and local law, with respect to drug use on campus. All students, employees, and visitors are specifically forbidden to use, possess, or distribute alcoholic beverages or illegal drugs, or to be under the influence of the same while on college property. An exception will be made at those functions for which permission to serve alcohol has been obtained through the proper channels and then only for those who are of legal drinking age. Offenders will be subject to legal and/or disciplinary action by the College. Sanctions will be consistent with local, state, and federal law and will range from a disciplinary reprimand or a requirement to complete a rehabilitation program up to suspension, expulsion, or referral for prosecution.

Drug and Substance Abuse Prevention Services

Washtenaw Community College offers special services to increase student awareness of the effects of alcohol and other drugs. The Division of Student Services has organized ADAPT (Alcohol and other Drug Awareness and Prevention Training) to provide information regarding the consequences to health, safety, family, finances, school, and employment that can result from alcohol and other drug use. Information is available through printed literature, video tapes, counseling, crisis intervention, referral for treatment, prevention education, support groups and services, and peer educators. For more information on this or other prevention programs, call the office of Student Activities at (734) 973-3500 during office hours (8 a.m. to 5 p.m.) to make an appointment. Of course, all telephone and in-person transactions will be conducted with confidentiality.

Tutoring Program

The college offers an extensive free tutoring program. Students in need of a tutor may complete the required form in the Learning Support Services Office (LA 104). Tutoring hours are 9 a.m. to 7 p.m. Monday-Thursday and 9 a.m. to 3 p.m. on Friday.
Learning Resource Center

The LRC is an integral part of the total WCC learning environment and offers library, audio-visual, and computing and web services to students and staff. The LRC is an active participant in the instructional and research programs of the College. LRC staff seeks to instruct students in the effective and efficient use of the library and all its resources. The staff encourages students to develop the habit of self-education so that books and other library materials may contribute to their intellectual development in future years.

The LRC provides the use of more than 68,000 books, 550 print periodicals, and more than 1,000 electronic publications, plus 20 print newspapers. Micro-publications, career materials and a pamphlet collection also are available. A collection of media software such as audio and video tapes, films, music CDs, and computer software programs can be borrowed for use in the LRC or in College classrooms.

Librarians and faculty members work in partnership to select the best of retrospective and current materials to respond to students’ curricular needs and to provide accurate, up-to-date information and varying viewpoints on subjects and issues. To help students use the LRC, the librarians provide group research instruction and assist in independent study activities. Students may request to join a library instruction class if their instructor has not scheduled a session.

Librarians provide faculty a full range of reference services, including electronic delivery of information from many off-site informational databases. The LRC actively participates in inter-library loan programs to provide other libraries’ resources to faculty and students. In addition, access to other libraries’ online catalogs, such as Eastern Michigan University, and Ann Arbor District Library, is available.

The LRC facility includes small seminar rooms, traditional study tables, and informal lounge seating. The College archives, which documents and records the history if WCC, is located in the LRC.

Photo ID/Library cards are available to all currently enrolled students. An automated circulation system and online catalog provide efficient, accurate information on all library materials. Copy services, including photocopies, overhead transparencies, poster size copies, and microform printing are available.

The LRC is open during weekday, evening and weekend hours as posted each semester. Consult the LRC website for more information and electronic access to the many services provided (http://www.wccnet.org/dept/lrc)

Media Services

The Media Service Department (MSD) of the Learning Resource Center is broadly responsible for two aspects of campus operations: 1) maintaining instructional equipment and associated software at locations on campus and at regional centers, and 2) supporting campus events and conference operations.

As part of its instructional mission, the MSD offers a wide range of audio/visual services, including classroom presentation assistance, online video conferencing, visual media preparation, audio and video production and editing, and tape duplication services. In addition, MSD is responsible for maintaining campus cable and satellite operations, the campus video bulletin board system (http://www.wccnet.org/faculty/bbs.htm) and WCC’s student radio station on the Internet (Orchard Radio) http://radio.wccnet.org. MSD prepares non-broadcast educational videotapes that support classroom instruction and also provides off-air taping and teleconferencing services to faculty and staff. The department also operates a loan program that provides digital cameras as well as PC and Mac laptops to faculty.

MSD also provides complete technical support for campus events and conferences across the campus, in the College Theater and in Towsley Auditorium. These services range from assistance with presentation and display setups to complete sound reinforcement and stage lighting for assemblies and theatrical events. The department includes technical coordinators for media services and campus events, two educational support staff, and a highly creative international staff of 7-10 work study students and 10 regular part-time and on-call technicians.

Web Services

The Web Services Department of the LRC is responsible for development of the college’s website and maintaining current college publications on the website. The Web Services Department also assists faculty and others who are engaged in online, web-based instruction.

Computer Commons

Two computer commons housing many microcomputers for use by students and staff are located in the Learning Resource Center, on the third floor of the Student Center Building and in TI 108. Staff provides assistance to users in the operation of hardware and software in both computer commons. The two commons are open for operation during daytime and evening hours all year and on weekends during fall and winter semesters. (Check postings for exact hours.) Productivity software such as word processing, spreadsheets and databases, as well as access to
Learning Support Resources

the Internet and the college network are offered in both locations. Specialized software supporting specific instructional programs is also available in the LRC commons.

**Specialized Computer Labs**
There are specialized computer labs for use by particular units in several locations on campus. At the present time these include:

- BE 174, 176 Computer Network
- BE 272 Computer Instruction
- BE 274 Accounting
- BE 276, 280, 282 Business Office Systems
- OE 108, 152 (Mac) Graphic Design Technology
- OE 122 Photography
- OE 150 Health Careers
- OE 166 Architectural Drafting
- LA 254 Math
- LA 354 English/Writing
- TI 102, 104 (Mac) Graphic Design Technology
- TI 110, 112, 114 Computer Instruction
- TI 127A Numerical Control
- TI 139 Robotics
- TI 209 Industrial Electricity
- TI 223, 227, 229 Industrial Drafting

**English as a Second Language (ESL)**
The College offers courses (from beginning through advanced) for students who want to learn English as a second language (ESL). These courses prepare students to enter College academic and vocational programs and to participate in the broader English speaking community. For specific information, contact the English Department at (734) 677-5138.

**Math Center**
The Math Center provides services to improve students' mathematical skills. Many of the self-paced mathematics classes meet in this location (MTH 039, 062, 090, 097A, 097B, 107, 151, 152, 163, 165, 169A, and 169B). Placement tests designed to guide students into the proper level course for their needs and abilities are administered and evaluated. Information regarding courses, procedures, schedules, and program requirements is readily available. For specific information call (734) 973-3392.

**Academic Skills Center**
The Academic Skills Center provides help for students who desire to improve their reading and study skills and realize academic success. Diagnostic tests designed to guide students into the proper level courses for their needs are administered and evaluated. Students enrolled in Academic and Study Skills (ACS) classes are encouraged to use the facility regularly during the semester. Questions related to reading skills may be directed to the Academic Skills Center.

**Testing Center**
The Testing Center (LA 101) is a facility for the convenience of students, to provide flexibility and reduce the stress of test-taking. Tests for TV courses, make-up tests, tests for self-paced instruction and other specialized types of tests are given in the Testing Center at the request of faculty and Student Services. The Testing Center is open Monday through Saturday throughout the academic year.

**Writing Center**
Writing Center staff help students enrolled in English 040, 050, 051, 091, 100, and 111 with assigned written exercises. Writing Center personnel also assist students
Learning Support Resources

in completing writing assignments for any course at the college. A student can work with staff on selected problems of any aspect of a writing project, from narrowing a topic, developing a thesis, and organizational patterns to reviewing a rough draft or proofreading a final copy. Usually, work with an individual student is limited to 20 minutes. Macintosh computers are available so students may word process their papers. Check a copy of Writing Center News, available in the Center, for more information.

Writing Center Hours (These times may change. Check the schedule outside LA 355.)

Programs That Provide Alternative Education
A variety of alternative education opportunities and other educational services are offered by the College. These opportunities and services extend the resources, facilities and services of the college to on-campus students and the community through many innovative practices and programs. The Office of Evening and Extension Services, the Adult Transitions program and the Continuing Education and Community Services offices offer courses at off-campus locations in Washtenaw, Lenawee and Livingston counties. Distance learning opportunities include televised instruction, on-line courses and participation in programs where students gain skills from a working experience or academic service-learning in a compensated business-related position.

Lifelong educational opportunities are made readily available to the general public through a wide variety of workshops and short courses offered each semester. These activities allow individuals or groups to explore options ranging from new career ideas to the development of personal skills for their professional or community activities along with other life experience credit options. Continuing Education Units (CEU's) are offered for some non-credit programs, courses, or workshops as a measurement of completion.

**Continuing Education Units (CEU's)**

The Continuing Education Unit (CEU) is a measure of the amount of organized study a person has completed, and provides an orderly format for the recognition and quantification of non-credit learning experiences. A CEU is officially defined as ten contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction. CEU's are a nationally recognized recording device for substantive non-credit learning experiences and are an appropriate measure of in-service education and training. Courses for which CEU’s are awarded are not eligible for college credit.

**Telecourses and Online Courses**

Telecourses are college classes broadcast over local stations or available for viewing in the Learning Resource Center on campus. Students view videotaped lectures and supplement them with outside readings, papers and other assignments. Each course begins with a required orientation/first class meeting with the instructor and may be followed with additional sessions during the semester. Examinations are given periodically. Students earn college credit, which may be applied to appropriate programs of study.

In order to enroll in a telecourse or an online course a student must meet the following criteria:

1. The student must have taken and successfully completed a minimum of 12 credits of college level coursework with a cumulative GPA of 2.5 or higher prior to registering for a telecourse or online course. If the GPA prerequisite is not met and the student does not have any registration holds, the student may enroll with the signature of the instructor scheduled to teach the course.

2. The student must complete a telecourse orientation. Failure to do so may result in the student being dropped from the telecourse.

The College offers several college credit courses over the Internet. These online classes provide flexible scheduling because students can perform class work at any time of the day. Students participate in class discussions through forums and submit assignments electronically. Students considering an online course should have experience using word processing, e-mail and the Worldwide Web. Students will also need an Internet service provider and an e-mail account. The college provides free student e-mail accounts.

**Teaching and Learning Support Services**

Teaching and Learning Support Services provides a comprehensive program of teaching and learning services which ensures that students have adequate support to achieve their learning goals and that faculty have adequate support to pursue their plans for curriculum development and teaching enhancement. Learning Support Services and Learning Disability Services comprise part of the department responsibilities.
Continuing Education and Community Services
Non-Credit Short Courses, Seminars, and Workshops

Washtenaw Community College extends educational resources and facilities to the community by offering non-credit courses, emeritus classes for people 65 years of age or older, customized training for business and industry, community outreach through courses and services offered at off-campus sites, and facility rental for community groups and businesses.

A broad spectrum of non-credit classes is offered to the public throughout the year. This includes the following program areas:

- Business and professional development
- Computer and other technologies
- Self-paced computer instruction
- Personal health
- Professional health care continuing education
- It's your life courses for personal enrichment and recreation

For information about these classes, please call (734) 677-5027.

Customized Training

WCC offers customized training to business, labor, and government in Washtenaw County. These educational experiences are designed to help the county and its citizens to be globally competitive and economically viable. In this arena, WCC provides seminars and workshops for businesses, labor, governmental organizations, community organizations, and professional groups.

Depending on the client's needs and objectives, programs can range from half-day workshops to semester-length courses or even associate degree programs spanning several years. Traditional college credit courses also are offered as part of the College's response to the specific educational requirements of business, labor and government. Courses are taught either on campus or at a client's site, whichever is most convenient and most appropriate for the subject and skills being taught.

Extension Sites

WCC offers a variety of credit and non-credit courses in various sites throughout its Washtenaw/Livingston county service area at convenient locations and times.

The three WCC extension and community center offices are:

**Eastern Area:**
- Harriet Street Center
  - 332 Harriet Street
  - Ypsilanti, MI 48197
  - (734) 480-9950
  - *Class Locations: Harriet Street Center*

**Western Area:**
- Western Center
  - 7920 Jackson Road
  - Ann Arbor, MI 48103
  - (734) 424-0182
  - *Class Locations: WCC Western Center, Dexter Mill Creek Middle School*

**Northern Center:**
- Brighton High School
  - 7878 Brighton Road
  - Brighton, MI 48116
  - (810) 229-1419
  - *Class Locations: Brighton High School, Pathfinder School*

The Western Center and Harriet Street center offer a variety of day and evening credit and non-credit classes with an emphasis on computer-related instruction in the areas of Internet Professional, Graphic Design, Computer Information Systems, and Business Office Systems. Additional credit classes include English, Math, Social Sciences, Behavioral Sciences, and Business. Self-paced computer labs are also available at this location offering a flexible course schedule in an environment in which students work at their own pace in courses such as Windows, Word, Access, and Power Point.

The Northern Center located in Brighton High School offers evening classes in English, Math, Social Sciences, Behavioral Sciences, Business, Computer Information Systems, Art, Humanities, and Economics. In addition, there are credit courses available in Pinckney at the Pathfinder School (the old Pinckney High School).

All centers offer entry assessment for new students, academic advising to new and continuing students, and registration for credit and non-credit courses. Students should contact the respective office for information regarding these services.

This extension program is coordinated and managed through the Office of Evening and Extension Services.
Some credit-free short courses, seminars or workshops also are offered at the regional centers to meet the needs of specific community groups. Students may register at the regional centers in accordance with a pre-determined and published schedule. For general information, call (734) 677-5030.

**Emeritus Program**

Special opportunities are provided by WCC for county residents who are at least 65 years of age. At various retirement facilities and nutrition sites throughout Washtenaw County, non credit courses, workshops and seminars are provided with tuition waived. Registration is conducted on site.

These residents also might be eligible for tuition-free credit classes, although they are required to pay a per-semester registration fee for credit courses. Contact the Department of Continuing Education and Community Services at (734) 677-5027 for eligibility details.

**Conference Services**

Washtenaw Community College provides comprehensive meeting and event planning for groups in the community using WCC space. These events range from a 50-person business strategy planning session to a 300-person fundraiser. Flexible conference rooms are available and can accommodate a small retreat to a 50 booth exposition. Towsley Auditorium seats 470 people and is suitable for concerts, recitals and small theater productions. The campus is equipped with state of the art audiovisual equipment and can support teleconferences and videoconferences. On site catering is available.

For information about community group and business rental of college facilities, please call (734) 677-5034.
Articulation Agreements
Articulation agreements between WCC and four-year colleges and universities allow WCC students in specific programs to apply some or all of their credits earned towards a bachelor's degree. If a program has an approved articulation agreement, it will be listed under the description in the program listing. Copies of articulation agreements are available in the Counseling Office. For information on public school articulation, look under Credit for Prior Learning/Transfer Credit below.

Assessment of Student Learning
Washtenaw Community College is committed to ensuring that students achieve the learning outcomes established for its programs and courses. To provide feedback that will enable the college to determine whether its programs and courses are successful in achieving this goal, students may be expected to participate in college-wide outcomes assessment activities related to its courses, academic programs, and general education outcomes. In some instances, student work will undergo special reviews. Other activities may include portfolio development, tests, surveys, or other tools to measure student learning. Student participation in assessment activities assures that the college receives information on student learning that can be used to promote continuous improvement of teaching and learning. By choosing to come to WCC, students are expected to participate in assessment activities as may be requested. In all these activities, strict confidentiality of individual student work will be maintained.

Cancellation of Classes
The college may cancel course offerings due to low enrollment, lack of an instructor, or any other reason deemed viable by the Executive Vice President for Instruction. Every effort is made to accommodate students into alternate sections. Information regarding the current status of course offerings for all semesters is available on the college’s website (wccnet.org) and at the Student Connection.

Class Attendance
Students are expected to attend all sessions of the courses for which they register. Regular class attendance is necessary for maximum success in college. In the event of excessive absence or tardiness, individual instructors determine whether the quality of students’ work has been adversely affected. Students are responsible for all material covered during their absence. No person is allowed to attend a class unless officially enrolled on a credit or non-credit (audit) basis with the appropriate tuition and fees paid.

Class Level
Freshman/First-Year Student - One who has completed fewer than 31 credit hours.
Sophomore/Second-Year Student - One who has completed 31 or more credit hours but has not received an associate degree or has not qualified for upper division classification in a four-year college or university.

Complaint Procedure
See the office of the Associate Vice President for Student Services handbook for details.

Course Load/Student Status
Full-time student One who enrolls in twelve or more credit hours per semester.
Part-time student One who enrolls in less than twelve credit hours per semester.
Half-time student A part-time student enrolled in at least six credit hours per semester.

Students enrolling in 18 or more credit hours in a semester must have their schedule approved by a counselor before their registration may be processed.

Credit for Prior Learning/Transfer Credit
Washtenaw Community College recognizes that students come to college with competencies obtained from prior learning experiences such as previous education, training, or work experience. To receive credit, a prior learning experience must be verified. If it is documented and evaluated to be equivalent to college-level coursework, it is the College's policy to allow equivalent credit to be granted to the student. The following methods may be used to verify equivalency credit: transcript evaluation, credit by examination, portfolio evaluation, advanced placement testing, and articulation credit. Credit for prior learning will be evaluated and posted on the student's transcript only after the student has earned one or more credit hours at WCC and will not apply toward satisfying the minimum credits in residence required for graduation. The credit does not count as part of a student's credit load for any given semester and is not computed into the grade point average. In most cases, non-traditional credit earned for prior learning experiences will not transfer to other colleges or universities. Other institutions will want
to evaluate the transcripts from all colleges previously attended when awarding transfer credit.

**Advanced Placement Testing**

**College Level Examination Program (CLEP)**

Credit may be granted for the successful completion of each of the five general examinations of CLEP. Minimum scores for awarding credit are based on Commission of Educational Credit and Credentials of the American Council on Education recommendations:

- English Composition* ............................................. 530
- Mathematics.......................................................... 421
- Humanities................................................................421
- Natural Sciences ...................................................... 421
- Social Sciences and History ...................................... 421

* Students who complete the English Composition General Examination will be granted English elective credit. To receive credit for ENG 111 (Composition I), students must pass the CLEP English Composition Subject Examination With Essay.

Students who have earned six or more credits in any one of the general examination subject areas are not eligible to receive credit for the general examination in that area. Subject examinations exist in the general areas of composition, literature, history, social sciences, science, mathematics, and business. In general, a maximum of three semester credits may be granted for each college approved subject examination for scores equivalent to a “C” or better in a comparable college course. The Student Connection has CLEP brochures, which contain a complete list of available examinations. Some general and subject examinations also require the successful completion of an essay examination or laboratory demonstration. For information about scheduling a CLEP test, contact the Testing Center.

**DANTES Subject Standardized Tests**

The DSST provides Colleges with a means to measure students' knowledge in commonly taught college courses and award credit based on their scores. Students can choose from 37 different test titles in the areas of social science, business, mathematics, applied technology, humanities, and physical science. For information about which tests can be used to award academic credit at the College, contact Student Records. For information about scheduling a DANTES test, contact the Testing Center.

**National League for Nursing (NLN) Examination**

LPN’s applying for advanced standing in the Nursing program may demonstrate competency in maternity nursing by writing the NLN-Nursing of the Childbearing Family examination. Upon successful completion of the test, students will receive credit for NUR 131 and NUR 132.

**Articulation with Public Schools**

Articulation agreements currently exist between WCC and 18 public school districts, which allow students to receive college credit for successful completion of specific high school courses and/or programs. As stipulated in all current agreements, students must be recommended by their high school instructor in order to receive credit. Student must apply for articulated credit within two years of high school graduation. Information about high school articulation and applications for articulated credit are available in the WCC Student Records Office.

**Credit by Examination**

Students who appear to have proficiency in a course may, upon recommendation of a full-time instructor and with the approval of the department chair, take a course examination for credit. The student must be accepted to the College as a credit student and complete a Credit-By-Examination application form. The cost of the examination is based on the number of credit hours in the course. A maximum of 30 credits earned by examination may be applied toward a degree. The student is responsible for arranging to complete the examination. Students are allowed to attempt only one credit by examination per course.

**Credit by Portfolio/Document Evaluation**

Students with background experiences or certifications obtained through military service, on-the-job training, nursing or apprenticeships, for example, may have this prior learning evaluated for college credit. Students may pick up a Non-Traditional Credit Evaluation form from the Office of Student Records and contact the appropriate faculty member(s) in the student’s program area. Courses granting CEUs are not normally eligible for college credit.

Students must submit all official documents and information on the length and content of the experience, and any other pertinent documentation to the appropriate faculty member for evaluation. Normally, a maximum of 20 credits may be accepted in this category (with the exception of students with backgrounds in nursing or apprenticeship training).

**Military Training**

College credit for military training is generally awarded as non-traditional credit. Students must submit an in-service training record and DD 214, unless still on active military duty, for an evaluation of service school training. Students must show the exact title of the course, location of the course, and length of the course in weeks. Credit may be granted based on the recommendation found in A Guide to the Evaluation of Educational Experiences in the Armed Services. If a course is not listed, no credit is granted. If a course is relevant to a student’s occupational degree objective, the program advisor and appropriate dean make a decision as to acceptance and application of credit. Other courses may be accepted as elective credit.
Academic Policies/Procedures

Accredited military schools, such as The Community College of the Air Force, are an exception to the above policy. Credits for courses from accredited military schools are awarded following the same policies as for other accredited colleges and Universities. See Transfer Credit from Other Colleges and Universities below.

Transfer Credit from Other Colleges and Universities
Applicants must submit an official transcript from all colleges previously attended if they plan to apply the credit toward their program of study at WCC. Coursework will be evaluated, at the student’s request, after the student has completed one or more credit hours at WCC. Credit will be granted only for courses in which a grade of “C” or better has been earned. Courses, which are evaluated to be equivalent to courses offered at WCC, are posted on the transcript as the specific course. Courses, which are evaluated as college-level but not equivalent to a particular WCC course, are posted as elective credit in the appropriate discipline.

The acceptance of transfer credit is governed by the accreditation of the institution and the listing published in the American Association of Collegiate Registrars and Admissions Officers Transfer Credit Practices of Designated Educational Institutions. Credit is accepted from institutions with a general (AG) or provisional (AP) rating. Credit is not accepted from schools that have an N or NP rating. Credit from institutions that are not listed will be evaluated as non-traditional credit. Correspondence Courses from accredited colleges and universities are accepted.

Entry Assessment Guidelines
WCC is committed to maximizing success for each student. The College provides an open access, student-oriented learning atmosphere in which students have the opportunity to achieve success at the level for which they are ready. While WCC is open to all individuals who can benefit from the College’s educational and service programs, the mandatory entry assessment tests for new students provide information that helps the College match student skill levels with appropriate courses.

To register for 100 and 200 level courses, students must have the minimum college level entrance scores listed below or successfully complete the prescribed courses, unless different placement scores and/or course prerequisites are specifically listed in a course description. Courses below the 100 level have their own specific placement scores and course prerequisites.

College Level Entrance Scores:
Reading: COMPASS Reading score = 82, or ASSET Reading score = 43, or ACS 108 with a "C" or better, concurrent enrollment allowed
Writing: COMPASS Writing score = 72, or ASSET Writing score = 45, or ENG 091 with a "C" or better

Math: COMPASS Prealgebra score = 24, or ASSET Math score = 34, or MTH 039 with an "S" or MTH 054 with a "C" or better

Students who produce documentation of a minimum score of 19 on the ACT Reading, Writing, and Math segments are exempted from taking the Entry Assessment tests. For other exemptions see Required Student Orientation and Entry Assessment in the Admissions Section.

Some programs have an additional screening process. See the Program Admission Requirements for your specific program in the Programs of Study Section for detailed information.

</table>

NOTE: Grades (except S, P, and AU) having 0 grade points may be treated by other educational institutions as an "F".

* Explanation of Grades:
Satisfactory ‘S’ or Unsatisfactory ‘U’: ‘S’ and ‘U’ grades are given for courses numbered 051 and below. Credits for courses with ‘S’ or ‘U’ grades are not figured into credits attempted in determining a student’s GPA and do not count toward graduation.

Incomplete Grade ‘I’ Credit Withheld: If the instructor determines that the student has nearly completed the requirements of a course but is missing a small but essential part of the course due to unforeseen or extenuating cir-
cumstances, the instructor may issue an 'I' grade. The 'I' grade will remain on the student's transcript until the requirements of the course are met and a letter grade given or an instructor-determined deadline has passed with a maximum of one year. The final grade will depend on the quality of the completed work and its significance to the course. After the deadline, the grade that has been preset by the instructor will be posted on the transcript. The 'I' grade could become a letter grade such as B, C, D, or S and credit granted or a U, F, or IX (permanent 'I') in which case a student would need to register in the course again to receive credit. Neither the 'I' or the 'IX' grade will be figured into credits attempted or honor points earned.

Withdrawal ‘W’: A ‘W’ grade is posted to the student’s permanent academic record for any course the student withdraws from after the 100% refund deadline. The ‘W’ grade is not considered a deficiency and is not figured into credits attempted in determining a student’s GPA.

Deferred Grade ‘DF’ Credit Withheld: In certain designated courses, a student may be unable to complete the required work until the following semester. If, in the opinion of the instructor, the student is making normal progress, the ‘DF’ may be assigned. Students must re-enroll in the course and complete the required work the following semester (spring and summer session excluded). The ‘DF’ grade is not considered a deficiency and is not figured into credits attempted in determining a student’s GPA.

Non-Attendance ‘N’: No credit due to lack of attendance. Generally this grade is assigned to a student who has only attended class once or twice.

Audit ‘AU’ No Credit: A student may enroll in a credit course on a non-credit (audit) basis. The number of credits the course normally carries is not included as part of the total credit load, however, tuition is assessed by the number of credits for the course. Change from audit to credit or credit to audit status is not permissible after one quarter of the course has elapsed unless approved by the instructor. Refer to the schedule of courses for specific dates each semester. Credit is not earned in courses taken as an auditor.

Pass ‘P’/No Pass ‘NP’: Pass/No Pass grades are given only in specifically-designated courses numbered above 051. The Pass/No Pass grades must be part of the approved course syllabus and will apply to all students in all sections of the course. Students and faculty cannot elect this grading option for other courses. The ‘P’ grade equates to ‘C’ or better work and will not be included in a student’s GPA. No more than 25 percent of credits applied toward an associate degree or certificate can have a ‘P’ grade.

Grade Appeal Procedure
A student may appeal any grade from any course. The process consists of the following steps:

1. Student discusses concerns with instructor.
2. If step one does not resolve the appeal, the student submits to the department chair a written request for a meeting. This step must be taken within five months of the mailing of the grade to the student.
3. After discussion with the student and/or the instructor, the department chair may suggest to the student either there is no basis for appeal, or the student may wish to appeal to the dean.
4. If the student wishes to pursue the appeal, he/she should submit the appeal in writing to the division dean with a request for a meeting.
5. The division dean invites both the student and the instructor to a meeting and issues a final decision. This step must be completed within six months of the mailing of the grade to the student.

All parties are to be notified of any action taken during the entire process.

Grade Point Average (GPA)
Grade points measure the achievement of students for the number of credit hours attempted. Grade points are determined by multiplying the grade points per credit hour by the credit hour value of the course attempted. The cumulative grade point average is the total number of grade points earned divided by the total number of credit hours attempted. Attempted credit hours include the number of credit hours of ‘F’ even though no grade points are earned for this grade.

Graduation Requirements
Application for Graduation
To be eligible for graduation, you must file an Application for Graduation with the Office of Student Records at least four months prior to the expected date of graduation. This form is available from the Office of Student Records. The date of graduation that will appear on the diploma and transcript is the last month of the semester in which you complete all requirements for graduation. Associate Degrees and Certificates of 15 or more credit hours are awarded at the College’s annual May commencement ceremony. You must file an Application for Graduation even if you do not plan on attending the commencement ceremony. You may not receive a certificate and a degree from the same program area during the same semester.

Graduation Requirements for an Associate Degree
To be eligible for graduation with an associate's degree from Washtenaw Community College you must meet all of the following requirements:

1. Fulfill all prescribed course and credit hour requirements of your specific curriculum (see Programs of Study Section for specific requirements). A minimum of 60 credits is required for a degree. Courses numbered below 100 do not count toward degree completion.
2. Complete a minimum of 15 residence credits (Washtenaw Community College credits) toward completion of each degree pursued. Credit for prior learning, including credit by exam and transfer credit, may not be used as residence credit.

3. Complete the General Education Requirements as specified for the type of degree for which you are applying. See "General Education Requirements" in the Programs of Study for details. This requirement may be waived if you have earned a bachelor’s degree or higher from an accredited U.S. college or university. You may request a waiver of general education requirements in the Office of Student Records.

4. Earn a minimum cumulative grade point average of 2.0 or as specified for your program of study.

5. Meet all financial and library obligations to the College.

6. File an Application for Graduation form.

Graduation Requirements for a Certificate
To be eligible for graduation with a Certificate from Washtenaw Community College you must meet all of the following requirements:

1. Fulfill the prescribed requirements of your specific certificate curriculum including courses, credit hours, and/or hours of attendance. (see Programs of Study Section for specific requirements) Courses numbered below 100 do not count toward graduation for the Certificate. Courses numbered below 200 do not count toward graduation for the Advanced Certificate and the Post-Associate Certificate. Courses numbered 051 and below do not count toward graduation for the Certificate of Completion.

2. Complete a minimum of 75% of the total credits required as "residence credit" for each certificate pursued except for the Certificate of Completion, which requires that all credit hours (if there are any) be completed as residence credit. Credit for prior learning, including credit by exam and transfer credit, may not be used as residence credit.

3. Earn a minimum cumulative grade point average of 2.0 or as specified in your program of study.

4. To earn a second certificate in the same program area, you must complete at least nine additional credit hours, including the specific course requirements in the curriculum.

5. Meet all financial and library obligations to the College.

6. File an Application for Graduation form. If you plan on earning a degree in the same program area as your certificate, you must file for and receive your certificate at least one semester before the degree.

Selecting the Program Year for Meeting Graduation Requirements
In meeting program requirements for graduation, you may select either those requirements that were in effect during the year in which you initially enrolled in your program (if the program is still active) or those in effect when you complete your program. This does not apply to meeting the core curriculum/general education requirements that were in effect before Fall 2000. Students who started associate’s degree programs before Fall 2000 have until Fall 2003 to complete their programs using the general education requirements that were in effect when they started. In Fall 2003 and thereafter, all associate’s degree students will be required to meet the new General Education Requirements that went into effect in Fall 2000.

Discontinued Programs
When a program is discontinued, you are given a specified amount of time to complete the program (usually three years), after which you must change to a different program. If you change programs you should see a program advisor to select appropriate courses and make course substitutions as necessary. If you interrupt your studies for more than two consecutive semesters, the College strongly encourages you to change to the requirements that are in effect the year in which you return. Graduation requirements may be completed during any semester.

Course Substitutions
Courses required for a program of study may be substituted by other courses only with the approval of the program advisor and the appropriate Division Dean. A course substitution form must be filed with the Office of Student Records.

Waiver of Program Requirements
Under extreme circumstances, a required course may be waived with the approval of the program advisor, the Division Dean, and the Executive Vice President for Instruction. A Waiver of Program Requirements form must be filed with the Office of Student Records.

Graduation Ceremony
The College’s Commencement ceremony is held in May. The conferring of degrees and college certificates, and the awarding of honors highlight the commencement exercises. Students receiving associate’s degrees or college certificates of 15 credits or more are expected to participate in the commencement. Students must meet all financial and library obligations to the College before a transcript, diploma, or certificate will be issued.
Honors

Honor Roll and Graduation Honors

The Deans’ Honor Roll acknowledges students who have completed 12 or more credits during a semester with a minimum 3.5 grade point average. Students completing 12 or more credits with a minimum 3.8 grade point average are considered High Honor Roll students. Students attending the college on a part-time basis who, over the previous three semesters (Spring/Summer counts as one semester), have accumulated at least 15 credits and earned a minimum 3.7 grade point average are also on the Deans’ Honor Roll. Students are honored at either a spring or winter honors convocation.

Graduation honors are awarded to students earning a minimum 3.5 cumulative grade point average at the time of graduation; High Honors are awarded to students earning a minimum 3.8 cumulative grade point average at the time of graduation. Honors or High Honors is indicated on students’ transcripts, the commencement program, and press releases.

Honor Society (Phi Theta Kappa)

Phi Theta Kappa, the international honor society for two-year colleges, has been recognizing academic achievement since 1918. This organization has chartered 1,100 chapters; it inducted its one-millionth member in 1993.

To be eligible for membership, students must be enrolled at WCC or another regionally accredited institution offering an associate degree program. They must have completed at least 12 hours of course work leading to an associate degree (part-time students may be eligible) and have a cumulative GPA of 3.5.

Students inducted into the organization will receive a Golden Key membership pin, an embossed certificate, the Golden Key Newsletter, and a Phi Theta Kappa Scholarship Directory. Some $21 million in transfer scholarships is available exclusively for society members as well as many other scholarship opportunities. Society members will wear a gold braid and tassel at commencement ceremonies and receive a gold diploma seal indicating membership. This designation will also be included on students’ academic transcripts.

If you meet the eligibility requirements for Phi Theta Kappa or would like further information, a brochure is available from the Student Activities office, or you may call the faculty advisor for Phi Theta Kappa at (734) 973-3367.

Release of Student Information Policy (FERPA)

It is the purpose of the Board of Trustees’ Policy on Release of Student Information to ensure students’ access to their educational records and to protect their rights to privacy by limiting the transferability of their records without their consent. It is the further purpose of this policy to comply with the Family Educational Rights and Privacy Act (FERPA) of 1974, as amended. A copy of the complete policy may be obtained from Student Records.

Education records are maintained in various offices of Washtenaw Community College, 4800 E. Huron River Drive, Ann Arbor, Michigan. Refer to the Office of Student Records for types and custodians of records.

No one shall have access to, nor will the college disclose, any information from a student’s educational records without the written consent of the student except to WCC personnel performing an assigned college activity and those designated by federal law. Although it is the practice of the college not to release information without the informed consent of the student, at its discretion, the College may provide directory information in accordance with the provisions of FERPA to include: student name, address, telephone number, semesters of attendance, full-time/part-time status, degree(s) awarded, major field(s), and date(s) of graduation.

Students may have directory information withheld by filing, within two weeks of the first day of the academic semester, a petition for exemption with the Student Connection. WCC assumes that failure to specifically request the withholding of categories of directory information indicates individual approval for disclosure.

Requests for the withholding of directory information are only valid for the current academic year.

Students wishing to review their educational records must file a written request with the custodian of the records, listing the item(s) of interest. Records covered by FERPA will be made available for inspection within 30 days of the request.

The law provides students with the right to inspect and review information in their educational records, to challenge the content of their educational records, to have a hearing if the outcome of the challenge is unsatisfactory, and to submit explanatory statements for inclusion in their file if they feel the decision of the hearing panel to be unacceptable.

Students who believe that the adjudication of their challenge was unfair, or not in keeping with the provisions of FERPA, may request in writing assistance from the president of WCC. Further, students who believe their rights have been abridged may file complaints with the Family Policy and Regulations Office, U.S. Department of Education, Washington, D.C. 20202, concerning the alleged failure of WCC to comply with the Act. Revisions and clarifications of college policies are published as experience with the law warrants.
Alcoholic Beverages on Campus
Students, employees, and visitors of WCC are expected to observe all federal, state, and local regulations governing the use and possession of alcoholic beverages while on College property, and at College-sponsored events while any minor is present. All students, employees, and visitors are specifically forbidden to use or possess alcoholic beverages or to be under the influence of the same while on College property.

College Closing for Emergency and Severe Weather
Occasionally extreme weather conditions or other unforeseen events necessitate closing the College either before or after classes have begun for the day. Students can tune into local radio stations for college closing information: WDET-FM (101.9), WEMU-FM (89.1), WHMI-FM (93.5), WJQB-FM (102.9), WJXQ-FM (106.1), WLEN-FM (103.9), WQKL-FM (107.1) WUOM-FM (91.7), WXIK (KIX 94 News), WAAAM-AM (1600), WJRB-AM (750), WSDS-AM (1480), WWJ-AM (950), WCM-AM (900), WNRS-AM (1290) and WTKA-AM (1050). The following TV stations will also broadcast college closing information: WJBF (Channel 2), WDIV (Channel 4), WXYZ (Channel 7) and WKBD (Channel 50). A pre-recorded message will be available at the College switchboard giving details of the College closing and reopening.

Dental Clinic
The College has a complete modern dental clinic, which is open to students, faculty, and staff. Treatment is provided by University of Michigan dental students under the supervision of a licensed dentist. Contact the Dental Clinic for current information regarding services provided, hours of operation, and fees.

Eating and Drinking in Classes
Eating and drinking in classes and instructional labs are strongly discouraged. However, faculty members are provided the freedom to make judgments regarding these matters in their particular classes. In instances where eating and drinking in classes are detrimental to the learning atmosphere or the well-being of instructional equipment/facilities, the College administration reserves the right to deny these privileges in selected rooms. Students may also file complaints if they feel that eating and/or drinking rules in a particular course are inappropriate and are inhibiting their learning. Such complaints should be filed with the area dean or the associate vice president for student services.

Emergency Notification Service for Students
If the Office of Campus Safety and Security receives a telephone call stating that an emergency exists for a student on campus, the Campus Safety and Security staff will consult student records and attempt to locate the student in the assigned classroom. If they cannot be located, an attempt will be made to advise the caller that they could not be located. No other information will be released to the caller.

Emergency Telephones and Escort Services
The Office of Campus Safety and Security ensures the safety and security of the College community. This includes nighttime escort services for students walking to their cars. An escort can be obtained by calling 3411 from any in-house telephone. The Office of Campus Safety and Security is located in the Plant Operations building.

Six emergency telephones are available on campus. Locations are:
- Adjacent to the Business Education Building
- Adjacent to the Technical and Industrial Building (near the plaza)
- Lobby of the Occupational Education Building
- Southeast corridor in the Occupational Education Building
- Third floor of the Liberal Arts and Science Building
- Adjacent to Lot C near the Family Education Building

Exterior emergency telephones are answered 24 hours per day. Interior emergency telephones are answered during normal school hours when the Switchboard is staffed.

For more information on additional services provided by the Office of Safety and Security, visit their website (http://www.wccnet.org/admin/security)/.

Food Services
Schlotzsky’s Deli and Ann Arbor Steak and Fry (734) 973-0588 offer food services on the 1st floor of the Student Center building. The dining area is open all year. Check the posted times. Further convenience is provided by food and drink vending machines located in every building on campus.
The Artists’ Gallery Dining Room (734) 973-3584, operated by the students in the College’s Food and Hospitality program, is located next to Schlotzsky’s Deli. Lunch is served Monday through Thursday from 11:30 a.m. to 12:45 p.m., during the fall and winter semesters only. The dining room is available to students, staff and the general public.

Student Connection
The Student Connection, located on the second floor of the Student Center Building, provides one-stop admission and registration services. Services provided at the Student Connection include: applying for admission, scheduling orientation/COMPASS testing, submitting address changes, registering for courses, requesting and picking-up transcripts, reporting residency changes, applying for graduation, a payment drop box, and getting information on scheduling/room changes. Contact information for instructors and departments is also available. The Student Connection may be reached by calling (734) 973-3543.

Lost and Found
The Lost and Found is located in the Campus Safety and Security Office. Any person finding lost property on campus should call or deliver it to the Campus Safety and Security Office. Persons losing property on college premises should contact the Campus Safety and Security Office with a description and approximate value of the item. A report will be made by the Campus Safety and Security Office if requested.

Medical Emergency Procedures
In the event of a medical emergency, dial (734) 973-3411. Campus Safety personnel are trained in emergency medical procedures and can access other emergency medical services.

Meeting Rooms
Organized student or community groups may secure rooms for meetings by calling the Office of Conference Services at (734) 677-5033.

Parking
Parking is provided on campus for general, handicapped, visitor, vendor and service vehicles. Parking is prohibited in the following areas: bus stops, fire lanes, main travel lanes, sidewalks, handicapped spaces without a permit, restricted parking spaces without a permit, marked cross-walks, building entrances and exits, and outside marked parking spaces. Parking regulations on campus are covered by Campus Safety personal and violations will be issued.

Smoke-Free Campus
In the interest of providing a safe and healthy environment for the College’s students, employees, and visitors, smoking is prohibited in all Washtenaw Community College buildings.

Reporting Theft and Vandalism
Incidents of criminal acts should be reported to the Office of Campus Safety and Security where staff will assist in filling out appropriate reports. The Office of Campus Safety and Security will also assist the Washtenaw County Sheriff’s Department in establishing the facts surrounding an incident and determining preventive measures.
Curriculum
New Curriculum Structure

During the 1999-2000 academic year, WCC’s faculty and staff completed a comprehensive restructuring of the curriculum that resulted in the Board of Trustees’ approval of three associate’s degree titles, four certificate titles, and a new model for meeting general education requirements in degree programs. The changes included the discontinuation of two associate’s degrees, while retaining the three degrees that are most widely recognized and accepted at colleges and universities. The three degree titles clearly reflect the purposes of associate’s degree level programs for both transfer and career-entry. The four certificate titles provide a framework for short-term programs that are focused on preparing students for entry-level jobs as well as job advancement. The new General Education Requirements preserve the same values and content areas as the previous Core Curriculum Elements, while employing a more traditional course distribution approach to meeting the requirements. The new structure of degrees, certificates and general education requirements and the transition guidelines for continuing students are described below.

Degrees and Certificates Awarded

Associate’s Degrees

Washtenaw Community College offers three associate’s degrees that are assigned based on a program’s primary purpose, and the minimum level of prescribed general education requirements. The degree title and specific program title will appear on the diploma. The degrees and their purposes are as follows:

1. Associate in Arts (A.A.)
The Associate in Arts is a transfer degree, used primarily by humanities and social science programs. Additionally, some transfer programs in health, technology and business use the A.A. degree title.

2. Associate in Science (A.S.)
The Associate in Science degree is primarily used by transfer programs that carry large math and science requirements. Some transfer programs in health, technology and business that have large math and science requirements may use this degree title also.

3. Associate in Applied Science (A.A.S.)
The Associate in Applied Science is the standard career-entry degree. It is used for programs that prepare students for careers in health, business and technology. This degree has dual use for some programs that are primarily career-entry but also transfer to specific four-year college and university programs.

Certificates

The College offers four types of certificates that are designed to meet a variety of student needs ranging from preparation for entry-level jobs to advanced job skills for those who are already in the work force. Certificates also can form the foundation for an associate’s degree. The certificate titles and their purposes are as follows:

1. Certificate of Completion
The Certificate of Completion is used for short-term programs covering a discrete body of skills and/or knowledge that is intended to prepare students for a specific entry-level occupation or basic literacy attainment. The Certificate of Completion can be credit or noncredit, but is limited to a maximum of eight credit hours.

2. Certificate
The Certificate is for standard credit programs that normally take two semesters to complete. Primarily used to prepare students for entry-level occupations, this type of certificate may be used as a discrete program or combined with other certificate programs to form the basis for an advanced certificate or associate’s degree.

3. Advanced Certificate
The Advanced Certificate is for students who are pursuing advanced study in an occupational area. These may be short term or longer programs that require completion of a certificate or equivalent industry experience for admission. Some advanced certificates prepare students for industry certification exams. The Advanced Certificate also may be added to a standard Certificate to form the basis for an associate’s degree.

4. Post-Associate Certificate
The Post-Associate Certificate is for students who are pursuing advanced study and/or formal certification in an occupational area. These may be from nine to thirty-six credit hours in length and require an associate’s degree or equivalent industry experience for admission to the program.
Transition to the New Degrees and Certificates

As a result of the curriculum restructuring, many programs were assigned to new degree or certificate titles and some programs were discontinued. Washtenaw Community College’s policy is to phase out discontinued programs over a period of three years. The programs that were discontinued in Fall 2000 will continue to graduate students through Spring/Summer 2003. Students have a choice of completing their programs during this three-year period or transferring into a new program. For example, students currently seeking an Associate in General Studies with a concentration in Humanities and Social Science must graduate before Fall 2003 or change to the Associate in Arts degree in General Studies Liberal Arts. If you are currently following a discontinued program, and don’t expect to graduate within the three-year phasing out period, you should see an academic advisor or counselor for assistance in making a smooth transition to a new program of study.

General Education Requirements

Philosophy Statement

General Education is highly valued at Washtenaw Community College because it develops and nurtures certain habits of mind that reach beyond a student’s area of academic emphasis and enables the student to meet critically, objectively, and successfully the challenges of education, work, and life. By requiring a strong core of common learning, the College demonstrates its commitment to providing a broad-based education to all degree recipients, which includes useful skills, knowledge, and experiences to support a variety of lifelong endeavors. To this end, it shall be the policy of the College to maintain a substantial program of general education to be included in all degree programs.

The College defines general education as a prescribed curriculum that assures a broad acquaintance with the basic areas of academic study. The general education requirements are designed to provide degree students certain skills and knowledge that include an understanding of and appreciation for the important modes of human thought, communication, and inquiry.

General Education Areas

All students who enroll in an associate’s degree program are required to meet general education requirements in the following eight areas. The first six areas are met by successfully completing courses from restricted distribution lists. Area seven, critical thinking, is incorporated into the courses in the first six areas and does not require any additional coursework. Area eight, computer and information literacy, is met through competency testing.

1. Writing - Develop, organize, and express thoughts in writing using Standard English
2. Speech - Speak in an organized and effective manner and listen critically and with comprehension
3. Mathematics - Understand the applications and perform computations using the concepts of college-level mathematics
4. Natural Science - Understand principles and applications of modern science
5. Social and Behavioral Science - Understand principles and applications of social and behavioral sciences in exploring the dynamics of human behavior
6. Arts and Humanities - Understand and apply information related to the nature and variety of the human experience through personal and cultural enrichment
7. Critical Thinking - Demonstrate skill in analyzing, synthesizing and evaluating
8. Computer and Information Literacy - Demonstrate the skill to use computer information systems including using software and the ability to locate, retrieve, and evaluate networked information

Note: Students who have earned a bachelor's degree or higher from an accredited U.S. college or university may request a waiver of the general education requirements in the Office of Students Records.

Course Distribution Requirements

Effective as of Fall 2000 all degree programs require the successful completion of courses from restricted lists in the six areas below. A minimum of one course must be chosen from the basic general education level (Group I) in areas four, five and six. The specific number of courses and credit hours in each General Education Area required for the Associate in Arts (AA), Associate in Science (AS), and Associate in Applied Science (AAS) are as follows:

<table>

Computer and Information Literacy Requirement

Beginning in Fall 2001, students who enroll in associate’s degree programs are required to demonstrate basic computer skills and knowledge. Students must successfully pass a competency test to fulfill this requirement. Competency testing may occur as part of a WCC course or may be taken independent of any coursework. Courses taken at other institutions, work experience, or transfer credit will not satisfy the computer and information literacy requirement.

Students may take the Computer and Information Literacy Competency Test at any point during their degree program. However, before graduating, they will have to pass the College’s assessment of these skills. Students who do not pass the competency test can choose to take a special course or study independently, using the appropriate textbooks and reference materials, and then retest.

Students who are seeking an associate’s degree should take the test at their earliest opportunity, preferably upon admittance to the College. Both the Entry Assessment Center and the Testing Center will serve as testing locations. The schedule for testing can be found in the Academic Class Schedule.

Transition for Current Students to the New General Education Requirements

If you enrolled in a degree program prior to Fall 2000, and that program is still active, you have three years to complete your program using the Core Curriculum/general education requirements that were in effect when you enrolled. If you have not completed your program of study before Fall 2003, you will be required to meet the new general education requirements to earn an associate’s degree, regardless of when you started. If you change to a different program before Fall 2003, you will have to meet all of the requirements of the new program, including the new General Education Requirements. Academic advisors and counselors will assist you in selecting appropriate courses and making a smooth transition. For those who are continuing to use the 24 Core Curriculum Elements, check the course descriptions in the back of the catalog for the core elements that are approved for specific courses. Courses that meet Core Elements 13 and 14 are listed in Appendix B.

Approved Courses for General Education Areas

Following is the list of all approved courses for General Education Areas One through Six. Some of the courses are not accepted for every degree. Check the footnotes for course requirements specific to each degree. If your specific program has General Education Electives, you may choose those elective courses from the Area lists below. However, some programs require specific General Education courses. Check your program of study to determine if specific courses are required, before selecting from the courses below. To see descriptions of any of these courses, look in the Course Descriptions that begin on page 138.

Area 1. Writing

<table>
<thead>
<tr>

University Parallel Programs

The programs in this section of the catalog are designed to parallel the first two years of study at a university or four-year college. Some of these programs are quite general with many electives from which to choose, in order to provide the flexibility to transfer to a number of different bachelor's degree programs. Other programs in this section have very defined requirements that are intended to transfer to a specific bachelor's degree program. All of the programs in this section carry either the Associate in Arts Degree or the Associate in Science Degree. Before selecting courses for any transfer program, you should consult with a counselor or academic advisor to obtain an appropriate transfer guide or program articulation agreement. You also should contact the school to which you will transfer for specific admission and curricular requirements. Transfer guides for most Michigan colleges and universities are available in the Counseling Office and the Transfer and Placement Center on the second floor of the Student Center Building. Also available in the Transfer Center are computers with access to the Internet web sites of four-year colleges and universities, where you can obtain transfer and admission information.

MACRAO Agreement

Many of the programs in this section meet the MACRAO Agreement for transferring general education courses between participating, Michigan colleges and universities. If a program meets MACRAO requirements, it will be noted under “Articulation” in the program description. To use MACRAO, you must request that the Student Records Office endorses your transcript for MACRAO completion before sending it to the college to which you are transferring. Not all four-year colleges and universities participate in MACRAO and some that do participate have limitations or exceptions to the agreement. A detailed explanation of the MACRAO Agreement and a list of participating colleges can be found in Appendix A.

Articulation Agreements

Some transfer programs are based on articulation agreements with other colleges. If a program has an articulation agreement, it will be noted under “Articulation” in the program description. Copies of articulation agreements, which provide additional information including admission requirements and the sequence for taking courses, are available in the Counseling Office or the Transfer and Placement Center.

Transfer Guides

Transfer guides are helpful in listing WCC courses that transfer to specific baccalaureate degree programs at colleges and universities in Michigan and regionally. The Placement and Transfer Center and the Counseling Office have copies of transfer guides for all the major four-year institutions in Michigan.
**Associate in Arts Degree Programs**

Associate in Arts degree programs are primarily for students who want to transfer into baccalaureate degree programs in the liberal arts, humanities, or social science at four-year colleges or universities.

**Business Transfer (AABAS)**

**Associate in Arts Degree**

This program prepares you for transfer to a Bachelor's of Business Administration degree program at a four-year college or university, where you will further improve your communication and interpersonal skills while developing a specialty in accounting, economics, finance, management, or some other aspect of business. The program was specifically designed to transfer to Eastern Michigan University. Check with an advisor for information on transferring to other colleges. See the footnotes for transferring to the University of Michigan.

**Business and Computer Technologies Division**

**Business Department**

Advisor: Ron Zeeb

**Articulation:**

- Articulates with Eastern Michigan University's, College of Business, Bachelor's of Business Administration Degree
- Meets MACRAO plus four requirements at EMU
- A minimum cumulative GPA of 2.5 is required for admission to EMU's College of Business. All courses must be completed with a minimum grade of "C" (2.0) to transfer. Contact the College of Business Undergraduate Advising Office at EMU early to have transfer credits reviewed and unofficially evaluated. (734-487-2344 or email

**Program Admission Requirements:**

- Two years of high school algebra or MTH 169 with a grade of "C" or better or a minimum COMPASS Algebra score of 66

**Additional Requirements:**

- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

**General Education Requirements**

- **COM 101** Fundamentals of Speaking..............................3
- **PLS 112** Introduction to American Government................3
- **PSY 100** Introductory Psychology ................................3
- Choose: **MTH 181** Mathematical Analysis I or
  **MTH 197** Linear Algebra ........................................4
- Elective Area 1: Writing..................................................6-7
- Elective Area 4: Natural Science........................................4-5
- Elective Area 6: Arts and Humanities. (At least one course must be from Group I.) ........................................6

**Major/Area Requirements**

- **ACC 111** Principles of Accounting I ..............................3
- **ACC 122** Principles of Accounting II ...........................3
- **BMG 140** Introduction to Business ................................3
- **BMG 207** Business Communication ................................3
- **BMG 265** Business Statistics .......................................3
- **ECO 211** Principles of Economics I ..............................3
- **ECO 222** Principles of Economics II ............................3
- Choose: **BMG 106** Legal Basics in Business or
  **BMG 111** Business Law I ........................................3

**Required Support Courses**

- **CIS 110** Introduction to Computer Information Systems .................................3
- Elective Complete one or two courses as free electives to bring the program total to a minimum of 60 credits......................................................... 4-6

**Minimum Credits Required for the Program:** 60

Footnotes:

- * Students transferring to a 4-yr institution should choose a lab-based course.
- † Students transferring to EMU should choose a multi-cultural course (ENG 181 or ENG 214) to meet the MACRAO plus four requirements.
- ‡ A course in logic or ethics (PHL 205 or PHL 250) is strongly recommended for EMU transfer students.
- †† Students transferring to EMU should choose COM 102, ENG 225, or a second semester of a foreign language to meet MACRAO plus four requirements.

Note: University of Michigan School of Business does not accept Business or Accounting courses from community colleges. If you wish to transfer to a business major at UM, please see a counselor.

**Computer Information Systems Transfer (AACIST)**

**Associate in Arts Degree**

This program prepares you to transfer to a bachelor's degree program in computer information systems at a four-year college or university, where you will continue developing the skills needed for a career in areas such as systems analyst, programmer, software engineer, database specialist, and information systems management administrator. The program was specifically designed to transfer to Eastern Michigan University.

**Business and Computer Technologies Division**

**Computer Instruction Department**

Advisors: Michael Galea, Phil Geyer, Clarence Hasselbach, Usha Jindal, Khaled Mansour, Roland Meade, Janet Remen, John Rinn

**Articulation:**

- Eastern Michigan University, College of Business, Bachelor of Business Administration in Computer Information Systems
- Meets MACRAO plus EMU's additional four requirements
- A minimum cumulative GPA of 2.5 is required for admission to EMU's College of Business. All courses must be completed with a minimum grade of 2.0 to transfer
Associate in Arts Degree Programs

- Contact the College of Business Undergraduate Advising Office at EMU early to have transfer credits reviewed and unofficially evaluated. (734-487-2344 or email amelia.chan@emich.edu)

Program Admission Requirements:
The following high school courses or equivalent college courses should be completed with a grade of “C” or better:
- Two years of high school algebra (Algebra I and Algebra II) or MTH 169 or minimum COMPASS Algebra score of 66

Additional Requirements:
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

1 Students transferring to EMU should choose a multi-cultural course to meet the MACRAO plus four requirements
2 Credit is awarded for EMUs IS 315 Applied Data Structures, if student successfully passes CPS 272 and passes a validation examination at EMU

Humanities and Social Science (AAHSSAA)

Associate in Arts Degree

This program prepares you to transfer to a four-year college or university to pursue a bachelor’s degree with a major in a liberal arts, humanities, or social science discipline. It also gives you skills in communications and analytical, computational, and critical thinking; all of which provide flexibility in a changing job market. Liberal arts graduates become economists, foreign service officers, journalists, librarians, lawyers, and psychologists among other possible professions.

Humanities and Social Science Division
All Departments

Articulation:
Meets the MACRAO transfer agreement plus EMU’s four additional requirements.

Program Admission Requirements:
The following high school courses or equivalents should be completed with a grade of “C” or better:
- One year of high school algebra or MTH 097 or minimum COMPASS Algebra score of 44
- ENG 091 or minimum COMPASS Writing score of 72

Additional Requirements:
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

General Education Requirements (29-30 Credits)

<tr>
<td>Elective 2: Complete 12 additional credits from General Education Areas 5 and 6, Groups I and/or II</td>
<td>3-4</td>
</tr>
<tr>
<td>Elective 3: Complete one course from the following: COM 102, ENG 225, or a second course in a Foreign Language (FRN, GRM, SPN)</td>
<td>3-4</td>
</tr>
</tbody>
</table>

Concentration Requirements (15-17 credits)
Complete the requirements for one of the following concentrations. The same course may not be used to meet both a concentration requirement and other program requirements above. Please consult an advisor to select appropriate electives.

Minimum Credits Required for the Program: 62
Eastern Michigan University Notes:
1 See a counselor to select an appropriate math course that meets the requirement for the EMU program to which you are transferring.
2 Choose one course from Area 5 or 6 that meets the cross-cultural requirement at EMU.
3 Meets MACRAO plus 4 requirement at EMU.

University of Michigan Notes:
4 To complete requirements for the Mathematics & Symbolic Analysis distribution area, choose MTH 182 or higher. MTH 169 does not transfer to

 Except for the Bachelor of General Studies, UM College of LS&A requires a minimum of 16 credits of one foreign language or fourth semester

Humanities and Social Science Concentrations

Behavioral Science (15 Credits)

Behavioral Sciences Department

Advisor: Maria Ortega

SOC 100 Principles of Sociology ........................................3
Elective Complete an additional four courses from:
PSY 107, PSY 200, PSY 206, PSY 208, PSY 257,
PSY 260, SOC 202, SOC 205, SOC 207, SOC 290,

</table>

Elective Complete one course from: HST 121, HST 122, or HST 123

### Writing and Literature (15 Credits)

**Humanities Department**

**Advisor:** Ruth Hatcher

Complete five courses from:

- ENG 160, ENG 170, ENG 181, ENG 200, ENG 211, ENG 212, ENG 213, ENG 222, ENG 223, ENG 224, ENG 270, ENG 271 (or choose from other ENG courses listed in the catalog).

### Human Services Transfer (AAHUST)

**Associate in Arts Degree**

This program prepares you for jobs as a substance abuse, hospice, case, psychiatric, or social services aide in settings such as schools, rehabilitation centers, and mental health clinics or as a staff member in a community/neighborhood center. The program provides skills you will need to work on a one-to-one basis or in groups to help people cope with problems. The program also prepares you to transfer to a bachelor’s degree program where you will continue developing skills for a career in the field of social work. The program was specifically designed to transfer to Eastern Michigan University.

### Humanities and Social Science Division

**Behavioral Sciences Department**

**Advisor:** Chris Siehl, Mimi Norwood

**Articulation:**
- Eastern Michigan University, College of Health and Human Services, Bachelor of Arts or Bachelor of Science in Social Work. (You should meet with an EMU Social Work Program advisor before completing an admission application to EMU.)
- Meets MACRAO plus EMU’s additional four requirements.

**Program Admission Requirements:**
- One year of high school algebra or MTH 097 with a grade of “C” or better, or minimum COMPASS Algebra score of 44.

**Additional Requirements:**
- To enroll in the Human Services field internships, students must have completed HSW 100 and HSW 200 and have a GPA of 2.0 or better in all Human Services Worker (HSW) courses.
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Associate in Arts Degree Programs

International Studies (AAINS)

Associate in Arts Degree

This program prepares you to transfer to a bachelor's degree program in International Studies at a four-year college or university where you will continue to prepare for a career in international relations or another field with an international dimension. The program gives you a foundation in foreign language and cultural studies while meeting general education requirements for most four-year colleges.

Humanities and Social Science Division

Humanities Department

Foreign Language Department

Social Science Department

Advisors: Randy LaHote, Elizabeth Thoburn, Rosalyn Biederman, Juan Redondo

Articulation:

Meets the MACRAO transfer agreement plus EMU's four additional requirements.

Program Admission Requirements:

To attain the following required COMPASS placement scores, the high school courses or equivalents should be completed with a grade of “C” or better:

- Minimum COMPASS Algebra score of 44 (One year of high school algebra or MTH 097)
- Minimum COMPASS Writing score of 72 (Four years of high school English or ENG 091)

Additional Requirements:

- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

General Education Requirements (29-30 Credits)

<table>
<thead>
<tr>

Required Support Courses (3-4 Credits)

Choose: CIS 110 Intro to Computer Information Systems or CPS 171 Introduction to Programming with C++ 3-4

Minimum Credits Required for the Program: 64

Footnotes:

* Choose ECO 211 as a pre-requisite for ECO 280 or choose SOC 100 as a pre-requisite for ANT 201

Eastern Michigan University Notes:

1. See a counselor to select an appropriate math course that meets the requirement for the EMU program to which you are transferring

University of Michigan Notes:

2. Choose one course that meets the multi-cultural requirement at EMU (ART 143, ENG 181, ENG 214)

3. Meets MACRAO plus 4 requirement at EMU

To complete requirements for the Mathematics & Symbolic Analysis distribution area, choose MTH 132 or higher. MTH 169
Liberal Arts Honors Transfer to UM-LSA (AALAHT)  

Associate in Arts Degree  

This joint articulated program between WCC and University of Michigan (UM) prepares you, through an academically challenging curriculum, to transfer to UM’s College of Literature, Science and the Arts (LSA). The program is open to students who meet both WCC and UM-LSA admissions requirements and includes tracks that prepare you for humanities, social science, pre-law, economics, math, natural science, or pre-medicine majors at UM. Successful completion of the WCC program guarantees junior-standing admission to the UM-LSA where you may complete a bachelor of arts, a bachelor of science, or a bachelor of general studies degree. Completion of a bachelor’s degree program prepares you for careers in fields ranging from law, medicine, or business, to education or fine arts, or to pursue graduate level education.

Humanities and Social Science Division  

Social Science Department  

Advisor: Randy LaHote  

Articulation:  

- University of Michigan-Ann Arbor, College of Literature, Science and the Arts  

Program Admission Requirements:  

Students applying to this program must meet the admissions requirements of both WCC and UM-LSA.

- A minimum high school grade point average of 3.0  
- SAT score of 1100 or higher or ACT score of 24 or higher  
- Minimum high school work must include:  
  - Four years of English  
  - Three years of Math  
  - Two years of biology/physical science  
  - Three years of history/social studies  
  - Two years of one foreign language  

Additional Requirements:  

- To receive admission to the UM-LSA through this program agreement, students must complete their WCC coursework within three years with a minimum cumulative GPA of 3.25 in program courses.  
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Minimum Credits Required for the Program: 66

Footnotes:  

1 Choose MTH 160 and ENG 170 if you plan to go into Humanities, Social Science, or Pre-law. Choose MTH 191 and MTH 192 if you plan to go into Economics, Math, Science, or Pre-medicine.

**Associate in Science Degree Programs**

The Associate in Science degree programs are primarily for students who want to transfer to four-year colleges or universities, into baccalaureate degree programs with large math or science requirements.

### Electrical & Computer Engineering (ASECE)

**Associate in Science Degree**

This program prepares you for transfer to an Electrical and Computer Engineering Bachelor of Science program at a university where you will continue to develop skills in computers and digital systems or electrical engineering. This program gives you a foundation in electronics and computer technology including circuits and devices, communication theory, computers, software, electronic hardware, and control systems.

**Advisors:** William Cleary, Dale Petty

**Articulation:**
- University of Michigan Dearborn, College of Engineering and Computer Science, Bachelor of Science in Engineering (BSE) in Electrical Engineering
- Check with an advisor for information on transferring to other colleges.

**Program Admission Requirements:**

The following high school courses or equivalents must be completed with a grade of “C” or better:

- Two years of high school algebra and one year of high school pre-calculus or (MTH 176 and MTH 178) or MTH 180 or minimum COMPASS Trigonometry score of 46
- One semester of high school chemistry or CEM 057
- One semester of high school physics or PHY 105 or PHY 111
- One high school course in word processing and spreadsheets or CIS 100

**Additional Requirements:**

- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

**General Education Requirements**

<table>

</tbody>
</table>

**Minimum Credits Required for the Program:** 62

**Footnotes:**
- *Transfer students should choose a course that meets the UM-Dearborn Humanities requirement*

### Math and Science (ASMSAS)

**Associate in Science Degree**

This program prepares you to transfer to a four-year college or university to complete a bachelor of science degree, which can lead to jobs as a teacher, scientist, chemist, biologist, doctor, laboratory researcher, computer programmer, computer systems analyst, nurse, or pharmacist, among other professions. It also gives you the opportunity to choose (within the program) a concentration in biology, chemistry, computer science, math, physics, or pre-medicine.

**Math, Natural and Behavioral Sciences Division**

**Interdepartmental HSS Department**

**Articulation:**

- This program will fulfill MACRAO requirements if, in addition to the courses completed to meet General Education, you complete one additional course in Arts & Humanities and two additional courses in Social & Behavioral Science. The concentrations in Computer Science and Mathematics include elective credit hours that can be used for this purpose.
- Please consult with a counselor or academic advisor to select courses that will transfer to the college and major that you have chosen. Transfer guides are available for most Michigan colleges and universities in the Transfer and Placement Center.

**Program Admission Requirements:**

The following high school courses or WCC equivalents should be completed with a grade of “C” or better:

- Two years of high school algebra and (one year of high school analysis and trigonometry or (MTH 176 and MTH 178) or MTH 180 or minimum COMPASS Trigonometry score of 46)
- One course in high school computer literacy or CIS 100
- The biology, chemistry, and physics concentrations require one year of high school chemistry or (CEM 057 and CEM 058)
- The chemistry, physics, and computer science concentrations require one year of high school physics or PHY 105 or PHY 111
Additional Requirements:
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

General Education Requirements (29-31 Credits)
MTH 191 Calculus I ............................................................5
MTH 192 Calculus II ............................................................4
Choose:* BIO 101* Concepts Of Biology and BIO 103 General Biology II or PHY 211 Analytical Physics I and PHY 222 Analytical Physics II ......................................................8-9
Elective Area 1: Writing ....................................................3-4
Elective Area 2: Speech .....................................................3
Elective Area 5: Social Science .............................................3
Elective Area 6: Arts and Humanities ..................................3
* The Biology concentration requires the biology sequence; the Mathematics concentration may use either sequence; all other concentrations require the physics sequence.

Required Support Courses (7 Credits)
CPS 171 Introduction to Programming with C++ ..................4
Choose:* ENG 122 Composition II or ENG 107 Technical Communication .........................3
* The Chemistry/Pre-med and Physics concentrations require ENG 107; all other concentrations require ENG 122.

Concentration Requirements (25-28 Credits)
Complete the requirements for one of the following concentrations. The same course may not be used to meet both a concentration requirement and other program requirements above. Please consult an advisor to select appropriate electives.

Minimum Credits Required for the Program: 61

Math and Science Concentrations

Biology/Pre-Medicine (28 Credits)

Life Sciences Department
Advisors: David Shier, Esta Grossman
CEM 111 General Chemistry I .............................................4
CEM 122 General Chemistry II ..........................................4
CEM 211 Organic Chemistry I ...........................................4
CEM 222 Organic Chemistry II .........................................4
Choose: BIO 227 Zoology or BIO 228 Botany .......................4
Elective Complete 8 to 9 credits from the following: BIO 102, BIO 111, BIO 208, BIO 215, BIO 216, BIO 227, BIO 228, BIO 237 .................................................8-9
Recommended General Education Courses: Area 5 PSY 100 or PLS 112

Chemistry/Pre-Medicine (28 Credits)

Physical Sciences Department
Advisors: Kathy Butcher, Judith Fish
CEM 111 General Chemistry I .............................................4
CEM 122 General Chemistry II ..........................................4
CEM 211 Organic Chemistry I ...........................................4
CEM 222 Organic Chemistry II .........................................4
MTH 197 Linear Algebra ..................................................4
MTH 293 Calculus III ......................................................4
Elective Complete one additional chemistry course. ............4

Computer Science (25 Credits)

Computer Instruction Department
Advisors: Janet Remen, Roland Meade
CIS 238 PC Assembly Language .......................................3
CPS 271 Object Features of C++ .......................................4
CPS 272 Data Structures with C++ .................................4
MTH 197 Linear Algebra ..................................................4
MTH 293 Calculus III ......................................................4
Elective* Complete two additional courses in Area 5: Social and Behavioral Science and/or Area 6: Arts and Humanities. (PLS 112 and PSY 100 are recommended) .................................6
* These additional courses are not restricted to the General Education courses for the AS degree. You may also choose from Areas 5 and 6 (Groups I & II) for the AA degree. If you choose to take a foreign language, you should take a full year.

Mathematics (25 Credits)

Mathematics Department
Advisor: James Egan
MTH 160 Basic Statistics ...............................................4
MTH 197 Linear Algebra ..................................................4
MTH 293 Calculus III ......................................................4
MTH 295 Differential Equations .......................................4
Elective* Complete three additional courses from Area 5: Social and Behavioral Science and/or Area 6: Arts and Humanities. (PLS 112 and PSY 100 are recommended) .................................9
* These additional courses are not restricted to the General Education courses for the AS degree. You may also choose from Areas 5 and 6 (Groups I & II) for the AA degree. If you choose to take a foreign language, you should take a full year.

Physics (28 Credits)

Physical Sciences Department
Advisors: Kathy Butcher, Judith Fish
CEM 111 General Chemistry I .............................................4
CEM 122 General Chemistry II ..........................................4
CEM 211 Organic Chemistry I ...........................................4
CEM 222 Organic Chemistry II .........................................4

MTH 293 Calculus III ......................................................4
MTH 295 Differential Equations .......................................4
Pre-Engineering Science Transfer (ASPET)

Associate in Science Degree

This program prepares you to transfer into an engineering program (with junior status) at a four-year college where you will continue preparing for a career in one of the fields of engineering. Because requirements vary slightly from one engineering field to another, two pre-engineering options have been developed. A program advisor will help you determine which option best meets your individual needs. Before selecting general education courses, see a counselor or advisor for a transfer guide from the four-year college to which you are applying.

Physical Sciences Department

Advisor: George Kapp

Articulation:
The General Engineering Option will meet MACRAO if you complete ENG 122 as an elective and complete an additional course in Social and Behavioral Science.

Program Admission Requirements:
The following high school courses or equivalents should be completed with a grade of “C” or better:

- Two years of high school algebra and one year of high school pre-calculus and trigonometry or (MTH 178 & 176) or MTH 180, or a minimum score of 46 on the COMPASS Trigonometry test
- One semester of high school chemistry or CEM 057
- One semester of high school physics or PHY 105 or PHY 111

Additional Requirements:

- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

<td>5</td>
</tr>
</tbody>
</table>

Option Requirements (9-11 Credits)

Complete the required courses in either the General Option or the Chemical and Materials Engineering Option below. Check course prerequisites to determine the sequence for taking courses.

Minimum Credits Required for the Program: 64

Footnotes:

1. It is recommended that you take MTH 295 (Differential Equations) before PHY 222 (Analytical Physics II). Therefore, you may want to take MTH 293 (Calculus III), the prerequisite for differential equations, during the Spring-Summer semester following the second semester. Differential equations would then be taken in the following fall semester.

Pre-Engineering Science Options

Chemical and Materials Engineering Option (11 Credits)

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

General Engineering Option (9 Credits)

Choose: ENG 107 Technical Communication or ENG 122 Composition II or MET 100 Presentation and Computer Aided Drafting

Elective Complete one additional course from Area 5: Social and Behavioral Science

Elective Complete one additional course from Area 6: Arts & Humanities

2. MET 100 (Technical Drawing) is required for Civil, Mechanical, and Naval Engineering at the University of Michigan. Some engineering schools may require ENG 122 Composition II.
Career Degree and Certificate Programs

The programs in this section of the catalog are primarily career programs. They are designed for students who want to begin working directly after graduation or who want to learn skills in a new career field or gain advanced skills for their current jobs. All four types of certificates offered at WCC, as well as the Associate in Applied Science Degree, are found in this section. Although transfer is not the focus of these programs, some of the AAS degree programs have agreements with specific four-year colleges or universities that allow students to transfer some or all of their credits into a bachelor’s degree program. If a program has a formal articulation agreement it will be noted under “Articulation” in the program description.
Automotive and Welding

Auto Body Programs

Automotive Body Repair and Refinishing (CTABR)

Certificate

This program prepares you for entry-level jobs where you will repair and refinish damaged automobiles under the supervision of an auto body technician. You also get training in welding skills and using manuals for estimating job costs as well as a foundation of coursework that prepares you for the advanced certificate in Collision Repair (CVCOLR).

Health and Applied Technologies Division
Automotive Services Department

Advisor: Lester Jordan

Major/Area Requirements (20 Credits)

Collision Repair (APCOLM)
Associate in Applied Science Degree

Some employers require or prefer employees to have an associate degree as a condition for employment or for advancement. You can earn an AAS in Collision Repair by completing the requirements listed below.

Health and Applied Technologies Division
Automotive Services Department
Advisor: Lester Jordan

Additional Requirements:
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Requirements
1. Complete the Automotive Body Repair Certificate (CTABR) ................................................. 20
2. Complete the Collision Repair Advanced Certificate ... 20
3. Complete the General Education Requirements for the AAS Degree ...................................... 18-21
4. Complete 2 additional credits as free electives ................................................................. 2

Minimum Credits Required for the Program: 60

Auto Mechanics Programs

Automotive Technology (CTATC) Certificate

This program prepares you for entry-level jobs as an auto mechanic, where you will work under the supervision of an experienced automotive technician. You will develop entry-level diagnosis and repair abilities in the areas of brakes, suspensions, engines, electrical systems, performance, and drive trains. You also get skills that prepare you for jobs in one of the many related fields such as service advisor or testing lab technician.

Health and Applied Technologies Division
Automotive Services Department
Advisors: Thomas Hemsteger, John Mann, Bill Schuster

Minimum Credits Required for the Program: 16

Automotive Mechanics (CVAMA) Advanced Certificate

This program prepares you for jobs as a certified automotive mechanic where you will diagnose and repair malfunctions in today’s automobile engines, transmissions, power trains, suspension systems, brake systems, electrical systems, air conditioning systems, engine management systems, and computer systems. The courses also prepare you for the State of Michigan and National mechanic certification exams as well as provide a foundation for completing an associate’s degree in automotive mechanics. The program is also for those who already have experience in the auto mechanics field, who wish to advance their skills.

Health and Applied Technologies Division
Automotive Services Department
Advisors: Russ Ferguson, Thomas Hemsteger, John Mann, Bill Schuster

Automotive Mechanics (APAUTM) Associate in Applied Science Degree

Some employers require or prefer employees to have an associate degree as a condition for employment or for advancement. You can earn an AAS in Automotive Mechanics by completing the requirements listed below.

Health and Applied Technologies Division
Automotive Services Department
Advisors: Russ Ferguson, Tom Hemsteger, John Mann, Bill Schuster

Additional Requirements:
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.
Welding Programs

Welding (CTWLDC)
Certificate

This program prepares you for entry-level jobs involving gas welding, brazing, and various combinations of arc welding processes, where you will work under the supervision of an experienced welding technician. The program also gives you a foundation for WCC’s Advanced Certificate in Welding Mechanics.

Health and Applied Technologies Division
Welding and Fabrication Department

Welding (APWLDM)
Associate in Applied Science Degree

Some employers require or prefer employees to have an associate degree as a condition for employment or for advancement. You can earn an AAS in Welding by completing the requirements listed below.

Health and Applied Technologies Division
Welding and Fabrication Department

Advisors: William Figg, Clyde Hall

Additional Requirements:

- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Requirements

1. Complete the Welding Technology Certificate (WLDC) 21
2. Complete the Welding Technology Advanced Certificate (WLDA) 20
3. Complete additional credits as free electives to bring the program total to 60 credits 1
4. * Complete the General Education Requirements for the AAS Degree 18-21

Minimum Credits Required for the Program: 60

Footnotes:
*Recommended General Education Courses: Area 3: MTH 107
Business Management Programs

Accounting (CTACC) Certificate

This program prepares you for entry-level positions with accounting and tax services, CPA firms, and small businesses where you will provide accounting skills, computer skills, and office support. It also gives you credit that can be applied toward the Associate’s Degree in Accounting.

Business and Computer Technologies Division
Accounting Department

Advisors: Cliff Bellers, Mark Johnston

Program Admission Requirements:

• One year of high school algebra or MTH 097 or MTH 163 or minimum COMPASS Algebra score of 46

Accounting (APACCT) Associate in Applied Science Degree

This program prepares you for jobs with duties assigned to a beginning accountant, such as verifying additions; checking audits, postings, and vouchers; analyzing accounts; and preparing financial statements. Some of the courses transfer to four-year colleges, including programs at Eastern Michigan University, Madonna University, and Walsh College. If your primary goal is to transfer into a bachelor’s degree in business administration program in accounting, you should consider the Business Transfer program (AABAS).

Business and Computer Technologies Division
Accounting Department

Advisors: Cliff Bellers, Mark Johnston

Articulation:

This program has articulation agreements with the following four-year colleges:

- Cleary College
- Eastern Michigan University
- Madonna College
- Walsh College

Program Admission Requirements:

• Two years of high school algebra or MTH 169 with a grade of “C” or better or minimum COMPASS Algebra score of 66

Additional Requirements:

• Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Minimum Credits Required for the Program: 64

Footnotes:

1 ENG 181 or ENG 214 will meet the cross-cultural requirement at EMU.

Note: University of Michigan (UM)- Ann Arbor Business School does not accept Business or Accounting courses from community colleges. If you wish to transfer into an accounting major at UM, please see a counselor.
Business Sales & Marketing (CTBSLM) Certificate

This program prepares you for immediate employment in sales jobs that require skills in sales presentation, negotiation, customer service, display preparation, inventory analysis, and basic market research. The courses in this program may be applied toward an Associate in Applied Science degree in Management Supervision.

Business and Computer Technologies Division
Business Department

Advisor: Steve Ennes

Program Admission Requirements:
Competency in keyboarding is necessary for success in this program. If you need to improve your keyboarding skills you should take BOS 101A before beginning the program.

Major/Area Requirements (12 Credits)
BMG 140 Introduction to Business .........................3
BMG 160 Principles of Sales ................................3
BMG 207 Business Communication .......................3
BMG 250 Principles of Marketing ........................3

Minimum Credits Required for the Program: 12

Footnotes:
1BMG 140 should be taken before other program courses. For students with business experience, credit for BMG 140 may be awarded through credit for prior learning experience. Talk to your faculty advisor for more information.

E-Commerce (CTECOM) Certificate

The E-commerce certificate prepares you to support development of e-commerce web sites. You will gain knowledge and hands-on exposure to both business and technical concepts that enable you to analyze e-commerce business opportunities, with particular care paid to the effects of the changing role of the consumer on competition. You also will prepare a competitive analysis of a small business e-commerce plan that includes setting up an e-commerce web site using a commercial software package. Business managers, customer support managers, operations managers, financial managers, entrepreneurs, and anyone who wants to pursue expertise in e-commerce will benefit from this certificate. You may pursue additional career opportunities in the field of web development by applying the courses taken for this certificate to the Internet Professional Associate in Applied Science Degree.

Business and Computer Technologies Division
Business Department

Advisor: Cheryl Gracie

Program Admission Requirements:
Passing scores on all college placement tests
Passing score on the Internet placement examination or INP 100 with a grade of “C” or better

Major/Area Requirements (13 Credits)
BMG 155 Business on the Internet .............................3
BMG 215 Planning an E-Commerce Site for Business ....3
INP 150 Basic HTML ........................................2
INP 210 Internet Professional I .............................3
INP 220 Internet Professional II .............................2

Minimum Credits Required for the Program: 13

Footnotes:
Note: You must obtain the Certificate in E-Commerce at least one term prior to completing the course work for the Internet Professional Associate Degree in order to receive both.

Human Resource Management (CTHRSC) Certificate

This program prepares you for entry-level jobs as a human resource assistant or specialist where you will be assisting in activities that range from recruiting, interviewing and hiring job candidates to evaluating jobs, negotiating contracts, and ensuring company compliance with equal opportunity regulations. This program also provides you with basic management skills that will improve your ability to manage people.

Business and Computer Technologies Division
Business Department

Advisor: Colette Young

Major/Area Requirements (15 Credits)
BMG 150 Labor-Management Relations ....................3
BMG 200 Human Relations in Business ....................3
BMG 208 Principles of Management .........................3
BMG 240 Human Resources Management ..................3
BMG 279 Performance Management ........................3

Minimum Credits Required for the Program: 15
Management Supervision (CVMGTA)
Advanced Certificate

This program prepares you to move into a position as a supervisor, team leader, or first-line manager by adding basic supervisory skills to the occupational/technical skills you already possess. You will gain skills in problem-solving, decision-making, communicating, and motivating people in groups and teams through case studies and experiential exercises. The certificate may also be applied toward a WCC Associate in Applied Science Degree.

Business and Computer Technologies Division
Business Department
Advisor: Colette Young

Program Admission Requirements:
Successful completion of a career certificate or degree program or equivalent work experience

Major/Area Requirements (12 Credits)
BMG 230 Introduction to Supervision ................................3
BMG 273 Managing Operations .......................................... 3
BMG 279 Performance Management ..................................3
BMG 291 Project Management ............................................ 3

Minimum Credits Required for the Program: 12

Management Supervision (APMGTM)
Associate in Applied Science Degree

Some employers require or prefer employees to have an associate degree as a condition for employment or for advancement. You can earn an AAS in Management Supervision, by completing the requirements listed below. See an advisor to develop a plan and select appropriate courses for this program.

Business and Computer Technologies Division
Business Department
Advisor: Colette Young

Major/Area Requirements (9 Credits)
BMG 109 Intro to Small Business and Entrepreneurship ....3
BMG 209 Writing the Business Plan ....................................3
BMG 292 Operating a Small Business: An Experience ....3

Minimum Credits Required for the Program: 9

Small Business and Entrepreneurship (CTSBEA)
Certificate

This program provides you with concepts, theory, and practice in starting and operating a small business enterprise. In addition, the program also provides a feeling for “intrapreneurship” (opportunities within the corporate structure). Through the use of the Internet, telephone, face-to-face conversation, text materials, commercial software, and a business venture simulation, you make many of the decisions and must demonstrate many of the skills involved in starting and operating a small business. In addition, you are encouraged to use the resources of the Michigan Small Business Development Center (SBDC) at Washtenaw Community College. Basic computer and Internet usage skills are needed to be successful in this program.

Business and Computer Technologies Division
Business Department
Advisor: Granville Lee

Major/Area Requirements (9 Credits)
BMG 109 Intro to Small Business and Entrepreneurship ....3
BMG 209 Writing the Business Plan ....................................3
BMG 292 Operating a Small Business: An Experience ....3

Minimum Credits Required for the Program: 9
Business Office Programs

Administrative Assistant Technology
(CFAATC)
Certificate

This program prepares you for immediate employment in entry-level information processing, data entry, receptionist, and general office positions where skills in keyboarding and document formatting using computers, record management, and Internet communication skills are important. It also gives you credits that can be used toward a Washtenaw Community College associate's degree in Administrative Assistant Technology.

Business and Computer Technologies Division

Advisors: Lynn Allison, Eleanor Charlton, Rosalyn Culver, Dosye Thompson

Major/Area Requirements (21 Credits)

- BOS 101C Advanced Keyboarding ........................................ 1
- BOS 102 Document Formatting ........................................... 3
- BOS 107 Clerical Methods and Procedures .............................. 4
- BOS 130 Office Financial Applications ................................... 3
- BOS 157 Word Processing Applications I .............................. 2
- BOS 206 Scheduling and Internet Office Applications ............. 2
- BOS 250 Administrative Office Systems and Procedures .......... 4
- BOS 257 Word Processing Applications II ............................. 2

Required Support Courses (9 Credits)

- CIS 100 Introduction to Software Applications ....................... 3
- CIS 117 Windows Operating System (Windows 2000) ............... 2

Choose:
- ENG 100 Communication Skills or
- ENG 111 Composition I .................................................... 4

Minimum Credits Required for the Program: 30

Administrative Assistant Technology
(APAATD)
Associate in Applied Science Degree

This program prepares you for higher-level support positions in office settings where increased responsibilities require technical skills in desktop publishing, presentation software, accounting, and database software. You will also gain broader skills through completion of the general education courses required for an associate's degree.

Business and Computer Technologies Division

Advisors: Lynn Allison, Eleanor Charlton, Rosalyn Culver, Dosye Thompson

Additional Requirements:
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

General Education Requirements (19-20 Credits)

- COM 101 Fundamentals of Speaking .................................. 3
- ENG 111 Composition I ...................................................... 4
- MTH 163 Business Mathematics ......................................... 3
- Elective* Area 4: Natural Science Group 1 ......................... 3
- Elective Area 5: Social and Behavioral Science Group 1 ... 3
- Elective Area 6: Arts and Humanities Group 1 .................... 3

* BIO 102 is required for the Medical Administrative Assistant Option.

Major/Area Requirements (21 Credits)

- BOS 101C Advanced Keyboarding ........................................ 1
- BOS 102 Document Formatting ........................................... 3
- BOS 107 Clerical Methods and Procedures .............................. 4
- BOS 157 Word Processing Applications I .............................. 2
- BOS 182 Database Software Applications ............................. 2
- BOS 206 Scheduling and Internet Office Applications ............. 2
- BOS 257 Advanced Document Preparation ............................ 3
- BOS 275 Word Processing Applications II ............................. 2

Required Support Courses (8 Credits)

- CIS 100 Introduction to Software Applications ....................... 3
- CIS 117 Windows Operating System (Windows 2000) ............... 2

Choose:
- COM 102 Interpersonal Communication or
- ENG 122 Composition II .................................................. 3

Option Requirements (13 Credits)

Complete the required courses in either the Administrative Assistant or Medical Administrative Assistant Option below. Check course descriptions for prerequisites.

Minimum Credits Required for the Program: 61

Administrative Assistant Options

Administrative Assistant Option (13 Credits)

- ACC 111 Principles of Accounting I .................................... 3
- BOS 130 Office Financial Applications ................................ 3
- BOS 208 Desktop Publishing for the Office ......................... 3
- BOS 250 Administrative Office Systems and Procedures .......... 4

Medical Administrative Assistant Option (15 Credits)

- BOS 210 Medical Transcription .......................................... 3
- BOS 223 Medical Office Procedures .................................... 3
- BOS 224 Medical Office Insurance and Billing ..................... 4
- HSC 101 Healthcare Terminology ....................................... 1
- HSC 115 Medical Office and Laboratory Procedures ............. 3
- HSC 131 CPR/FPR and First Aid ........................................ 1
Computer Software Applications (CTCSSC) Certificate

This program focuses on upgrading your basic keyboarding and computer skills to intermediate or advanced levels in six typical office software applications, using the Microsoft® Office Suite as well as a web browser. Successful completion of the required courses prepares you to take the Microsoft® Office User Specialist (MOUS®) certification exams.

Business and Computer Technologies Division

Medical Administrative Assistant Technology (CFMATIC) Certificate

This program prepares you for entry-level positions in doctor’s offices, clinics, hospitals, pharmaceutical or insurance companies, or public health facilities where you will prepare, analyze, and retrieve health information. You may also perform receptionist duties, prepare charts and reports, schedule and bill patients, code and submit bills to insurance companies, and carry out some patient care duties such as sterilizing instruments and taking vitals. The program also provides the first two semesters of the Associate in Applied Science Degree in Medical Administrative Assistant Technology.

Culinary Arts Programs

Baking and Pastry (CTBAKP) Certificate

This program prepares you for careers in commercial baking, where you will work in retail deli-bakeries, country clubs, resorts, hotels, and institutional food service operations. It also gives you on-the-job experience in the form of 120 hours in a cooperative education placement, as well as courses that can be applied toward the Associate in Applied Science Degree in Culinary Arts.

Culinary and Hospitality Management
( APCULD )
Associate in Applied Science Degree

This program prepares you for a career as a culinary arts technician in a restaurant, hospitality, or institutional setting. Culinary arts technicians have a variety of responsibilities that may include supervising and coordinating the activities of food service workers or dining room employees, planning menus, estimating daily or weekly needs, ordering and maintaining inventories of supplies and equipment, and keeping records of meals served. The program also gives you a foundation for continued culinary arts studies at a four-year college and for training as a chef.

Business and Computer Technologies Division
Culinary and Hospitality Management Department

Advisors: Jill Beauchamp, Don Garrett, Paul McPherson

Additional Requirements:
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Computer Systems

Computer Systems Technology (CTCSTC) Certificate

This cross-disciplinary program is managed by the Computer Instruction and Electronics Departments. The program prepares you for the rigorous Computer Technology Industry Association’s (CompTIA) A+ Certification examination and for employment as a microcomputer service technician, where you’ll be expected to be equally adept at hardware solutions, working with operating systems, and relating to customers. It also provides the foundation for Washtenaw Community College’s two advanced certificates in computer networking.

Business and Computer Technologies Division
Electricity/Electronics Department

Advisors: Gary Downen, Michael Galea, Phil Geyer, James Lewis, Catherine Storie

Program Admission Requirements:

The following high school courses or equivalents should be completed with a grade of “C” or better:

- A high school course in Windows operating systems or CIS 117 or permission of program advisor
- A high school course in word processing and spreadsheets or CIS 100 or permission of program advisor
- One year of high school algebra or MTH 097 or minimum COMPASS Algebra score of 46

Major/Area Requirements (25 Credits)

CIS 110 Introduction to Computer Information Systems ............. 3
CIS 121 Linux/UNIX Fundamentals ........................................ 3
CPS 185 Introduction to Visual Basic Programming .................. 4
ELE 118 MS DOS for Technicians ........................................... 2
ELE 150 PC Hardware Concepts and Troubleshooting .............. 4
ELE 155 Advanced Computer Concepts and Troubleshooting ........................................... 4
ELE 216A Modem Hardware Install, Configure, & Troubleshooting ........................................... 4
ELE 225A Network Installation and Troubleshooting ............. 2
Choose: ELE 174 ELE Co-op Education I or ELE 299 Customer Relations ........................................... 1

Minimum Credits Required for the Program: 25

Computer Networking Academy I (CVCNT) Advanced Certificate

This Cisco® Networking Academy program prepares you for a job as a network technician where you will install, configure, and troubleshoot Local Area Networks under the supervision of a network administrator. The focus is placed on cabling systems and internetworking hardware. It also gives you the knowledge you’ll need to pass the Cisco® Certified Network Associate exam.

Business and Computer Technologies Division
Computer Instruction Department and Electronics Department

Advisors: Michael Galea, James Lewis, Roland Meade, John Trame

Program Admission Requirements:

- Completion of the Computer Systems Technology Certificate (CTCSTC) with a GPA of 2.0 or better or equivalent industry experience

Major/Area Requirements (16 Credits)

CNT 206 Internetworking I ................................................ 4
CNT 216 Internetworking II ................................................. 4
CNT 226 Internetworking III .............................................. 4
CNT 236 Internetworking IV ............................................. 4

Minimum Credits Required for the Program: 16
Computer Networking Academy II
(CVCNTA)
Advanced Certificate

This Cisco® Networking Academy program provides you with the advanced skills needed for a job as a network administrator/engineer, where you will design, install, configure, and troubleshoot Local and Wide Area Networks. The focus is placed on internetworking hardware. It also prepares you to pass the Cisco® Certified Network Professional examinations.

Business and Computer Technologies Division
Computer Instruction Department and Electronics Department
Advisors: Michael Galea, James Lewis, John Trame

Program Admission Requirements:
- Completion of the Computer Networking Academy I (CVCNT) program with a GPA of 2.0 or better

Major/Area Requirements (16 Credits)
- CNT 246 Advanced Routing Configuration ........................................ 4
- CNT 256 Remote Access Networks ............................................... 4
- CNT 266 Multi-Layer Switching .................................................. 4
- CNT 276 Network Troubleshooting ............................................... 4

Minimum Credits Required for the Program: 16

Computer Networking Operating Systems
(CVCNOS)
Advanced Certificate

This program prepares you for jobs as a network administrator where you will install, configure, and troubleshoot Microsoft® client-server networks. You will build on skills learned in the Computer Systems Technology Certificate (CTCSTC) or from your own work experience. The program prepares you for the Microsoft® Certified Systems Engineer (MCSE) exams. You also get credits that may be applied toward an associate degree.

Business and Computer Technologies Division
Computer Instruction Department and Electronics Department
Advisors: Michael Galea, James Lewis, John Trame

Program Admission Requirements:
- Completion of the Computer Systems Technology Certificate (CTCSTC) with a GPA of 2.0 or better

Major/Area Requirements (19 Credits)
- CNT 201 Managing Microsoft Workstations .................................. 2
- CNT 211 Administering Microsoft Windows Networks ................. 3
- CNT 221 Implementing a Microsoft Windows Network .................. 3

Minimum Credits Required for the Program: 19

Computer Networking (APCNTM)
Associate in Applied Science Degree

Some employers require or prefer employees to have an associate degree as a condition for employment or for advancement. You can earn an AAS in Computer Networking by completing the requirements listed below.

Business and Computer Technologies Division
Computer Instruction Department and Electronics Department
Advisors: Michael Galea, Phil Geyer, Roland Meade, John Rinn, John Trame

Additional Requirements:
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Requirements
1. Complete the Certificate in Computer Systems Technology (CTCSTC) ................................................... 25
2. Complete the Advanced Certificate in Computer Networking Academy I (CVCNT) ................................... 16
3. Complete General Education Requirements for the AAS Degree .......................................................... 18-21
4. Complete one additional credit to bring the total to 60 credits ................................................................. 1

Minimum Credits Required for the Program: 60
Microcomputer System Support (APMSS)
Associate in Applied Science Degree

This program prepares you for jobs where you support the end user in hardware and software matters and where you analyze the user's needs and implement the application packages best suited for the situation. This program also emphasizes people skills.

Business and Computer Technologies Division
Computer Instruction Department

Advisors: Phil Geyer, Roland Meade, John Rinn

Program Admission Requirements:
The following high school courses or equivalents should be completed with a grade of “C” or better:

- One year of high school algebra or MTH 097 or minimum COMPASS Algebra score of 46
- A high school course in word processing and spreadsheets or CIS 100 or permission of program advisor
- A high school course in Windows Operating System or CIS 117 or permission of program advisor

Additional Requirements:
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

General Education Requirements (19-21 Credits)

MTH 169 Intermediate Algebra ............................................4
Elective Area 1: Writing ................................................3-4
Elective Area 2: Speech ................................................3
Elective Area 4: Natural Science Group I ......................3-4

ELE 118 MS DOS for Technicians .....................................2
ELE 150 PC Hardware Concepts and Troubleshooting ..........4
ELE 155 Advanced Computer Concepts and Troubleshooting ....................................................4
ELE 225A Network Installation and Troubleshooting ..........2
Choose: CPS 171 Introduction to Programming with C++ or CPS 185 Introduction to Visual Basic Programming ....................................................4
Elective Complete one course from:
CIS 174, CIS 221, CIS 238, CIS 265, CIS 286, CNT 211, COM 102, ELE 216A, ELE 216B ........1-4

Required Support Courses (11 Credits)

ACC 111 Principles of Accounting I ...............................3
ENG 245 Career Practices Seminar .................................2
Choose: BMG 200 Human Relations in Business or PSY 100 Introductory Psychology...............3
Elective Complete one course from:
BMG 150, BMG 208, BMG 230, BMG 240.............3

Minimum Credits Required for the Program: 66
Footnotes:
*COM 101 is recommended

Unix/Linux Systems (CTUNLN)
Certificate

This program prepares you for jobs installing, configuring, and managing various UNIX and Linux operating systems. You will learn about UNIX/Linux file and directory organization, basic and advanced commands, shell scripting, networking, UNIX/Linux system administration and more. These skills can be applied to the related jobs of computer operator, system administrator, data recovery planner, and computer security coordinator.

Business and Computer Technologies Division
Computer Instruction Department

Advisors: Michael Galea, Phil Geyer

Program Admission Requirements:
The following high school courses or equivalents must be completed with a grade of “C” or better:

- Two years of high school algebra (Algebra I and II) or MTH 169 or minimum COMPASS Algebra score of 66
- A high school course in word processing and spreadsheets or CIS 100 or permission of program advisor

Major/Area Requirements (13 Credits)

Programming

Business Computer Programming (APBCP)
Associate in Applied Science Degree

This program prepares you for entry-level or trainee computer programmer positions, where you will work with a systems analyst in an applications environment to support information processing functions. The program also gives you the opportunity to focus your program in a particular discipline by choosing from a list of elective courses covering topics such as UNIX®, web site management, Visual Basic programming, and object-oriented programming, among others.

Business and Computer Technologies Division
Computer Instruction Department

Advisors: Michael Galea, Phil Geyer,
          Clarence Hasselbach, Khaled Mansour,
          Roland Meade, John Rinn

Program Admission Requirements:
• A high school course in word processing and spreadsheets or CIS 100 or permission of program advisor
• A high school course in Windows operating systems or CIS 117 or permission of program advisor

Additional Requirements:
• Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

General Education Requirements  (19-21 Credits)
Choose:
          MTH 169 Intermediate Algebra or
          MTH 176 College Algebra or
          MTH 181 Mathematical Analysis I .............................4

          CPS 272  Data Structures with C++ ....................................4
          ENG 245  Career Practices Seminar ....................................2
Choose:
          CIS 221 UNIX Tools and Scripts or
          CIS 286 UNIX Systems Administration ............................2-4
Elective  Complete one course from:
          CIS 174, CIS 238, CIS 265, CIS 277, CPS 185,
          CPS 285, CPS 293, CPS 295, CNT 206, CNT 211,
          INP 150 ........................................................................3-4

Required Support Courses  (12 Credits)
ACC 111  Principles of Accounting I .....................................3
ACC 122  Principles of Accounting II ....................................3
BMG 200  Human Relations in Business .....................................3
Elective  Complete one course from:
          BMG 150, BMG 208, BMG 230, or BMG 240 ..................3

Minimum Credits Required for the Program: 63

Footnotes:
Note: See also the Computer Science Concentration of the Math and Science Program (ASMAS) in the Transfer Section
Object Oriented Programming (CTOOPC)

Certificate

This program prepares you for jobs as a computer programmer where you will write code and develop applications utilizing object-oriented programming techniques. You will also develop skills that can be applied to the related jobs of programmer/analyst and software architect and documentation of accomplishments in object-oriented programming skills. The program also gives you twenty-three credits to apply toward the Associate in Applied Science degree in Business Computer Programming.

Business and Computer Technologies Division
Computer Instruction Department

Advisors: Phil Geyer, Clarence Hasselbach, Usha Jindal, Khaled Mansour, Janet Remen

Program Admission Requirements:
The following high school courses or equivalents should be completed with a grade of “C” or better:

- Two years of high school algebra or MTH 169 or minimum COMPASS Algebra score of 66
- One semester of high school word processing and spreadsheets or CIS 100 or permission of program advisor

Major/Area Requirements (23 Credits)

Oracle® Database Administration (CPODA)
Post-Associate Certificate

This program gives you advanced skills to increase your marketability as an information systems administrator. The program builds on the skills you already acquired through a degree program in computer information systems or from your experience as an information technology professional. The program also prepares you for the Oracle® Database Administrator certification exams.

Business and Computer Technologies Division
Computer Instruction Department

Advisors: Michael Galea, Clarence Hasselbach, Khaled Mansour

Program Admission Requirements:
Completion of one of the following degree programs with a grade of 2.0 or better in CIS 282 and CPS 171:

- Computer Information Systems Transfer (CIST)
- Math and Science (MSAS) with a Computer Science Concentration (COMS)
- Business Computer Programming (BCP)
- Internet Professional (INPD) with the Technical Option

Oracle® Developer (CPORAC)
Post-Associate Certificate

This program prepares you for a job as an Oracle database application developer. These courses are intended for a person who already has a background in object oriented programming and relational database theory and practice. The program also gives you skills that you can apply to the related jobs of programmer/analyst, database application developer, Oracle developer, Web database developer, or e-commerce software architect. You will also be prepared for completion of the certification examinations that are offered by Oracle University.

Business and Computer Technologies Division
Computer Instruction Department

Advisors: Michael Galea, Clarence Hasselbach, Khaled Mansour
Program Admission Requirements:
Completion of one of the following degree programs with a GPA of 2.0 or better:
- Computer Information Systems Transfer (AACIST)
- Math and Science (ASMSAS) with a Computer Science Concentration (COMS)
- Business Computer Programming (APBCP)
- Internet Professional with the Technical Option (APIPND)
- The following courses in the above programs must be completed with a grade of “C” or better:
  - CIS 282 Small Systems Database
  - CPS 171 Introduction to Programming with C++

Major/Area Requirements (11 Credits)
CIS 291 Introduction to Oracle SQL and PL/SQL ............4
CIS 292 Introduction to Oracle Developer .......................3
CIS 293 Advanced Oracle Developer ................................ 4

Minimum Credits Required for the Program: 11
Note: The courses in this program must be taken in sequence

Web Programming Tools (CTWPTC) Certificate

This program prepares you for jobs requiring server-side programming skills in Common Gateway Interface programming, Java programming, and in the writing of HTML code and JavaScript®. It also gives you skills that can be applied to the related jobs of Java software developer, Web programmer, and Web application developer. Students should already be familiar with HTML.

Business and Computer Technologies Division
Computer Instruction Department
Advisors: Clarence Hasselbach, Phil Geyer, John Rinn

Program Admission Requirements:
The following high school courses or equivalents should be completed with a grade of “C” or better:
- One semester of high school word processing and spreadsheets or CIS 100 or permission of program advisor
- Two years of high school algebra or MTH 169 or minimum COMPASS Algebra score of 66

CPS 171 Introduction to Programming with C++ ..........4
INP 150 Basic HTML ..........................................2

Minimum Credits Required for the Program: 23

Web Database Developer (CPWDD) Post-Associate Certificate

This post-associate program gives you advanced skills in developing Web databases and e-commerce applications. It is intended for students with a strong programming background and prior experience with SQL. The program also gives you skills that can be applied to the jobs of e-commerce software architect, e-business strategist, Java software developer, and Web application developer.

Business and Computer Technologies Division
Computer Instruction Department
Advisors: Michael Galea, Clarence Hasselbach, Khaled Mansour

Program Admission Requirements:
Completion of one of the following degree programs with a GPA of 2.0 or better:
- Computer Information Systems Transfer (AACIST)
- Math and Science (ASMSAS) with a Computer Science Concentration (COMS)
- Business Computer Programming (APBCP)
- Internet Professional with the Technical Option (APIPND)
- The following courses in these programs must be completed with a grade of “C” or better:
  - CIS 282 Small Systems Database
  - CPS 185 Introduction to Visual Basic Programming

Major/Area Requirements (14 Credits)
CIS 266 Web Programming Using Active Server Pages.....4
CIS 277 Java for Programmers ....................................3
CIS 278 Advanced Java Programming ...........................3
CPS 276 Web Programming and Oracle Database Access 4

Minimum Credits Required for the Program: 14
Windows® Visual Basic Developer
(CVWNVB)

Advanced Certificate

This program prepares you for a job as a developer of graphical user interface programs on a PC. It is intended for students who need to acquire skills in Windows® application development in Visual Basic and for students who wish to acquire skills in programming active server pages. The program also gives you skills that can be applied to the related jobs of programmer/analyst, Windows® programmer, PC programmer, and Web programmer.

Business and Computer Technologies Division
Computer Instruction Department

Advisors: Khaled Mansour, John Rinn

Program Admission Requirements:
- Completion of the Web Programming Tools Certificate (CTWPTC) with a GPA of 2.0 or better

Major/Area Requirements (12 Credits)
- CIS 266  Web Programming Using Active Server Pages ........4
- CPS 185  Introduction to Visual Basic Programming ..........4
- CPS 285  Advanced Visual Basic Programming ............4

Minimum Credits Required for the Program: 12

Windows® C++/Java Developer
(CPWNJC)

Post-Associate Certificate

This post-associate program gives you advanced skills in developing graphical user interface programs on a PC. These courses are intended for students who already have a strong background in C++ programming and who need to acquire skills in Windows® application development in Visual C++ and Java. The program also gives you skills that can be applied to the related jobs of programmer/analyst, Windows® programmer, or PC programmer. Prior coursework or experience in using HTML to compose web pages is helpful.

Business and Computer Technologies Division
Computer Instruction Department

Advisors: Clarence Hasselbach, Khaled Mansour

Program Admission Requirements:

Construction Management (APCONM)
Associate in Applied Science Degree

Some employers require or prefer employees to have an associate degree as a condition for employment or for advancement. You can earn an AAS in Construction Management by completing the requirements listed below.

Health and Applied Technologies Division
Technical Education Department
Advisor: Les Pierce

Additional Requirements:
• Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Requirements
1. Complete the General Education Requirements for the Associate in Applied Science (AAS) Degree........18-21
2. Complete the residential Construction Certificate (CTRCT).................................................................19
3. Complete the Management Supervision Advanced Certificate (CVMGTA)..............................................12
4. Complete 11 credit hours as free electives to bring the program total to 60 credits* ................................11

Minimum Credits Required for the Program: 60

Footnotes:
*See your advisor to select appropriate electives

Facility Management Administration
(CTFMA)
Certificate

This program prepares you for jobs in the field of facility management where you will manage corporate property assets. The program provides you with skills and knowledge in managing real property assets specifically in the design, operation, and maintenance of building systems. Management of the work environment, planning and project management, real estate, and general service activities are covered. The program helps prepare you for the Building Owners and Managers Institute (BOMI) certification.

Business and Computer Technologies Division
Technical Education Department
Advisor: Les Pierce

FMA 101 Facility Management I .................................................2
FMA 103 Facility Management II ...............................................2
FMA 105 Facility Management III............................................2
FMA 107 Technologies for Facility Management .......................2
FMA 109 Facilities Planning and Project Management .........2

Minimum Credits Required for the Program: 10

Heating, Ventilation, and Air Conditioning
(CTHVAC)
Certificate

This program prepares you for entry-level jobs in HVAC contracting companies, HVAC servicing companies, hospitals, schools and other public institutions, and apprenticeships in large manufacturing plants and supply houses. In these commercial, residential, or institutional settings you will combine your diagnostic and repair skills with customer relations skills to service heating, ventilation, and air conditioning equipment. This program also helps prepare you for the third class refrigeration licensure examination.

Health and Applied Technologies Division
Technical Education Department
Advisor: Les Pierce

Required Courses (21 Credits)
HVA 101 Heating, Ventilation, and Air Conditioning I ....4
HVA 103 Heating, Ventilating, and Air Conditioning II ....4
HVA 105 Heating, Ventilation, and Air Conditioning III ....4
HVA 107 Heating, Ventilation, and Air Conditioning IV ....4
TRI 103 Sheet Metal Blueprint Reading and Layout ........3
WAF 104 Soldering & Brazing ................................................2

Minimum Credits Required for the Program: 21
Residential Construction Technology (CTRCT) Certificate

This program prepares you for entry-level jobs in a broad range of careers in the construction industry, where you'll need an understanding of building systems, the safe use of tools and equipment, materials, and the vocabulary of the field. This program also gives you the potential for being selected for one of the many apprentice classifications associated with the construction field.

Health and Applied Technologies Division
Technical Education Department
Advisor: Les Pierce

Major/Area Requirements (19 Credits)

Trades Programs

Construction Supervision (APCNSP) Associate in Applied Science Degree

This program gives indentured apprentices and journeypersons of the United Association of Plumbers and Pipefitters the opportunity to apply their work in a trade specialty toward an associate's degree in Construction Supervision. In addition to four courses in Construction Supervision, students will complete general education courses and receive non-traditional credit for their work experience in an area of specialization such as plumbing, pipefitting, HVAC, or sprinklerfitting.

Health and Applied Technologies Division
Technical Education Department
Advisors: Roger Bertoia, Patricia Crider

Program Admission Requirements:
Open only to United Association of Plumbers Apprentices

Additional Requirements:
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

General Education Requirements (18-20 Credits)
Elective * Complete one course from each of the six General Education Areas for the AAS degree ..........18-20

Major/Area Requirements (42 Credits)
Apply for Non-Traditional credit for work experience in a specialization in plumbing, pipefitting, HVAC, or sprinklerfitting .................30

Minimum Credits Required for the Program: 60

Footnotes:
*Credit for general education courses may be transferred from accredited colleges or universities in the United States

Industrial Training (APITRN) Associate in Applied Science Degree

This program gives indentured apprentices and journeypersons of the United Association of Plumbers and Pipefitters the opportunity to apply their work as certified apprentice instructors toward an associate's degree in Industrial Training. In addition to the fifteen credits awarded for completion of five summer apprentice training sessions, students will complete a minimum of 18 credits in general education courses and receive 30 non-traditional credits for experience in an area of specialization such as plumbing, pipefitting, HVAC, or sprinklerfitting.

Health and Applied Technologies Division
Technical Education Department
Advisors: Roger Bertoia, Patricia Crider

Program Admission Requirements:
Open only to United Association of Plumbers Apprentices

General Education Requirements (18-20 Credits)
Elective * Complete one course from each of the six General Education areas for the AAS degree 18-20

Additional Requirements:
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Major/Area Requirements (45 Credits)
Apply for Non-Traditional Credit evaluation for a specialization in plumbing, pipefitting, HVAC, or sprinklerfitting ........................................30
UAT 111 Apprentice Training .......................3
UAT 121 Apprentice Training II ....................3
UAT 131 Apprentice Training III ...................3
UAT 141 Apprentice Training IV ...................3
UAT 151 Apprentice Training V ...................3

Minimum Credits Required for the Program: 63

Footnotes:
*Credit for general education courses may be transferred from accredited colleges or universities in the United States
Journeyperson Industrial (CFJPIC) Certificate

This program gives skilled tradespersons who are sponsored by qualified firms the opportunity to apply trade-related instruction credits from their apprenticeship programs toward a WCC Certificate.

Health and Applied Technologies Division
Technical Education Department

Advisor: Les Pierce

Program Admission Requirements:
Students must be sponsored by a qualified firm to enroll in this program.

Requirements
1. Complete 30 credits of Trade-Related Instruction coursework. (TRI)* 30

Minimum Credits Required for the Program: 30

Footnotes:
*See a program advisor to determine the courses for this certificate

Journeyperson Industrial (APJPIM) Associate in Applied Science Degree

Some employers require or prefer employees to have an associate degree as a condition for employment or for advancement. You can earn an AAS in Journeyperson Industrial, by completing the requirements listed below.

Health and Applied Technologies Division
Technical Education Department

Advisor: Les Pierce

Additional Requirements:
• Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Requirements
1. Complete the Journeyperson Industrial Certificate (JPIC) 30
2. *Complete 12 credit hours as free electives 12
3. Complete the General Education Requirements for the AAS Degree 18-21

Minimum Credits Required for the Program: 60

Footnotes:
*See your advisor to select appropriate electives

Dental Assisting (CFDAC) Certificate

This program prepares you for dental assisting positions in a variety of settings such as private dental offices, dental schools, the military, and dental insurance offices. The program prepares you for both the Dental Assistant National Board examination and the Michigan State Board of Dentistry examination. As a Certified Dental Assistant, you assist in the treatment of patients and participate in all functions of dentistry. As a Registered Dental Assistant in the State of Michigan, you can perform specified intra-oral functions normally performed by a dentist. Successful completion of the required dental radiography courses also gives you Michigan State Board of Dentistry authorization to expose dental radiographs.

You may enroll in this program in either a traditional (two-year) or an accelerated (one-year) mode. Both lead to certification, registration, and a certificate in dental assisting.

The Department of Dental Assisting offers advanced standing in this program for dental assistants trained on the job with two years full-time employment. The Alternative Dental Assistant Education Project (ADAEP) requires validation of skills by successful completion of the Dental Assisting National Board examination (DANB) prior to admission. If you have two or more years of experience as an on-the-job trained dental assistant you may apply for advanced standing as part of the admissions process for the Alternative Dental Assistant Education Project (ADAEP). Successful completion of the Dental Assisting National Board Examination must be validated prior to ADAEP admission.

Health and Applied Technologies Division
Dental Auxiliary Department

Advisor: Betty Finkbeiner

Applying for Admission to the program:
Application packets may be picked up from the WCC Office of Admissions. Applicants will be screened based on the following criteria:

- Submission of a completed application for admission to the Dental Assisting Program
- Date of application to the program
- Washtenaw County residency

Program Admission Requirements:

- Applicants must possess a valid high school diploma or GED to start the program. Applications will be accepted prior to high school graduation or GED completion.

- The following high school courses or WCC equivalents should be completed with a grade of “C” or better:
  - One year of high school biology or BIO 101 (Concepts of Biology)
  - One semester of high school word-processing, database, and spreadsheet applications or CIS 100 (Intro to Software Applications)

- Admission to the Dental Assisting program is contingent upon students declaring that they have specific physical and cognitive abilities. These requirements are detailed in the Dental Assisting program admission packet, which can be obtained from the Office of Admissions. WCC reserves the right to request that students successfully demonstrate the specific cognitive and physical abilities related to the Dental Assisting program.

- Advanced-standing students must successfully pass the Dental Assisting National Board examination (DANB).

Additional Requirements:

- Program courses are sequential and complemented with appropriate support courses. All courses must be completed with a grade of “C” or better in order to graduate from this program.
- A current CPR card is required prior to enrolling in DEN 130A.
- All students must demonstrate proficiency in the English language prior to placement in clinical courses. Please refer to admissions packet for details.
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Nursing Assistant Skills Training (CCNAST)

Certificate of Completion

This program prepares you for employment in a variety of health care settings from nursing homes to hospitals where you will work as a competency-evaluated nurse aide (C.E.N.A.). C.E.N.A. evaluation is mandated for employment in long-term care facilities. Training takes place in the classroom, lab, and clinical settings within the community. Upon completing the program you will be qualified for multiple job opportunities with good starting salaries. Positions frequently offer flexibility and variety, as well as a sense of self-satisfaction for “making a difference” in a person’s health. This four-credit course is a Nurse Aide Training program that contains the core curriculum essential for State certification and was approved by the State of Michigan through site visits.

Health and Applied Technologies Division
Nursing and Health Sciences Department

Advisors: Linda Lukiewski

Program Admission Requirements:
- Minimum age of 17 years
- Consent is required for enrollment in the program in order to provide the student with the policy on mandatory attendance and other information

Major/Area Requirements (4 Credits)
HSC 100 Basic Nursing Assistant Skills ..................................................4

Minimum Credits Required for the Program: 4

Nursing Transfer (APNURT)
Associate in Applied Science Degree

This program prepares you for a smooth transition into the third and fourth years of the University of Michigan (U-M) School of Nursing’s Bachelor of Science in Nursing program. You will receive a solid science foundation and begin taking nursing courses during the first two years at WCC. You will not be eligible for registered nurse (RN) licensure until completion of the U-M program.

Health and Applied Technologies Division
Nursing and Health Sciences Department

Advisors: Peggy Eckhauser, Gloria Velarde

Articulation:
- University of Michigan, School of Nursing*

Program Admission Requirements:
- Students applying to the Nursing Transfer program must meet the admission requirements of both WCC and the U-M School of Nursing.

- Students must have a minimum high school GPA of 3.4 and SAT scores above 1000 or an ACT composite score above 21. They must have earned a grade of at least “B” in all high school science courses.
- Required high school work:
  - Three units of English
  - Three units of Math
  - Two units of laboratory science, including chemistry and biology
  - Four units of foreign language and/or social science and/or laboratory science
  - Four units of other academic courses

Additional Requirements:
- This transfer program is designed for full-time students. WCC students must demonstrate the ability to carry a full-time course load by maintaining a minimum full-time enrollment of 12 credit hours with a 3.0 GPA in at least two terms in the 12 months prior to transfer to the U-M School of Nursing. Each of these two terms must include a transferable science course and one clinical course.
- In order to gain admittance to the U-M School of Nursing, students must have the following:
  - 3.0 cumulative GPA in all prior post-secondary academic experiences
  - 3.0 cumulative GPA at WCC
  - Overall 3.0 GPA in all transferable science/clinical courses
  - Associate in Applied Science degree from WCC
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

*See the health occupation advisor for more information on this agreement.
3 Students will receive University of Michigan credit for this course. Speak with a program advisor for more information.
3 Students must take two courses in Psychology or Sociology.
6 May be taken in the first or second semester with advisor permission.

Nursing, Registered (APNURS)
Associate in Applied Science Degree

This program prepares you for the National Council Licensure Examination for Registered Nurses and for challenging and exciting jobs in all settings of health care, from the hospital to home care. You will gain proficiency in technical aspects of nursing care, such as medication administration, treatments and procedures, and use of medical technology, and you will receive personal satisfaction from your ability to make a difference in someone's life and health. You will also get credits that transfer to area RN-BSN completion programs. If you are a licensed practical nurse (LPN) you may apply for Advanced Standing entry to the Nursing program by having practical nursing or other college transcripts evaluated for credit.

Health and Applied Technologies Division
Nursing and Health Sciences Department

Advisors: Pre-Program Admissions: Peggy Eckhauser, Health Programs Counselor
Continuing Student Advisors: Barbara Goodkin, Sherry Lee, Maxine Moulton, Judith Pawloski, Vickie Salter
Advanced Standing Advisors: Theresa Nestorak, Judith VanderVeen, Gloria Velarde

Applying for Admission to the program:
A limited number of students are admitted each year following an application period each fall and winter semester. Students not admitted during a specific year are encouraged to reapply during the next admission cycle. Admission to the program is a selective process based on:

- Completion and submission of an application for admission to the nursing program by the deadline date of February 28
- Completion of program admission requirements (see below for specific courses)

Program Admission Requirements:

- Applicants must possess a valid high school diploma or GED
- Applicants must complete the following high school courses or equivalent WCC courses with a grade of “C” or better:
  - One year of high school biology or BIO 101 (Concepts of Biology)
  - One year of high school algebra or MTH 097 or minimum COMPASS Algebra score of 46
  - One year of high school chemistry or (CEM 057 and CEM 058 (Introductory Chemistry/Laboratory))
- Applicants must successfully pass the pre-admission math test with a minimum score of 80 percent
- Admission to the Nursing program is contingent upon students declaring that they have specific physical and cognitive abilities. These requirements are detailed in the Nursing program admission packet, which can be obtained from the Office of Admissions. WCC reserves the right to request that students successfully demonstrate the specific cognitive and physical abilities related to the Nursing program.
- All students must demonstrate proficiency in the English language prior to placement in clinical courses. Please refer to admission packet for further details.

Advanced Standing Admission (LPN To RN):
Twenty LPN’s who meet the advanced standing requirements below, in addition to the regular program admission requirements, are admitted to the Registered Nursing Program with advanced standing each Fall Semester. Applications are accepted year-round and upon completion of all admission requirements, the LPN applicant is slotted in the next available opening at a Fall entry point. Those not admitted for a specific semester are encouraged to take required support courses. In addition to meeting program admission requirements and submitting an application, transcripts must be submitted for evaluation of transfer credit.

Advanced Standing Requirements:

- Applicants must be graduates of a practical nursing program
- Applicants must complete a pharmacology course equivalent to NUR 115 (Pharmacology) with a grade of “C” or higher or possess a current NAPNES pharmacology card
- Applicants must hold a current LPN license*
- Applicants must have completed a minimum of one year full-time employment as an LPN within the last three years or the equivalent in part-time experience*

* Applicants who have not had recent LPN work experience or who do not have a current license may be granted conditional advanced standing admission to the
Choose: ENG 111* Composition I or NUR 104 Nursing of the Older Adult.................................... 1

Choose: COM 101* Fundamentals of Speaking or
Second Semester (14-17 Credits)

• Program courses are sequential and complemented with appropriate support courses. All courses must be completed with a grade of “C” or better in order to graduate from this program.

• Students are required to adhere to rules of the Nursing Code of Ethics published in the Nursing Program Student Handbook. Students should be aware that the Michigan Board of Nursing may deny a license to an applicant who has been convicted of a crime or is addicted to drugs or alcohol.

• Students in the Nursing program will be required to purchase special uniforms and supplies throughout the duration of the program.

• Students are required to submit all health records by July 31 annually, while in the program.

• Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

* Minimum credits at WCC required for LPN to RN students: 46 Credits
* LPN’s will receive 15 credits in direct transfer or non-traditional credit for the following courses: (NUR 101, NUR 102, NUR 103, NUR 104, NUR 105, HSC 118 and BIO 111)
* Based on the last three years of work experience and LPN graduation date, students will be individually evaluated for transfer or non-traditional credit for up to 10 credits for NUR 123, NUR 124, NUR 131, and NUR 132. (Credit-by-exam is also an option for NUR 131 and 132.)

Pharmacy Technology (CTPHAR) Certificate

This program prepares you for jobs in hospitals, health care agencies, and retail outlets, where you will work under the supervision of a registered pharmacist and be expected to blend a high attention to detail with customer service. The program also gives you the opportunity to explore health care as a place for future career opportunities.

Health and Applied Technologies Division
Pharmacy Technology Department

Advisor: Suzette Ripepe

Applying for Admission to the program:
A limited number of students are admitted to the Pharmacy Technology program each year. Application packets may be picked up from the WCC Office of Admissions. Applicants will be screened based on the following criteria:

• Completion and submission of an application for admission to the Pharmacy Technology program
• Completion of all prerequisite courses
• Date of application to the program
• Residency status (Washtenaw County residents are given priority)

Program Admission Requirements:

• Applicants must complete the following high school courses or equivalent WCC courses with a grade of “C” or better:
  - One year of high school algebra or MTH 097 or MTH 165 or minimum COMPASS Algebra score of 46
Health and Human Services

- One year of high school chemistry, or CEM 057 and CEM 058 (Introductory Chemistry/Laboratory), or one year of high school biology, or BIO 101 (Concepts of Biology)

- Admission to the Pharmacy Technology program is contingent upon students declaring that they have specific physical and cognitive abilities. These requirements are detailed in the Pharmacy Technology program admission packet, which can be obtained from the Office of Admissions. WCC reserves the right to request that students successfully demonstrate the specific cognitive and physical abilities related to the Pharmacy Technology program.

- State law prohibits individuals who have been convicted of a crime that involves controlled substances from working in a pharmacy where they have access to controlled substances (MCL SS338.3145(f)). A police record check will be done on each student prior to program admission. If a student has a record that includes a conviction for a controlled substance crime, the student has a right to apply to the Drug Enforcement Agency (DEA) for an exemption to allow working in a pharmacy where they have access to controlled substances. The exemption must be obtained prior to admission to the program.

**Additional Requirements:**
Program courses are sequential and complemented with appropriate support courses.

- Students must complete all first-semester courses with a grade of “C” or better to progress to the second semester.

- Students must complete all courses with a grade of “C” or better in order to graduate from this program.

- Students must possess a valid high school diploma or GED by the end of the program and in order to sit for the National Pharmacy Technician Certification Exam, administered by the Pharmacy Technician Certification Board.

- Students who have a felony conviction record are not included in the clinical experience, and are not allowed to sit for the National Pharmacy Technician Certification Exam administered by the Pharmacy Technician Certification Board.

Additional requirements to be completed prior to the clinical course PHT 198 include:

- Completion of a satisfactory physical examination documented on the WCC health form. This form contains verification of childhood immunizations, negative TB test, and evidence of Hepatitis B vaccination or a signed waiver. This physical examination must be completed within one month of the start of the clinical rotation and turned in to the program director four weeks before the start of the clinical rotation.

- Proof of health insurance

- Demonstration of proficiency in the English language prior to placement in clinical courses (Please refer to the application packet for further details)

**Radiography (APRAD)**

Associate in Applied Science Degree

This program prepares you for an entry-level position as a radiographer who operates medical imaging equipment and plays a vital role in healthcare delivery. This full-time, two-year program offers a diverse curriculum that includes comprehensive classroom instruction in conjunction with individualized laboratory work and extensive clinical experience in local hospitals. The program also prepares you for the American Registry of Radiologic Technology certification examination.

**Health and Applied Technologies Division**

**Allied Health Department**

**Advisors:** Gerald Baker, Connie Foster

**Articulation:**

- Eastern Michigan University, College of Arts and Sciences, Health Administration program

**Applying for Admission to the program:**

A limited number of students are admitted to the Radiography program each year. All students enter the program during the summer term. Application packets may be picked up from the WCC Office of Admissions. Applicants will be screened based on the following criteria:

- Completion and submission of an application for admission to the Radiography program
- Completion of all prerequisite courses by January 1 (see below for specific courses)
- Residency status (Washtenaw County residents are given priority)
- Date of application to the program

**Program Admission Requirements:**

- Applicants must possess a valid high school diploma or GED.
- Applicants must complete the following high school courses or equivalent WCC courses with a grade of “C” or better:
  - One year of high school biology or BIO 101 (Concepts of Biology)
- One year of high school algebra or MTH 097 (Introductory Algebra) or minimum COMPASS Algebra score of 46
- One year of high school chemistry or CEM 057 and CEM 058 (Introductory Chemistry/Laboratory)

Admission to the Radiography program is contingent upon students declaring that they have specific physical and cognitive abilities. These requirements are detailed in the Radiography program admission packet, which can be obtained from the Office of Admissions. WCC reserves the right to request that students successfully demonstrate the specific cognitive and physical abilities related to the Radiography program.

It is strongly advised that students take BIO 111 (Anatomy & Physiology) before entering the Radiography program.

Additional Requirements:

- Students must pass a physical examination, taken at their own expense, not more than three months before enrolling in the first clinical education course.
- Students must maintain personal health coverage.
- Students must be certified in Basic Life Support to be eligible to enroll in clinical education courses. If they have not received certification through another agency, they can obtain it by completing HSC 131 (CPR/FPR and First Aid).
- Program courses are sequential and complemented with appropriate support courses. Students must complete all Radiography courses with a grade of “C” or above.
- All students must demonstrate proficiency in the English language prior to placement in clinical courses. Please refer to the application packet for further details.
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Sterile Processing and Distribution (CCSPDC)

Certificate of Completion

This program prepares you for entry-level positions as a sterile processing technician. You will work in hospitals, ambulatory surgery centers, or clinics, where you will decontaminate, prepare, and sterilize specialized medical equipment, supplies, and surgical instrumentation. The program also prepares you for the national certification examination.

Health and Applied Technologies Division  
Allied Health Department

Advisor: Vivian Murphy

Program Admission Requirements:
- Minimum age of 18 years
- Negative TB skin test or chest x-ray
- Hepatitis immunization or signed waiver
- Health insurance

Additional Requirements:
- Successful completion of the program requires a minimum grade of 78% in theory and a Pass in clinical practice.
- All students must demonstrate proficiency in the English language prior to placement in the clinical course (SUR 098).

Major/Area Requirements

Minimum Credits Required for the Program: 7
Surgical Technology (CFSURC)  
Certificate

This program prepares you for jobs in the operating room, where you will assist the surgeon by arranging instruments, maintaining surgical supplies, providing a sterile environment, and applying post-surgery dressings. You may work in a variety of settings including ambulatory surgery units, private surgical practices, and central sterile processing departments. You could also work as a surgical product salesperson or as a clinical instructor. The program also prepares you for the national certifying examination for surgical technologists.

Health and Applied Technologies Division  
Allied Health Department

Advisor: Vivian Murphy

Applying for Admission to the program:
A limited number of applicants are admitted to the Surgical Technology program each year. Application packets may be picked up from the WCC Office of Admissions. Applicants will be screened based on the following criteria:

- Completion and submission of an application for admission to the Surgical Technology program
- Completion of all prerequisite courses
- Date of application to the program
- Residency status (Washtenaw County residents are given priority)

Program Admission Requirements:

- Applicants must possess a valid high school diploma or GED
- Applicants must complete the following high school courses or equivalent WCC courses with a grade of “C” or better:
  - One year of high school algebra or MTH 097 or MTH 165 or minimum COMPASS Algebra score of 46
  - One year of high school chemistry, or CEM 057 and CEM 058 (Introductory Chemistry/Laboratory)
- Applicants must have a GPA of 2.0 or above
- Applicants must declare that they have specific physical and cognitive abilities. These requirements are detailed in the Surgical Technology program admission packet, which can be obtained from the Office of Admissions. WCC reserves the right to request that students successfully demonstrate the specific cognitive and physical abilities related to the Surgical Technology program.

Additional Requirements:

- Program courses are sequential and complemented with appropriate support courses. Students must complete all courses with a grade of “C” or better in order to graduate from this program.
- All students must demonstrate proficiency in the English language prior to placement in clinical courses. Please refer to the application packet for further details.

Human Services Programs

Child Development (CTCDA)  
Certificate

This program prepares you for the assessment exam required for the Child Development Associate (CDA) credential. It also prepares you for employment in child care centers or in family home daycare settings working with infants and toddlers, or preschoolers. It also provides you with skills from the 13 functional areas required by the National Council for Early Childhood Professional Recognition, as well as courses that transfer into WCC’s associate’s degree childcare program.

Math, Natural and Behavioral Sciences Division  
Public Service Careers Department

Advisor: Sally Adler

Articulation:
The courses in this program may be transferred into the Child Care Associate’s Degree program as CCP 108, 110, 118, and 119.

Program Admission Requirements:

- Students must be at least 18 years of age and have a high school diploma or equivalent

Major/Area Requirements (11-13 Credits)
Child Care (APCC)
Associate in Applied Science Degree

This program prepares you for jobs as a child care professional in a day-care center where you are expected to organize and lead activities for children from birth through age twelve. Completion of the program qualifies you as an educational director of a childcare center in the State of Michigan. It also gives you some courses that can be applied to four-year programs in early childhood development and education.

Math, Natural and Behavioral Sciences Division
Public Service Careers Department

Advisor: Sally Adler

Program Admission Requirements:
- One year of HS algebra or MTH 097 or minimum COMPASS Algebra score of 46

Additional Requirements:
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Elective  Area 6: Arts and Humanities. (At least one course
must be from Group I.) ........................................6

Major/Area Requirements  (36 Credits)
CJT 100  Introduction to Criminal Justice.........................3
CJT 111  Police/Community Relations ................................3
CJT 120  Criminal Justice Ethics......................................3
CJT 160  Criminal Justice Constitutional Law....................3
CJT 208  Criminal Evidence and Procedure ........................3
CJT 209  Criminal Law ..................................................3
CJT 223  Juvenile Justice................................................3
CJT 224  Criminal Investigation .......................................3
CJT 225  Seminar in Criminal Justice................................3
Elective  Complete one additional course in Psychology.....3
Elective  Complete two courses in Sociology (SOC) ......6

Minimum Credits Required for the Program: 65

Footnotes:
*Transfer students should select lab-based science course

Criminal Justice - Law Enforcement
(ACJLLE)
Associate in Applied Science Degree

This program prepares you for certification to
work in law enforcement jobs in the State of
Michigan. You must complete the academic pro-
gram prior to entering the Police Academy com-
ponent of the program.

Health and Applied Technologies Division
Public Service Careers Department
Advisor: Ruth Walsh

Additional Requirements:
• Admission to the Police Academy component of this
program (CJT 221 A, B, and C) is based on passing
reading, writing, and physical activity examinations
as well as fingerprinting and criminal history checks.
Students who do not enter the academy may com-
plete the Criminal Justice Associate in Arts Degree
instead of the Criminal Justice Law Enforcement
Associate in Applied Science Degree, and will not be
certified for employment. Students admitted to the
Police Academy are required to purchase gym clothes,
khaki uniforms, textbooks, and other supplies.
Academy students are required to adhere to addition-
ral rules of behavior and discipline beyond the general
code of conduct.
• Students must demonstrate basic computer literacy
skills by successfully passing the Computer and
Information Literacy Test. The test may be taken at
any point during the program, but must be completed
before graduating.

General Education Requirements  (19 Credits)
COM 102  Interpersonal Communication ........................3
Choose:  MTH 151 Technical Algebra or
MTH 160 Basic Statistics or
MTH 169 Intermediate Algebra ..................4
Choose:  PSY 100 Introductory Psychology or
PSY 200 Child Psychology .................................3
Elective  Area I: Writing ........................................3-4
Elective  Area 4: Natural Science Group I ..................3
Elective  Area 6: Arts and Humanities Group I .........3

Major/Area Requirements  (51 Credits)
CJT 100  Introduction to Criminal Justice.........................3
CJT 111  Police/Community Relations ................................3
CJT 120  Criminal Justice Ethics......................................3
CJT 160  Criminal Justice Constitutional Law....................3
CJT 221A  Law Enforcement - Investigations1 ..............3
CJT 221B  Law Enforcement - Skill Areas1 ....................3
CJT 221C  Law Enforcement Training - Comm Policing &
Comm. ............................................................4
CJT 225  Seminar in Criminal Justice...........................3
PEA 102  Cardiovascular Training ..................................1
PEA 105  Weight Training-Cybex/Free Weights.............2
Elective  Complete one course from the following:
SOC 100, SOC 202, SOC 205, SOC 207, SOC 250,
or CJT 223............................................................3

Minimum Credits Required for the Program: 70

Footnotes:
It is recommended that students take one or two semesters of Spanish
in addition to program requirements.
The following sequence of courses is recommended for Criminal Justice courses:

Career Path Key:  Certificate/Certificate of Completion  Associate’s Degree  Post-Associate Certificate
Drafting Programs

Architectural Technology (CTARCT) Certificate

This program prepares you for jobs as an architectural drafting detailer where you are expected to draw each part shown on a layout by giving dimensions, materials, and any other necessary information to make the drawing clear and complete.

Program Admission Requirements:
Students should complete the following high school courses or WCC equivalents with a grade of “C” or better:

- One year of high school algebra, or MTH 097, or minimum COMPASS Algebra score of 46
- One year of high school drafting or ARC 099

Major/Area Requirements (18 Credits)
ARC 111 Architectural Drawing I ........................................6
ARC 117 Construction Materials..........................................3
ARC 120 Mechanical & Electrical Systems for Buildings ....3
ARC 122 Architectural Drawing II........................................ 6

Minimum Credits Required for the Program: 18

Architectural Drafting (APAD) Associate in Applied Science Degree

This program prepares you for positions as an architectural drafting technician where you will prepare detailed drawings based on rough sketches, specifications, and calculations made by scientists, engineers, architects, and designers. You will also calculate the strength, quality, quantity, and cost of materials.

Program Admission Requirements:
- One year of high school algebra, or MTH 097 with a grade of “C” or better, or minimum score of 46 on the COMPASS Algebra test

Business and Computer Technologies Division Drafting Department

Advisor: James Teevens

Major/Area Requirements (26 Credits)
CAD 111 CAD I—Detailing ..................................................6
CAD 113 CAD II—Drafting and Layout................................ 6
CAD 115 Descriptive Geometry ............................................4
IDD 111 Drafting Standards and Conventions......................3
IDD 113 Theory of Dies.....................................................2
MTT 111 Machine Shop Theory and Practice.......................5

Minimum Credits Required for the Program: 26

General Education Requirements (18-21 Credits)

- Elective * Area 1: Writing ...............................................3-4
- Elective Area 2: Speech ...............................................3
- Elective Area 3: Mathematics Group I ..........................3-4
- Elective Area 4: Natural Science Group I ......................3-4
- Elective Area 5: Social and Behavioral Science Group I ....3
- Elective Area 6: Arts and Humanities Group I ...............3

Computer Aided Drafting (CTCADC) Certificate

The Computer Aided Drafting certificate program prepares you for entry-level work in drafting and detailing, where you will use CAD software to create details from layout drawings and sketches based on industry standards.

Program Admission Requirements:
- Two years of high school algebra or MTH 169 with a grade of “C” or better, or minimum score of 66 on the COMPASS Algebra test

Major/Area Requirements (26 Credits)
CAD 111 CAD I—Detailing ..................................................6
CAD 113 CAD II—Drafting and Layout................................ 6
CAD 115 Descriptive Geometry ............................................4
IDD 111 Drafting Standards and Conventions......................3
IDD 113 Theory of Dies.....................................................2
MTT 111 Machine Shop Theory and Practice.......................5

Minimum Credits Required for the Program: 26

*Recommended General Education courses:
Area 3: MTH 152
Area 4: PHY 105 (pre-requisite for ARC 210)

Note: Please check course descriptions for pre and co-requisites

Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.
Computer Aided Drafting (CVCADA)  
Advanced Certificate

This program prepares you for jobs as a CAD Designer/Drafter where you will prepare CAD-based models of assemblies and details by working from rough sketches, specifications, catalogs, existing CAD parts and models, and calculations provided by engineers and designers. The program provides you with the skills to generate complete and accurate assembly and detail drawings using industry conventions for manufacturability and economy. You also get credits that can be applied toward the Associate Degree in Computer-Aided drafting and Design.

Business and Computer Technologies Division  
Drafting Department

Advisors: Michael McGraw, Belinda McGuire,  
Barry Swan

Program Admission Requirements:
• Completion of the Computer Aided Drafting Certificate (CTCADC)

Major/Area Requirements (22 Credits)

Mechanical Design (CPMDES)  
Post-Associate Certificate

This program provides advanced skills in the development, modification, and analysis of solid model parts and assemblies. The program gives you the skills to create complex three-dimensional free form surfaces based on mathematical concepts and equations using the tools within the SDRC I-DEAS Master Series. You must have an associate's degree in CAD-Drafting, or equivalent industry experience to enroll in this program.

Business and Computer Technologies Division  
Drafting Department

Advisor: Belinda McGuire

Program Admission Requirements:
Successful completion of an associate degree or higher in CAD-Drafting, or related industry experience.

Electronics

Electronics Technology (CTELE)  
Certificate

This program prepares you for entry-level jobs in almost any of the electricity/electronics cluster of occupations, where you will be expected to be skilled in the installation, maintenance, and troubleshooting of personal computers, electric motors and motor controls; and in relating to customers, managers, and co-workers.

Business and Computer Technologies Division  
Electricity/Electronics Department

Advisors: William Cleary, Gary Downen, Dale Petty

Program Admission Requirements:
- Two years of high school algebra with a grade of “C” or better, or MTH 169, or a score of 66 on the COMPASS Algebra test on math placement test
- One year of high school operating system with a grade of “C” or better, or CIS 117, or permission of the program advisor

Major/Area Requirements  
(27 Credits)

ELE 111  Electrical Fundamentals..................4
ELE 134  Motors and Controls ....................4
ELE 137  Switching Logic.........................4
ELE 139  Microprocessors.........................4
ELE 150  PC Hardware Concepts and Troubleshooting...4
ELE 209  Operational Amplifiers..................2
ELE 211  Basic Electronics.........................4
Choose: ELE 174 ELE Co-op Education I or  
ELE 299 Customer Relations .....................1

Minimum Credits Required for the Program: 27

Engineering Technology

Mechanical/Manufacturing Engineering Technology (APMETT)  
Associate in Applied Science Degree

This program prepares you for jobs in which you support technical and engineering activities in both business and industry settings by using engineering design methods and analysis techniques to improve products, processes, and systems. You also get credit that transfers to Engineering Science and Engineering Technology Programs at four-year colleges and universities. The curriculum of this program is based on engineering theory but emphasis is placed on application, implementation skills, and computer modeling.

Business and Computer Technologies Division  
Drafting Department

Advisor: Frank Gerlitz

Articulation:
- University of Toledo, Engineering Technology program
- University of Michigan Dearborn, College of Engineering and Computer Science, Bachelor of Science in Engineering (BSE) in Manufacturing Engineering or Mechanical Engineering

Program Admission Requirements:
The following high school courses or equivalents must be completed with a grade of “C” or better:

Major/Area Requirements  
(27 Credits)
• Two years of high school algebra and precalculus and one semester of high school trigonometry or MTH 178 or a minimum score of 46 on the COMPASS Trigonometry test
• High school chemistry or CEM 057 or CEM 105

Additional Requirements:
• Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Footnotes:
* See your program advisor to get approval for all technical electives. Choose technical electives from the following disciplines:
  - Architectronics (ARC)
  - Auto Body Repair (ABR)
  - Automotive Service (ASV)
  - Computer Aided Drafting (CAD)
  - Construction Technology (CON)
  - Electricity/Electronics (ELE)
  - Fluid Power (FLP)
  - Heating (HTG)
  - Industrial Drafting & Design (IDD)
  - Journeyperson Upgrade (JUG)
  - Machine Tool Technology (MTT)
  - Mechanical Engineering (MET)
  - Numerical Control (NCT)
  - Photography (PHO)
  - Refrigeration/Air Conditioning (RAC)
  - Robotics (ROB)
  - Trade-Related Instruction (TRI)
  - Welding and Fabrication (WAF)

---

**Industrial Technology Programs**

**Fluid Power (CTFLPC) Certificate**

This program prepares you for jobs as an industrial hydraulic or pneumatic technician where you will interpret ANSI and ISO schematic circuits while building and troubleshooting basic industrial systems. The program gives you an understanding of both hydraulic and pneumatic systems and prepares you to take the “Industrial Hydraulic Technician” or “Pneumatic Technician” certification exams offered through the Fluid Power Society. These are internationally recognized certifications.

Fluid Power (CVFLPA) 
Advanced Certificate

This program is a continuation of the Fluid Power Certificate program and prepares you for higher level positions as a hydraulic specialist. The program gives you an understanding of system design including motion control, using electro-hydraulic proportional and servo valves. You will also be prepared to take the “Hydraulic Specialist” certification examination through the Fluid Power Society.

Health and Applied Technologies Division

Machine Operator (CTMOC) 
Certificate

This program prepares you for entry-level jobs as a semi-skilled operator of numerical controlled and conventional machine tools. Machine operators load tooling and locate parts and fixtures for CNC machining centers and turning machines and perform basic operations on conventional machine tools. This program gives you skills in using precision measuring instruments to gage parts produced and adjust machines to maintain the size and shape of produced parts. Using state of the art equipment, you will become proficient in basic conventional machine tool operation and setup, as well as manual programming of numerical controlled machine tools. This program also provides the foundation for advanced study in the Machine Tool Technology Advanced Certificate program or in the Numerical Control Programming Advanced Certificate program.

Health and Applied Technologies Division 
Industrial Technology Department

Advisor: Roger Dick

Major/Area Requirements (15 Credits)
- MTT 111 Machine Shop Theory and Practice ..................5
- NCT 112 Introduction to CNC Machining ..........................5
- NCT 121 Manual Programming and NC Tool Operation ...........5

Minimum Credits Required for the Program: 15
Machine Tool Technology (CVMTTA)

Advanced Certificate

This program prepares you for manufacturing jobs where you will use advanced machine tool setups for the manufacture of non-production parts or prototype parts for industry. This program provides advanced skills in the use of tool room lathes, mills, precision grinders, and sophisticated measuring instruments. You will learn machining operations through the production of parts, on modern conventional mills, lathes, and grinding equipment in WCC’s extensive machine tool laboratory. Opportunities for employment in the machine tool industry are great. This program can launch you into skilled occupations such as an apprentice tool and diemaker or machinist.

Health and Applied Technologies Division
Industrial Technology Department

Advisor: Roger Dick

Program Admission Requirements:
Successful completion of the Machine Operator Certificate (CTMOC) or equivalent industry experience.

Major/Area Requirements (12 Credits)
MTT 202 Machine Tool Operations and Set-Up I ............... 4
MTT 203 Machine Tool Operations and Set-Up II.............. 4
MTT 210 Machine Tool Technology .................................. 4

Minimum Credits Required for the Program: 12

Machine Tool Technology (APMTTM)
Associate in Applied Science Degree

Some employers require or prefer employees to have an associate degree as a condition for employment or for advancement. You can earn an Associate in Applied Science degree in Machine Tool Technology by completing the requirements listed below.

Health and Applied Technologies Division
Industrial Technology Department

Advisor: Roger Dick

Additional Requirements:
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Numerical Control Programming (CVNCP)

Advanced Certificate

This program prepares you for jobs as a numerical control operator or programmer, jobs that are currently in high demand due to the widespread use of CNC machine tools in industry today. The program gives you skills in manual and computer assisted programming languages, using CAD/CAM software to program challenging and complex 2, 3, and 4-axis CNC machine tool operations. You also will become proficient in the interpretation of engineering drawings, visualization of machine operations, and the setup requirements of numerical controlled machine tools.

Health and Applied Technologies Division
Industrial Technology Department

Advisor: Roger Dick

Program Admission Requirements:
Successful completion of the Machine Operator Certificate (MOC) or equivalent industry experience.

Major/Area Requirements (17 Credits)
NCT 221 Advanced Manual Programming and NC Tool Operation..................................................... 5
NCT 236 SURFCAM 2 Axis CNC Programming .................. 4
NCT 247 SURFCAM 3 Axis CNC Programming .................. 4
NCT 249 Mastercam CNC Programming .......................... 4

Minimum Credits Required for the Program: 17
Numerical Control Programming
(APNCPM)
Associate in Applied Science Degree

Some employers require or prefer employees to have an associate degree as a condition for employment or for advancement. You can earn an Associate in Applied Science degree in Numerical Control Programming by completing the requirements listed below.

Health and Applied Technologies Division
Industrial Technology Department

Advisor: Roger Dick

Additional Requirements:
• Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Requirements
1. Complete the Machine Operator Certificate (CTMOC) ..15
2. Complete the Numerical Control Advanced Certificate (CVNCP) .................................................................17
3. *Complete an additional 10 credit hours in the disciplines of NCT, MTT, IDD, QCT, ROB and/or CAD..........10
4. Complete the General Education Requirements for the AAS Degree .........................................................18-21

Minimum Credits Required for the Program: 60

Footnotes:
*See your advisor to select appropriate electives

Robotics (CTROBC)
Certificate

This program gives you basic entry-level skills for jobs in industries using robotics and automation. This program provides a basic understanding of robot programming including using electrical sensors, inputs, and outputs and a fundamental understanding of work cells and peripheral pneumatic and hydraulic equipment. You also get twenty credits that can be applied toward WCC’s Robotic Technology Associate in Applied Science degree program.

Health and Applied Technologies Division
Industrial Technology Department

Advisor: Gary Schultz

Major/Area Requirements (20 Credits)
ELE 111 Electrical Fundamentals .........................4
ELE 137 Switching Logic .........................................4
FLP 111 Fluid Power Fundamentals .......................4
ROB 121 Robotics I ..................................................4
ROB 212 Robotics II ................................................4

Minimum Credits Required for the Program: 20

Robotic Technology (APROB)
Associate in Applied Science Degree

This program prepares you for entry-level positions as an automated equipment technician who assembles, installs, programs, troubleshoots, and maintains robotic equipment. You will use hand tools, testing instruments, and diagrams to work on electrical and electronic, electro-mechanical, pneumatic, and hydraulic components in computer-assisted machinery.

Health and Applied Technologies Division
Industrial Technology Department

Advisor: Gary Schultz

Program Admission Requirements:
The following high school course or equivalent WCC course should be completed with a grade of “C” or better:
• One year of high school algebra or MTH 097 or MTH 151 or minimum COMPASS Algebra score of 46

Additional Requirements:
• Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.
General Education Requirements (20-21 Credits)

Technical Communication

Scientific and Technical Communication (APSTC)

Associate in Applied Science Degree

This program prepares you for staff positions and freelance writing opportunities where your ability to convey complex scientific and technical information precisely, accurately, and clearly determines your success. This program gives you the opportunity to customize your program with specialty courses from business, technical, or scientific disciplines.

Humanities and Social Science Division

English/Writing Department

Advisor: Lisa Veasey

Program Admission Requirements:
The following high school or college courses must be completed with a grade of “C” or better:
• One year of high school algebra or MTH 097 or a minimum COMPASS Algebra score of 46
• A high school course in MAC Graphics or GDT 105 (Students who have industry experience may see the program advisor for permission to waive this requirement.)

Additional Requirements:
• Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

General Education Requirements (20-21 Credits)

ENG 100 Communication Skills ......................................4
MTH 160 Basic Statistics ..........................................4
Choose: COM 101 Fundamentals of Speaking or
COM 102 Interpersonal Communication ....................3
Elective Area 4: Natural Science Group I.........................3-4
Elective Area 5: Social and Behavioral Science Group I ....3
Elective Area 6: Arts and Humanities Group I..................3

Major/Area Requirements (25 Credits)

BOS 157 Word Processing Applications I.........................2
BOS 257 Word Processing Applications II .........................2
ENG 107 Technical Communication ................................3
ENG 208 Advanced Technical Communication I...............3
ENG 209 Advanced Technical Communication II ...............3
GDT 100 Typography I ................................................4
INP 150 Basic HTML ................................................2
INP 210 Internet Professional I ....................................3
Choose: CIS 100 Introduction to Software Applications or
CIS 110 Intro to Computer Information Systems 3

Required Support Courses (17 Credits)

ENG 245 Career Practices Seminar...............................2
Elective Complete 15 credits of approved electives in one of the specialty areas listed below........................15

Minimum Credits Required for the Program: 62

Students must meet with a program advisor to choose a specialty area and select appropriate courses:

Specialty Areas
Business electives may be chosen from the disciplines of:
Accounting - ACC
Business - BMG
Computer Instruction - CIS and/or CPS
Business Office Systems - BOS

Technical electives may be chosen from the disciplines of:
Automotive Service - ABR and/or ASV
Computer Instruction - CIS, CNT, and/or CPS
Drafting - ARC, CAD, and/or IDD
Electricity/Electronics - ELE and/or ECE
Industrial Technology - FLP, ROB, MET, MTT, and/or NCT
Internet Professional - INP
Visual Arts Technology - GDT, PHO, and/or VID
Welding and Fabrication - WAF

Scientific electives may be chosen from the disciplines of:
Life Sciences - BIO
Mathematics - MTH
Physical Sciences - AST, CEM, GLG, and/or PHY

Graphic Design Technology - Design Option (APGDTD)  
Associate in Applied Science Degree

This program prepares you for a career as a graphic artist with an emphasis in design. Graphic designers work with writers, photographers, printers, and other specialists in the field of graphic communication to communicate, inform, instruct, or sell. You may work on publications, advertising, the Internet, interactive media, exhibit graphics, signage, corporate identity, or packaging. Graphic artists who are skilled in graphics software applications may focus more on the technical aspects of assembling and preparing materials for print and/or electronic media distribution. The program focuses on developing your skills in basic design theory, typography, the major graphic design software applications, concept development, and knowledge of production techniques for print and electronic media as exhibited in a portfolio. Creative and artistic ability is required for careers in graphic design, as well as originality and capacity for experimentation in visual problem solving.

Business and Computer Technologies Division  
Visual Arts Technology Department

Advisors: Lind Babcock, Dennis Guastella, Kristine Willmann

Program Admission Requirements:
Students should complete the following high school or equivalent WCC course with a grade of “C” or better:

- A high school course in Macintosh graphics or GDT 105

Additional Requirements:
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

General Education Requirements (18-21 Credits)

| Elective 1 | Area 1: Writing .........................................................3-4 |

Graphic Design Technology - Illustration (APGDTI)

Associate in Applied Science Degree

This program prepares you for entry into a variety of illustration occupations. You could work for manufacturing, engineering, or technology firms; newspaper art departments; design studios; Web companies; magazine and book publishers; and advertising agencies or you could work as a freelance illustrator. You will use a variety of media and methods, including traditional as well as computer-based illustration, with the purpose of producing a portfolio of professional illustrations. The illustration curriculum prepares you to develop an understanding of the visualization process used for arriving at unique and creative ideas, enables you to decipher and illustrate technical information with accuracy and attention to detail, as well as prepares you to present visual ideas in an expressive manner.

Photography Programs

Basic Photographic Imaging (CTBPHO)

Certificate

This program prepares you for entry-level positions in photographic sales or processing. You will acquire skills in the use of 35 mm and medium format cameras. You will also learn studio lighting and image production in a darkroom and using a computer. The program also gives you credits that can be applied toward a degree in photography.

## Photographic Technology (APPHOT)
### Associate in Applied Science Degree

This program prepares you for work in a variety of photographic settings including working as a photographer’s assistant, working in a photolab, and starting your own business. You can tailor the program to your own interests by choosing specialized electives. The program also allows you to explore photography as a means of professional expansion.

## Video Production

### Digital Video Film Production (CFVID) Certificate

This program prepares you for entry-level media production positions in organizations where you will create digitized video productions for Web and other presentation forms that may be used for informational, documentary, instructional, commercial, artistic, or other purposes. The program provides instruction in all facets of video production from program design to hands-on recording through the editing process. You also will gain skills in the use of computer software applications.

General Studies Programs

General Studies in Applied Science (APGSAS)

Associate in Applied Science Degree

This program allows you to design a program of study to meet your individual needs. This may be a good option if you are undecided about your career goals and want to try courses from a variety of career disciplines, or if you want to combine coursework from several areas to prepare for a job that requires multidisciplinary skills. The program also allows you to get an associate's degree by building on a certificate program. You should begin by meeting with a counselor who will assist you in developing a program of study that meets the WCC graduation requirements. A counselor can also help you determine your interests and career and educational goals as well as provide transfer and career information.

Advisors: See a counselor in the Counseling, Career Planning and Placement Office or consult with a faculty advisor from the career area in which you are interested.

Additional Requirements:
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Requirements
1. Complete the general Education Requirements for the Associate in Applied Science Degree ..................................................18-21
2. Complete a minimum of 15 credits in occupational/technical disciplines .................................................................15
3. *Complete the additional coursework as free electives to bring the total to 60 credits ..................................................27

Minimum Credits Required for the Program: 60

Footnotes:
* If in completing this requirement, you complete a Certificate program of 20 credits or more that does not already lead to an AAS degree program, you may request to have the title of your Certificate program substituted for “General Studies” as the title of your degree program.

General Studies in Liberal Arts (AAGSLA)

Associate in Arts Degree

This program allows you to design a program of study to meet your individual needs. This may be a good option if you are undecided about a major or if you simply want to explore various areas in the arts and social sciences. The program also allows you to customize your coursework to the requirements of the senior college or university to which you are transferring. You should begin by meeting with a counselor who will assist you in developing a program of study that meets all of the College’s graduation requirements. A counselor can also help you determine your interests and career and educational goals as well as provide transfer and career information.

Humanities and Social Science Division
Interdepartmental HSS Department

Advisors: See a counselor in the Counseling, Career Planning and Placement Office

Additional Requirements:
- Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Requirements
1. Complete the General Education Requirements for the Associate in Arts Degree ..................................................29-30
2. Complete an additional 15 credits of coursework from the following disciplines: (ANT, ART, COM, DAN, DRA, ECO, ENG, FRN, GEO, GRM, HST, HUM, MUS, PLS, PSY, SOC, SPN, YOG) ..................................................15
3. Complete additional coursework as free electives to bring the program total to 60 credits ..................................................16

Minimum Credits Required for the Program: 60
General Studies in Math and Natural Sciences (ASGSMS)
Associate in Science Degree

This program allows you to design a program of study to meet your individual needs. This may be a good option if you are undecided about a major and want to explore a variety of discipline areas with a concentration in math and natural sciences. The program also allows you to customize your coursework to the requirements of the senior college or university to which you are transferring. You should begin by meeting with a counselor who will assist you in developing a program of study that meets all of the College’s graduation requirements. A counselor can also help you determine your interests and career and educational goals as well as provide transfer and career information.

Math, Natural and Behavioral Sciences Division
Interdepartmental HSS Department

Advisors: See a counselor in the Counseling, Career Planning and Placement Office

Additional Requirements:
• Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Requirements
1. Complete the general Education Requirements for the Associate in Science Degree 25-29
2. Complete an additional 15 credits of coursework from the following disciplines: (AST, BIO, CEM, GLG, MTH, PHY, and SCI) 15
3. Complete additional coursework as free electives to bring the program total to 60 credits 20

Minimum Credits Required for the Program: 60

The programs in this section have special provisions beyond the usual program of study. Some are offered jointly with other educational institutions. The articulated programs allow for earning an associate degree in general studies from WCC and a degree or other award from another institution, by transferring credit from one institution to the other.

Special Programs

Michigan Institute of Aeronautics Reverse Articulated Program

Washtenaw Community College and the Michigan Institute of Aeronautics have agreed that students, who complete a program in Airframe Technician or Powerplant Technician at the Michigan Institute of Aeronautics and earn a Federal Aviation Administration (FAA) license, may transfer forty-five credits to Washtenaw Community College. The 45 credit hours transferred from the Michigan Institute of Aeronautics will apply as Trade Related Instruction (TRI) electives toward the minimum of 60 credit hours required for an Associate in Applied Science degree in General Studies. Students also have to complete all the requirements for the program in General Studies including meeting the general education requirements. Each transfer student from the Michigan Institute of Aeronautics will receive personalized advising at Washtenaw Community College in order to develop an educational plan that will meet the student’s educational goals.

Advisor: Les Pierce

Requirements
1. Complete a program in Airframe Technician or Powerplant Technician at the Michigan Institute of Aeronautics.
2. Pass the examination for a Federal Aviation Administration (FAA) license.
3. File a request with WCC’s Office of Student Records to transfer 45 credits from the Michigan Institute of Aeronautics toward an AAS in General Studies.
4. Complete one course from each of the six General Education Areas for the AAS degree.
5. Fulfill all other graduation requirements for the Associate in Applied Science degree at WCC.
Specs Howard School of Broadcast Arts
Reverse Articulated Program

Washtenaw Community College and Specs Howard School of Broadcast Arts have agreed that a student, who has earned a Diploma of Completion from Specs Howard School of Broadcast Arts, may transfer fifteen credits to Washtenaw Community College toward an Associate in Arts degree in General Studies. The fifteen credits that transfer from Specs Howard will apply as elective credits. In addition the student also will have to complete all the requirements for the program in General Studies including meeting the general education requirements and fifteen credits in a humanities and social science concentration. Each transfer student from Specs Howard will receive personalized advising at WCC in order to develop an educational plan that will meet that student’s individual needs.

Advisor: Robert Kirkland

Requirements:
1. Complete all requirements for the Diploma of Completion from Specs Howard School of Broadcast Arts, Inc.
2. File a request with WCC’s Office of Student Records to transfer fifteen credit hours to WCC from Specs Howard School of Broadcast Arts (15 credits).
3. Complete the General Education requirements for the Associate in Arts degree at WCC (29-30 credits).
4. Complete fifteen credit hours in a concentration (courses from the disciplines of the Humanities and Social Science Division). Complete any additional credits needed to bring the minimum to 60 credit hours.
5. Fulfill all other graduation requirements for the Associate in Arts degree at WCC.
Explanation of Terms

Prerequisites
Prerequisites are preparatory courses or placement tests that must be successfully completed before you are allowed to enroll in a course. The test scores listed are the minimum required scores. Prerequisite courses must be taken before the listed course. However, when the statement “concurrent enrollment is allowed” appears next to a prerequisite it means that, if you have not already successfully completed the prerequisite course, you will be allowed to register for the listed course if you register for the prerequisite course at the same time. It is always preferable to take prerequisite courses first.

All 100 and 200 level courses require the minimum College Level Entrance Scores for reading, writing, and math listed below, except when a specific test score or course prerequisite appears in the course description. In that case, the test score or course prerequisite in the course description only replaces the college level entrance score prerequisite for the same area (reading, writing, or math).

College Level Entrance Scores:

Reading: COMPASS Reading score = 82, or ASSET Reading score = 43, or (ACS 108 with a “C” or better, concurrent enrollment allowed)

Writing: COMPASS Writing score = 72, or ASSET Writing score = 45, or ENG 091 with a “C” or better

Math: COMPASS Prealgebra score = 24, or ASSET Math score = 34, or MTH 039 with an “S” or MTH 054 with a “C” or better

“Consent required” means that in addition to the prerequisites, you must get an instructor’s permission to register for the course.

Corequisites
Corequisite courses must be taken during the same semester as the listed course. Your registration will not proceed if there is a corequisite course for which you are not registered.

Fulfills Core Elements
Each course description lists the Core Elements, if any, that the course fulfills toward meeting the Core Curriculum graduation requirements that were in effect from Fall 1993 through Spring/summer 2000. If you began an associate’s degree program in any semester from Fall 1993 through Spring/summer 2000, you have through Spring/summer 2003 to complete your program using the 24 Core Curriculum Elements. Beginning in Fall 2003 you will be required to meet the new General Education Requirements as a condition for graduation. For a list of courses that meet Elements 13 and 14, see Appendix B.
Academic Skills

ACS 000: ACS Learning Lab 0 Credit
Prerequisites: None
Corequisites: None
0 lecture, 15 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: None

The Academic Skills Learning Lab (LA 111) is available to all students enrolled in ACS courses. It is required for students enrolled in ACS 070, 107, 108, and 109. Students not enrolled in these courses may be referred for individual consultation or practice. The Learning Lab provides instruction and interactive practice in vocabulary and comprehension skills, study skills, speed-reading, and problem analysis. Students are introduced to information retrieval using CD ROM software and the Internet. Students receive immediate feedback and learn to monitor their progress.

ACS 070: Vocabulary and Comprehension Skills 4 Credits
Prerequisites: COMPASS Reading = 51 or ASSET Reading = 35 or REA 050 or ENG 063
Corequisites: ACS 000
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None

This course is designed to strengthen students' active reading skills and includes a college-level vocabulary program. In addition, students develop abstract reasoning skills (e.g., inferencing) in relation to textbook content. Emphasis is placed on test-taking, study skills, and an introduction to the Internet. Upon testing out, a student is prepared for enrollment in WCC's occupational programs and academic courses. Students must enroll for a co-required hour in the ACS Learning Lab. The standard grading scale is used.

ACS 101: Student Success Seminar 1 Credit
Prerequisites: COMPASS Reading = 51 or ASSET Reading = 35 or REA 050 concurrent enrollment allowed
Corequisites: None
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: 7

This is a college survival, college success course. It is recommended for all WCC students, particularly those entering college for the first time, returning after an absence, or interested in improving class performance. Topics include an introduction to the library (LRC), student support services, and good study habits (reading, writing, outlining, note taking, test-taking, and time management). Career and academic goal-setting also are addressed.

ACS 102: Spelling Power 2 Credits
Prerequisites: COMPASS Reading = 82 or ASSET Reading = 43 or (ACS 070 or ACS 108 ≥ “C” concurrent enrollment allowed)
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 7

This course will improve students' spelling through programmed instruction in English phonics, modular textbook materials, and common prefixes, suffixes, and roots. Additional instruction is offered in dictionary skills. This is not a developmental course; students in need of basic spelling and vocabulary skills should take REA 040. Grading is based on the standard grading scale.

ACS 106: Speed Reading 2 Credits
Prerequisites: COMPASS Reading = 82 or ASSET Reading = 43 or ACS 108 ≥ “C” concurrent enrollment allowed
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: None

Designed to improve reading rates, this course may double students' reading speeds (at a minimum) with no loss in comprehension. Students also learn a variety of techniques that enable them to vary their reading speed according to the material and their specific purpose.

ACS 107: College Study Skills & Speed Reading 3 Credits
Prerequisites: COMPASS Reading = 70 or ASSET Reading = 38 or ACS 070 ≥ “C”
Corequisites: ACS 000
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 8 9

This course is designed to assist students with improving their study skills and with developing rapid reading techniques. Instructional units include all the essentials for academic success: learning styles, time management, vocabulary development, textbook reading, note-taking skills, computer literacy, skimming and scanning skills, speed-reading, and test-taking skills. In addition to class time, students will be required to spend one hour per week in the ACS Learning Lab.

ACS 108: Problem Analysis and Critical Thinking Skills 4 Credits
Prerequisites: COMPASS Reading = 80 or ASSET Reading = 41 or ACS 107 ≥ “C”
Corequisites: ACS 000
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 9 10

This course is designed for advanced learners who wish to improve their performance in all academically demanding courses (including math, science, and technology). Analytical, problem-solving and critical thinking skills are enhanced through a variety of instructional units (analogies, serial order, spatial diagrams, etc.), and 15th grade-level textbook selections are used for analysis. A co-required lab hour provides logical reconstruction exercises in the ACS Learning Lab.
**Academic Skills**

**ACS 109: Advanced Vocabulary** 4 Credits
Prerequisites: COMPASS Reading = 70 or ASSET Reading = 38 or (ENG 063 ≥ "C") or (ACS 107 or ACS 108 ≥ "C" concurrent enrollment allowed)
Corequisites: ACS 000
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is a course for advanced learners who wish to increase their knowledge and use of college-level vocabulary. Major areas of emphasis include the study of word derivations, context clues, dictionary skills, and vocabulary acquisition skills. Students must enroll for a co-required hour in the ACS Learning Lab.

**Accounting**

**ACC 100: Fundamentals of Accounting I** 3 Credits
Prerequisites: MTH 090 or COMPASS Pre Algebra = 37
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 5 7 9
This course introduces students to the theory and practice of modern double-entry accounting systems and procedures. Emphasis is placed on journalizing and posting, adjusting and closing books and the preparation of financial statements for both service and merchandising businesses. The class is designed for the non-accounting major. This course is not designed to transfer to four-year colleges. This course was previously ACC 091.

**ACC 101: Fundamentals of Accounting II** 3 Credits
Prerequisites: ACC 100
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 5 7
A continuation of ACC 100, which includes notes, inventories, depreciation, accruals, and end of the year procedures with financial statements. The course addresses partnerships, corporations, statement analysis and interpretation, and is designed for non-accounting majors. The course is not designed to transfer to four-year colleges. This course was previously ACC 092.

**ACC 111: Principles of Accounting I** 3 Credits
Prerequisites: (MTH 163, MTH 169, or MTH 181) or COMPASS Algebra = 46
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 5 7 9
This is an introductory course in accounting principles and theory with emphasis on the accounting cycle, receivables and payables, depreciation, inventories, payroll, deferrals and accruals, systems and controls. It is required of all Accounting majors and Business Administration transfer students.

**ACC 122: Principles of Accounting II** 3 Credits
Prerequisites: ACC 111
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 5 7
A continuation of Principles of Accounting 111 covering partnerships, corporations, statement of cash flows, financial analysis and an introduction to managerial accounting. It is required of all Accounting majors and Business Administration transfer students. Students with experience equivalent to ACC 111 may contact the instructor for permission to waive the pre-requisite.

**ACC 131: Computer Applications in Accounting** 3 Credits
Prerequisites: ACC 100 or ACC 111 (concurrent enrollment allowed)
Corequisites: None
15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 4 5 7 8 9 11
Accounting applications (spreadsheet, general ledger, accounts receivable, accounts payable, depreciation and payroll) are presented and mastered on the microcomputer in such a manner that no prior knowledge of microcomputers is required. This course does not teach computer programming, but is intended to train students to become intelligent users of accounting software on the microcomputer. The pre-requisite may be (concurrent enrollment allowed) with this course.

**ACC 174: ACC Co-op Education I** 1-3 Credits
Prerequisites: Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
Fulfills Core Elements: None
In this course, students gain skills from a new experience in an approved, compensated, business-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the first of two Co-op courses. Students must have taken at least two ACC courses prior to this course. Instructor consent is required to register for this course.

**ACC 213: Intermediate Accounting** 3 Credits
Prerequisites: ACC 122
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 5 7 8 9
This course is a continuation of the study of generally accepted accounting principles as they pertain to the valuation and classification of current assets, plant assets intangible assets, and current liabilities. Students with experience equivalent to ACC 122 may contact the instructor for permission to waive the pre-requisite.
ACC 220: Financial Planning, Budget, and Control  3 Credits
Prerequisites: MTH 163 or COMPASS Algebra = 46
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 5   6
This course is intended for those students who are responsible for spending decisions and allocating company resources in pursuit of the organizational goals. The course explores the accounting and budgeting process and the use of reports generated from these processes to analyze, monitor, and control the monetary impact of business activity on the organization as a whole.

ACC 225: Managerial Cost Accounting  3 Credits
Prerequisites: ACC 122
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 5   7   9
Principles and procedures for measuring and controlling costs are discussed as well as cost-volume profit relationships, job order accounting, budgets, standard costs, relevant costs, and process accounting. This course is required of Accounting majors and is offered in the Winter Semester only. Students who have experience equivalent to ACC 122 may contact the instructor for permission to waive the pre-requisite.

ACC 274: ACC Co-op Education II  1-3 Credits
Prerequisites: ACC 174
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
This is the second of two co-op courses in which students gain skills from a new experience in an approved, compensated, business-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. Instructor consent is required to register for this course.

ANT 201: Introduction to Cultural Anthropology  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7  13  21  24
This course explores the way our species lives and has lived. It begins with the hunting and gathering level of cultural development and ends with the origin of the state. Contemporary peasants are also studied. This course is also taught as a television course.

ARC 099: Basic Architectural CAD  2 Credits
Prerequisites: (COMPASS Reading = 70 or ACS 070 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091 concurrent enrollment allowed)
Corequisites: None
30 lecture, 15 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is a course in which the student learns the basic techniques to use CAD in the construction planning disciplines. This course is designed for the person who has never used CAD, intends to update skills to upgraded release and eventually intends to use CAD as a tool to produce architectural documents. Featured is the AutoCAD software but additional CAD software as available may be used to complete the course assignments with instructor permission. Intended as a prerequisite for ARC drawing courses.

ARC 109: Site Layout  3 Credits
Prerequisites: ARC 213
Corequisites: None
45 lecture, 90 lab, 0 clinical, 0 other, 135 total contact hours
Fulfills Core Elements: 5   7  18
This lecture and field course deals with the principles of site layout of construction projects. Approved site plans, builders level transit, tape chain and preferred equipment are demonstrated and used.

ARC 111: Architectural Drawing I  6 Credits
Prerequisites: ARC 117 (concurrent enrollment allowed)
Corequisites: None
45 lecture, 90 lab, 0 clinical, 0 other, 135 total contact hours
Fulfills Core Elements: 5   8  18  19
An introduction is provided to light frame construction and requirements including the preparation of working drawings for the construction of structures classified as Light Frame Structures.
**ARC 117: Construction Materials**  
3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 9

A survey is provided of typical types of materials used in building construction. Emphasis is placed on the properties, selection and building techniques appropriate for a wide range of materials. Included are woods, metals, plastics, clay, gypsum, glass and aggregate materials.

**ARC 120: Mechanical & Electrical Systems for Buildings**  
3 Credits  
Prerequisites: ARC 111  
Corequisites: None  
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: 4, 7, 9, 15, 18, 19

The drafting of mechanical and electrical systems in buildings from prepared design data is emphasized. This is a laboratory course with lectures related to the laboratory. Students must have drafting instruments.

**ARC 122: Architectural Drawing II**  
6 Credits  
Prerequisites: ARC 099 and (ARC 120 (concurrent enrollment allowed))  
Corequisites: None  
45 lecture, 90 lab, 0 clinical, 0 other, 135 total contact hours  
Fulfills Core Elements: 5, 7, 20

The preparation of architectural presentation drawings from diagrammatic sketches, pictures, surveys and conference notes is included in this course. The student is taught to develop preliminary studies, presentation drawings and working drawings for an architectural project utilizing masonry construction. Students who have experience equivalent to ARC 099 may contact the instructor for permission to waive the pre-requisites.

**ARC 150: Presentation Drawings and Models**  
4 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours  
Fulfills Core Elements: 7, 9, 18

The emphasis in this course includes manual skills to make perspective drawings for pictorial presentation, scale models showing site conditions with topography, simple methods for rendering drawings, shades and shadows on architectural drawings, and photographs of models for simulated comparison of proposed building to proposed building site.

**ARC 174: ARC Co-op Education I**  
1-3 Credits  
Prerequisites: ARC 111 and ARC 117 and Consent required  
Corequisites: None  
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours  
Fulfills Core Elements: None

In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, the student sets up work assignments and learning objectives to connect classroom learning with career-related work experience. Instructor consent is required to register for this course.

**ARC 210: Structure in Architecture**  
2 Credits  
Prerequisites: ARC 122 and PHY 105  
Corequisites: None  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
Fulfills Core Elements: 5, 7, 19

This class provides an introduction to the use of structural systems (steel, timber, and reinforced concrete, etc.). Design fundamentals of simple structural components are emphasized.

**ARC 213: Architectural Drawing III**  
6 Credits  
Prerequisites: ARC 210 (concurrent enrollment allowed)  
Corequisites: None  
30 lecture, 105 lab, 0 clinical, 0 other, 135 total contact hours  
Fulfills Core Elements: 7, 8

Major problems in architectural detailing are studied through the preparation of drawings and details for a moderate sized building such as a school or church. The option to use a computer for drafting tasks is provided, with instructor consent. Choice of software features AutoCAD AEC, Data CAD, and Micro Station PC.

**ARC 218: 3D Presentation/CAD**  
3 Credits  
Prerequisites: ARC 122  
Corequisites: None  
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: None

In this course students develop computer skills to produce perspective drawings for pictorial presentation, 3D solid modeling, and raster image insertion for site conditions and topography. Simple computer methods for rendering views, shades and shadows on architectural drawings are covered. Visual Reality/Renderize Live, 3D Studio, or equivalent software is used.

**ARC 219: Architectural Engineering and Construction CAD**  
3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: None

Lectures, demonstrations, research and primarily guided lab practice introduce the latest techniques that CAD systems employ to assist in the preparation of presentation, construction and detail drawings. Software featured includes base packages and 3R party applications as available. Features Microstation, AutoCAD or DataCAD or any combination.

**ARC 224: Architectural Drawing IV**  
6 Credits  
Prerequisites: ARC 213 and (ARC 109 concurrent enrollment allowed)  
Corequisites: None  
30 lecture, 105 lab, 0 clinical, 0 other, 135 total contact hours  
Fulfills Core Elements: 1, 5, 7, 8, 9, 11, 12, 18, 19

Major problems in architectural drawing are studied through the preparation of programs and drawings for a large size building project such as a shopping center or multi-story structure. Choice of software features AutoCAD AEC, DataCAD, and Micro Station PC.
ART 227: Estimating Construction Costs    3 Credits
Prerequisites: ARC 213 (concurrent enrollment allowed)
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 5 7 9 18
This course provides an introduction to the field of estimating construction costs for building construction projects and includes advanced topics such as computer estimating software selection and researching methods and techniques employed by construction estimators. Analysis of quantitative survey methods of estimating materials, labor, equipment, overhead and profit are included and discussed.

ARC 274: ARC Co-op Education II    1-3 Credits
Prerequisites: ARC 174 and Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and the employer, students determine work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two co-op courses. Instructor consent is required to register for this course.

ART 101: Drawing and Painting    3 Credits
Prerequisites: None
Corequisites: None
15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 13
This class is a user-friendly introduction to art for students with no previous studio experience. Instruction is provided in the fundamentals of color and composition. This course is not intended to take the place of ART 111 or ART 114.

ART 102: Color    4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 13
Color is not what it seems to be. Through a series of experiments using colored papers, students will investigate the elusive behavior of color. Students will develop sensitivity to color so that it can be used effectively in every area.

ART 111: Basic Drawing I    4 Credits
Prerequisites: None
Corequisites: None
15 lecture, 75 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 8 9 13
This course is an introduction to the central problems and issues of freehand drawing. Accurate representational drawing is emphasized through a series of projects concentrating on simple objects. The course is recommended for students who plan to continue in art at WCC or to transfer to another college or university.

ART 112: Basic Design I    4 Credits
Prerequisites: None
Corequisites: None
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 9 13
This studio course uses a broad range of exercises and materials to involve the student in two and three dimensional design experiences. Its objective is to develop careful seeing and analytical thinking that can be applied to all areas of the visual arts. This course is recommended for students who are planning to continue at WCC or to transfer into other art programs.

ART 114: Painting I    4 Credits
Prerequisites: None
Corequisites: None
0 lecture, 90 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 9 13
An analytical approach to the fundamental problems and issues of painting, with emphasis on composition and the articulation of volume in space.

ART 120: Portrait Painting and Life Drawing    4 Credits
Prerequisites: None
Corequisites: None
0 lecture, 90 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7
Working from live models, students study anatomy, techniques in drawing, pastel painting and visual expression; multi-media; philosophy and envisioning. It is preferred, although not required, that students have some art background. Interest is critical.

ART 122: Basic Drawing II    4 Credits
Prerequisites: ART 111
Corequisites: None
0 lecture, 90 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 9 13
Complex problems of drawing are explored with greater emphasis placed on individual solutions. Several new media are introduced.
ART 125: Painting II 4 Credits
Prerequisites: ART 114
Corequisites: None
90 lecture, 0 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 9 13
Further exploration of the fundamental problems and issues of painting, with greater emphasis on individual development.

ART 130: Art Appreciation 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 10 13
An inquiry into the ways in which art reflects, extends and shapes experience. The course investigates art of the past and present, seeing in it a statement of our human condition. This is an academic course involving textbook, class discussions, short papers, and projects.

ART 140: Life Drawing 4 Credits
Prerequisites: None
Corequisites: None
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 8 13
This class will provide instruction in basic approaches to drawing the nude. We will begin with quick gesture drawing, and move gradually toward longer poses. Emphasis is on analyzing the figure in terms of its simple, solid, underlying forms.

ART 143: Art and Culture of Afro-America 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 13
This course prepares students to participate in and appreciate the arts (visual, dance, music, film, poetry, literature) of African and Afro-American people. Perspectives and definitions that differ from Western values and standards are presented. The anthropological approach is used to recognize the importance of history in understanding the present. Multi-media methods, skill development and aesthetic competence are emphasized.

ART 150: Monuments from Around the World 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 2 3 7 10 13 14 24
In this course various monuments around the world will be explored and analyzed for their significance as part of a particular civilization, religion, or culture. Specific rituals, traditions, myths and beliefs will be discussed as well as scientific, philosophical, and art historical implications for our contemporary world. A field trip will be included. Students will express themselves orally and in writing about different cultures and ideas. Emphasis is put on tolerance and the appreciation of difference and equality.

Astronomy

AST 100: Introductory Astronomy 1 Credit
Prerequisites: College Level Entrance Scores
Corequisites: None
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: 7 15 17
An introduction to objects seen in the sky, with some opportunity for direct observation when weather permits. Astronomy is presented as a hobby as well as a basic science. No prior knowledge of astronomy is required.

AST 111: General Astronomy 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 7 10 15 17
This is a survey course of the solar system and the universe designed for both transfer and vocational students. No previous mathematics or science is required. Topics include: the sun, moon and planets; Ptolemaic and Copernican systems; seasonal changes in the sky and modern ideas growing from early beliefs in astrology.

Auto Body Repair

ABR 111: Auto Body I - Repair Fundamentals 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
15 lecture, 105 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 7 9 18
This course involves repairing damaged body panels, studying the working properties of automobile sheet metal, analyzing typical damage conditions, and understanding accepted repair procedures. Included is an introduction to basic welding skills used in auto body repair.

ABR 112: Auto Body Fundamentals II 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 7 9 18
Methods and procedures used with automobile refinishing materials are covered in this course. Also included is information on using conventional finishes such as acrylic lacquers and enamels as well as modern basecoat/clearcoat, urethane, and tri-coat finishes.
ABR 113: Applied Body Welding & Estimation  4 Credits
Prerequisites: ABR 111
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 7 9 18 19
This course introduces the basics of welding skills used in auto body repair. It also reviews the use of flat-rate manuals to determine parts and labor costs in estimating damaged automobiles with an emphasis on procedures used to establish complete and accurate prices in the preparation of estimates.

ABR 115: Classic Auto Restoration I  4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 18
This course covers vehicle construction, as well as working properties of automotive sheet metal. Emphasis is on removal, replacement, and alignment procedures for bolted on trim, hardware, and body panels (exterior and interior). Types of welded joints used to repair or replace damaged panels are included with an emphasis on lead filling and metal finishing without the use of filler material. Reconditioning of metal parts through sand blasting and media blasting techniques will be studied.

ABR 117: Classic Auto Restoration II  4 Credits
Prerequisites: ABR 115
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None
This is a continuation of ABR 116. Lab work on vehicles being completely restored takes place. Complete exploration of the restoration process is made on individual as well as group and class projects. The use of manuals, literature, and the Internet to locate replacement parts and panels as well as cost estimation is taught. Emphasis is on quality and workmanship.

ABR 123: Auto Body Repair Applications  4 Credits
Prerequisites: ABR 111
Corequisites: None
0 lecture, 120 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 7 9 18 19
This is a continuation of ABR 111. Lab work includes actual repairs to automobiles to develop basic bumping skills. Emphasis is placed on quality and excellent work habits. Included is the proper use of hydraulic equipment during the repair of collision damage.

ABR 124: Auto Refinishing Applications  4 Credits
Prerequisites: ABR 112
Corequisites: None
15 lecture, 105 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 7 9 18
This is a continuation of ABR 112. Lab assignments on actual automobiles provide an opportunity to improve skills in matching high metallic colors using modern spot repair and color blending techniques, as well as overall refinishing. Emphasis is placed on solving paint problems and the proper detailing necessary to achieve repairs that meet trade standards.

ABR 126: Fundamentals of Frame and Body Alignment  2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 7 9 18
This course provides an opportunity to work with common types of body frame damage and the equipment used to make repairs. Laboratory assignments include use of frame gauges and portable body-frame straightening equipment to make a diagnosis and set up corrective hook-ups.

ABR 129: Auto Restoration-Final Paint and Assembly to Show  4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None
Students finish the final painting, assembly, and functional and cosmetic detailing of a vintage automobile for display at a school exhibit. Fenders and running boards are repaired and trial-fitted, then painted. All systems of this newly restored automobile are adjusted, checked, and tested. Students are instructed on final assembly and detailing to show standards.

ABR 130: Custom Painting  3 Credits
Prerequisites: ABR 112
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 7 9
This course provides students with an understanding of the art of custom painting. Students work with the tools and techniques used in the field. The course covers the use of special effect colors such as pearls and candies. Students use airbrushes, pinstripe brushes, and lettering brushes. Murals, graphics, appliqués, and etching are also covered.

ABR 131: Advanced Custom Painting  2 Credits
Prerequisites: ABR 130
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 7 9
This class is a continuation of methods and procedures used in automotive custom painting. Lab assignments on actual automobiles provide an opportunity to improve skills in pin striping, color design coordination, lettering on automobiles, mural development, and the use of specific effect color and related materials.

ABR 134: Auto Graphics  2 Credits
Prerequisites: ABR 112 and ABR 130
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 7 8 9
This class is a continuation of methods and procedures used in automotive custom painting. Lab assignments on actual cars provide an opportunity to develop skills in graphic application, color design coordination, special effect colors, and layout transfer.
ABR 174: ABR Co-op Education I  
1-3 Credits
Prerequisites: ABR 112 and ABR 113 and Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
Fulfills Core Elements: None

In this course, students gain skills from a new experience in an approved, compensated position in the field of auto body repair. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the first of two possible co-op experiences. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

ABR 215: Classic Auto Restoration III  
4 Credits
Prerequisites: ABR 115 and ABR 117
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None

This course focuses on restoration of interior and exterior trim and hardware including headliners, dash panels, sets, carpet, glass, hood ornaments, body side moldings, and bumpers. Students gain the skills to assemble a classic car properly with emphasis on details and quality.

ABR 217: Classic Auto Restoration IV  
4 Credits
Prerequisites: ABR 215
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None

This course focuses on advanced skills in automotive welding techniques. Students learn advanced skills in shaping metal to form the parts to replace original damaged parts on classic cars. Advanced projects are completed on student’s own vehicle or one provided by the school.

ABR 219: Advanced Auto Body I: Major Repair  
4 Credits
Prerequisites: ABR 123 and ABR 124
Corequisites: None
15 lecture, 105 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 7 9 18 19

This course covers the use of hydraulic jacking equipment to repair damaged sheet metal and body shells. Advanced welding techniques and fine tuning MIG/TIG welders for use on aluminum panels is included. Lab work includes set-up of typical push or pull operations and straightening procedures used on collision damage.

ABR 224: Advanced Auto Body II:  
Auto Refinishing Fundamentals  
4 Credits
Prerequisites: ABR 123 and ABR 124
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None

This course provides students with the skills to use paint repair applications on collision-damaged vehicles. Included is theory of paint blending, and planning and set-up of single and multi-stage blend repairs. Emphasis is on assecoat/ clearcoat finishes and tri-coat finishes. Students learn the characteristics of color and how to apply knowledge of color movement and tint to obtain blend-able color matches. Lab assignments include set-up of paint mixing stations and plotting solid and metallic colors.

ABR 226: Advanced Auto Body III:  
Frame/Unibody Alignment  
4 Credits
Prerequisites: ABR 224
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 7 8 9 18

This course covers the repair of structurally damaged conventional framed, unitized automobiles and light trucks. Included is a detailed study of body and frame construction, diagnostic procedures, repair techniques and structural parts replacement using conventional and computerized laser measuring equipment.

ABR 229: Advanced Auto Body IV:  
Major Repair Applications  
4 Credits
Prerequisites: ABR 219
Corequisites: None
40 lecture, 80 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None

This course provides a detailed study of the automobile body that includes the use of hydraulic jacks, suspension and alignment tools, auto-electric equipment, and heating and air conditioning tools. Electrical theory, alignment and suspension theory, and application knowledge of air conditioning theory are covered. Lab assignments include full or partial panel replacement including the replacement of structural stationary glass. Work is done on collision-damaged vehicles provided by the school or students' own vehicles.

ABR 230: Advanced Auto Body V:  
Advanced Auto Refinish Applications  
4 Credits
Prerequisites: ABR 224
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 7 8 9

In this class, students utilize periods of concentrated effort on specific assignments in selected areas of the auto body repair field. Students work with instructor consultation to demonstrate development within the assigned area of general collision service, body shop organization and management, or estimating automobile physical damage.

ABR 274: ABR Co-op Education II  
1-3 Credits
Prerequisites: ABR 174 and Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
Fulfills Core Elements: None

In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two Co-op courses.
This course is designed for the non-professional. The course explains the basic theory and inspection techniques that are helpful when buying or maintaining a car. Students are encouraged to inspect their vehicles, identify problems and make good decisions about what repairs they can perform. Consumer rights are discussed and good communication techniques with the repair facilities are presented. This course is designed and tailored to accommodate the needs of the beginning and experienced automobile owner. Some of the systems covered are: lubrication, heating and cooling, suspension and steering, brake systems, fuel systems and drivetrains.

ASV 112: Vintage Automobile Engine Rebuilding 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This course is for the automobile restoration enthusiast and prospective professional who wants to learn how to rebuild a vintage engine. The focus is on engines pre-dating emission control and electronic engine management technology. Engine tear-down, cleaning, inspection, measuring, sourcing, specifying, and obtaining quality machining services, inspection of replacement parts, and reassembly are emphasized. A variety of engine designs and materials are compared and contrasted.

ASV 114: Vintage Auto Engine - Final Assembly & Initial Operation 2 Credits
Prerequisites: ASV 112
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This course provides instruction and hands-on experience in the final assembly, installation, and initial set-up and tuning of a freshly rebuilt vintage engine. Although primarily for students who have completed ASV 112, students who have equivalent work experience may contact the instructor for permission to waive the pre-requisite.

ASV 120: Engine Performance 1 Credit
Prerequisites: Michigan Certificate in Engine Performance
Corequisites: None
16 lecture, 0 lab, 0 clinical, 0 other, 16 total contact hours
Fulfills Core Elements: None
This course is for mechanics with Michigan Certification in the engine performance area, who want to maintain their certification. Recertification is granted if class is passed.

ASV 126: Electrical Systems 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 7 9 18 19
Building on the skills developed in ASV 116, students explore electronic and computerized ignition, starting systems and charging systems. This is the middle class in a three-course sequence designed for in-depth understanding and skill development. It is strongly recommended that the first semester classes be completed prior to enrolling in this class.

ASV 141: Automotive Mechanics I 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 18
This is one of four courses required for the Automotive Technology Certificate. Students perform preventative maintenance procedures, basic engine systems repairs, basic electrical system testing, and chassis component inspections. Instruction stresses hands-on work and preparation for the State of Michigan Mechanics Exams.

ASV 142: Automotive Mechanics II 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This is one of four courses required for the Automotive Technology Certificate. This course teaches students suspension system service, drive line service, electrical troubleshooting techniques, and basic fuel systems testing. Instruction stresses live work and preparation for State of Michigan Mechanics Exam.

ASV 143: Automotive Mechanics III 4 Credits
Prerequisites: ASV 141
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None
This is one of four courses required for the Automotive Technology Certificate. In this course, students learn to perform brake system service and basic emission testing. Students who have equivalent work experience may contact the instructor for permission to waive the prerequisites.

ASV 144: Automotive Mechanics IV 4 Credits
Prerequisites: ASV 141
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None
This is one of four courses required for the Automotive Technology Certificate. This course teaches the student the diagnosis and repair of drive train systems including manual transmissions, axles and differentials, 4-wheel/all-wheel drive, and automatic transmissions. Students who have equivalent work experience may contact the instructor for permission to waive the prerequisites.

</table>
ASV 244: Suspension and Steering 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
Students learn the theory of wheel alignment and develop skills needed to diagnose and align all foreign and domestic cars. Using state-of-the-art balancers, students understand and perform wheel balance equal to the level accepted by the industry. This is one of eight courses required for the Automotive Mechanics advanced certificate (CVAMA).

ASV 245: Brakes 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
In this course students develop skills in diagnosing and repairing brake systems on a variety of working vehicles. Concentration is on factory techniques and accepted field practice. Instruction includes machining of drums and rotors, hydraulic system service, mechanical system inspection and service, and diagnosis and repair of anti-lock brake systems. Students are provided with the knowledge to help them prepare for the state of Michigan and the National Brakes examination. This is one of eight courses required for the Automotive Mechanics advanced certificate (CVAMA).

ASV 246: Electrical Circuits 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This class involves the theory and application of automotive electronic circuits and accessories. It includes the construction and servicing of lighting systems, gauges, warning devices, windshield wipers, and solid-state devices. This is one of eight courses required for the Automotive Mechanics Advanced Certificate (CVAMA).

ASV 247: Heating and Air Conditioning 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
Air conditioning now appears on 80% of all new cars produced. This unique accessory is explained in depth including theory of refrigeration, servicing procedures, and diagnosis techniques. Compressor service and distribution systems are studied. Laboratory experience is given in testing and servicing a variety of systems and problems. This is one of eight courses required for the Automotive Mechanics Advanced Certificate (CVAMA).

ASV 248: Engine Performance 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This course is designed to provide the student with skills in troubleshooting and repairing driveability problems with automobile computerized engine management systems (fuel, ignition, and emissions). Actual vehicles are used to demonstrate the use of computerized and digital diagnostic equipment. This course provides students with the knowledge to help prepare for the State of Michigan and ASE (Automotive Service Excellence) Engine Performance examinations. This is one of eight courses required for the Automotive Mechanics Advanced Certificate (CVAMA).

ASV 274: ASV Co-op Education II 1-3 Credits
Prerequisites: ASV 174 and Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two Co-op courses. Instructor consent is required to register for this course.

BIO 101: Concepts Of Biology 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 8 10 15 16 17
Basic principles and concepts of biology are surveyed in lecture and laboratory with emphasis on biological processes as well as practical applications. If followed by BIO 103, this course provides a comprehensive year sequence for biology majors. Taken alone, it serves as a good introduction to biology for non-science students.

BIO 102: Human Biology 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 135 total contact hours
Fulfills Core Elements: 7 8 10 15 16 17
This course covers the basic structure and function of the human body, as well as human interactions with the larger biological community, including issues of health and disease, food use and labeling, and environmental pollution. Comparisons to other organisms highlight the ways in which we adapt to our world. Includes a laboratory portion involving the use of models, dissection, demonstrations, and actual medical equipment.
BIO 103: General Biology II  
4 Credits
Prerequisites: BIO 101 and ((CEM 057 until Fall 2002) or CEM 105)
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 6 7 8 10 15 16 17 18 19
The emphasis in this course is on analyzing the processes and mechanisms involved in biological systems including the cell, genetics, organisms, and ecology/evolution. Topics are covered from an experimental point of view. This course, with BIO 101, provides a comprehensive survey of biological concepts and shows the interrelationship of topics covered from the molecular to the population level. This course is required for the Biology/Pre-medicine Program. Students who have taken one year of HS chemistry with a grade of C or better may have the chemistry pre-requisite waived.

BIO 107: Introduction to Field Biology  
3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course is an introduction to the biology of the outdoors for the beginning student. Subjects such as trees and shrubs, wild flowers, insects, various animals, pond and stream life, and different Michigan terrestrial and aquatic communities will be covered. An outdoor journal and other similar activities will be stressed.

BIO 111: Anatomy and Physiology  
5 Credits
Prerequisites: (CEM 057 until Fall 2002) or CEM 105
Corequisites: None
60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours
Fulfills Core Elements: 7 8 10 11 12 15 16 17 18 19 20
This course provides students with an intensive, in-depth introduction to the structure and function of all human body systems, with examples of both normal and disease conditions relevant to health professionals. The emphasis on basic physiological principles also provides students with a good base for more advanced courses. Laboratory provides dissections and experiments.

BIO 147: Hospital Microbiology  
1 Credit
Prerequisites: College Level Entrance Scores
Corequisites: None
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: 7 10 16
This class provides a survey of the morphology, physiology and immunology of pathogenic organisms with emphasis on infection, aseptic, and sterilizing procedures.

BIO 174: Biology Co-op I  
1-3 Credits
Prerequisites: Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
Co-op courses provide students with worksite skills and experiences in an approved, compensated position related to their chosen field of study. Together, with an instructor, an employer, and the Workplace Learning Center, the student determines work assignments and learning objectives to connect learning with career-related work experience. Co-op experiences are coordinated by the Workplace Learning Center in conjunction with WCC faculty and cooperating employers. Registration for cooperative education requires attendance at a Co-op Orientation and the instructor’s prior approval.

BIO 200: Current Topics in Biology  
3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 15 16 17 18
This class is an examination from a biological point of view of the state of current knowledge in various fields of biology. It includes the state of current studies and the extent of our knowledge in the controversial fields of human genetic engineering; the biology of human behavior, human cycles, learning, sleep and cancer. Relationship of such knowledge to future technology and possible social and political implications also are discussed.

BIO 208: Genetics  
4 Credits
Prerequisites: BIO 101 and ((CEM 057 until Fall 2002) or CEM 105)
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 5 7 8 9 10 15
Introduction to the basic principles of genetics and their application to viruses, bacteria, plants and animals, including humans. Classical and molecular genetics are covered, with emphasis on experimental and statistical evidence from which genetic mechanisms are deduced. Laboratory experiments demonstrate genetic principles. Students who have taken one year of HS Chemistry with a grade of C or better may have the chemistry prerequisite waived.

BIO 215: Introduction to Cell Physiology  
3 Credits
Prerequisites: CEM 111 and BIO 101
Corequisites: BIO 216
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 8 9 10
Introduction to the chemistry and physiology of living cells, including cell metabolism, membrane permeability and excitability, movement and contractile elements, gene expression and protein synthesis. Properties common to all living things will be emphasized, as well as the importance of those properties in the human organism. Students who have experience equivalent to BIO 101 may contact the instructor for permission to waive the pre-requisite.
BIO 216: Cell Physiology Lab 1 Credit
Prerequisites: BIO 101 and CEM 111
Corequisites: BIO 215
0 lecture, 45 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 6 7 8 9 15 18 19
Students are introduced to the chemistry and biology of living cells through laboratory work. Students gain hands-on experience with techniques that have given us much of our knowledge about how cells are constructed and how they function. This course is designed to be taken concurrently with BIO 215, Introduction to Cell Physiology. Students who have experience equivalent to BIO 101 may contact the instructor for permission to waive the pre-requisite.

BIO 217: Zoology 4 Credits
Prerequisites: BIO 101
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 9 15 17
Lecture, field, and laboratory investigations provide an intensive study of the classification, evolutionary relationship, structure, and function of the major animal groups. Included are the sponges, jellyfish, worms, mollusks, insects, arthropods, starfish and other echinoderms, fish, amphibians, reptiles, birds and mammals. Students who have experience equivalent to BIO 101 may contact the instructor for permission to waive the pre-requisite.

BIO 218: Botany 4 Credits
Prerequisites: BIO 101
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 8 10 15 17
In this class, field and laboratory investigations provide detailed study of plant structure and function. It is for students with a general interest in plants or to provide a basis for further work in botany or other programs. Students with experience equivalent to BIO 101 may contact the instructor for permission to waive the pre-requisite.

BIO 219: Microbiology 4 Credits
Prerequisites: BIO 101
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 6 7 8 9 10 11 12 15 16 17 18
Microorganisms and their activities are studied in lecture and laboratory. Students who have experience equivalent to BIO 101 may contact the instructor for permission to waive the pre-requisite.

BIO 220: Human Genetics 3 Credits
Prerequisites: BIO 101 and Consent required
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 5 7 8 9 10 15
This course covers basic principles of heredity and their relationship to humans. Included are the genetic basis of sexual dimorphism, classical pedigree studies, medical genetics, modern molecular genetics, genetic engineering, and human population dynamics.

BIO 221: Microbiology 4 Credits
Prerequisites: BIO 101
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 6 7 8 9 10 11 12 15 16 17 18
Microorganisms and their activities are studied in lecture and laboratory. Students who have experience equivalent to BIO 101 may contact the instructor for permission to waive the pre-requisite.

BIO 222: Botany 4 Credits
Prerequisites: BIO 101
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 8 10 15 17
In this class, field and laboratory investigations provide detailed study of plant structure and function. It is for students with a general interest in plants or to provide a basis for further work in botany or other programs. Students with experience equivalent to BIO 101 may contact the instructor for permission to waive the pre-requisite.

BIO 223: Winter Field Study 1 Credit
Prerequisites: College Level Entrance Scores
Corequisites: None
0 lecture, 15 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: 7 17
This course is a study of life out of doors in winter. Topics such as plant and animal identification, observation, adaptations, and interrelationships are discussed. This class is especially for students with no previous background in biology and/or students who enjoy being outdoors and are curious about nature.

BIO 224: Business Management 1 Credit
Prerequisites: College Level Entrance Scores
Corequisites: None
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: 7
This course is designed to acquaint students with the basics of business management and the role of finance. Topics include: stocks, bonds, mutual funds, investment banking, financial statement analysis, taxes, and other phases of financial investments and services.
BMG 106: Legal Basics in Business
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 8 10 22
This course is designed for those students wishing to learn about legal issues that arise in business. In one course, students learn to apply fundamental legal principles and rules in order to "red flag" situations of potential legal liability and make suggestions for reducing legal risks, particularly as they apply to legal issues concerning the student’s chosen trade or profession. Students learn to use legal resources readily available in the community and explore the nature of the relationship between business ethics and law. Students are expected to make use of computer technologies to learn in both an individual and collaborative environment. This course is appropriate for those students pursuing a trade or occupational career as well as those seeking to transfer.

BMG 109: Introduction to Small Business and Entrepreneurship
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7
This course is designed for those persons thinking of starting, operating and managing a small business and for those currently in business who want to more deeply explore the theory and practice of entrepreneurship. Individuals working within a large corporation may also apply the skills learned to their intrapreneurial projects. Students use the Internet to communicate with each other and the instructor while doing research that includes experiential exercise and case studies covering such topics as entrepreneurial opportunities, business plan development, marketing, management, and finance.

BMG 110: Credit Management
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 5 9
This is an introductory course in consumer and commercial credit practices, techniques, and regulations for most manufacturing and service industries. Students are shown how to develop credit policies and analyze pertinent credit data, collections, controls, and effects of bankruptcy.

BMG 111: Business Law I
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 7 8 9 10 11 22 23
This course involves text and case study of the general laws applicable to business, covering the nature of law, courts and court procedures, contracts, real and personal property, wills, trusts, and negotiable instruments. This course is the first of two courses in business law and is appropriate for students intending to transfer. This course, when taken with BMG 122, Business Law II, provides an in-depth study of legal issues affecting business.

Students are expected to make use of computer technologies to learn in both individual and collaborative environments using the Internet.

BMG 122: Business Law II
Prerequisites: BMG 111
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 7 8 9 10 11 22 23
This course involves text and case studies of agency relationships (including employment), formation and operation of partnerships, formation and operation of corporations, security laws, sales agreements, consumer rights, secured transactions, bankruptcy, computer law and international law. This course, when taken with BMG 111, Business Law I, provides an in-depth study of legal issues affecting business. Students are expected to make use of computer technologies to learn in both an individual and collaborative environment using the Internet.

BMG 130: Investment Strategies
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 6 7 8 9 10
This is a course designed to help existing or potential investors keep abreast of investment opportunities in today’s changing financial world. This course presents current information on stock and bond markets, commodities, and real estate. Students are taught the mechanics of investing and how to analyze risk and return, financial statements, annual reports, financial services reports, mutual funds, and relate to the current tax structure. Students learn to read The Wall Street Journal and utilize the information to evaluate investments.

BMG 140: Introduction to Business
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 24
This course covers functions, objectives, problems, organization, and management of modern business. Also covered are the free enterprise system of business-economic activity and the impact of the consumer and governmental forces upon the system. Students develop insight into the vital role of the administrative function in our economy as a whole and in the operation of a single business unit. A practical orientation is offered in the career opportunities available in business and industry. This course is also taught as a television course.
the basics in commercial contracts are also addressed.

This course acquaints students with factors affecting the labor-management relationships, develops insights into the growth, objectives and methods of organized labor and the significant managerial problems involved in dealing with labor. Analysis is done of the legal and institutional framework for collective bargaining; the nature, content and problem areas of the collective bargaining process and other labor relations problems.

**BMG 155: Business on the Internet**  
**Prerequisites:** INP 100 or INP test = Pass  
**Corequisites:** None  
**45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**  
**Fulfills Core Elements:** 11 20

In this course, students examine how e-commerce is being conducted and managed, its major opportunities, limitations, issues, risks, and the special role that the customer plays in the development of e-commerce business models. The course includes hands-on experience with online technologies similar to those used in e-commerce. This course is of interest to those seeking entry-level positions in the field of web development as well as managers and professionals in any functional area of business. Only students who can use a computer and a Web browser should take this course. It is highly recommended that students take INP 150, INP 220, or have equivalent experience prior to registering for this course.

**BMG 160: Principles of Sales**  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
**45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**  
**Fulfills Core Elements:** 1 7 9

Basic selling techniques are taught and practiced through textbook learning, video demonstrations and practical role-play activities. Emphasis is placed on “how to sell” in the business work environment. Skills learned are appropriate for a variety of sales positions and can be utilized in any industry. Students learn to be effective and sell by building telephone prospecting skills, preparing customer presentation calls, handling customer objectives, and closing a sale. Business etiquette and understanding the basics in commercial contracts are also addressed.

**BMG 174: BMG Co-op Education I**  
**Prerequisites:** Consent required  
**Corequisites:** None  
**0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours**  
**Fulfills Core Elements:** None

In this course students gain skills from a new experience in an approved, compensated, business-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the first of two co-op courses. Instructor consent is required to register for this course.

**BMG 200: Human Relations in Business**  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
**45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**  
**Fulfills Core Elements:** 7 8 9 21

This course acquaints students with administrative principles and practices emphasizing the human relations aspect of management responsibility as it affects employee attitudes, morale and productivity. Major emphasis is on relationships among individuals and/or small groups, with problem-oriented sessions used to realistically relate the course materials to the human relations aspect of modern business-industrial enterprise.

**BMG 207: Business Communication**  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
**45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**  
**Fulfills Core Elements:** 7 8 9 11 12

Oral, written, and non-verbal skills are developed for effective internal and external communications in business. Emphasis is placed on organization, style, clarity, accuracy, and conciseness as students prepare reports, routine correspondence, resumes, and formal business presentations.

**BMG 208: Principles of Management**  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
**45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**  
**Fulfills Core Elements:** 1 7 8 9

This course is an introduction to the concepts and theories of management. Emphasis is on the functions of management: planning, organizing, staffing, directing, and controlling, (including motivation, decision-making and communication). This course is also taught as a television course.

**BMG 209: Writing the Business Plan**  
**Prerequisites:** BMG 109 with a minimum grade of C-  
**Corequisites:** None  
**45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**  
**Fulfills Core Elements:** 1 7 8 9

This course is designed to provide the learner with hands-on experience in preparing and presenting a written business plan. Students use the Internet to communicate with each other and the instructor while doing a review of actual business plans and business planning articles. Using business planning software, learners will prepare and present a business plan that includes a cover letter, non-disclosure agreement, executive summary, and a financial planning income, balance sheet and cash flow statement. Guidance in preparing a customized personal financial statement is also included.
BMG 210: Money, Banking and Financial Institutions 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 4 5 6 7
This is a course in the functions of finance. The course offers a definition of money including its characteristics and component parts. It identifies how the money supply expands and contracts based upon the inter-workings of the financial system. Also discussed is the effect of national and international financial practices on the consumer and business. Other topics include a comparison of the different types and purposes of various financial institutions, the Federal Reserve system, National Fiscal Policy, and how various monetary controls influence the supply of money, credit availability, forecasting interest rates, how to calculate investment yields and security prices, and stock market reactions based upon inflation and changes in the money supply. Banking and lending practices for business and consumers are emphasized and correlated to credit policies and examples of documentation forms. This course is recommended for business students.

BMG 215: Planning an E-Commerce Site for Business 3 Credits
Prerequisites: BMG 155 and INP 210
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
In this course students create an e-commerce business web site using readily available commercial software packages in order to market a small item to graduating students of WCC. In the process, students prepare a competitive analysis of an e-commerce business plan suitable for presentation to decision makers. This includes an examination of the strategies used by management to develop and implement an e-commerce site, the process involved in planning and maintaining the web site, attracting and maintaining customers, and measuring success. Students who have equivalent work experience may contact the instructor to waive pre-requisites.

BMG 220: Principles of Finance 3 Credits
Prerequisites: ACC 101 or ACC 122
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 4 5 6 7
This course surveys the basic concepts of finance that provide the foundation for successful real world financial management practices. Emphasis is on financial tools required to operate a business. Included is the role of the economy and its effect on interest rates, commercial banking practices, commercial credit, cash management, lending practices, financial statement analysis, time value of money, forecasting, budgeting, capital budgeting, sources of financing, lease vs. purchase, leverage, inventory controls, valuation of rates of return, investment banking, international finance, and bankruptcy. The course is intended to prepare students for advance studies in finance and practical application of financial principles.

BMG 230: Introduction to Supervision 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 7 8 9
This supervision course introduces the roles and functions of the first-line manager and develops practical, operational management skills in the functional areas of planning, organizing, leading, and controlling.

BMG 240: Human Resources Management 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 3 7 8 9 10
This class covers basic human resources activities that must be managed in any organization. It covers employment techniques, wages and hours, job evaluation, training, employee performance reviews, collective bargaining, employment counseling and collateral benefits such as pensions and fringe benefits. It is recommended that students have a knowledge of the basic principles of management obtained through previous coursework or work experience.

BMG 250: Principles of Marketing 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course is a study of our market-directed system with emphasis on the managerial level. Primary emphasis is on marketing strategy, planning in relationship to product, place, promotion and price. The concepts of economic fundamentals, marketing arithmetic, service and international marketing are incorporated. This course also is taught as a telecourse.

BMG 255: Business Statistics 3 Credits
Prerequisites: CIS 110 and (MTH 181 or COMPASS College Algebra = 46)
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course introduces the concepts of statistics and their applications to business decisions. Topics include elements of probability, random samples, descriptive statistics, sampling distributions, point and interval estimation, hypothesis testing, and regression and correlation analysis. Emphasis is on collection and analysis of data needed to evaluate reported results of statistical studies and making sound business decisions.

BMG 272: Problem Solving 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: None
This course examines problem solving techniques and methods used in today's work place. Students gain experience in using both critical and creative thinking approaches to problem solving in both individual and team settings.
BMG 273: Managing Operations   3 Credits
Prerequisites: BMG 230
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course introduces students to the fundamental processes of managing and controlling a variety of operations. It includes concepts in operations management that are recognized as important factors in business such as work processes, project management, scheduling and inventory management, quality tools, managing human resources on projects and in teams, and customer management. It is recommended that students have basic supervision knowledge obtained from previous coursework or work experience.

BMG 274: BMG Co-op Education II   1-3 Credits
Prerequisites: BMG 174 and Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
In this course, students gain skills from a new experience in an approved, compensated, business-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two co-op courses. Instructor consent is required to register for this course.

BMG 279: Performance Management   3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 9 21
This course is designed to provide the student with the human performance skills needed to develop people in an environment that recognizes that they are an organization’s most valuable resource. Through the use of skill building exercises and case analysis, the learner will develop knowledge and skills to plan, monitor, measure, motivate, improve and reward performance.

BMG 291: Project Management   3 Credits
Prerequisites: BMG 230, BMG 273, and BMG 279
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 9 24
This is the final course in the First Line Management program. Topics include financial analysis, forecasting, aggregate planning, and the process of project planning and implementation. Using project management software students are able to plan and track projects that meet an organization’s operational, human resource, and costs needs. In addition, students learn to communicate and collaborate with team members on projects across an organization.

BMG 292: Operating a Small Business: An Experience   3 Credits
Prerequisites: BMG 209 with a minimum grade of C-concurrent enrollment allowed
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 3 9 11
This course provides the student completing the Small Business and Entrepreneurship Certificate Program a hands-on experience in operating and managing a small business enterprise. Students use the Internet to communicate with each other and the instructor about their experiences while using a computer-based model that simulates the operation of a small business. Through the model the learner makes periodic mission, policy, strategy, marketing, finance, and operational decisions in competition with other computer industry companies.

Business Office Systems BOS

BOS 101A: Introduction to Keyboarding   1 Credit
Prerequisites: (COMPASS Reading = 70 or ACS 070 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091 concurrent enrollment allowed)
Corequisites: None
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: None
This course is the first in a series of three keyboarding courses. Students learn to keyboard (type) by touch and develop speed, accuracy, and proper techniques on the alphabetic keys. This course is only offered in a self-paced lab with open entry/open exit registration. Students may register at any time during the semester, but coursework must be completed by the end of the semester.

BOS 101B: Intermediate Keyboarding   1 Credit
Prerequisites: (COMPASS Reading = 70 or ACS 070 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091 concurrent enrollment allowed)
Corequisites: None
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: None
This course is the second in a series of three keyboarding courses. It is designed for students who have completed BOS 101A or who can key at least 20 words per minute. Students increase speed and accuracy and learn number and symbol keys. This course is only offered in a self-paced lab with open entry/open exit registration. Students may register at any time during the semester, but coursework must be completed by the end of the semester.
BOS 101C: Advanced Keyboarding 1 Credit
Prerequisites: (COMPASS Reading = 70 or ACS 070 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091 concurrent enrollment allowed)
Corequisites: None
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: None

This course is a short one-credit class taught on IBM compatible computers. It is designed for students who already know how to touch type and are keyboarding (typing) at a minimum of 25 words per minute. Students increase speed on the alphabetic and numeric keys, improve accuracy and technique, and apply proofreading concepts. WordPerfect is used to teach formatting of business letters, memoranda, and reports. Students who have the appropriate keyboarding skills may contact the instructor for permission to waive the pre-requisite.

BOS 157: Word Processing Applications I 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 7 9 11 20

This course teaches word processing and document preparation concepts using Microsoft Word 2000 in a Windows operating system. Skills include formatting and editing documents; using grammar and thesaurus functions; preparing headers and footers; preparing footnotes and endnotes; using file management procedures; preparing labels and envelopes; and merging letters. Applying word processing concepts and functions to business environments is stressed. This course is also offered in a self-paced format. When combined with BOS 257, all MOUS core and expert competencies are covered. Students should be familiar with Windows and have keyboarding skills at 25 wpm.

BOS 102: Document Formatting 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7

Students who enroll in this course should be able to keyboard accurately at a minimum speed of 30 words per minute. Students learn to prepare and format complex business documents including long reports, business letters with special features, and advanced tables. Specialized documents such as itineraries, executive summaries, and minutes of meetings are also covered. This course prepares office professionals for efficient and accurate document preparation.

BOS 174: BOS Co-op Education I 1-3 Credits
Prerequisites: 8 credits in BOS discipline with a 2.0 GPA and Consent Required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None

In this course, students gain skills from a new experience in an approved, compensated, business-related position. Together with the instructor, the employer, and the Co-op Placement Office, students determine work assignments and learning objectives to connect classroom learning with career-related work experience. This is the first of two-co-op courses.

BOS 182: Database Software Applications 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 11 12

This course teaches database concepts and applications using Microsoft Access 2000 in a Windows operating system. Skills and concepts include creating databases; creating and customizing tables and forms; creating, formatting, and enhancing reports; querying and maintaining databases; publishing reports to the Web; enhancing forms; and filtering data. Applying database concepts and functions to business environments is stressed. This course is also offered in a self-paced format. All MOUS core competencies are covered. Students should be familiar with Windows and have keyboarding skills at 25 wpm.
BOS 183: Spreadsheet Software Applications  2 Credits  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
**30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours**  
**Fulfills Core Elements:** 5  7  11  
This course teaches spreadsheet concepts and applications using Microsoft Excel 2000 in a Windows operating system. Skills and concepts include creating, formatting and editing a worksheet; entering formulas and using Excel functions; preparing charts; creating templates, workbooks, and Web pages; creating and using macros; sorting and filtering worksheet databases; and creating data maps and pivot tables. Applying spreadsheet concepts and functions to business environments is stressed. This course is also offered in a self-paced format. All MOUS core competencies are covered. Students should be familiar with Windows and have keyboarding skills at 25 wpm.

BOS 206: Scheduling and Internet Office Applications  2 Credits  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
**30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours**  
**Fulfills Core Elements:** 11  
This course provides an introduction to the operational and technical aspects of microcomputer communications using Microsoft Outlook and Netscape Communicator. Topics covered include sending and receiving e-mail; electronic scheduling: organizing appointments, meetings, and events; maintaining an address book; and using the Internet for common business tasks.

BOS 207: Presentation Software Applications  2 Credits  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
**30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours**  
**Fulfills Core Elements:** 11  
This course teaches presentation software concepts and applications using Microsoft PowerPoint 2000 in a Windows operating system. Skills and concepts include creating, editing, formatting, and enhancing presentations; using outline view and clip art to create a slide show; using embedded visuals to enhance a slide show; enhancing a presentation with interactive OLE files; and creating Web pages. Applying presentation software concepts and functions to business environments is stressed. This course is also offered in a self-paced format. All MOUS core competencies are covered. Students should be familiar with Windows and have keyboarding skills at 25 wpm.

BOS 208: Desktop Publishing for the Office  3 Credits  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
**45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**  
**Fulfills Core Elements:** 7  9  11  12  
This course provides a practical hands-on approach to developing skills in the use of desktop publishing software to create office flyers, newsletters, bulletins, in-house brochures, catalogs, transparency masters, and covers for reports. Students also become familiar with style sheets, templates, and importing material created in other software programs. Emphasis is placed on producing documents in the business office environment that communicate effectively through good design and application of basic concepts of desktop publishing.

BOS 210: Medical Transcription  3 Credits  
**Prerequisites:** HSC 101  
**Corequisites:** None  
**60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours**  
**Fulfills Core Elements:** 3  9  11  19  
This beginning medical transcription class is for students who have some proficiency in keyboarding and medical terminology. Emphasis is placed on the correct use of medical terms; the correct application of writing rules including capitalization, word usage, and punctuation; the efficient use of hardware including a computer, printer, and transcription machine; the formatting of typical medical documents; the use of medical resources; and the knowledge of current employment opportunities in medical transcription.

BOS 223: Medical Office Procedures  3 Credits  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
**45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours**  
**Fulfills Core Elements:** 7  
This course covers administrative assistant responsibilities in a traditional and computerized medical office or hospital including appointments, patient records, telephone procedures, and credit and collection procedures. Medical insurance is studied as well as legal considerations in a medical office. Students complete forms for Blue Cross/Blue Shield, Medicare, Medicaid, Workers’ Compensation, CHAMPUS, and private insurance using the proper coding system. Students must complete a minimum of 4 practice hours in addition to regular lecture and lab hours.
Business Office Systems

BOS 224: Medical Office Insurance and Billing  4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 7 9 11 12
This course is for those interested in a career in the medical office as a medical assistant, insurance, or biller/coder. The course will cover the fundamentals of health insurance and their requirements for claim form processing. Learners will use billing reference manuals and coding books to accurately abstract information necessary to produce acceptable forms in a timely manner for Blue Cross/Blue Shield, government-sponsored programs, and major commercial carriers. Case studies and exercises will be used to practice completing forms both manually and electronically for each program.

BOS 225: Advanced Document Preparation  3 Credits
Prerequisites: BOS 257
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 7 8 9 11
This course is designed to provide practical study and advanced training in using Office 2000. Emphasis is placed on developing insights into the responsibilities of the information-processing center including staff, personnel qualifications, and human relations. The course also includes information processing alternatives, equipment and needs surveys, organization and implementation of information processing, and management and control of information processing functions.

BOS 250: Administrative Office Systems and Procedures  4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 1 2 3 9 11 18 19 20
This capstone course for the Administrative Assistant and Medical Administrative Assistant Technology programs covers many functions that have been changed by technology. Emphasis is placed on the expanding duties of an administrative assistant including time management, business composition, human relations skills, and information retrieval for the business office. Continued importance is placed on verbal, nonverbal, and written communications. Office planning, environment, etiquette, and protocol are other topics covered, and a variety of specialized office documents are prepared.

BOS 257: Word Processing Applications II  2 Credits
Prerequisites: BOS 157
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 7 9 11 20
This course is a continuation of BOS 157. Advanced word processing and document preparation concepts and skills using Microsoft Word version 2000 in a Windows operating system are covered. Skills include formatting graphics; web publishing; preparing tables of content, indexes, outlines, and online forms; tracking changes; using templates, styles, and macros; creating WordArt objects; and applying desktop publishing concepts and functions to business documents. This course is also offered in a self-paced format. When combined with BOS 257, all MOUS core and expert competencies are covered.

Chemistry

CEM

CEM 057: Introductory Chemistry  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course offers a basic exposure to chemistry. Students with no background in high school science or algebra, or students wishing to improve their chemistry background should take this course before taking CEM 105 or CEM 111. Introductory Chemistry Laboratory (CEM 058) should be (concurrent enrollment allowed).

CEM 058: Introductory Chemistry Lab  1 Credit
Prerequisites: CEM 057 (concurrent enrolled allowed)
Corequisites: None
0 lecture, 45 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
Designed to accompany CEM 057, this course provides an experience with basic chemical laboratory practices and procedures.

CEM 105: Fundamentals of Chemistry  4 Credits
Prerequisites: CEM 057
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 4 5 7 9 15
Students with an interest in nursing or other health related areas, or needing a general science elective find that this broad survey of the major topics in chemistry meets the requirements of their program.

CEM 111: General Chemistry I  4 Credits
Prerequisites: CEM 057
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 4 5 7 9 15
This course covers the major topics in chemistry. Laws of chemical combination, states of matter, atomic and molecular structure, bonding, and other basic principles are covered. It is for students in a professional or preprofessional curriculum.
CEM 140: Organic Biochemistry 4 Credits
Prerequisites: CEM 105 or CEM 111
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 4 5 7 9 11 12 15
This course covers four major topics in chemistry: kinetics, chemical thermodynamics, chemical equilibria, and electrochemistry. Laboratory work includes qualitative and quantitative analysis.

CEM 211: Organic Chemistry I 4 Credits
Prerequisites: CEM 122
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 4 5 7 9 15
This course provides students with the background in nomenclature of organic chemistry, stereochemistry, the preparation and reactions of aliphatic and aromatic compounds. Students also practice the preparation and handling of organic compounds in the laboratory. This is the first course in a two-semester sequence.

CEM 218: Analytic Chemistry 4 Credits
Prerequisites: CEM 122
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 4 5 6 7 9 15
Techniques for the separation and quantitative determination of chemical substances by gravimetric, volumetric, and instrumental methods are learned and practiced in this course.

CEM 222: Organic Chemistry II 4 Credits
Prerequisites: CEM 122 and CEM 211
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 4 7 9 15
This course provides a continued exploration of nomenclature, stereochemistry, preparations and reactions of organic compounds including spectroscopic analysis in the laboratory. Students apply the techniques used in CEM 211 to the synthesis and analysis of complex organic compounds. Laboratory work includes hands-on spectroscopic analysis (IR, GC, and NMR) of products and unknowns. This is the second course in a two semester sequence of organic chemistry.
Child Care Professional

CCP 107: Math & Science Activities for Children 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7
Integrated curriculum workshops introduce the theory of math and science experiences for children. Topics include: learning to observe and teach the science and math around us every day; making materials, collecting resource files and practical application of ideas to be used in the childcare setting. Community resources are explored. It is recommended that students take CCP 101 prior to this course.

CCP 108: Expressive Arts for Children 2 Credits
Prerequisites: CCP 101 (concurrent enrollment allowed)
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13
This course covers a wide range of expressive arts experiences for children from infancy to adolescence in group settings including music, creative movement, visual arts, and dramatic play. The role of the adult in facilitating creativity and self-expression is emphasized. Materials, equipment, methods, and activities are introduced and their developmentally appropriate application is stressed. It is recommended that students take CCP 101 prior to this course.

CCP 109: Language and Communication for Children 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 7
Designed for childcare professionals, this course examines the development of language in children. Consideration is given to non-verbal communication and cultural differences. Basic methods, activities and materials for language arts and language development are introduced and their application in the childcare setting is addressed. It is recommended that students take CCP 101 prior to this course.

CCP 110: Social and Emotional Development 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 7 21
This course provides a multi-cultural approach to the study of personality development during the first six years of life. The characteristics and needs that emerge with each developmental stage are explored. Methods, suggestions and practical guides for meeting these needs in the child care setting are emphasized. It is recommended that students take CCP 101 prior to this course.

CCP 111: Management of Child Care Programs 2 Credits
Prerequisites: College Level Entrance Scores 1
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 5
Practical aspects of daily operation of a childcare program are presented: administrative forms and record keeping, state and federal regulations that affect daily operations, policies and procedures. Licensing regulations and accreditation standards are stressed.

CCP 112: Health, Safety and Nutrition for Child Care 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 3 7 9 16
Best practices in health, safety and nutrition are presented. Students develop specific competencies in these areas including establishing and maintaining a healthy, safe child care program, planning nutritional meals and snacks, and teaching children and their parents about health, safety and nutrition. Communicable diseases, government funded child/family food and nutrition programs, playground and toy safety, and resources for the childcare provider are included.

CCP 113: Health, Safety and Nutrition for Child Care 3 Credits
Prerequisites: CCP 112 (concurrent enrollment allowed)
Corequisites: CCP 119
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: None
The role of the childcare provider is examined in relationship to personal career goals. Curriculum planning, use of objectives or key experience, child observation and assessment, room arrangement and daily routine are introduced as ways to implement program philosophy. Developmentally appropriate practice is examined. Specific strategies and techniques for fostering early childhood development are emphasized. Establishing a safe and healthy learning environment and child guidance are major components of the course.

CCP 114: Beginning Child Care Practicum 2 Credits
Prerequisites: CCP 112 (concurrent enrollment allowed)
Corequisites: CCP 113
0 lecture, 0 lab, 0 clinical, 240 other, 240 total contact hours
Fulfills Core Elements: None
This course provides supervised teaching experience with young children in a licensed childcare center. Students must take this course with CCP 118-Beginning Child Care Seminar. Students implement strategies and techniques learned in the Beginning Child Care Seminar and in Child Development. Students are expected to meet a level of competence in specific childcare and teaching skills. Emphasis is placed on implementing developmentally appropriate practice. Students prepare activities for children and assume a role as a member of the teaching team. Students are required to meet with the CCP Program Advisor for consent to register for this course. Students are placed with a qualified supervising teacher in a licensed childcare center either at WCC or off campus.
CCP 122: Child Development Credentialing I 4 Credits  
Prerequisites: (COMPASS Reading = 70 or ACS 070 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091 concurrent enrollment allowed)  
Corequisites: None  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: 7  
This course is designed to provide part of the formal training for students working toward their Child Development Associate Credential. During this course, students cover eight of the thirteen functional areas of the Child Development Associate (CDA) Competency Standards. Students participate in group seminar discussions and work on assigned observations and portfolio projects. Students must be 18 years of age and have a high school diploma or GED to register for this course.

CCP 123: Child Development Credentialing II 4 Credits  
Prerequisites: CCP 122 and (COMPASS Reading = 80 or ACS 107 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091)  
Corequisites: None  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: 7  
This course is a continuation of CCP 122 for students working toward their Child Development Associate Credential. Five of the thirteen functional areas of the Child Development Associate (CDA) Competency Standards are covered. Students participate in group seminar discussions and work on assigned observations and portfolio projects.

CCP 124: CDA Assessment Preparation 1 Credit  
Prerequisites: Consent required  
Corequisites: CCP 134  
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours  
Fulfills Core Elements: None  
This course helps CDA candidates prepare for credential renewal or initial direct assessment. Students seeking the Child Development Associate credential for the first time should have completed 124 hours of approved instruction and 480 hours of approved experience with children. Students seeking CDA credentialing receive assistance with their professional development plan and preparation for reassessment.

CCP 132: Child Development Practicum I 1-2 Credits  
Prerequisites: Consent required  
Corequisites: CCP 122  
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours  
Fulfills Core Elements: None  
This course provides a supervised field experience for CDA candidates. Students are expected to demonstrate competence in the CDA functional areas: safe and healthy learning environment, physical and cognitive communication. Students are required to work in a licensed childcare center with infants and toddlers or preschoolers or licensed family childcare home, or in a home visitor program during regular hours of operation. Observations will be completed at the work site using standards for the Child Development Associate national childcare credential.

CCP 133: Child Development Practicum II 1-2 Credits  
Prerequisites: Consent required  
Corequisites: CCP 123  
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours  
Fulfills Core Elements: None  
This course provides a supervised field experience for CDA candidates. Students are expected to demonstrate competence in the CDA functional areas: creative, self, social, guidance, and families. Students are required to work in a licensed child care center with infants and toddlers or preschoolers or licensed family child care home, or in a home visitor program during regular hours of operation. Observations will be completed at the work site using standards for the Child Development Associate national child care credential.

CCP 134: Child Development Practicum III 1 Credit  
Prerequisites: Consent required  
Corequisites: CCP 124  
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours  
Fulfills Core Elements: None  
This course provides a supervised field experience for CDA candidates. Students are expected to demonstrate competence in the CDA functional areas: safe, healthy, learning environment, physical, cognitive, communication, creative, guidance, self, social, and families. Students are required to work in a licensed childcare center with infants and toddlers or preschoolers or licensed family child care home, or in a home visitor program during regular hours of operation. Observations will be completed at the work site using standards for the Child Development Associate national Childcare credential.

CCP 200: Working with Parents 3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: None  
This course explores the many facets of parent and staff involvement in the childcare setting. Topics include: various forms of parent participation, ways of increasing positive communication with parents, cultural differences and goals of parents, and planning parent involvement programs. Emphasis is given to the preparation, mechanics and techniques for the individual parent/teacher conference and parent meetings. This course should be taken during the last semester of the program or after 50 credits have been completed. It is recommended that students take CCP 101, CCP 118, and CCP 119 prior to this course.

CCP 218: Advanced Child Care Seminar 1 Credit  
Prerequisites: Consent required  
Corequisites: CCP 219  
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours  
Fulfills Core Elements: 1 3 7 9  
Students learn about the role of the head childcare provider, plan and evaluate extended sequences of activities for young children, and analyze and evaluate practice for developmental appropriateness. Students must meet with the CCP program advisor the semester before enrolling to confirm eligibility and select the appropriate work. This course should be taken during the last semester of the program or after 50 credits have been completed.
### Child Care Professional

**CCP 219: Advanced Child Care Practicum**  
2 Credits  
Prerequisites: Consent required  
Corequisites: CCP 218  
0 lecture, 0 lab, 0 clinical, 240 other, 240 total contact hours  
Fulfills Core Elements: 1 3 7 9  

Students take increasing responsibility in the childcare setting and assume the role of head childcare provider for a minimum of two weeks. Students develop activities and learning materials suitable for young children, implementing developmentally appropriate practice in the work place. Students are placed in licensed group childcare settings. Student must meet with Program Advisor prior to enrolling in the course to arrange placement. This course should be taken during the last semester of the program or after 50 credits have been completed.

**CCP 220: Care and Development of Infants and Toddlers**  
3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 1 3  

The development of infants and toddlers is studied. Emphasis is placed on stages of development in physical cognitive and social/emotional areas and developmentally appropriate practice in childcare. Developmental issues related to health and safety, nutrition, toilet training, and child guidance are considered. Parent issues discussed include pregnancy, adjustment to parenting and working parents of infants and toddlers. Observation in infant/toddler group care settings is required. It is recommended that students take CCP 101 prior to this course.

**CCP 230B: Heads Up! Reading - Part B**  
1 Credit  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours  
Fulfills Core Elements: None  

This course surveys the research-based principles and practices for providing children from birth through age five with a strong foundation in early reading and writing within a developmentally appropriate child care or early education program. The major goal is to prepare early childhood teachers and caregivers to enhance early literacy outcomes and increase their teaching skills.

### Communications

<table>
<thead>
<tr>
<th>COM 101: Fundamentals of Speaking</th>

<td>Fulfills Core Elements: 1 7 8 9 10</td>
<td></td>
</tr>
</tbody>
</table>

Through the use of practical experience, students acquire the essential speaking and listening skills which are the most sought-after skills in the work world. Students work to relieve the stress which the average person encounters in public speaking. Students polish organization and delivery skills, as well as gaining a heightened awareness of the relationship between a speaker and an audience.

</tbody>
</table>

This interactive course offering will explore the principles of communication as it pertains to personal and workplace relationships. The communication process between two people is dynamic and often misunderstood. Handling criticism and defensiveness in others is an important skill in coping with today’s sometimes hostile world. Conflict management will be explored.

<table>

</table>

Students practice performance techniques necessary to effectively communicate by delivering interpretations of prose, poetry and oral histories in class and in public. Performance theory is directly applied to assignments. Special emphasis is placed on how to approach the interpretation of literature vocally and nonverbally in an effort to bring the literature to life for an audience. Highly recommended for any student wishing to enhance public communication skills, poise and understanding of literature.
This course provides an introduction to the use of AutoCAD soft-
keys to success in public speaking. Students learn to promote healthy communication skills with the
cational, and religious arenas. This communications course may
drafting practices in the application of material specifications,
COM 200: Family Communication 3 Credits
Students strengthen their ability to prepare and deliver dynamic
speeches using today’s computer generated graphics and other
presentation skill techniques. Being organized to prevent informa-
tion overload and displaying enthusiasm for the presentations are
keys to success in public speaking.

COM 183: Advanced Public Speaking 3 Credits
Prerequisites: COM 101
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fullfills Core Elements: 7 8 10
Students strengthen their ability to prepare and deliver dynamic
speeches using today’s computer generated graphics and other
presentation skill techniques. Being organized to prevent informa-
tion overload and displaying enthusiasm for the presentations are
keys to success in public speaking.

COM 200: Family Communication 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fullfills Core Elements: 7 8 14
Students learn to promote healthy communication skills with the
family in everyday life. This course examines the ways in which
members of family systems interact in order to develop, sustain
and manage their relationships. Today, family issues are at the
forefront of national concerns, particularly in governmental, edu-
cational, and religious arenas. This communications course may
also transfer as a psychology or sociology credit.

Computer Aided Drafting CAD

CAD 101: Introduction to AutoCAD 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fullfills Core Elements: 7 11 12
This course provides an introduction to the use of AutoCAD soft-
ware (CAD program candidates should choose CAD 111). This
course was previously IND 216.

CAD 103: Introduction to 3D CAD 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
Fullfills Core Elements: None
This course is a software-based course designed to teach the
student 3D Solid Based software. The user will learn how to cre-
ate solid model parts using various modeling techniques. From
the solid model, the student will learn how to create solid assem-
blies, assembly drawings and detail drawings. This course is not
part of the CAD Certificate or the CAD A.A.S. programs. This
course was previously IND 217.

CAD 111: CAD I—Detailing 6 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
60 lecture, 60 lab, 0 clinical, 0 other, 120 total contact hours
Fullfills Core Elements: None
This course is an introduction to the graphical language of indus-
try using sketching and CAD. This course examines standard
drafting practices in the application of material specifications,
drawing numbering systems, tabulated drawings, auxiliary views,
sectioning, screw threads and fasteners. Emphasis is placed on
dimensioning, tolerancing, and the use of CAD for the preparation
of assembly and detail drawings, and parts lists for various manu-
facturing disciplines. AutoCAD software will be featured.

CAD 111A: CAD IA Detailing 3 Credits
Prerequisites: Consent required
Corequisites: None
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
Fullfills Core Elements: None
The purpose of this course is to offer apprentices and other qual-
ified individuals an introduction to the graphical language of
industry using sketching and CAD. This course examines stan-
dard drafting practices in the application of the isometric, oblique,
orthographic projection sketches and drawing, auxiliary
views, sectioning and dimensioning practices. Emphasis is placed
on dimensioning, tolerancing, and the use of CAD for the prepa-
ration of detail drawings. AutoCAD software is featured.

CAD 111B: CAD IB Detailing 3 Credits
Prerequisites: CAD 111A
Corequisites: None
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
Fullfills Core Elements: None
The purpose of this course is to offer those who have completed
CAD 111A and other qualified individuals a continuation of
instruction in the graphical language of industry using sketching
and CAD. This course examines standard drafting practices in the
application of material specifications, drawing numbering sys-
tems, tabulated drawings, screw threads, and fasteners.
Emphasis is placed on dimensioning, tolerancing, and the use of
CAD for the preparation of assembly and detail drawings, and
parts listed for various manufacturing disciplines. AutoCAD software
is featured. Students with equivalent work experience may contact
the instructor for permission to waive the prerequisite.

CAD 113: CAD II—Drafting and Layout 6 Credits
Prerequisites: CAD 111
Corequisites: None
60 lecture, 60 lab, 0 clinical, 0 other, 120 total contact hours
Fullfills Core Elements: None
This course covers practices and procedures for creating assem-
bly and detail drawings from given layouts using CAD. An
introduction to the principles of design is included with emphasis
on the use of standard parts catalogs and 3-D CAD models. Stu-
dents with experience equivalent to CAD 111 may contact the
instructor for permission to waive the pre-requisite.

CAD 115: Descriptive Geometry 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
Fullfills Core Elements: 5 7 9
Points, lines and planes and their relationships in space are studied,
with emphasis on practical application of principles to actual
problems in industry. This course was previously IND 112.
CAD 174: Co-op CAD Drafting I  1-3 Credits
Prerequisites: CAD 111, CAD 113, and consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This course was previously IND 174.

CAD 211: Parametric Modeling  4 Credits
Prerequisites: CAD 111 and CAD 113
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 5  9 11
This course introduces the student to the basics of parametrics-based solid modeling using SolidWorks. The student will learn how to develop a constraint network by using geometric constraints and equations to control wireframe. From the wireframe students will create solid models and surfaces using various techniques such as extrude, revolve, loft and sweeps. The student will learn how to apply various local operations to solid models such as draft, shell, chamfers and fillets. The student will learn how to modify and manipulate the part history and output the solid models as drawings and rendered images. This course was previously IND 221.

CAD 213: Mechanisms  4 Credits
Prerequisites: CAD 111 and CAD 113
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 7
The principles of gears, cams, flexible drive systems, linkages, and other mechanical means to transmit motion and energy are studied. Included in this course are graphical and mathematical techniques used to solve for force, displacement and motion application problems. Students are also required to use computer related programs such as Excel and CAD to complete the application problems. Students who have equivalent work experience may contact the instructor for permission to waive the pre-requisite.

CAD 215: Geometric Dimensioning and Tolerancing  3 Credits
Prerequisites: CAD 113 (concurrent enrollment allowed)
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 4  5  7  9
This course covers the language of Geometric Dimensioning and Tolerancing (GD&T) as governed by the ASME Y14.5M, 1994 Dimensioning and Tolerancing Standard. This application-based course covers the rules, practices, and symbology that are outlined in the national standard. Specifically, students learn how to set up a datum reference framework, apply the 14 geometric controls, and analyze the obtained tolerances gained from applying GD&T. This course was previously IND 123. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

CAD 217: Mechanical Design  6 Credits
Prerequisites: CAD 211 and CAD 213
Corequisites: None
60 lecture, 60 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None
Students study the development of a product from concept design and layout stages to the preparation of working drawings. Emphasis is on the preparation of a good solid model construction and layout drawings incorporating a maximum of commercially available components, fastening techniques. The final output of the design will be presented as finished assembly and detail drawings in accordance with latest ANSI/ASME standards. Manufacturability and economy of the product will be a criteria for final assessment.

CAD 217: Mechanical Design  6 Credits
Prerequisites: CAD 211 and CAD 213
Corequisites: None
60 lecture, 60 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None
Students study the development of a product from concept design and layout stages to the preparation of working drawings. Emphasis is on the preparation of a good solid model construction and layout drawings incorporating a maximum of commercially available components, fastening techniques. The final output of the design will be presented as finished assembly and detail drawings in accordance with latest ANSI/ASME standards. Manufacturability and economy of the product will be a criteria for final assessment.

CAD 274: CAD Co-op Education II  1-3 Credits
Prerequisites: CAD 174 and Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two Co-op courses.

CAD 280: The Basics of Part Modeling  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
The principles of gears, cams, flexible drive systems, linkages, and other mechanical means to transmit motion and energy are studied. Included in this course are graphical and mathematical techniques used to solve for force, displacement, and motion application problems. Students are required to use computer related programs such as Excel and CAD to complete your application problems.
Computer Information Systems

CAD 282: Constructing Assemblies 2 Credits
Prerequisites: CAD 280
Corequisites: None
32 lecture, 0 lab, 0 clinical, 0 other, 32 total contact hours
Fulfills Core Elements: None

This is the second course in a six-course series. The principles of gears, cams, flexible drive systems, linkages, and other mechanical means to transmit motion and energy are studied. Included in this course are graphical and mathematical techniques used to solve for force, displacement, and motion application problems. Students are required to use computer related programs such as Excel and CAD to complete application problems. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

CAD 284: Part Modeling II 3 Credits
Prerequisites: CAD 280
Corequisites: None
40 lecture, 0 lab, 0 clinical, 0 other, 40 total contact hours
Fulfills Core Elements: None

This is the third course in a six-course series. The principles of gears, cams, flexible drive systems, linkages, and other mechanical means to transmit motion and energy are studied. Included in this course are graphical and mathematical techniques used to solve for force, displacement, and motion application problems. Students are required to use computer related programs such as Excel and CAD to complete application programs. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

CAD 286: Part Modeling III 2 Credits
Prerequisites: CAD 282 and CAD 284
Corequisites: None
32 lecture, 0 lab, 0 clinical, 0 other, 32 total contact hours
Fulfills Core Elements: None

This course is a continuation of Part Modeling II and Constructing Assemblies. Students learn to design for ease of assembly employing the top down and bottom up approaches, to create a solid part using open part modeling techniques and to create and modify surfaces using specific surface operations. Also included is how to import and export I-DEAS’ data, remaster parts, compare parts, and use design groups in the process of creating creditable designs.

CAD 290: Working Details 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
32 lecture, 0 lab, 0 clinical, 0 other, 32 total contact hours
Fulfills Core Elements: None

This course introduces students to a new I-DEAS’ interface and functionality. Skills covered include creating detail and layout drawings from solid parts and assemblies; creating standard views, section views, and auxiliary views as defined by ASME/ANSI standards; creating and editing dimension, geometric tolerances, and notes; and creating and editing a bill of materials, layer, and other ASME/ANSI related symbols. Also covered is how to use the Command Option Area and plot drawings.
CIS 110: Introduction to Computer Information Systems 3 Credits
Prerequisites: CIS 100 with a grade of “C” or better (concurrent enrollment allowed)
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 9 11 12
The course covers the principles of information systems for business majors. It provides an overview of information systems including a review of computer concepts, how technology is used in business, the information systems discipline, and the systems development life cycle. Students need a working knowledge of applications software and keyboarding to be successful in the course. The pre-requisite, CIS 100, may be taken concurrently. Students who have the equivalent experience may contact the instructor for permission to waive the pre-requisite.

CIS 117: Windows Operating System (Windows 2000 Professional) 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 7 9 11 12
This course covers the use of an operating system with a graphical user interface to maintain, troubleshoot, repair, and customize a microcomputer system. Respect for the rights of others and proper security measures are also discussed. Windows 2000 Professional is currently used in the course. The course includes content previously included in CIS 116 and CIS 117.

CIS 121: Linux/UNIX Fundamentals 3 Credits
Prerequisites: CIS 110 with a grade of “C” or better
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 8 9 11 19
This course introduces UNIX and Linux tools to the experienced computer user and to those with only a basic knowledge of computers. The course covers the UNIX/Linux file system, communication with other users, editors, file manipulation and processing, basics of pipes and redirection, simple shell programming, introduction to the x windows system, and a basic introduction to Linux. Students with experience equivalent to CIS 110 may contact the instructor for permission to waive the prerequisite.

CIS 174: CIS Co-op Education I 1-3 Credits
Prerequisites: 2 courses in the CIS discipline and Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
This course recognizes the value of learning which takes place on the job by offering college credit for development and achievement of learning objectives which are accomplished through current work experiences. Students also participate in monthly work related activities, such as meetings or seminars.

CIS 204: Linux Installation and Configuration 3 Credits
Prerequisites: CIS 121
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is the first in a series of courses on the Linux Operating System. Students configure and install several versions of Linux. This course is designed to help prepare students for Linux Certification Exams. Students must have a basic understanding of UNIX/Linux commands and structure to succeed in this course. Students who have experience equivalent to CIS 121 may contact the instructor for permission to waive the pre-requisite.

CIS 206: Linux System Administration 3 Credits
Prerequisites: CIS 204
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is the second in a series of courses on the Linux Operating System. Linux System administration tasks will be discussed and practiced. This course is designed to help prepare students for Linux Certification Exams. Students must be familiar with common Linux distributions and should be comfortable with basic installation and configuration to succeed in this course. Students with experience equivalent to CIS 204 may contact the instructor for permission to waive the pre-requisite.

CIS 221: UNIX Tools and Scripts 3 Credits
Prerequisites: CIS 121 with a grade of “C” or better
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 8 9 11 12 19
Students learn to use UNIX more efficiently with advanced forms of the commands and utilities covered in CIS 121, as well as new commands and constructs. Advanced forms of topics begun in CIS 121 include sed, grep, awk, Perl, and how to effectively use regular expressions, as well as constructs and special commands used in writing shell scripts. New topics covered include functions, traps, arithmetic on variables, and input/output techniques. Students with experience equivalent to CIS 121 may contact the instructor for permission to waive the pre-requisite.

CIS 238: PC Assembly Language 3 Credits
Prerequisites: CPS 171 or CPS 185 with a grade of “C” or better
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 8 9 11 18
This is a first course in PC assembly language. The organization of the 80x86 microprocessor is examined to aid in the study of the instruction set. Topics include various character/numeric conversions, twos and tens complement arithmetic, string and bit manipulation, the calling of assembly language routines from other assembly programs as well as from high-level language programs, and the use and modification of DOS and BIOS interrupt routines. Students who have equivalent industry experience or have completed a semester of programming language other than CPS 171 or 185 may contact the instructor for permission to waive the pre-requisite.
**CIS 265: Programming the Web** 3 Credits  
Prerequisites: INP 150 or CIS 165 or INP 165 with a grade of "C" or better  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 9 11 12  
This course is intended for students who are interested in programming the Web and who have a knowledge of a programming language and also some experience on the World Wide Web. Topics covered include creating HTML forms, Common Gateway Interface (CGI) programming using Perl, an introduction to JavaScript, and the basic setup of one or more http servers. As new technologies emerge, these will be addressed and discussed. Students who have equivalent work experience may contact the instructor for permission to waive the pre-requisite.

**CIS 266: Web Programming Using Active Server Pages** 4 Credits  
Prerequisites: CIS 265 and (CPS 171 or CPS 185) with a grade of "C" or better  
Corequisites: None  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: None  
This course is intended for students who understand CGI (common gateway interface). VBScript (Visual Basic Script) is used in server side scripting to process form data from the browser. The Application, ObjectContext, Request, Response, Server and Session objects along with their Properties, Collections, Methods, and Events will be discussed. Other related topics including ADO (ActiveX Data Objects) database access will be covered. Students who have equivalent work experience may contact the instructor for permission to waive the pre-requisites.

**CIS 270: Advanced Perl Programming** 3 Credits  
Prerequisites: CIS 265  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: None  
This course is a continuation of Programming the Web (CIS 265). This course focuses on using Perl to provide Web Server side programming support. Topics to be covered include Perl Objects, Handling Errors and Signals, Perl Modules, Form processing, CGI, Web Servers, and other related technologies.

**CIS 274: CIS Co-op Education II** 1-3 Credits  
Prerequisites: CIS 174 and Consent required  
Corequisites: None  
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours  
Fulfills Core Elements: None  
In this course students gain skills from a new experience in an approved, compensated, computer-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two co-op courses.

**CIS 275: C Programming Language** 4 Credits  
Prerequisites: CPS 171 or CPS 185  
Corequisites: None  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: None  
This is an introductory course in the C programming language. The intended audience is experienced programmers. Most features of the C language are discussed so that students who successfully complete the course are capable of versatility in using C. Emphasis is placed on structured programming techniques and sound documentation. Students with experience in computer programming may contact the instructor for permission to waive the pre-requisite.

**CIS 277: Java for Programmers** 3 Credits  
Prerequisites: CPS 171 or CPS 185 with a grade of "C" or better  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: None  
This course covers the basics of Java, including creating a simple applet and application, object oriented programming concepts, objects and classes in Java, managing inheritance, and simple Java I/O. Students consider practical issues, common problems and solutions in applet development, string handling, program attributes, accessing system resources, error handling, threads, and creating a user interface. Students who have equivalent work experience may contact the instructor for permission to waive the pre-requisite.

**CIS 278: Advanced Java Programming** 3 Credits  
Prerequisites: CIS 277 with a grade of "C" or better  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: None  
This course is a continuation of CIS 277, Java for Programmers, and focuses on using Java to access databases and provide Web Server side programming support. Topics covered include Networking, Advanced Thread topics, Java Servlets, JDBC (database access), Socket Programming, RMI, Java Beans, and other related technologies. Students should have previous experience with SQL. Students with equivalent work experience may contact the instructor for permission to waive the pre-requisite.

**CIS 279: XML Programming** 4 Credits  
Prerequisites: CIS 277 and INP 150  
Corequisites: None  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: None  
In this course, XML related programs are developed in Java and JavaScript. XML concepts (DTD, CSS, XSL, DOM) are also covered. Students must have a working knowledge of Java and HTML to succeed in this course. JavaScript and Dynamic HTML concepts are taught based on the pre-requisite knowledge of Java and HTML.
**CIS 282: Small System Data Base**  
3 Credits  
- Prerequisites: CPS 171 with a grade of “C” or better  
- Corequisites: None  
- 45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
- Fulfills Core Elements: 7 9 11 12  
This is an introduction to relational database theory and practice. Topics covered include: terminology, normal forms, design of database tables, SQL, and application generation. The student will incorporate SQL in procedural files to program applications. This course is intended for anyone possessing a basic knowledge of programming who is interested in database theory and practice. Students with equivalent work experience may contact the instructor for permission to waive the pre-requisite.

**CIS 286: UNIX Systems Administration**  
4 Credits  
- Prerequisites: CIS 121 with a grade of “C” or better  
- Corequisites: None  
- 60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
- Fulfills Core Elements: 2 7 8 9 11 19  
Concepts and technical knowledge of operating systems, utilities and control languages are presented with hands-on experience using the UNIX operating system. Topics covered include startup and shutdown, user accounts, security, automating routine tasks, managing system resources, file systems, back-ups, devices, and networking. Students with equivalent work experience may contact the instructor for permission to waive the pre-requisite.

**CIS 288: Systems Analysis and Design**  
3 Credits  
- Prerequisites: CPS 171 or CPS 185 with a grade of “C” or better  
- Corequisites: None  
- 45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
- Fulfills Core Elements: 3 7 9 11 19  
This course surveys computer applications and techniques in major areas of business, business structure, analytical communication with system users, principles of package software evaluation and acquisition, planning schedules and resource requirements for software development, program testing and installation procedures, principles of software development monitoring, structured walkthroughs and other programmer communication, and producing software development specifications. Students with equivalent work experience may contact the instructor for permission to waive the pre-requisite.

**CIS 290: Microcomputer System Support**  
4 Credits  
- Prerequisites: CIS 288 with a grade of “C” or better  
- Corequisites: None  
- 60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
- Fulfills Core Elements: 7 9 11 12 18 19  
This is the final course in the Microcomputer System Support program. Students gain problem solving skills, practice user training techniques, and consolidate knowledge required for serving as a Microcomputer Systems Support Technician. Students with equivalent work experience may contact the instructor for permission to waive the pre-requisite.

**CIS 291: Introduction to Oracle SQL/ and PL/SQL**  
4 Credits  
- Prerequisites: CIS 282 and CPS 271 with a grade of “C” or better  
- Corequisites: None  
- 60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
- Fulfills Core Elements: 9 11 18 19 20  
Students are introduced to Structured Query Language (SQL) and PL/SQL functions. They learn how to create and maintain database objects and how to store, retrieve, and manipulate data. They also learn how to create PL/SQL blocks of application code that can be shared by multiple forms, reports, and data management applications. Further topics include PL/SQL procedures, functions, and packages. Using both the Procedure Builder and the SQL Plus environments, students learn how to create and manage PL/SQL program units and database triggers. This course carries an additional fee. Please see the class listing in the Time Schedule for the amount. Students with equivalent work experience may contact the instructor for permission to waive the pre-requisite.

**CIS 292: Introduction to Oracle Developer**  
3 Credits  
- Prerequisites: CIS 291 with a grade of “C” or better  
- Corequisites: None  
- 45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
- Fulfills Core Elements: 9 11 18 19 20  
This course is an introduction to Developer/2000 technology. Students learn to navigate through the Developer/2000 interface using features such as the Object Navigator and VGS (Virtual Graphics System), which includes the Layout Editor and Menu options. Students build and test interactive applications consisting of one or more Developer/2000 forms modules. Working in a GUI (graphical user interface), participants build a complete forms application. This course carries an additional fee. Please see the class listing in the Time Schedule for the amount. Students with equivalent work experience may contact the instructor for permission to waive the pre-requisite.
CIS 293: Advanced Oracle Developer 4 Credits
Prerequisites: CIS 292 with a grade of “C” or better
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 9 11 18
This course builds on skills learned in CIS 292 in the use of Developer/2000 technology. Students learn to manage projects using Project Builder, to design and build menu modules, use function keys and record groups, create programming modules, and manage data to produce reports. Students create advanced multiple-form applications and reports with various formats and styles. This course carries an additional fee. Please see the class listing in the Time Schedule for the amount. Students with equivalent work experience may contact the instructor for permission to waive the pre-requisite.

CIS 294: Information Systems Planning 3 Credits
Prerequisites: CIS 289
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course will explore the many issues related to managing technical resources, people, machines, and systems. It prepares the experienced analyst or project leader for the role of IS manager. Students with experience equivalent to CIS 289 may contact the instructor for permission to waive the pre-requisite.

CIS 296: Oracle Architecture and Administration 3 Credits
Prerequisites: CIS 291
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is the second of five courses in the Oracle Database Administration program (CPODA). Students build on the skills learned in CIS 291 in the creation of SQL queries and PL/SQL functions and are introduced to basic Oracle database administration concepts. Students learn how to create a database, manage an instance, manage data storage, and manage security. This course prepares students to take Oracle 8i Database administration exam number 1Z0-023.

CIS 297: Oracle Backup and Recovery 2 Credits
Prerequisites: CIS 296
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: None
This is the third of five courses in the Oracle Database Administration program (CPODA). Students learn how to troubleshoot, design, and implement backups and recoveries of Oracle databases. This course prepares students to take Oracle 8i Backup and Recovery exam number 1Z0-025.

CIS 298: Oracle Performance and Tuning 3 Credits
Prerequisites: CIS 297
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is the fourth of five courses in the Oracle Database Administration program (CPODA). Students are introduced to Oracle database tuning concepts and learn how to manage memory and disk input/output, optimize sorts, and minimize contention. This course prepares students to take Oracle 8i Performance Tuning exam number 1Z0-024.

CIS 299: Oracle Network Administration 1 Credit
Prerequisites: CIS 298
Corequisites: None
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: None
This course is the fifth of five courses in the Oracle Database Administration program (CPODA). Students learn about Oracle network administration and about Oracle Net8 architecture, configuration, and troubleshooting. This course prepares students to take Oracle 8i Network Administration exam number 1Z0-026.

CNT 201: Managing Microsoft Workstations 2 Credits
Prerequisites: ELE 155, ELE 216A and ELE 225A
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: None
This is the first course in the Computer Networking Operating Systems program (CVCNOS). Students learn to perform post-installation and day-to-day administration tasks in a single domain or multiple-domain Microsoft Windows-based network.

CNT 206: Internetworking I 4 Credits
Prerequisites: ELE 155, ELE 216A and ELE 225A
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This is the first of four courses in the Computer Networking Academy I program (CVCNT) and is part of the Cisco® networking curriculum at the College. It covers the basics of computer networking and includes contemporary network services, transmission media, and protocols. The most common implementations in today’s LANs and WANs are used. Students must complete the Computer Systems Technology Certificate (CTCSTC) before registering for this course. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite. This course was previously CNT 200.
Computer Networking Technology

CNT 211: Administering Microsoft Windows Networks 3 Credits
Prerequisites: ELE 155, ELE 216A, and ELE 225A
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is the second course in the Computer Networking Operating Systems program (CVCNOS) and is part of the Cisco® networking curriculum at the College. In this course, students learn to perform post-installation and day-to-day administration tasks in a single-domain or multiple-domain Microsoft Windows NT-based network. Students must successfully complete the Computer Systems Technology (CTCSTC) program before registering for this course. Students with equivalent work experience may contact the instructor for permission to waive the pre-requisites.

CNT 216: Internetworking II 4 Credits
Prerequisites: CNT 206 or CNT 200
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This is the second of four courses in the Computer Networking Operating Systems program (CVCNOS) and is part of the Cisco® networking curriculum at the College. In this course, students learn to post-installation and day-to-day administration tasks in a single-domain or multiple-domain Microsoft Windows NT-based network. Students must successfully complete the Computer Systems Technology (CTCSTC) program before registering for this course. This course is previously CNT 225.

CNT 221: Implementing a Microsoft Windows Network Infrastructure 3 Credits
Prerequisites: CNT 211
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is the third course in the Computer Networking Operating Systems program (CVCNOS). This course provides the experience needed to install, manage, monitor, configure, and troubleshoot network routers. This course was previously CNT 225.

CNT 226: Internetworking III 4 Credits
Prerequisites: CNT 216
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This is the third of four courses in the Computer Networking Operating Systems program (CVCNOS) and is part of the Cisco® networking curriculum at the College. It provides students with the knowledge and skills necessary to install, configure, update, and troubleshoot routers to enhance network security. This course was previously CNT 226.

CNT 231: Implementing a Microsoft Windows Directory Services Infrastructure 3 Credits
Prerequisites: CNT 211
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is the fourth course in the Computer Networking Operating Systems program (CVCNOS). This course is designed to instruct students in installation and administration of Directory Services infrastructure under Windows 2000 and prepare students to complete the Windows 2000 Certification Examination 70-217. Students learn how to install Active Directory and configure objects in the Active Directory database. Students learn additional skills such as deployment of Group Policy and Remote Installation Services.

CNT 236: Internetworking IV 4 Credits
Prerequisites: CNT 226 or CNT 235
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This is the fourth of four courses in the Computer Networking Operating Systems program (CVCNOS). This course provides students with the knowledge and skills necessary to install, configure, update, and troubleshoot a variety of broadband networks including Frame Relay, Integrated Services Digital Network, and Asynchronous Transfer Mode. This course was previously CNT 245.

CNT 241: Designing a Microsoft Windows Directory Services Infrastructure 2 Credits
Prerequisites: CNT 221 and CNT 231
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: None
This is the fifth course in the Computer Networking Operating Systems program (CVCNOS). This course is designed to instruct students in design of a Directory Services architecture using Windows 2000 Active Directory. Further this course prepares students to complete the Windows 2000 Certification Examination 70-219. Students also learn to analyze business requirements and translate those requirements into an Active Directory database.

CNT 246: Advanced Routing Configuration 4 Credits
Prerequisites: CNT 236 or CNT 245
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This is the first of four courses in the Computer Networking Operating Systems program (CVCNOS) and is part of the Cisco® networking curriculum at the College. It provides students with the knowledge and skills necessary to configure various routing protocols such as IGRP, EIGRP, OSPF, BGP, and IS-IS. In addition, students will learn how to configure routers to enhance network security. This course was previously CNT 255.
CNT 251: Microsoft Network Security  3 Credits
Prerequisites: CNT 231
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is the sixth course in the Computer Networking Operating Systems program (CVCNOS). Students learn to identify the security risks associated with managing resource access and data flow on the network and describe how Windows 2000 features are used to secure a network and its resources. Students learn to plan a Windows 2000 administrative structure for granting permissions; plan an Active Directory service structure that facilitates secure and verifiable user account management; define security requirements for Windows 2000-based domain controllers, application servers, file and print servers and workstations; design end-to-end security for the transmission of data between hosts on the network; design a strategy for securing access for non-Microsoft clients within a Windows 2000-based network; design a strategy for securing local resources accessed by remote users; and design a strategy for securing local resources accessed by remote offices.

CNT 256: Remote Access Networks  4 Credits
Prerequisites: CNT 246
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This is the second of four courses in the Computer Networking Academy II program (CVCNTA) and is part of the Cisco networking curriculum at the College. It provides students with the knowledge and skills necessary to configure various remote access technologies, including backup to permanent WAN connections, optimizing traffic on dedicated WAN connections, and scaling IP addresses. This course was previously CNT 265.

CNT 261: Designing a Microsoft Network Infrastructure  3 Credits
Prerequisites: CNT 231
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is the last course in the Computer Networking Operating Systems program (CVCNOS). Students learn to analyze the business requirements for a network infrastructure and design a network infrastructure that meets these requirements. Network infrastructure elements include network topology, routing, IP addressing, name resolution such as WINS and DNS, virtual private networks, remote access, and telephony service.

CNT 266: Multi-Layer Switching  4 Credits
Prerequisites: CNT 256
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This is the third of four courses in the Computer Networking Academy II program (CVCNTA) and is part of the Cisco networking curriculum at the College. It provides students with the knowledge and skills necessary to configure, supervise, manage, and troubleshoot various Virtual Local Area Networks. This course was previously CNT 275.

CNT 276: Network Troubleshooting  4 Credits
Prerequisites: CNT 266
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This is the fourth of four courses in the Computer Networking Academy II program (CVCNTA) and is part of the Cisco networking curriculum at the College. It provides students with the knowledge and skills necessary to troubleshoot a wide variety of LAN and WAN configurations. This course was previously CNT 285.

CPS 120: Introduction to Computer Science  3 Credits
Prerequisites: CIS 100 or CIS 110
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 9 11 12 18 19 20
This course is an introduction to computer science for those planning to take advanced courses in the computer field. This course is recommended for those planning to take programming courses. Students write, enter, compile, and execute simple computer programs. This course is intended to bridge the gap between a basic computer literacy course and advanced courses. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisites.

CPS 171: Introduction to Programming with C++  4 Credits
Prerequisites: (CIS 100 or CIS 110) and (MTH 169 or COMPASS Algebra = 66)
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 9 11 12 18 19 20
This is an introduction to programming using the C++ language. Students should have basic experience using a computer but no prior programming is required. (Experienced programmers should consider CPS 290.) Students learn about problem solving strategies, top-down program development and programming style. Topics include sequential, decision and iterative control structures, functions, basic data structures and an introduction to classes. Students write and execute approximately eight C++ programs. Students who have computer experience equivalent to CIS 100 or 110 may contact the instructor for permission to waive the CIS pre-requisite.
### Computer Science

#### CPS 185: Introduction to Visual Basic Programming

<table>
<thead>
<tr>
<th>Credits</th>
<th>Prerequisites: (CIS 100 or CIS 110) and (MTH 097 or MTH 163 or COMPASS Algebra = 46)</th>
<th>Corequisites: None</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours</td>
<td>11 19</td>
</tr>
</tbody>
</table>

This is an introductory course in the essential principles of using the Microsoft Visual Basic Programming System for Windows. Subjects covered include creating the interface (forms, tools, controls, objects, setting properties), writing code (including some programming fundamentals such as variables, arrays, controlling execution), printing, reading from and writing to files, debugging, and creating distribution disks. Students with experience equivalent to CIS 100 or 110 may contact the instructor for permission to waive the CIS prerequisite.

#### CPS 271: Object Features of C++

<table>
<thead>
<tr>
<th>Credits</th>
<th>Prerequisites: CPS 171</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td></td>
</tr>
</tbody>
</table>

This course continues the study of C++ begun in CPS 171. (Experienced programmers should consider CPS 290.) Students learn the object-oriented features of the language. Topics include classes, constructors and destructors, operator overloading, pointers, dynamic allocation of memory, inheritance, polymorphism, file manipulation, templates, and exceptions. Students with experience equivalent to CIS 171 may contact the instructor for permission to waive the pre-requisite.

#### CPS 272: Data Structures with C++

<table>
<thead>
<tr>
<th>Credits</th>
<th>Prerequisites: CPS 271 or CPS 290</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td></td>
</tr>
</tbody>
</table>

This is the third of a sequence of C++ courses, following CPS 171 and CPS 271. The course covers more advanced computer science features as implemented in C++. Topics include testing, verification and complexity of algorithms, recursion, advanced data structures, class libraries, and techniques for team design of large programs. Students with experience equivalent to CPS 271 or 290 may contact the instructor for permission to waive the pre-requisite.

#### CPS 275: Linux/Unix System Programming

<table>
<thead>
<tr>
<th>Credits</th>
<th>Prerequisites: CPS 271 or CPS 290</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td></td>
</tr>
</tbody>
</table>

In this course students learn about client-server programming on Linux/Unix. Topics include makefiles, libraries, debuggers, file I/O, process creation and management, interprocessor communication (pipes, shared memory, sockets, semaphores and message queues).

#### CPS 276: Web Programming and Oracle Database Access

<table>
<thead>
<tr>
<th>Credits</th>
<th>Prerequisites: CPS 271</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td></td>
</tr>
</tbody>
</table>

This course covers web server programming and database access from the web. Students should have SQL knowledge as well as a good background in C/C++ in a Linux/Unix environment. Students learn to work with the Apache web server in a Unix Environment. The Oracle Pro-C compiler is used to access an Oracle database. To achieve an efficient solution for accessing databases from the web, students learn and utilize the following concepts: cookies, persistent database connections, PHP, and Unix multi-tasking primitives. Students must have SQL knowledge to succeed in this course.

#### CPS 285: Advanced Visual Basic Programming

<table>
<thead>
<tr>
<th>Credits</th>
<th>Prerequisites: CPS 185</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td></td>
</tr>
</tbody>
</table>

This course is a continuation of the CPS 185 Visual Basic course, and is intended for student with a basic understanding of Visual Basic. Among the topic to be addressed in this course are: Database Access, OLE, Windows API calls, Active-X controls, Error Checking and Internet access within our Programs including Client/Server applications, creating help files, and packaging an application. Students with experience equivalent to CPS 185 may contact the instructor for permission to waive the pre-requisite.

#### CPS 290: Object-Oriented Programming

<table>
<thead>
<tr>
<th>Credits</th>
<th>Prerequisites: College Level Entrance Scores</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td></td>
</tr>
</tbody>
</table>

This course presents techniques and methodologies for designing computer programs, including an introduction to object-oriented design using C++. Limitations of traditional methods and the advantages of the object-oriented method are discussed. Topics include structured programming, program testing and verification, encapsulation, inheritance, polymorphism, streams, templates, exceptions, and extensibility of code. Students design and write programs using C++. Students should have a thorough understanding of programming using a programming language, but knowledge of C++ is not a pre-requisite.
This course provides a practical introduction to application development for MS Windows using Microsoft Foundation Class (MFC) Library. Students are expected to have a working knowledge of C++ and should be familiar with Windows concepts such as buttons, menus and the mouse. No prior Windows programming experience is expected. Topics include MFC’s document-view architecture, device contexts and Graphics Device Interface (GDI) functions, Single Document Interface (SDI) and Multiple Document Interface (MDI), and use of standard Windows components such as dialogs, controls, menus toolbars, and status bars. Students with experience equivalent to CPS 271 or CPS 290 may contact the instructor for permission to waive the pre-requisite.

This course provides in-depth exposure to, and experience with, advanced topics of Microsoft Foundation Class’s (MFC) Windows programming. Students should be familiar with Microsoft Visual Studio 97 (including class wizard, resource and dialog editors, Visual C++ and the debugger) and have a working knowledge of basic MFC programming techniques. Advanced topics include sockets, threads, COM servers and containers, ActiveX automation, interprocess communication and synchronization (including semaphores, events, and flags), DAO, ODBC, ADO, DLLs, metafile, multi-media and registry programming.

This course is designed to introduce basic refrigeration cycle concepts and system components. Primarily designed for facility maintenance staff, it increases the knowledge level of workers whose major work tasks bring them into incidental contact with climate control systems. This course is based upon the Building Owners and Managers Institute (BOMI) System Maintenance Administrator Certification (SMA).

This course reviews the fundamentals of human comfort and the components of HVAC systems. It is primarily directed toward maintenance staff whose major work tasks involve air cleaning devices and indoor air quality, water conditioning and treatment, and plumbing systems. Fire protection and alarm systems complete the diverse systems this course reviews.

Students learn about various building temperature control systems and their components. The course provides a basic understanding of control theory and describes components of pneumatic, electric, and electronic control.

This course enables students to operate and maintain a building’s electrical equipment. The course demonstrates how to maintain electric motors and lighting fixtures. It is based upon the Building Owners and Managers Institute (BOMI) System Maintenance Administrator Certification (SMA).
CON 089: Home Repair and Improvement  2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: None
This is a course designed for homeowners to improve their skills in making common household repairs and minor renovations. It will cover topics beginning with minor foundation repairs, siding and shingle repairs, window and door repairs/ replacement, wallboard patching, minor plumbing repairs, minor electrical repairs, and residential hardware replacement. This is a discussion course with some time devoted to the examination of full-scale mockups used in the construction program. Students have the opportunity to examine common tools necessary to make repairs.

CON 100: Residential Blueprint Reading  3 Credits
Prerequisites: MTH 039 or COMPASS Prealgebra = 24
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This introductory course in construction blueprint reading emphasizes the development of visualization skills and the study of symbols and conventions commonly encountered in interpreting residential blue prints. Sketching skills and techniques are developed and smaller scale construction projects are studied.

CON 104: Construction I  3 Credits
Prerequisites: MTH 039 or COMPASS Prealgebra = 24
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is the first course in a series of four that covers trade orientation, personal safety, hand tools, portable power tools, stationary power equipment, blueprint reading, rigging, and job site safety.

CON 105: Construction II  5 Credits
Prerequisites: CON 104
Corequisites: None
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This course is the second in a series of four courses that lead to a mastery certificate in residential construction. Topics covered include foundations and flatwork, introduction to concrete and reinforcing materials, concrete forms, and handling and placing concrete. Students who have equivalent work experience may contact the instructor for permission to waive the pre-requisite.

CON 107: Basic Soil Mechanics  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course is designed for members of the construction and inspection community to provide information regarding basic soil mechanics. Topics covered include: Laboratory testing procedures and reports, identification and classification of soil types, and descriptions of soil characteristics. This course covers rock mechanics, foundation design, soil-handling, equipment, quarry operations, and advances in soil technology.

CON 111: Introduction to Construction Supervision I  3 Credits
Prerequisites: Admission to Residential Construction program
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course concentrates on the management and supervisory skills needed by new first-line supervisors. The course has practical applications taken from common workplace situations. Because employees generally receive promotion to supervision based on their technical expertise, this course provides the new management and people skills that add to these technical abilities.

CON 112: Blueprint Reading for Construction—Commercial  3 Credits
Prerequisites: CON 100
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course is for those students seeking to obtain print reading skills for intermediate and large-scale construction projects. Emphasis is on the application of Blueprint Reading skills, principles and fundamentals of the construction process. Students who have experience equivalent to CON 100 may contact the instructor for permission to waive the pre-requisite.

CON 115: Construction Site Safety  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course introduces participants to the principles and procedures of working safely in the construction environment. A number of common pieces of safety equipment are introduced, together with procedures for inspections and use. This course is intended for all trades and all personnel who will work in construction.
CON 121: Commercial Property Maintenance 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course is designed to increase the knowledge and skills of individuals who are responsible for the maintenance and repair of commercial property. This includes institutions, hospitals, hotels, malls, residential rental property - both single and multifamily, resorts, and office buildings.

CON 123: Commercial Property Maintenance II 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is the second in a series of four courses that addresses the skills and knowledge required to successfully maintain and repair commercial properties.

CON 125: Commercial Property Maintenance III 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is the third in a series of four courses that addresses the knowledge and skills of individuals who are responsible for the maintenance and repair of commercial properties.

CON 127: Commercial Property Maintenance IV 3 Credits
Prerequisites: Consent required
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is the fourth in a series of four courses that addresses the knowledge and skills of individuals who are responsible for the maintenance and repair of commercial properties.

CON 171: Basic Woodworking 2 Credits
Prerequisites: MTH 039 or COMPASS prealgebra =34
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This course is the first of a two-part series that provides learning experiences in the safe and productive use of common woodworking tools and equipment. Topics include basic hand tools, portable and stationary power tools and equipment, and safety considerations appropriate to the process. Materials including fasteners and other hardware are discussed. Exercises in planning and layout are provided. All students complete a common project to demonstrate their command of the fundamentals. Subsequent work must have the approval of the instructor. Safety glasses are mandatory.

CON 174: CON Co-op Education I 1-3 Credits
Prerequisites: Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
In this course, students gain skills from a new experience in an approved, compensated position in the field of construction. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience.

CON 204: Construction III 4 Credits
Prerequisites: CON 105
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This course is the final course in a series of four. Topics include stair construction, interior finish systems, exterior finish systems, roofing applications, and gutters and downspouts. This is a lecture/lab course and hands-on opportunities to practice skills are determined by the instructor. Students who have experience equivalent to CON 204 may contact the instructor for permission to waive the pre-requisite.

CON 205: Construction IV 4 Credits
Prerequisites: CON 204
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This course is the final course in a series of four. Topics include stair construction, interior finish systems, exterior finish systems, roofing applications, and gutters and downspouts. This is a lecture/lab course and hands-on opportunities to practice skills are determined by the instructor. Students who have experience equivalent to CON 204 may contact the instructor for permission to waive the pre-requisite.

CON 271: Cabinetry 2 Credits
Prerequisites: CON 171
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This is the second of two courses that introduce the student to methods and materials used in woodworking. Topics covered are a more in-depth examination of materials and processes used in the construction of more complex projects and include classic joinery, manufactured wood products, and technological developments in fastening systems. Students perform routine functions on the shaper, bandsaw, and lathes as appropriate. Construction of jigs and fixtures to aid in the cutting and assembly processes are emphasized. Materials and basic hand tools are furnished by the student.
CON 274: CON Co-op Education II  
Prerequisites: CON 174 and Consent required  
Corequisites: None  
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours  
Fulfills Core Elements: None  
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two Co-op courses.

CJT 100: Introduction to Criminal Justice  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 20 22 23  
This course provides an in-depth look at the Criminal Justice System including law enforcement, courts and corrections. Individuality and the purpose of each division is studied. The student is provided with a sound understanding of the basic functions of each component.

CJT 110: Emergency Telecommunication  
Prerequisites: Consent required  
Corequisites: None  
80 lecture, 0 lab, 0 clinical, 0 other, 80 total contact hours  
Fulfills Core Elements: None  
The goal of this course is to provide participants with basic skills in public safety communication. Communication skills, telephone and dispatch techniques, legal issues and CPR skills are some of the topics covered in the course.

CJT 111: Police/Community Relations  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 7 9 21 22  
The role of individual officer and the department in achieving and maintaining public support is studied. Topics include: customs, culture, and problems of ethnic and minority groups. Public information services, and techniques for the alleviation of community tensions are also covered.

CJT 120: Criminal Justice Ethics  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 7 8 9 22  
This is a normative ethics course that examines values and issues relevant to success in the Criminal Justice area. The course includes personal values clarification, historical ethics and applied ethics.

CJT 160: Criminal Justice Constitutional Law  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 22 23  
A comprehensive examination of key provisions of the US Constitution with emphasis on those areas affecting the rights and privileges of individual citizen (e.g. Those imparting procedural law). A historical approach is adopted to give students a complete understanding of the mutable nature of the Constitution and those factors which impact it. This course was previously CJT 112.

CJT 208: Criminal Evidence and Procedure  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 1 7 9 22  
This course examines principles of constitutional, federal and state laws as applied to law enforcement. Topics include: adjudicial law, the law of evidence; role of the police, prosecutor, defense counsel, judge and jury; the judicial process; criminal procedure in various courts; law of arrest and search and seizure; and constitutional restraints.

CJT 209: Criminal Law  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 1 7  
This course is designed in order for either lawyer or layman to broaden understanding of the various agencies involved in the administration of criminal law. The more important law enforcement functions from arrest to executive pardon are emphasized.

CJT 221A: Law Enforcement - Investigations  
Prerequisites: Consent required and MCOLES Test  
Corequisites: None  
195 lecture, 0 lab, 0 clinical, 0 other, 195 total contact hours  
Fulfills Core Elements: 7 9 15 21 22  
This course is part of the basic law enforcement training program, also known as the Police Academy. The curriculum, established by the Michigan Commission on Law Enforcement Standards (MCOLES), includes physical conditioning, defensive tactics, firearms training, and first aid as well as subjects requiring extensive reading, writing, and note-taking skills. Students successfully completing the Academy are eligible for an examination administered by MCOLES for certification as a law enforcement person. This section covers, in particular, all aspects of police investigations. Drug screening and a criminal background check are required as part of the admission procedure. Students must have completed 45 program credit hours, be eligible for graduation, and be admitted to the Police Academy to register for this course.
CJT 221B: Law Enforcement - Skill Areas  13 Credits
Prerequisites: Consent required and MCOLES Test
Corequisites: CJT 221C
165 lecture, 126 lab, 0 clinical, 0 other, 291 total contact hours
Fulfills Core Elements: 9 15 16 22
This course is part of the basic law enforcement training program, also known as the Police Academy. The curriculum, established by the Michigan Commission on Law Enforcement Standards (MCOLES), includes physical conditioning, defensive tactics, firearms training, and first aid as well as subjects requiring extensive reading, writing, and note-taking skills. Students successfully completing the Police Academy are eligible for an examination administered by MCOLES for certification as a law enforcement person. This course covers, in particular, all the physical aspects of policing. Drug screening and a criminal background check are required as part of the admission procedure. Students must have completed 45 program credit hours, be eligible for graduation, and be admitted to the Police Academy to register for this course.

CJT 221C: Law Enforcement Training - Community Policing and Communication  4 Credits
Prerequisites: Consent required and MCOLES Test
Corequisites: CJT 221B
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 9
This course is part of the basic law enforcement training program, also known as the Police Academy. The curriculum, established by the Michigan Commission on Law Enforcement Standards (MCOLES), includes physical conditioning, defensive tactics, firearms training, and first aid as well as subjects requiring extensive reading, writing, and note-taking skills. Students successfully completing Police Academy are eligible for an examination administered by MCOLES for certification as a law enforcement person. Drug screening and a criminal background check are required as part of the admission procedure. This section of the Academy covers interactions with community members in non-criminal situations where communication and understanding is of primary importance. Students must have completed 45 program credit hours, be eligible for graduation, and be admitted to the Police Academy to register for this course.

CJT 223: Juvenile Justice  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 2 7 8 21
The major emphasis of this course is on problems of law enforcement related to juvenile crime. Major topics covered include theories of juvenile delinquency, work of youth agencies, legislative involvement and new approaches to the prevention of juvenile crime.

CJT 224: Criminal Investigation  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 15
Students will be introduced to the science of criminal investigation. They will become familiar with the methodology of crime scene investigations, evidence collection, preservation, and analysis. Included are the rudiments of follow-up investigations, interviews, interrogations and report writing. Techniques applicable to investigation of specific crimes will be highlighted.

CJT 225: Seminar in Criminal Justice  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 2 7 10
This course provides a unifying experience and evaluation of criminal justice systems, policies and practices. Preparation of a concluding research paper is required for this course. The focus is on analytical thought processes and problem solving.

CUL 100: Introduction to Hospitality Management  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 2 5 7
This course is designed to give students an overview of the hospitality industry and opportunities in the industry today. It is an introduction to the study of the business organization and functions of management. On-site tours of the hospitality industry will be coordinated.

CUL 110: Sanitation and Hygiene  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 7 9 15
This course communicates the importance of sanitation to the hospitality worker: layman’s bacteriology, communicable diseases, food poisoning, pest control, cleaning and sanitizing, and personal hygiene. Students who complete this course and pass the exams receive National and State Sanitation Certification.
CUL 114: Baking I  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours  
Fulfills Core Elements: None
This course is designed to introduce students to basic theory, practices, and production techniques required to produce quality baked good items such as yeast raised breads, quick breads, cookies, pies, and hi-ratio cakes. Emphasis is placed on time management, safe food handling, storage, and proper utilization of ingredients and equipment.

CUL 115: Pastry I  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours  
Fulfills Core Elements: None
The student learns to produce contemporary pastries that would appear on the menus of the finer restaurants of the world. Emphasis is placed on the basics of baking and progressing to the fine art of pastry production. Lectures, demonstrations, and practical applications include petite fours and French pastry, puff pastry and pate choux specialties, gateau and tortes, ice cream production and plated desserts.

CUL 118: Principles of Nutrition  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 7, 16
General principles of nutrition are discussed in this course as they pertain to selection of foods, nutritional needs of all age groups, the meaning of food to people, the relationship of food and nutrition to menu planning.

CUL 120: Culinary Skills  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
23 lecture, 90 lab, 0 clinical, 0 other, 113 total contact hours  
Fulfills Core Elements: None
This course introduces the student to the principles of quantity food production, fabricating techniques and recipe conversions, costing, product identification and classical culinary skills. Students will also learn how to operate and care for equipment, along with maintaining a safe and sanitary environment. When taken with CUL 121, CUL 121 is equivalent to the previously offered CUL 111.

CUL 121: Introduction to Food Preparation Techniques  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
23 lecture, 90 lab, 0 clinical, 0 other, 113 total contact hours  
Fulfills Core Elements: None
This course emphasizes the skills necessary to produce a la carte food preparation and presentation in a full service restaurant. This beginning production course will also examine the development of standards in food preparation, portion control, sanitation, receiving and storage of inventory, as well as the proper use in preparation and service. When taken with CUL 120, CUL 121 is equivalent to the previously offered CUL 111.

CUL 124: Baking II  
Prerequisites: CUL 114  
Corequisites: None  
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours  
Fulfills Core Elements: 7
This course builds on principles and production techniques learned in Baking I (CUL 114). Students learn more complex production skills in the preparation of sweet and savory specialty breads, chiffon's mousse, custard pies, egg foam based cakes, pate choix products, doughnuts, Danish and puff pastry. Students who have experience equivalent to CUL 114 may contact the instructor for permission to waive the prerequisite.

CUL 125: Pastry II  
Prerequisites: CUL 115 or CUL 124  
Corequisites: None  
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours  
Fulfills Core Elements: 7
The student continues to learn contemporary desserts and pastries. Emphasis is placed on holiday desserts, hot and cold plated desserts, confectionery, chocolate and sugar show pieces, and management and interpersonal skills.

CUL 130: Beginning Cake Decorating  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
7 lecture, 23 lab, 0 clinical, 0 other, 30 total contact hours  
Fulfills Core Elements: None
This course is designed to teach students proper preparation and frosting techniques. Students learn the decorating techniques required to produce and design borders, side garlands, message inscriptions, buttercream flowers, and wedding cake construction.

CUL 131: Wedding Cake Design  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
7 lecture, 23 lab, 0 clinical, 0 other, 30 total contact hours  
Fulfills Core Elements: None
This course is designed to teach students the finer techniques of cake decorating. Students learn to cover a cake in rolled fondant, create lace pieces, ruffles, borders, and make beautiful gum paste flowers. Students are encouraged to demonstrate creativity in the production of cakes for competition and decorative show pieces.
CUL 140: Bakery Management and Merchandising  2 Credits  
Prerequisites: 15 credit hours in the Baking and Pastry Program Program (CTBAKP)  
Corequisites: None  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
Fulfills Core Elements: None  

Students understand and develop merchandising techniques through analysis of current competitive practices used in bakeries. They prepare bakery products and promotional projects such as newspaper ads, brochures, press releases and the basics of arranging display cases. Proper control of processing frozen dough products and the theory and application of no-time doughs and mixes used in commercial bakeries are covered, along with management principles and practices of the industry.

CUL 150: Food Service Management  3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: CUL 151  
23 lecture, 90 lab, 0 clinical, 0 other, 113 total contact hours  
Fulfills Core Elements: 1  

Students demonstrate service and supervisory techniques necessary in the operation of a full-service restaurant. Guest speakers, tours, and classroom discussions follow the lab, covering issues of guest service, financial accounting, responsible beverage service, and human relations principles related to the front of the house management. Students have the opportunity to receive certification for Techniques of Alcohol Management (TAM) and Race for Life (CPR).

CUL 151: Food Service Marketing  3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: CUL 150  
23 lecture, 90 lab, 0 clinical, 0 other, 113 total contact hours  
Fulfills Core Elements: None  

Students demonstrate personal sales strategies as they operate a full service restaurant lab. Guest speakers, tours, and classroom discussions will follow the lab covering topics related to functions of marketing such as promotion, advertising, and public relations.

CUL 174: CUL Co-op Education I  1-2 Credits  
Prerequisites: 15 credit hours in CTBAKP Program and Consent required  
Corequisites: None  
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours  
Fulfills Core Elements: None  

In this course students gain skills from a new experience in an approved, compensated, culinary arts-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the first of two co-op courses.

CUL 210: Garde Manger  3 Credits  
Prerequisites: CUL 111 or (CUL 120 and CUL 121)  
Corequisites: None  
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours  
Fulfills Core Elements: 7  

Students demonstrate classical cold food preparation and presentation techniques as they relate to buffet display. Students will learn the methods related to the preparation of pates, galantines, terrines, mousse, charcuterie, buffet salads, brines, cures, and ice sculptures. Students who have experience equivalent to CUL 111 or CUL 120 and CUL 121 may contact the instructor to waive the pre-requisite.

CUL 220: Organization/Management of Food Systems  3 Credits  
Prerequisites: CUL 100  
Corequisites: None  
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours  
Fulfills Core Elements: 1 7 8 9  

A study of the processes of recruitment, selection, training and evaluation, collective bargaining and human relations techniques in personnel management. Theoretical applications are developed and discussed through actual case studies.

CUL 224: Principles of Cost Control  3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 4 5 6 7 9 18  

Forecasting and cost control exercises are a major part of this course. Students are involved in analyzing all costs related to food, beverage, labor and supplies as well as discussions and exercises related to purchasing, receiving and storage.

CUL 227: Advanced Culinary Techniques  2 Credits  
Prerequisites: CUL 230 and CUL 231  
Corequisites: None  
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: 7  

This course is a culmination of experiences for the advanced student. Focus will be placed on competitive skills in food design, presentation, organization, timing, and cooking methods used in hot and cold food competition. In addition, students have the chance to demonstrate their creativity and design skills through ice sculpture.

CUL 228: Layout and Equipment  3 Credits  
Prerequisites: CUL 111 or (CUL 120 and CUL 121)  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 4 7 9 18  

This class is designed to give necessary insight involved in developing a floor plan of a restaurant or food service facility. Individual projects make use of information related to surveying, planning and design of both menu and kitchen layout. Students who experience equivalent to CUL 111 or CUL 120 and CUL 121 may contact the instructor for permission to waive the pre-requisite.
CUL 230: Quantity Food Production 3 Credits
Prerequisites: CUL 111 or (CUL 120 and CUL 121)
Corequisites: CUL 231
23 lecture, 90 lab, 0 clinical, 0 other, 113 total contact hours
Fulfills Core Elements: 5 7 8 18
This course builds on basic preparation and production techniques learned in CUL 111, Elementary Food Preparation. Quantity Food Production is designed to provide students with advanced preparation techniques and methods required to produce quality food items in quantity for breakfast, brunches, and luncheon buffets. Students will demonstrate organization, management, and production skills.

CUL 231: A La Carte Kitchen 3 Credits
Prerequisites: CUL 111 or (CUL 120 and CUL 121)
Corequisites: CUL 230
23 lecture, 90 lab, 0 clinical, 0 other, 113 total contact hours
Fulfills Core Elements: 5 7 18
This course gives students the opportunity to advance and refine their skills in quality food production. Food preparation focuses on restaurant “cooked to order” cooking. Emphasis is placed on time, organization, portioning, and teamwork.

CUL 250: Principles of Beverage Service 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 5 7
This course is designed to teach students techniques in beverage production and service as well as the ability to identify strategies for effective management and marketing of beverage operations. Emphasis will be placed on point of origin, mixology and regulations of beer, wine, and spirits. Comparative tastings are a major component of this course.

DAN 101: Beginning Modern Dance I 1 Credit
Prerequisites: None
Corequisites: None
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
Fulfills Core Elements: 13
This course introduces dance as a creative art form. Basic movement vocabulary is taught along with body placement, alignment and simple tools for composing dance studies.

DAN 102: Beginning Modern Dance II 1 Credit
Prerequisites: None
Corequisites: None
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
Fulfills Core Elements: 13
This course continues in more depth the use of basic movement vocabulary by applying the technique to more complex dance phrases and is paced faster than DAN 101.

DAN 103: Beginning Tap Dance I 1 Credit
Prerequisites: None
Corequisites: None
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
Fulfills Core Elements: 13
In this course, students learn basic tap dance vocabulary which is incorporated into traditional steps and dance routines. Rhythmic enjoyment is emphasized.

DAN 104: Beginning Tap Dance II 1 Credit
Prerequisites: DAN 103
Corequisites: None
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
Fulfills Core Elements: 13
In this course, students learn basic tap dance vocabulary which is incorporated into traditional steps and dance routines. Rhythmic enjoyment is emphasized.

DAN 105: Beginning Jazz Dance I 1 Credit
Prerequisites: None
Corequisites: None
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
Fulfills Core Elements: 13
This dance form originated in Africa and has evolved through American social and stage dance. The movement is rhythmical, bold, percussive, and expansive. Basic jazz vocabulary is taught along with body alignment. This course helps to improve overall body control, agility, and coordination.

DAN 106: Beginning Jazz Dance II 1 Credit
Prerequisites: DAN 105
Corequisites: None
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
Fulfills Core Elements: 13
This is a course designed for students with jazz dance background who want to work on proficiency of jazz movement and stylized dancing. Students who have experience equivalent to DAN 105 may contact the instructor for permission to waive the pre-requisite.

DAN 107: Beginning Ballet I 1 Credit
Prerequisites: None
Corequisites: None
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
Fulfills Core Elements: 13
This course provides basic ballet movement vocabulary by associating the French ballet terms with the appropriate execution. Balance, body alignment, flexibility, and overall body control can be developed in this course and students learn how to view performances.

### Dance

**DAN 222: Ballroom Dance II**  
1 Credit  
**Prerequisites:** DAN 122  
**Corequisites:** None  
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours  
Fulfills Core Elements: 13  
Students perfect the basics of good social dance so they can excel in any dance situation. They learn advanced patterns in fox trot, waltz, swing, cha-cha, rumba, polka and hustle. They are introduced to tango, mambo and samba. It is designed for those who have previous ballroom dance experience. Students who have experience equivalent to DAN 122 may contact the instructor for permission to waive the pre-requisite.

**DAN 223: Dance Exercise II**  
1 Credit  
**Prerequisites:** DAN 123  
**Corequisites:** None  
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours  
Fulfills Core Elements: None  
This course is designed for students who are looking for a medium-paced dance exercise course. This choreographed program of stretching and simple dance routines, set to various types of music, helps trim and recondition the body while providing an excellent maintenance or re-entry point for a fitness program. Discussion of nutrition and the learning of simple relaxation techniques are also a part of this class. No prior dance exercise is required, though a moderate level of fitness is suggested. Students who have experience equivalent to DAN 123 may contact the instructor for permission to waive the pre-requisite.

### Dental Assisting

**DEN 039: Dental Assistant Review**  
1 Credit  
**Prerequisites:** None  
**Corequisites:** None  
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours  
Fulfills Core Elements: None  
This course provides the opportunity for a prospective candidate for a dental assistant credentialing exam to review course materials, gain knowledge about test taking, take a simulated exam, and examine areas of need prior to taking a credentialing exam. The course is open to graduates of the Dental Assisting program and practicing dental assistants.

**DEN 102: Infection Control**  
1 Credit  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
7 lecture, 15 lab, 0 clinical, 0 other, 22 total contact hours  
Fulfills Core Elements: None  
This is a study of microbiology, types of diseases and their transmission, and the application of OSHA guidelines to dentistry. Students gain practical experience in the operation of all disinfectant and sterilization equipment and techniques. This course aids students in the preparation for the Dental Assistant National Board examination in Infection Control.

**DEN 106: Biomedical Science for Dental Assistants**  
2 Credits  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
Fulfills Core Elements: 7 16  
This course covers the formation and eruption of the teeth, cell tissue and organ development, nervous system, trigeminal nerve, and types and uses of local and general anesthesia.

**DEN 107: Oral Anatomy**  
2 Credits  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
Fulfills Core Elements: 16  
This is an introductory course in head and neck anatomy. It covers skull and facial bones, masticatory muscles, oral anatomy - hard and soft tissues, anatomical nomenclature, tooth development and morphology, tooth surface annotation, cavity classification, occlusion and malocclusion.

**DEN 108: Dental Radiography**  
1 Credit  
**Prerequisites:** Admission to Dental Assisting Program and (DEN 102 with 2.0 or DANB ICE = Pass)  
**Corequisites:** None  
12 lecture, 0 lab, 36 clinical, 0 other, 48 total contact hours  
Fulfills Core Elements: 7 18  
The principles, techniques, safety precautions, and operation of various types of radiographic film and equipment are studied. Students must be admitted to the Dental Assisting Program or receive instructor permission to register for this course.

**DEN 109: Oral Hygiene**  
1 Credit  
**Prerequisites:** Admission to Dental Assisting Program  
**Corequisites:** None  
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours  
Fulfills Core Elements: 7 16  
This course is designed to give dental assisting students a basic awareness of preventive dentistry. Etiology, prevention and control of dental caries, and oral hygiene instruction is emphasized. Students must be admitted to the Dental Assisting Program (CFDAC) or receive instructor permission to register for this course.

**DEN 110: Basic Clinical Dental Assisting**  
4 Credits  
**Prerequisites:** DEN 102 with a 2.0 or higher  
**Corequisites:** None  
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours  
Fulfills Core Elements: None  
This course is an orientation to dental assisting. It provides an overview of the history of dentistry, professional organizations, ethics, and the role of the modern dental health team. Students are introduced to the dental operatory, equipment and basic procedures, and the application of OSHA (Occupational Safety and Health Administrations) guidelines used in four-handed dentistry.
DEN 112: Dental Materials 4 Credits
Prerequisites: DEN 102 and DEN 106 with a 2.0 or higher
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 7
This course is designed to give dental assisting students theoretical knowledge of the uses and properties (chemical and physical) of the most commonly used dental materials. Students will gain laboratory and clinical experience in the manipulation, practical application, and safe use of common dental materials in accordance with OSHA guidelines.

DEN 119: Dental Nutrition 1 Credit
Prerequisites: Admission to the Dental Assisting Program
Corequisites: None
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: 7 16
This course is designed to give dental assisting students a basic awareness of nutrition in dentistry. The etiology, prevention, and control of dental caries through nutrition and diet analysis are emphasized. Students must be admitted to the Dental Assisting Program or receive instructor permission to register for this course.

DEN 120: Oral Diagnosis Theory 1 Credit
Prerequisites: DEN 102, DEN 106, and DEN 107 with 2.0 or higher
Corequisites: None
8 lecture, 24 lab, 0 clinical, 0 other, 32 total contact hours
Fulfills Core Elements: 7 16
This theoretical course provides students with the knowledge and techniques used to obtain diagnostic data and the methods of recording this data. Students gain practical experience in common charting techniques and record management in different specialty areas of dentistry.

DEN 128: Dental Radiography Practicum 1 Credit
Prerequisites: DEN 108 with 2.0 or higher
Corequisites: None
0 lecture, 45 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 18
Students gain experience in exposure methods, processing methods, and mounting techniques.

DEN 129: Oral Pathology and Dental Therapeutics 2 Credits
Prerequisites: DEN 102, DEN 106, and DEN 107 with 2.0 or higher
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 7 16
This course is a study of diseases of teeth and supporting structures, oral pathology, and systemic diseases and their relationship to dental health. Dental assistant students gain experience in critical evaluation of a patient’s health status and apply the essential skills needed to assist in common dental/medical emergencies. Various drugs and their effect on medical/dental care also are studied.

DEN 130A: Oral Diagnosis/Clinical Practicum I 0.5 Credit
Prerequisites: DEN 102, DEN 106, DEN 107, DEN 108, DEN 109, DEN 110, DEN 112, and HSC 131A with a 2.0 or higher
Corequisites: None
0 lecture, 0 lab, 0 clinical, 60 other, 60 total contact hours
Fulfills Core Elements: 7 16
This course provides students with actual clinical application of all previous knowledge as they gain clinical experience in the WCC Dental Clinic. Students have the opportunity to assist during basic preventive and operative procedures, monitor and record vital signs, apply OSHA guidelines, sterilize instruments, and manage records. This course is graded on a Pass/No Pass grading system. Students who hold a current CPR card from ARC or AHA should contact the instructor to waive the pre-requisite for HSC 131A.

DEN 130B: Oral Diagnosis/Clinical Practicum II 0.5 Credit
Prerequisites: DEN 102, DEN 106, DEN 107, DEN 108, DEN 109, DEN 110, DEN 112, and HSC 131A with a 2.0 or higher
Corequisites: None
0 lecture, 0 lab, 0 clinical, 60 other, 60 total contact hours
Fulfills Core Elements: 7 16
This course provides students with actual clinical applications of all previous knowledge as they gain clinical experience in clinics such as the U of M Dental School. Students have the opportunity to assist during basic preventive and operative procedures, monitor and record vital signs, apply Occupational Safety and Health Administration (OSHA) guidelines, sterilize instruments, and manage records. This course is graded on a Pass/No Pass grading system. Students who hold a current CPR card from ARC or AHA should contact the instructor to waive the pre-requisite HSC 131A.

DEN 131: Principles of Dental Specialties 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 9 18
This course provides a study of advanced clinical procedures used in dental specialties. Latest concepts in each specialty are presented by dental specialists from the community.

DEN 202: Advanced Clinical Practice 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
0 lecture, 0 lab, 0 clinical, 280 other, 280 total contact hours
Fulfills Core Elements: None
Students actively participate in a variety of clinical settings. The course is structured according to students’ area of interest and geographic access in dentistry. Students become acquainted with a number of office routines, procedures, equipment, and patient and staff relationships. This course is graded on a Pass/No Pass grading system.
Dental Assisting

DEN 204: Advanced Functions 3 Credits
Prerequisites: Consent required
Corequisites: None
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 7
This course is designed to provide dental assisting students with knowledge and skills in performing intra-oral functions identified in the ADA Composite Handout. In Michigan, the legal duties of the Registered Dental Assistant are outlined in the rules of the Michigan State Board of Dentistry, Rule #330. Students must have a current CPR card and a grade of 2.0 in all previous dental courses.

DEN 212: Dental Practice Management 4 Credits
Prerequisites: CIS 100
Corequisites: None
52.5 lecture, 22.5 lab, 0 clinical, 0 other, 75 total contact hours
Fulfills Core Elements: 7 11
This course is an introduction to the dental business office. It is the study of systems of management used in dentistry, interpersonal communications (written and verbal), basic concepts of third party payment, machines and computer utilization. Students gain actual computer experience in word processing, database, and spreadsheet programs. Students develop skills in interviewing and writing letters of application and a resume. Students who have experience equivalent to CIS 100 may contact the instructor for permission to waive the pre-requisite.

DEN 230: Alternative Dental Assisting Education Project 9 Credits
Prerequisites: Passing score on DANB exam and consent required
Corequisites: None
30 lecture, 16 lab, 0 clinical, 0 other, 46 total contact hours
Fulfills Core Elements: None
This course is designed specifically for the on-the-job trained dental assistant who has been admitted to the Dental Assisting Program with advanced standing after successfully passing the Dental Assistant National Board Examination. In this course the dental assistant will demonstrate hands on skills that cannot be tested in a written examination. Students validate clinical, laboratory, radiographic, and business office skills in their offices of employment. This course is graded on a Pass/No Pass grading system.

Drama

DRA 152: Acting for the Theatre I 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 7 9 13
This class is an introduction to acting through improvisation and the presentation of monologue scenes, poetry, and original text. It covers analysis and application of the performance skills needed in stage theatrical performance, including voice projection, character development and analysis, emotional expression, and staging. These skills are emphasized in a studio class setting where students frequently perform in class for each other and receive coaching and direction from the instructor. This course will appeal to anyone interested in developing their acting, presentation, and/or communication skills. All skill levels are welcome.

DRA 160: Movement for Actors 3 Credits
Prerequisites: DRA 152 or DAN 101, or DAN 102
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course introduces and familiarizes students with basic stage movement and techniques to increase movement vocabulary.

DRA 167: Theatre Production 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13 14
This is a course in which, through tours of area theaters, workshop participation and supervised participation in a campus or off-campus production. Students are exposed to and gain practical experience in one or more of the various phases of the theatre arts: stage managing, lighting design, lighting execution, scenery, publicity, house management and properties. Specific duties to be arranged with the instructor/director.

DRA 170: Stratford Theatre Festival 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13 14
Students will travel to Stratford, Ontario to attend plays presented at the Stratford Theatre Festival. The course will appeal to those with an interest in many aspects of theatrical performance, including acting, directing, design, production, and literature. A back-stage tour of the facilities will be included. There will be additional expenses for travel.
DRA 208: Acting for Theatre II  
3 Credits
Prerequisites: DRA 152  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 1  7  9  13
This course is a continuation of DRA 152. It focuses on the further study and practice of acting techniques including improvisation and the presentation of monologue scenes, poetry, personal narrative, and original text. The course covers analysis and application of the performance skills needed in stage theatrical performance including voice projection, character development and analysis, emotional expression, and staging. These skills are emphasized in a studio class setting where students frequently perform in class for each other and receive coaching and direction from the instructor.

DRA 209: Acting for Musical Theatre  
2 Credits
Prerequisites: DRA 152 and MUS 204  
Corequisites: None  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
Fulfills Core Elements: None
This is a fundamentals in acting for musical theatre course. It covers analysis and application of the performance skills needed by the actor/singer in a musical theatre performance. Through song and scene study, students learn basic acting techniques, including expression of character through vocal and physical performance, staging, character development and emotional expression. The emphasis is on performance, not vocal techniques. This course will appeal to anyone interested in developing their vocal performance and acting skills specifically for musical theatre performance. Students should take this course and MUS 209 concurrently (in the same semester), after fulfilling the DRA 152 pre-requisite.

DRA 220: Playwriting  
3 Credits
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: None
Students develop playwriting skills and techniques by critiquing published one-acts and through exercises on character, monologue, dialogue and conflict. During the course, students will write a ten to fifteen page play, which will be workshoped by the class. Avenues of production will be discussed for these plays, and when possible, staged readings of some plays will be performed in New Voices Rising at WCC.

Economics

ECO 120: Making of Economic Society  
3 Credits
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 6  20  21  24
This course examines the social, political, historical, and technological factors that shape the development of the economy. The course emphasizes basic economic ideas rather than technical analysis and theory.

ECO 211: Principles of Economics I  
3 Credits
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 6  10  21  23  24
This is the first half of basic principles of economics. Emphasis is on macroeconomic concepts of national income, fiscal and monetary policy and problems of unemployment, inflation and economic growth. This course is required of all Business Administration transfer students. This course is also taught as a telecourse.

ECO 222: Principles of Economics II  
3 Credits
Prerequisites: ECO 211  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 6  10  21  23  24
This is the second half of Principles of Economics 211. Emphasis is on microeconomic concepts of demand, supply and problems relating to prices and resource allocation. This course is also taught as a telecourse. Students who have experience equivalent to ECO 211 may contact the instructor to waive the pre-requisite.

ECO 280: International Economics  
3 Credits
Prerequisites: ECO 211  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 21  23  24
This is a course in international trade and finance covering topics such as tariffs and quotas, trade agreements, exchange rates, and international finance institutions such as the IMF and World Bank. It is designed primarily for transfer students and those interested in pursuing international business.
ECE 100: Introduction to Engineering and Computers 2 Credits
Prerequisites: Admission to Electrical and Computer Engineering Program
Corequisites: None
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This course offers an introduction to the engineering profession with an emphasis on electrical and computer engineering. Engineering ethics, professionalism, and the honor code are also discussed. Students are introduced to digital logic. Laboratory work includes email and Internet applications and an introduction to Excel spreadsheet, Excel Solver, Microsoft Word, and Pspice logic simulation software. Students work in teams on assigned term projects.

ECE 210: Circuits 4 Credits
Prerequisites: MTH 192 and PHY 222
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This course covers fundamental laws, electrical elements and sources, energy, and power. DC analysis of linear circuits, node and mesh analysis, operational amplifiers and op-amp circuits, Thevenin and Norton theorems, sinusoidal steady-state response and the phasor concept are also discussed. In addition, students learn about introductory concepts on complex frequency, average power in AC circuits, maximum power transfer in circuits and design projects.

ECE 270A: Computer Fundamentals 4 Credits
Prerequisites: ECE 100
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This course covers the basic concepts of computer interfacing, sensing, and control integrated with software concepts. Students are introduced to structured programming and C++. Students also learn about computer hardware and software installation and serial communication.

ECE 273: Digital Systems 4 Credits
Prerequisites: ECE 100
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This course offers an introduction to digital logic. Topics include numbers and coding systems, Boolean algebra with applications to logic systems, Karnaugh and Quine-McCluskey minimization, combinational logic design, flip-flops, sequential network design, and design of digital logic circuits.

ELE 040: Residential Wiring 2 Credits
Prerequisites: (COMPASS Reading = 70 or ASSET Reading = 38 or ACS 070 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091 concurrent enrollment allowed)
Corequisites: None
0 lecture, 45 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course is a practical hands-on course that has been designed to help students better understand wiring techniques and safety considerations for dealing with a residential wiring system. A great deal of "hands on" time is offered and is devoted to working with the wiring materials and constructing circuits of the type found in the home. Typical of the kinds of circuits that are discussed and wired by the student are: duplex outlet circuits, dimmer circuits, three and four-way switch circuits, GFI circuits, lawn and garden lighting circuits, electrical dryer and electric stove circuits. Grading is by the satisfactory/unsatisfactory system.

ELE 095: Electrical Blueprint Reading 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 18
This is an introductory level course in reading basic electronic/electrical manufacturing drawings to determine if the hardware complies with the engineering design requirements. Students learn to identify the basic graphical symbols used in electrical/electronic manufacturing drawings. The basic types of technical information contained in each category of manufacturing drawing is studied.

ELE 104: Electronic Soldering 1 Credit
Prerequisites: College Level Entrance Scores
Corequisites: None
7.5 lecture, 15 lab, 0 clinical, 0 other, 22.5 total contact hours
Fulfills Core Elements: 18
Upon satisfactory completion of this course, students possess the knowledge and skills necessary for entry-level employment as bench soldering technicians. Students learn about the different solder alloys and their fluid temperatures, how to control heat and the flow of molten solder, and the proper procedures for removing and replacing common electronic components.

ELE 105: Introduction to Telecommunications 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 10 18 19 20
This is an introductory level course designed to expose the entering student to the concepts, equipment, and terminology used in the telecommunication industry. Topics include: basic telephony, transmission systems, satellite communications, fiber optics, switching systems, data communications, local area networks, and telecommunications management.
ELE 111: Electrical Fundamentals  
4 Credits
Prerequisites: MTH 097A or COMPASS Algebra = 46
Corequisites: None
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 6 7 17 20

A basic electricity course that includes both DC and AC circuits. The course has been designed for those students who need an understanding of electrical principles and applications but do not need the theoretical or mathematical depth required for circuit design. Lab exercises deal with many of the practical applications of electricity along with learning to use test equipment for the purpose of circuit diagnosis and troubleshooting.

ELE 118: MS DOS for Technicians  
2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 11

This course introduces students to the use of MSDOS commands and utilities used in the installation and maintenance of computer hardware and networks. Through hands-on experiences, students will examine DOS command syntax and respond to DOS error messages. Students will learn efficient techniques for managing disk drives, files, and directory structures. In addition, students will create and use batch files to automate routine configuration and maintenance tasks. Before taking this course, students should be able to demonstrate basic computer literacy or complete CIS 117.

ELE 134: Motors and Controls  
4 Credits
Prerequisites: ELE 111 or ELE 123A
Corequisites: None
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 4 5 7 18 19

Topics include DC motors and generators, alternators, AC motors and typical controls for DC and AC motors. This is a hands-on course with heavy emphasis on laboratory exercises.

ELE 137: Switching Logic  
4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 5 7 9 15

This is a beginning course in digital switching logic. Students learn the devices and circuits used to build computers and other digital control equipment. Lecture topics include data codes, digital logic gates and circuits, ladder logic diagrams, and the use of programmable logic controllers (PLCs). Laboratory topics stress breadboarding logic circuits and programming logic circuits using PLCs.

ELE 139: Microprocessors  
4 Credits
Prerequisites: ELE 137
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 9 18 19

This course is an introduction to the physical makeup of a microprocessor-based computer system. The major functional elements of a microprocessor system and their relationship to each other are examined. Topics include data coding, data storage, microprocessor architecture, input/output devices and machine language programming. The laboratory exercises provide experience with microprocessor hardware and machine language programming.

ELE 140: Software Concepts  
4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 9 11 12 18

Students use standard software design techniques to develop and code algorithms for the solution of electrical and electronics problems, thus gaining a useful tool for problem solution while learning software fundamentals such as understanding the difference between syntax and semantics, refinement of algorithms into working solutions, executing programs on a computer system, correct use of appropriate subsets of a language, development of consistent test cases and preparation of understandable documentation.

ELE 150: PC Hardware Concepts and Troubleshooting  
4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 9 10 11 18 19

This course is designed for the beginning user and those without a technical background. Through hands-on experiences, students examine the internal hardware components of IBM compatible computers with an emphasis on troubleshooting and repair. Topics covered include what the DOS operating system does and how it works with the computer hardware to run application programs. Students explore how to upgrade and optimize your computer and how to solve typical hardware and software problems using time saving and cost-effective techniques. Students in the Computer Systems Technology certificate program must take CIS 118: DOS for Technicians, either before or concurrently with ELE 150. Before taking this course, students should be able to demonstrate basic computer literacy or complete CIS 117.
ELE 155: Advanced Computer Concepts and Troubleshooting 4 Credits
Prerequisites: ELE 150
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 8 9 11 18 19
This course builds on students’ knowledge of computer troubleshooting and takes you through more advanced problems and how to solve them. Through hands-on experiences, students will improve their understanding of and develop specific skills for solving the tough stuff—dead PCs, memory errors, interrupt conflicts, and paralyzed hard drives—to name a few. In addition, you will learn advanced techniques for configuring and troubleshooting the Microsoft Windows operating system. Students who have experience equivalent to ELE 150 may contact instructor for permission to waive the pre-requisites.

ELE 174: ELE Co-op Education I 1-3 Credits
Prerequisites: (ELE 111 and ELE 137) or ELE 150 and Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
In this course the student gains skills from a new experience in an approved, compensated, electronics related position. Together with the instructor and employer, the student sets up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the first of two possible co-op experiences. Instructor consent is required to register for this course.

ELE 204: National Electrical Code 4 Credits
Prerequisites: ELE 111
Corequisites: None
75 lecture, 0 lab, 0 clinical, 0 other, 75 total contact hours
Fulfills Core Elements: 7 9
This course covers the use of the National Electrical Code as a tool to plan the safe installation of electrical equipment in residential, commercial, and industrial locations. Students calculate required numbers of branch circuits; select sizes of conductors, raceways, fuses, circuit breakers, and boxes; and plan motor circuits, services, and feeders. Other topics include: cardio-pulmonary resuscitation and other safety issues, grounding, GFCI, kitchen circuits, motor controls, local codes, and code changes. Recommended for industrial controls students and those interested in becoming licensed journeypersons or master electricians.

ELE 205: Basic Telephony 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 10 18 19
This course covers the theory, maintenance, and installation of telephone systems. Topics include state of the art telephone system technology, basic electromechanical and electronic key systems with emphasis placed on voice systems. Laboratory experiments involve measurements, troubleshooting, transmission line noise analysis, and switching concepts.

ELE 209: Operational Amplifiers 2 Credits
Prerequisites: ELE 111
Corequisites: None
22.5 lecture, 22.5 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 9
This course is a lecture and laboratory course covering operational amplifier circuits, active filters, and regulators. Circuits are constructed and tested in the laboratory. Students also learn how to service equipment containing these circuits.

ELE 211: Basic Electronics 4 Credits
Prerequisites: ELE 111
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 9
Basic Electronics is a beginning lecture and laboratory course covering solid state devices. It includes the theory and application of diodes, and both bipolar and field effect transistors. These devices are tested and then circuits using them are constructed and tested in the laboratory using common laboratory equipment.

ELE 216A: Modem Hardware Installation, Configuration & Troubleshooting 2 Credits
Prerequisites: ELE 150
Corequisites: None
22.5 lecture, 22.5 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 11 18
This course is designed for the beginning user and for those without a technical background. It provides the basic knowledge and skills required to install and operate modem hardware for PCs. Lecture and laboratory topics include the installation, configuration and troubleshooting of modem hardware and software for PCs. Also covered are various communications standards and protocols and PC hardware interfacing to the Internet and bulletin boards and file transfers using modems.

ELE 216B: Data Communications Hardware Standards, Configuration 2 Credits
Prerequisites: ELE 216A
Corequisites: None
22.5 lecture, 22.5 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 9 11 18
This course provides the basic knowledge and skills required to install and use data communications equipment, and to operate test equipment and interpret the results. Lecture and lab topics include data communications protocols and standards, data compression, error detection and correction and data communications theory.
ELE 220: Modems, Peripherals and Intro to Networking 4 Credits
Prerequisites: ELE 150 and ELE 155
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This is a lecture and laboratory course in the basic knowledge and skills required to install, troubleshoot and operate modems, printers and network hardware for PC's. Topics include an introduction to the theory and practical aspects of Local Area Networks and the installation, configuration and troubleshooting of modems, printers and network hardware for PC's. Also covered are various standards, network architectures and protocols.

ELE 224: Introduction to PLC's 4 Credits
Prerequisites: ELE 137
Corequisites: None
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 9 11 18 19
This is a beginning course in programmable logic controllers (PLCs). The course introduces students to the Allen Bradley SLC-500 and PLC-5, A.I. Series, and RSLogix software. Topics include standard relay-type instructions, timers, counters, sequencers, move instructions, and arithmetic operations. This is a hands-on course intended for students in the electronics controls and robotics programs. It is also for electricians, technicians, and engineers who wish to upgrade their skills. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

ELE 225A: Network Installation and Troubleshooting 2 Credits
Prerequisites: ELE 150
Corequisites: None
22.5 lecture, 22.5 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 9 11 18
This is a lecture and laboratory course in the theory and practical aspects of Local Area Networks. Major lecture discussions are directed toward network architectures, hardware, operating systems, installation and troubleshooting.

ELE 225B: Advanced Networking Concepts 2 Credits
Prerequisites: ELE 225A
Corequisites: None
22.5 lecture, 22.5 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 9 11 18 19
This is a lecture and laboratory course in the theory and practical aspects of advanced networking systems. Major lecture discussions are directed toward telephone system performance requirements, transmission of data, digital modulation and network protocols, multiplexers and internetworking techniques.

ELE 230: Computer System Fundamentals 4 Credits
Prerequisites: ELE 140 and ELE 150
Corequisites: None
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 8 9 11 12 18 19
This course provides the basic knowledge and skills required to operate and perform corrective maintenance on modern, 32-bit micro and minicomputer systems. The uses of operational theory, system block diagrams, and diagnostics as aids in troubleshooting are emphasized. Computer operating system concepts and the use of a system's command language as a hardware maintenance tool are introduced. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisites.

ELE 235: Computer System Troubleshooting 4 Credits
Prerequisites: ELE 230
Corequisites: None
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 8 9 11 12 18 19
This course is a continuation of ELE 230. Students develop an integrated knowledge of computer hardware and software concepts with an emphasis on the installation, operation, and maintenance of peripheral controllers and devices (terminals, printers, disk and tape drives). Local Area Network (LAN) concepts and fault isolation tools are introduced.

ELE 244: Motion Control 4 Credits
Prerequisites: ELE 224
Corequisites: None
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 9 11 19
This course features the Allen Bradley IMC 120. Topics include programming and applications for multi-axis digital control systems. This course is intended for Electronics Technology Program students, technicians, electricians, and engineers who wish to upgrade their skills. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

ELE 245: Transmission Systems 4 Credits
Prerequisites: ELE 216A and ELE 216B
Corequisites: None
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 5 7 9
This course studies the principles of digital and analog transmission systems. Topics covered are transmission codes, conventions, and hierarchy. Specific subjects include the T-1 system, Time Division Multiplexing, Frequency division Multiplexing, multiplexer interfacing and system maintenance.
ELE 250: Microprocessor Interfacing  4 Credits
Prerequisites: ELE 137 and (ELE 140 or CPS 171)
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 8 9 10 11 18 19
This is an advanced level course covering theory, hardware, software and applications of microprocessors. Topics include interfacing with sensors and actuators to control position, velocity, acceleration, temperature, flow rate and pressure. Laboratory exercises provide experience in analyzing and troubleshooting modern microprocessor-based control circuits.

ELE 254: PLC Applications  4 Credits
Prerequisites: ELE 224
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This is an advanced course which features the Allen-Bradley SLC-500, PLC 5, A.I. Series, and RSLogix software. Topics include conceptual understanding and troubleshooting of PLC systems which utilize data manipulation instructions, program control instructions, data communications, remote I/O, analog I/O, block transfer, and PID process controls. PLC based motion control is also discussed. This course is intended for industrial electronics students, technicians, industrial electricians, and engineers who need to upgrade their skills in the area of PLC applications. Students who have experience equivalent to ELE 224 may contact instructor for permission to waive the pre-requisite.

ELE 274: ELE Co-op Education II  1-3 Credits
Prerequisites: ELE 174 and Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two Co-op courses.

ELE 275: Switching Systems  4 Credits
Prerequisites: ELE 205 (concurrent enrollment allowed)
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 6 7 9 11 19
The theory, operation and maintenance of analog and digital telephone switches is studied. Topics include switch programming, diagnostic procedures, and system trouble shooting. Customer-owned switching systems are emphasized.

ELE 299: Customer Relations  1 Credit
Prerequisites: College Level Entrance Scores
Corequisites: None
21 lecture, 0 lab, 0 clinical, 0 other, 21 total contact hours
Fulfills Core Elements: 7 9
Students enhance their interpersonal skills through the techniques gained in this course. Developing insight using demonstrations, video tape, role playing, and interaction, the student is guided in a curriculum that builds a value-added attitude for customer service personnel. Skills learned include controlling one's emotions in difficult situations and increasing customer satisfaction.

English  ENG

ENG 000: Writing Center  0 Credit
Prerequisites: None
Corequisites: None
Fulfills Core Elements: None
The Writing Center provides three services. First, students enrolled in English 040, 050, 051, 091, 100, and 111 receive additional practice and/or assignments in developing writing skills in the lab. The practice method and assignments vary from course to course. Second, students can receive help on any writing project from the Center staff. Third, Macintosh computers are available so students may word-process their papers.

ENG 010: Writing Practicum  1 Credit
Prerequisites: Consent required
Corequisites: None
Fulfills Core Elements: None
This course provides individualized instruction. Students may be referred to this course by their instructor to remove a specific deficiency in their writing. Students may enroll in this course to improve writing or receive help in completing writing assignments for English classes or other courses requiring writing. Satisfactory/unsatisfactory grading is used.

ENG 020: English as a Second Language I  8 Credits
Prerequisites: None
Corequisites: None
120 lecture, 0 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None
This course is designed for students who do not speak or understand spoken or written English. The course covers survival language necessary for minimum functioning in the community. Satisfactory/unsatisfactory grading is used.
ENG 021: English as a Second Language II 8 Credits
Prerequisites: ENG 020
Corequisites: None
120 lecture, 0 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None
This course is designed for students who have had some exposure to and/or instruction in English. The course emphasizes survival language. Satisfactory/unsatisfactory grading is used.

ENG 022: English as a Second Language III 8 Credits
Prerequisites: ENG 021 or (ESL COMPASS Reading = 38 and ESL COMPASS Grammar = 42 and ESL COMPASS Listening = 42)
Corequisites: None
120 lecture, 0 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None
This course is a continuation of ENG 021 and is for students who have had some exposure to and/or instruction in English. This course goes beyond minimal survival English toward communication for daily living. Satisfactory/unsatisfactory grading is used.

ENG 028: Beginning ESL Reading 4 Credits
Prerequisites: ENG 022 or (ESL COMPASS Reading = 65 and ESL COMPASS Grammar = 63 and ESL COMPASS Listening = 67)
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This course is designed to lay the foundations for reading improvement needed by ESL students. Emphasis is placed on reading for personal pleasure. Vocabulary development, active reading strategies, independent silent reading and comprehension are covered. Students must satisfactorily complete their work before advancing to a higher level reading course. On the recommendation of the instructor, this course may be completed in three semesters as ENG 028A, 028B, and 028C. Satisfactory/unsatisfactory grading is used. Students may be placed in this course on the recommendation of the instructor.

ENG 030: Intermediate ESL Grammar 4 Credits
Prerequisites: ENG 022 or (ESL COMPASS Reading = 65 and ESL COMPASS Grammar = 63 and ESL COMPASS Listening = 67)
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This intermediate level class expands students’ knowledge of English grammar and vocabulary and their ability to understand and use spoken and written English. Special attention is given to the appropriate use of the forms studied. On the recommendation of the instructor, this course may be completed in two semesters as ENG 030A and ENG 030B. Students may be placed in this course on the recommendation of the instructor.

ENG 033: Intermediate ESL Reading 4 Credits
Prerequisites: ENG 028 or (ESL COMPASS Grammar = 63 and ESL COMPASS Listening = 67 and Regular COMPASS Reading = 36)
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This course is designed to further develop independent reading comprehension skills for ESL students through reading authentic texts including novels and textbook selections. Emphasis is placed on vocabulary development, active reading strategies, variable reading rates, silent reading and comprehension. The fourth hour of instruction is given in the lab every week. Students must demonstrate a reading level at or above the ninth grade level. Satisfactory/unsatisfactory grading is used.

ENG 035: English Pronunciation and Conversation 3 Credits
Prerequisites: (ENG 030 and (ENG 028 or ENG 033) concurrent enrollment allowed)
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This intermediate pronunciation and conversation class is for learners of English as a second language. Students practice using English to agree, disagree, invite, and compare. Grammar and vocabulary are reviewed as they relate to the conversations. Some outside reading is required. Satisfactory/unsatisfactory grading is used. The pre-requisites may be taken before or concurrently with this course.

ENG 037: Intermediate ESL Writing 4 Credits
Prerequisites: (ENG 030 and (ENG 028 or ENG 033) concurrent enrollment allowed)
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This class is designed to help students internalize both the grammar and vocabulary that they have been studying by using it to produce well-formed sentences and paragraphs. Writing as communication is emphasized. Satisfactory/unsatisfactory grading is used. The pre-requisites may be taken before or concurrently with this course.

ENG 050: Basic Writing I 4 Credits
Prerequisites: COMPASS Reading = 36 or REA 050 concurrent enrollment allowed
Corequisites: ENG 000
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This class is the first course for inexperienced writers. It helps students to gain confidence writing formal English sentences and paragraphs. This course uses the satisfactory/unsatisfactory grading system. Students who want to register for additional credits may take MTH 039, MTH 054, MTH 062, or MTH 090, as appropriate, and/or REA 050 concurrently with this course.
ENG 051: Basic Writing II    4 Credits
Prerequisites: ENG 050
Corequisites: ENG 000
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This course meets along with an ENG 050 class but has more advanced writing lab assignments. Grading is based on the satisfactory/unsatisfactory system.

ENG 060: Advanced ESL Grammar    4 Credits
Prerequisites: (ENG 035 and ENG 037) or (ESL COMPASS Grammar = 84 and ESL COMPASS Listening = 82 and Regular COMPASS Reading = 51)
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This class is a continuation of ENG 030. More sophisticated forms are studied, including SV inversion, reduced clauses, and complex verb phrases. Special attention is given to the appropriate use of the forms studied. This class uses the pass/no pass grading system. On the recommendation of the instructor, this course may be completed in two semesters as ENG 060A and ENG 060B.

ENG 063: Advanced ESL Written Communication    8 Credits
Prerequisites: ENG 060 concurrent enrollment allowed
Corequisites: ENG 000
105 lecture, 15 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None
This advanced reading/writing course is designed to prepare students for academic study. Reading strategies and vocabulary development enable students to read authentic texts and to use the information as a springboard to their own writing. English rhetorical structure and the writing process are introduced. This course is graded on a Pass/No Pass grading system. Placement in this course may be made by an ESL instructor.

ENG 065: Advanced ESL Speaking and Listening    3 Credits
Prerequisites: ESL COMPASS Listening = 83 and Regular COMPASS Reading = 51 and ENG 060 concurrent enrollment allowed
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This class is designed to prepare students for active participation in college classes. Understanding lectures, taking notes in class, and participating in class discussion are covered. This course is graded on a Pass/No Pass grading system. Placement in this course may be made by an ESL instructor.

ENG 085: Review of English Grammar    3 Credits
Prerequisites: (COMPASS Reading = 51 or ASSET Reading = 35 or REA 050) and (COMPASS Writing = 32 or ASSET Writing = 37 or ENG 051)
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course reviews basic English grammar. It helps students to write sentences more precisely and effectively as well as to understand the principles of our grammatical system. This is not an appropriate course for ESL students. It may be taken prior to or in conjunction with any writing course or a foreign language.

ENG 091: Writing Fundamentals    4 Credits
Prerequisites: (COMPASS Reading = 51 or ASSET Reading = 35 or REA 050) and (COMPASS Writing = 32 or ASSET Writing = 37 or ENG 051)
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 1 3 7
This course focuses on strengthening the writing skills required of a worker, citizen, or college student. The emphasis is on developing and organizing ideas in long paragraphs and short essays in preparation for college-level writing courses.

ENG 100: Communication Skills    4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: ENG 000
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 1 2 3 7 8 9 10
Students receive practice in a variety of writing assignments relevant to their program area. Assignments include letter writing for a variety of situations (e.g., job application, complaint, commendation, courtesy), memos written in response to situations students are likely to encounter on the job, resumes fitted to the student’s particular background (work and educational experience), and other writing forms. During the first week of class, students must demonstrate a writing proficiency at the ENG 091 level. Students must select a writing lab section with this course.

ENG 101: Journalism I    3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 2 3 7 8 10
This course is an introduction to understanding the demands and effects of journalism in print media. Techniques of finding, writing, and presenting both news and feature stories are emphasized. Students are expected to find and write various types of stories. They will also be introduced to typical newsroom structure and organization, as well as issues of ethics in journalism.
ENG 105: Bridge ESL Written Communication  8 Credits  
Prerequisites: TOEFL = 500 and COMPASS Writing = 32  
and COMPASS Reading = 70  
Corequisites: ENG 000  
105 lecture, 15 lab, 0 clinical, 0 other, 120 total contact hours  
Fulfills Core Elements: None  
This course provides a bridge between ESL classes and college level classes. College level texts and video from both sciences and humanities are used as a springboard for discussion and writing. The emphasis is on fluency at the college level. Placement in this course may be made by an ESL instructor.

ENG 107: Technical Communication  3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 2 3 7 8 9 10  
This course covers the same topics as in ENG 100 with an emphasis on longer, more complex assignments which simulate work situations. As an introduction to more advanced courses in Technical Communication, this course is a requirement for the Scientific and Technical Communication degree program.

ENG 111: Composition I  4 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: ENG 000  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: 1 2 3 7 8 9 10  
This course focuses on developing skills in critical reading, logical thinking, and written composition (from paragraphs to expository essays and documented papers). Reading materials serve as a basis for papers and class-room discussions. Students write both in-class and outside themes frequently. Methods of organization and development are emphasized. During the first week of class, students must demonstrate a writing proficiency at the college level.

ENG 115: Scriptwriting for Media  3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: None  
In this course students explore basic writing techniques and formats used in scripting programs for a variety of media and purposes. Media formats may include video, television, film, and Internet broadcast for purposes that may be documentary, promotional, commercial, informational, or narrative. This course is a requirement for the Digital Video Production certificate program.

ENG 122: Composition II  3 Credits  
Prerequisites: ENG 111  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 1 2 3 7 8 9 10  
This course is a continuation of ENG 111 and further develops critical reading and logical thinking skills. Students will write argumentative essays using a variety of formats. The research paper is emphasized.

ENG 140: Horror and Science Fiction  3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 3 7 13 14  
This course is a study of science fiction and horror in literature with emphasis on literary, historical, psychological, and social relevance. Short stories, novels, films, and/or nonfiction related to both genres are analyzed and discussed. Specially designated sections may focus on horror, science fiction, subgenres, or major authors.

ENG 160: Introduction to Literature: Poetry and Drama  3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 1 3 7 13 14  
This course is designed to give an understanding of literature through writing assignments, close reading and discussion of selected works of poetry and drama. Students are encouraged to evolve criteria for assessing the value of literary works.

ENG 170: Introduction to Literature: Short Story and Novel  3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 3 7 8 13 14  
Students explore short stories and the novel as they provide blueprints for living, self-discovery and recreation. Each student is helped in strengthening reading and writing skills. Readings and discussion consider the cultural relevance of writings, the structural design, and the effect upon the reader. Students are encouraged to evolve criteria for assessing the value of literary works. Special, designated sections of ENG 170 emphasize popular literature, mystery, westerns or images of women in literature.

ENG 181: African American Literature  3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 3 7 8 13 14  
This course provides a critical analysis of the African-American experience in the world of literature through reading, class discussion and writing assignments. It is an introduction to contemporary African-American literature, letters and thought, as well as a survey of the great works of Afro-American fiction.
ENG 185: Grammar and Usage  3 Credits
Prerequisites: TOEFL = 500
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7
In this course, students formalize their knowledge of the structure of English. They learn to respect the internal grammar of native speakers and to separate the issues of grammar and usage. Students examine some of the complex problems faced by speakers of English. Placement in this course may be made by an ESL instructor.

ENG 199: Scientific/Technical Communication Internship  1-3 Credits
Prerequisites: ENG 107 and ENG 108 and consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
Fulfills Core Elements: 3 7 20
In this course, the student integrates theory and practice by working in an area of professional interest in the technical communication field under the dual supervision of a professional technical communicator and instructor of Scientific and Technical Communication. Students spend 3-18 hours per week in a work setting and one hour per week in conference with the instructor. Note: WCC cannot guarantee an internship, since assignment with an employer is required. Consent of the instructor is required to register for this course.

ENG 200: Shakespeare  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 2 3 7 8 13 14
This course provides introductory reading and discussion of the varieties of Shakespeare’s plays: comedy, history, tragedy and dramatic romance. All periods of Shakespeare’s work are represented. Wherever possible, the opportunity to view performances, either live or on film, is made available.

ENG 208: Advanced Technical Communication I  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 2 3 9 11
In this course, students write professional documents and learn the documentation creation process from beginning to end, including conducting a formal document needs analysis, drafting a detailed project plan and schedule, and producing and testing the document. Working in groups and individually, students will have an opportunity to revise existing documents and create original work for their portfolios. This is a required course in the Scientific and Technical Communication Program and the Internet Professional Program.

ENG 209: Advanced Technical Communication II  3 Credits
Prerequisites: ENG 208
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 2 3 7 9 11
In this hands-on course, students write and design technical documents for online delivery. Using the latest technology, students design effective online help systems, convert hard copy documents to online formats, and convert existing online help files to HTML formats. This is a required course in the Scientific and Technical Communication program.

ENG 211: American Literature I  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 3 7 8 13 14 22
The nation’s literature from its beginnings to the Civil War are discussed, stressing the major authors of the period. The course relates trends of the period to contemporary problems and readings.

ENG 212: English Literature I  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 3 7 13 14
The course studies English literature from its origins through the 18th Century. Readings stress the major works and authors from Beowulf to Swift.

ENG 213: World Literature I  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 3 7 13 14
World Literature 213 and 224 is a sequence that attempts an approach to the eternal values of man through literary masterpieces written from the time of ancient Greece to the present.

ENG 214: Literature of the Non-Western World  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 8 10 13 14 24
This course is a survey of major world literature outside the body of traditional Western European and American literature usually studied in college classes. Typically, the course covers selections from African, Asian, and Near Eastern literature. This course includes an introduction to each culture and explore how the literature reflects that culture.

</table>

The purpose of this course is to help students improve critical thinking, research, and writing — especially persuasive writing — skills introduced in English 111 and English 122. Paper topics emphasize students’ field of interest. Students may contact the instructor for permission to waive the prerequisite.

This is a continuation of ENG 212. It involves a study of representative writers of the Romantic, Victorian, Modern, and Contemporary periods.

This workshop is for emotionally mature, self-directed people committed to growth and discipline in their writing and in their lives. It offers in-class writing as a means to self-discovery and expression. Students explore movement and continuity of their lives while exploring creative and healing power of symbols. There is a choice of many ways to use writing: biography, mind exploration, growth work, creative expansion, problem solving, renewing faith, celebrating life, affirming commitments. Journals remain confidential. This course may transfer to some four-year colleges. Contact the transfer college to confirm course equivalency.

This is a continuation of ENG 260, for students who have already completed 260, and who wish to continue to develop their skills and produce additional written work.

Students explore processes by which writers discover ideas. Aided by a series of writing exercises, students create elements of poetry, fiction, drama, and/or non-fiction such as dialogue, point of view, voice, and rhythm. Students also explore relationships between form and ideas in writing. Writing is viewed as a means of personal expression and as a craft with definable measures of quality.
**ENG 271: Creative Writing II**  
3 Credits  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fullfills Core Elements: 1 7 8 13  
Students work on individual writing projects such as a novel, short stories, poetry, film/TV/play scripts in a workshop setting.

**ENG 278: Magazine Publication**  
3 Credits  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fullfills Core Elements: 1 7 8  
This workshop course produces Northern Spies, WCC's literary journal. Students advertise for writing to be considered for publication, and then read, discuss, select, edit, typeset, and proofread work submitted by WCC writers. Students learn critical thinking, discussion, and decision-making skills, editing skills, and technical skills involved in computer desktop publishing.

## Facility Management  
**FMA**

**FMA 101: Facility Management I**  
2 Credits  
**Prerequisites:** (COMPASS Prealgebra = 24 or MTH 039) and (COMPASS Reading = 70 or ACS 070 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091 concurrent enrollment allowed)  
**Corequisites:** None  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
Fullfills Core Elements: None  
This course covers the fundamental principals involved in engineering and building structures. Topics include building design and construction, construction materials, structural systems, the building envelope, roofing systems, interior systems, paint and wall covering systems, plumbing, and HVAC.

**FMA 103: Facility Management II**  
2 Credits  
**Prerequisites:** (COMPASS Prealgebra = 24 or MTH 039) and (COMPASS Reading = 70 or ACS 070 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091 concurrent enrollment allowed)  
**Corequisites:** None  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
Fullfills Core Elements: None  
This is a continuation of FMA 101. Topics include operation and maintenance of electrical systems, lighting principles, vertical transport systems, energy management, cleaning management, landscaping and parking, fire protection systems, security, and building operations management administration.

**FMA 105: Facility Management III**  
2 Credits  
**Prerequisites:** FMA 103  
**Corequisites:** None  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
Fullfills Core Elements: None  
This course focuses on development and improvement of communication skills with senior management. The concepts of strategic planning and management, corporate finance and capital investment, management information systems, resource maximization, and physical asset management are introduced.

**FMA 107: Technologies for Facility Management**  
2 Credits  
**Prerequisites:** FMA 103  
**Corequisites:** None  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
Fullfills Core Elements: None  
This course provides an in-depth study of the technology commonly used in facilities and the skills needed to maximize its use. Maintaining control of new technologies and enhancements and the evaluation of impact of present services and assessment are learned. Topics include facilities technology defined, technology in business operations, telecommunications systems, high support special space, and implementing facility management technology.

**FMA 109: Facilities Planning and Project Management**  
2 Credits  
**Prerequisites:** FMA 103  
**Corequisites:** None  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
Fullfills Core Elements: None  
This course provides an in-depth study of the skills needed to manage a project from start to finish. Topics include identification and rating of user needs, classification of facility projects, design development and review, project implementation, and reporting techniques.

## Fluid Power  
**FLP**

**FLP 111: Fluid Power Fundamentals**  
4 Credits  
**Prerequisites:** (COMPASS Reading = 70 or ACS 070 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091 concurrent enrollment allowed)  
**Corequisites:** None  
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours  
Fullfills Core Elements: 5 18 19  
This is a beginning course in fluid power that deals with the basic principles of hydraulics and pneumatics. Directional valves, pressure controls, flow controls, actuators, and basic pump theory are studied. ANSI and ISO symbols are used to design simple circuits. Disassembly of components and assembly of circuits make up the lab experiences.
FLP 174: FLP Co-op Education I  1-3 Credits
Prerequisites: Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience.

FLP 213: Hydraulic Controls  3 Credits
Prerequisites: FLP 111
Corequisites: FLP 214
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 5  7  8  9  18  19
FLP 213 parallels FLP 214 concentrating on the controls used in hydraulic circuits. The course further develops the concepts of directional, pressure, and flow controls covered in FLP 111. Print reading is emphasized, with the addition of modular valves such as cartridge valves and stack valves. Ladder logic and timing diagrams describing the sequencing of events within a control circuit are also covered. Lab time is an integral part of the course. FLP 214 is a co-requisite with this course.

FLP 214: Basic Hydraulic Circuits  3 Credits
Prerequisites: FLP 111
Corequisites: FLP 213
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 5  7  8  9  18  19
FLP 214 parallels FLP 213, concentrating on a variety of hydraulic circuits. This course further develops the concepts of directional, pressure, and flow controls covered in FLP 111. Troubleshooting with hydraulic prints is emphasized, using conventional valving, servo and proportional valves, and modular valves such as cartridge valves and stack valves. Ladder logic and timing diagrams describing the sequencing of events within a control circuit are also covered. Lab time is an integral part of this course. FLP 213 is a co-requisite with this course.

FLP 225: Fluid Power Motion Control  3 Credits
Prerequisites: FLP 213 and FLP 214
Corequisites: None
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours
Fulfills Core Elements: 5  7  8  18  19
This course reviews basic electrical principles and covers amplifier theory as applied to open loop and closed loop control. Proportional directional valves, flow control valves, and pressure control valves are discussed along with hydraulic servo valves. Proper setup alignment of the drive amplifiers and troubleshooting of servo and proportional control systems are covered in class and laboratory sessions. Closed loop (PID) control theory and feedback transducers are also discussed.

FLP 226: Pneumatics  3 Credits
Prerequisites: FLP 111
Corequisites: None
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 5  18  19
Industrial air systems for controlling conveyors, presses, clamps, etc. are covered. This course includes operation and practical use of compressors, distribution systems, actuators, and valves. The second half of the course concentrates on the design of pneumatic control and power circuits using ANSI and ISO symbols and also the Moving Part Logic technique (pneumatic ladder logic).

FLP 274: FLP Co-op Education II  1-3 Credits
Prerequisites: FLP 174 and Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two Co-op courses. Instructor consent is required to register for this course.

FRN 111: First Year French I  4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 13  14  24
This is a beginning and transferable course in French which emphasizes the aural-oral approach. Classroom work and language laboratory sessions assist the student in establishing and perfecting basic conversational tools in the language.

FRN 112: French Laboratory I  1 Credit
Prerequisites: College Level Entrance Scores
Corequisites: None
0 lecture, 30 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13  14  24
This course is intended to augment FRN 111. Students work in a supervised lab with taped materials that correlate to the lessons in their texts and workbooks. Students are provided with supplemental listening aids that include both music and literature.
FRN 120: Beginning Conversational French 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13 14 24
This is a basic French course, mainly conversational in approach, which assumes no previous knowledge of the language. It is chiefly for persons interested in foreign travel through a basic knowledge of spoken and written French. It may also be taken as a preview for students entering the first-year of college French studies or students already enrolled in the first year French course.

FRN 121: Intermediate Conversational French 2 Credits
Prerequisites: FRN 120
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13 14 24
This course emphasizes the use of spoken French in everyday context. Students work on improving aural/oral skills. By semester's end, students should feel comfortable creating with language in the present, past, and future tenses. Students who have experience equivalent to FRN 120 may contact the instructor for permission to waive the pre-requisite.

FRN 122: First Year French II 4 Credits
Prerequisites: FRN 111
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 13 14 24
This is a continuation of FRN 111. Continuing classroom work and language sessions help the student to acquire basic conversational tools of the language as well as basic informational aspects of the French culture.

FRN 123: French Laboratory II 1 Credit
Prerequisites: College Level Entrance Scores
Corequisites: FRN 122
0 lecture, 30 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13 14 24
This course is intended to augment FRN 122. Students work in a supervised language lab with taped materials which correlate to the lessons in their texts and workbooks. Students are provided with supplemental listening aids that include both music and literature.

FRN 224: Second Year French II 3 Credits
Prerequisites: FRN 213
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 13 14 24
This is a continuation of FRN 213. This course offers a complete and final overview of the French Language. Special attention is placed on the practical world of commercial, fiscal and bureaucratic French by dealing with textual and aural real life contexts. Students are exposed to the new trends and directions in the life of the French Language. Students who have experience equivalent to FRN 213 may contact the instructor for permission to waive the pre-requisite.

GEO 101: World Regional Geography 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 17 20 24
This global survey course covers the world by regions emphasizing the contemporary relationships between developed nations and developing nations. It evaluates how geophysical elements, climates, location, vegetation, and resources interact with culture, economic and political aspects which in turn relates to environmental problems and the accelerating growth of the global population. This course was previously GEO 100.

GEO 103: Cultural Geography 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 24
This course examines the world-wide patterns and characteristics of some of man’s major economic activities (agriculture, industry, trade and commerce), on-going processes (urbanization, population growth and movement), institutions (language, religion and the nation-state), and current concerns (health and nutrition).

GEO 212: Geography of the US and Canada 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 17
This course examines the geography of the United States and Canada on a region-by-region basis, identifying the specific characteristics of each region and exploring the relationships among the various regions.
GLG 100: Introduction to Earth Science  4 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours  
Fulfills Core Elements: 3 7 15 17  
This course provides practical training in earth science including work with soils, minerals, rocks, glaciers, volcanism, plate tectonics, meteorology, oceanography, and astronomy.

GLG 103: Field Geology  3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 5 7 17  
Students examine the processes that have formed and are forming the landscape by studying formations at local sites.

GLG 104: Weather  3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
22.5 lecture, 22.5 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 5 7 17  
Atmospheric processes and phenomena that produce the day-to-day weather changes experienced throughout the world are studied. Emphasis is placed on empirical observation of cloud types, development, and movement. Weather map interpretation and analysis including elementary weather forecasting techniques are presented. Field trips are included. GLG 104 is normally offered only in the spring term.

GLG 109: Common Rocks  3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 7 17  
The identification of rocks and minerals is accomplished through laboratory and field studies. Emphasis is placed on Michigan specimens. This course is intended for students interested in becoming teachers, or needing a science elective.

GLG 110: Geology of the National Parks and Monuments  2 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
Fulfills Core Elements: 2 5 17  
The geological settings of specific National Parks and Monuments are studied including the principles and processes which shaped them. Slide programs and maps are used to illustrate geological features.

GLG 114: Physical Geology  4 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours  
Fulfills Core Elements: 7 15 17  
The physical features and processes of the earth are studied. Plate tectonics along with the interpretation of topographic maps and the study of common rocks and minerals are included. A three day field trip is required with food and housing expenses the responsibility of the student.

GLG 125: Historical Geology  4 Credits  
Prerequisites: GLG 100  
Corequisites: None  
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours  
Fulfills Core Elements: 7 15 17  
The development of North America as a typical continent is presented including the formation of mountains, plains, the evolution of life, and the identification of fossils. Several field trips are taken. A three day field trip is required with food and housing expenses the responsibility of the student. Students who have experience equivalent to GLG 100 may contact the instructor for permission to waive the prerequisite.

GLG 202: Earth Science for Elementary Teachers  4 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours  
Fulfills Core Elements: 15 17  
This course presents the content and methodology necessary for success in teaching earth science in the elementary school. It includes laboratory activities, laboratory projects, lesson planning and student presentations. Content topics include rocks and minerals, volcanism, mountain building, dinosaurs, and weather. Methodology topics include behavioral objectives, lesson plans, presenting lessons, and student-centered approaches.

GLG 219: Field Studies in Geology  1-4 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
0 lecture, 0 lab, 0 clinical, 15 other, 15 total contact hours  
Fulfills Core Elements: None  
In this course students learn about geology through field experiences either on or off campus. Sometimes travel is involved. Students learn the geology and the geologic history of a given locale, read and/or construct maps, and identify field rocks and fossils. Topics vary in scope, place, and design each semester. Examples include learning the geology of the Grand Canyon by rafting through it for a week or determining the mass, volume and density of the largest boulder on campus. Some semester topics require that students be in good health. Pre- and post-course meetings are held in addition to the field study activities. Students are responsible for their own travel expenses, fees, personal health and life insurance, and any other expenses when the semester topic requires it. Students may be asked to sign appropriate risk and release forms.
German

GRM 111: First Year German I 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 13 14 24
This is a beginning and transferable course in German which emphasizes the aural-oral approach. Classroom work and language laboratory sessions assist the student in establishing and perfecting basic conversational tools in the language. Students intending to study German should have a sound, basic background in English grammar and syntax to be able to take and succeed in a foreign language as inflected and analytical as German.

GRM 120: Conversational German 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13 14 24
This course is conversational in approach and assumes no previous knowledge of the language. It is geared chiefly for persons interested in obtaining a basic knowledge of spoken and written German, as well as an appreciation and awareness of contemporary German culture. German 120 may be taken as a preview for students entering the first year German studies or students already enrolled in the first year course.

GRM 121: Intermediate Conversational German 2 Credits
Prerequisites: GRM 120
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13 14 24
This course is a continuation of GRM 120, Conversational German. It emphasizes a conversational approach to the German language and includes instruction in the German culture including shopping, mass media, travel, social interactions, theatre and film. Emphasis is placed on speaking and listening comprehension. Students who have experience equivalent to GRM 120 may contact the instructor for permission to waive the pre-requisite.

GRM 122: First Year German II 4 Credits
Prerequisites: GRM 111
Corequisites: None
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 13 14 24
This is a continuation of GRM 111. Continuing classroom work and language laboratory sessions emphasize the aural-oral approach. Class conversations, short readings, and lab practice also assist students in acquiring facility in the language, as well as informational aspects of the culture. Students who have experience equivalent to GRM 111 may contact the instructor for permission to waive the pre-requisite.

Graphic Design Technology

GDT 100: Typography I 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 5 7 11 18
This is an introduction to evolution/principles of typography with concentration on typeface identification, copyfitting, and layout formulation. Assignments investigate lettering as a design element in graphic design and advertising. Students should have proficiency using Mac PCs or take GDT 105 prior to enrolling in this course.

GDT 101: History of Graphic Design 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 13 20
This course surveys historical and contemporary styles and influences in graphic design through the ages.

GDT 105: Introduction to Mac Graphics 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 11
This course is an introduction to the fundamental tools and procedures of desktop publishing using Macintosh computers. Students complete tutorial exercises in a laboratory setting, using a variety of page layout and graphic applications. This course is recommended for those with little or no computer experience.

GDT 112: Graphic Communication 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 8 9 13
This course introduces students to the principles of graphic design for creating information graphics in the fields of graphic design, illustration, Web, and Multimedia. This course focuses on visual communication, concept ideation, and visual problem solving. Assignments emphasize the conventional boundaries between and among pictures, signs, words and stories, for purposes of alteration and expansion emphasizing shifts in intent, purpose, meaning, interface and message. Topics such as semiotics, iconography, visual syntax, visual metaphors, and episodic imaging are explored. Students are introduced to vector and raster-based computer software applications as well as conventional methods for art production. Students should have proficiency using Mac PCs or take GDT 105 prior to enrolling in this course.
GDT 117: Introduction to PageMaker  2 Credits
Prerequisites: GDT 105
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fullfills Core Elements:  11
This course is an introduction to the fundamental tools and techniques of the page layout software application Adobe PageMaker. Working in a laboratory setting, students are escorted through the basic features of the current version of the software and execute tutorial exercises and industry related projects. Students who have experience equivalent to GDT 105 may contact the instructor for permission to waive the pre-requisite.

GDT 118: PageMaker II  2 Credits
Prerequisites: GDT 117
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fullfills Core Elements:  11
This course is a continuation of skill building in using the page layout software Adobe PageMaker?. Students are guided through more advanced features of the current software version, completing tutorial exercises and publication production projects. Students who have experience equivalent to GDT 117 may contact the instructor for permission to waive the pre-requisite.

GDT 125: Introduction to QuarkXPress  2 Credits
Prerequisites: GDT 105
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fullfills Core Elements:  11
This course is an introduction to the fundamental tools and techniques of the page layout software QuarkXPress. Working in a computer laboratory setting, students are escorted through the basic features of the current version of the software, completing tutorial exercises and publication production projects. This course is a requirement in the GDT-Design program. Students who have experience equivalent to GDT 105 may contact the instructor for permission to waive the pre-requisite.

GDT 126: QuarkXPress II  2 Credits
Prerequisites: GDT 125
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fullfills Core Elements:  11
This course is a continuation of skill building in using the page layout software QuarkXPress. Students are guided through more advanced features of the current software version, completing tutorial exercises and publication production projects. This course is a requirement for the GDT-Design program (APGDTD).

GDT 137: Introduction to Illustrator  2 Credits
Prerequisites: GDT 105
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fullfills Core Elements:  11
This course is an introduction to the fundamental tools and techniques of the vector-based drawing software application Adobe Illustrator. Working in a laboratory setting, students are escorted through the basic features of the current version of the software and execute tutorial exercises and industry related projects. This course is a requirement for the GDT-Design and GDT-Illustration programs. Students who have experience equivalent to GDT 105 may contact the instructor for permission to waive the pre-requisite.

GDT 138: Illustrator II  2 Credits
Prerequisites: GDT 137
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fullfills Core Elements:  11
This course is a continuation of skill building using the vector-based drawing software application Adobe Illustrator. Students are guided through the more advanced features of the current software version, completing tutorial exercises and vector drawing projects. This course is a requirement for the GDT-Design and GDT-Illustration programs. Students who have experience equivalent to GDT 137 may contact the instructor for permission to waive the pre-requisite.

GDT 141: Introduction to PhotoShop  2 Credits
Prerequisites: GDT 105
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fullfills Core Elements:  11  18
This is an introduction to the fundamental tools and techniques of the image-editing software Adobe PhotoShop. Students are guided through the basic features of the current version of the software, completing tutorial exercises and image retouching/editing projects. This course is a requirement in the GDT-Design and GDT-Illustration programs. Students who have experience equivalent to GDT 105 may contact the instructor for permission to waive the pre-requisite.

GDT 142: Intermediate PhotoShop  2 Credits
Prerequisites: GDT 141
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fullfills Core Elements:  11  18
This course is a continuation of skill building using the image-editing software Adobe PhotoShop. Students are guided through more advanced features of the current software version using tutorial exercises and completing faster imaging projects. This course is a requirement in the GDT-Design and GDT-Illustration programs. Students who have experience equivalent to GDT 141 may contact the instructor for permission to waive the pre-requisite.
GDT 150: Design for the Internet 4 Credits
Prerequisites: GDT 100 and (GDT 142 or PHO 127)
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This course provides a thorough introduction to the process of designing and constructing web sites. Students complete exercises and projects using current industry standard web authoring and image editing software. Graphic design principles and methodologies are used to construct a web site and post it on the World Wide Web. Knowledge of vector drawing software is recommended. This course is a requirement in the GDT-Design program (APGDTD).

GDT 174: GDT Co-op Education I 1-3 Credits
Prerequisites: Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
Students are placed in approved industrial work experience to gain skills and knowledge offered by the employer. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. Instructor consent is required to register for this course.

GDT 201: Technical Graphics 4 Credits
Prerequisites: ART 111 and GDT 138
Corequisites: None
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7
This course is an exploration into various means for visualizing and communicating technical information. Students using traditional drawing methods and computer software applications create graphics that are designed to inform, instruct, and/or disclose. Course content covers axonometric and perspective drawing, product illustration, instructional graphics using technically based subject matter. This course is required for the GDT Illustration program and is a recommended elective for GDT Design majors.

GDT 214: Advanced Photoshop 3 Credits
Prerequisites: GDT 142 or PHO 127
Corequisites: None
40 lecture, 20 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 11 18
This course covers advanced features and uses of the image-setting software Adobe Photoshop. Exercises and production projects using the current version of Photoshop focus on developing skills and understanding of such topics as getting good scans, color spaces and profiles, tonal image correction, removing color casts, clipping paths, task automation and more. A good basic working knowledge of Photoshop is an essential course prerequisite. This course is an approved elective for Graphic Design Technology majors. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

GDT 220: Publication Design 4 Credits
Prerequisites: GDT 100, GDT 126 and GDT 142
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 9 11 18 19
This is a computer-based design course focusing on layout and design of publications. Students incorporate the use of grids and other methodologies to design and produce a variety of single- and multi-page publications in black and white, spot and process color. This course is required for all GDT-Design majors.

GDT 222: Commercial Illustration 4 Credits
Prerequisites: ART 111, GDT 112, and GDT 142
Corequisites: None
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 9 13
Traditional rendering illustration methods and 3D Computer illustration software provide students with the basics used by professional illustrators and designers. Comparative techniques of rendering projects are explored using traditional tools and Macintosh computers. Emphasis is placed on developing a strong portfolio. This course is required for GDT-Illustration majors and is recommended as an elective for GDT-Design majors. Students provide supplies and computer disk.

GDT 230: Professional Practices 4 Credits
Prerequisites: 48 credits completed in the GDT program
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 1 11 13
This class prepares students for seeking employment in graphic design/illustration. Topics covered include graphic design career options/specialties, job hunting skills/techniques, freelancing, resume preparation and portfolio preparation, and includes a professional review of student portfolios. This course should be taken during the final semester prior to graduation. Students in the GDT-Illustration program are required to take this course in the same semester as GDT 260.

GDT 236: Specialized Study 1-4 Credits
Prerequisites: Consent required
Corequisites: None
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: None
This class provides an opportunity for independent study in a particular area of instruction with faculty supervision. This is a program requirement for GDT Design and GDT-Illustration majors.
GDT 239: Imaging and Illustration 4 Credits
Prerequisites: GDT 138 and GDT 142
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 11 19
In this course students create industry related illustrations using vector and raster based software programs. Projects include: charts and graphs, technical renderings, and editorial and promotional illustrations. This is a required course for GDT-Design and GDT-Illustration majors.

GDT 245: Computer-Aided Painting 4 Credits
Prerequisites: GDT 105
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 11 12
In this course, students explore the world of digital art where the computer screen is transformed into an electronic canvas offering virtually limitless creative possibilities. Working with traditional themes, hands-on exercises and an array of simulated painting media and surfaces, students produce computer-generated images that have expressive and dynamic characteristics. Proficiency with the Macintosh computer is essential. Students who have experience equivalent to GDT 105 may contact the instructor for permission to waive the pre-requisite.

GDT 252: Advanced Digital Studio 4 Credits
Prerequisites: GDT 220
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 11 12 13 19
This course offers advanced techniques and applications in computer based imaging and publication design. Topics include design, illustration, and electronic file preparation for offset printing involving integration of several professional graphics software programs. Advanced techniques in software such as Adobe Photoshop, Adobe Illustrator, and QuarkXpress emphasize creative, real-world applications for graphic design production. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

GDT 257: Design for Multimedia II 4 Credits
Prerequisites: GDT 157
Corequisites: None
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This course covers more advanced concepts and skills in digital multimedia presentation design and production. Digital video and sound are applied to multi-level and directional interactive presentations. Basic character and scene animation and cross platform issues are included. This course is a recommended elective for the GDTD and GDTI programs, and a requirement for the GDTM program.

GDT 259: Information Graphics 4 Credits
Prerequisites: GDT 112, GDT 138, and GDT 142
Corequisites: None
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This course is an investigation into the process of visual communication; an interweaving of the graphic message, its theory, practice, technology, invention, and function with the desire to create, design, and illustrate. Students investigate the topics of nature, music, vernacular expression, and statistical data as stimuli for solving industry-related types of assignments. This course is a required course for the GDT-Illustration (APGDTI) and a recommended course for GDT-Design (APGDTD) majors.

GDT 260: Animated Graphics 4 Credits
Prerequisites: GDT 137, GDT 141, GDT 150, and GDT 201
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
In this course students create vector-based animated illustrations using an industry standard software application. Assignments cover the spectrum of basic animation techniques, cell animation, animated control functions for applications such as advertising banners, graphic designs, movies, and multimedia productions. Students work toward creating an animated Web site or CD ROM of their student portfolio. This course is a program requirement for GDT-Illustration program majors and should be taken in conjunction with GDT 230 Professional Practices.

GDT 274: GDT Co-op Education II 1-3 Credits
Prerequisites: Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
In this course, students gain further skills from continued experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience.

Health Science HSC

HSC 100: Basic Nursing Assistant Skills 4 Credits
Prerequisites: (COMPASS Reading = 70 or ACS 070 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091 concurrent enrollment allowed) and Consent required
Corequisites: None
38 lecture, 22 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This course prepares students for employment in hospitals, long-term care facilities or home care as a Nursing Assistant, using classroom, laboratory and clinical methods for learning basic nursing skills. Students must be at least 17 years of age. Instructor consent is required to register for this course.

This course is designed to introduce healthcare professionals to terminology used in the workplace. Lecture material is supplemented by independent student computer assignments.

This course consists of lecture on office examining room procedures, sterile techniques, medical emergencies, specimen collection and minor surgery. Laboratory experience applies course material from the lectures.

This course presents normal nutrition and its relationship to health. It includes a study of the nutrients and nutrition planning guides. It covers energy balance and nutritional needs for physical activity. Nutritional needs throughout the life cycle are studied. Other topics covered include: food safety, food technology and cultural aspects of nutrition. The course meets the Nursing Program requirements and is appropriate for the general student population.

This course combines knowledge and application of nutrition in clinical practice. Various diseases and disorders of organ systems and the use of therapeutic nutrition in alleviating the symptoms of these illnesses are addressed. LPN’s may have the pre-requisite waived with the permission of the instructor.

This course teaches American Red Cross first aid and cardiopulmonary resuscitation for the professional rescuer (CPR/FPR). Students learn adult, child and infant CPR, use of resuscitation masks and how to treat choking emergencies. Additional skills taught include emergency care of sudden illnesses, bleeding, thermal injuries and injuries to muscles, bones and joints. Successful students earn ARC First Aid and CPR/FPR certification cards. This course is graded on a Pass/No Pass grading system.

This course prepares students to perform adult, child, and infant cardiopulmonary resuscitation (CPR). Information about preventing injury and illness is provided. Students also learn basic care for illness or injury until professional help arrives. Course objectives follow American Red Cross guidelines, and successful students earn the ARC Community CPR card. This course is graded on the Pass/No Pass grading system.

This course provides the required annual update and skill practice for persons certified in American Red Cross cardiopulmonary resuscitation for the professional rescuer (CPR/FPR). This course is graded on a Pass/No Pass grading system. Students must have a current CPR/FPR card (1993 guidelines) to register for the course.

This course covers the physical, mental, psychological and social growth of the individual from birth to death. The role of the family and theories of death and mourning also are included. This course meets nursing program requirements and also is open to the general student population. This course may transfer to four-year institutions. Contact the transfer college to confirm transferability.

This course features the human patient simulator, with which students will learn to evaluate, diagnose and treat patients in various virtual health care scenarios. Teaching and evaluation strategies relevant to the identified content will be discussed and demonstrated. Instructor consent is required to register for this course.
HSC 200: Advanced Nursing Assistant Skills  5 Credits
Prerequisites: HSC 100
Corequisites: None
60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours
Fulfills Core Elements:  16 18
This course builds on previously learned basic nursing assistant skills in the care of clients/patients/residents in a variety of health care settings. The course focuses on the acquisition of delegated technical skills required in the provision of treatments and procedures to clients/patients with more acute and/or complex health care needs. Emphasis is placed on the regular reporting and communication between the nursing assistant (delegatee) and registered nurse (delegator). This course is graded on a Pass/No Pass grading system. Students with experience equivalent to HSC 100 may contact the instructor for permission to waive the pre-requisite.

HSC 210: Rehabilitation Assistant Skills  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course will instruct students in assisting the rehabilitation professional in a hospital, outpatient, or other healthcare setting. It will also assist individuals to prepare for the Certified Personal Training Credentials offered by the National Strength and Conditioning Association (NSCA). Students will be prepared to help in a rehab setting as a patient care assistant. Successful completion of the exam will allow physical training of clients in a home or health care setting.

HSC 220: Pathophysiology  4 Credits
Prerequisites: BIO 111
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements:  7 9 16
The focus of this course is the study of disease processes in humans. The course includes identification of the etiology and pathogenesis of disease, alterations in normal body function, and the reaction and adaptation of the body to disease. LPN’s may have the pre-requisite waived with instructor permission.

HVA 101: Heating, Ventilation, and Air Conditioning I  4 Credits
Prerequisites: (COMPASS Prealgebra = 24 or MTH 039) and (COMPASS Reading = 70 or ACS 070 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091 concurrent enrollment allowed)
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This course introduces the concept of thermodynamics and principles of refrigeration. Major units covered include HVAC mathematics, refrigeration systems, refrigerants, refrigerant tables, oils, contaminants, dryers, moisture in the air, food preservation, and an introduction to refrigeration components, defrost systems, calculating heat loads, and light commercial systems. An overview of domestic and commercial AC systems and components will be provided from an operation and service perspective. Students who have equivalent knowledge may contact the instructor for permission to waive the pre-requisites.

HVA 103: Heating, Ventilation, and Air Conditioning II  4 Credits
Prerequisites: HVA 101
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This is the second course in a series of four that covers basic electrical theory, OHM’s law, voltage, amperage, and circuitry as applied to HVAC and refrigeration systems. This course also continues discussion of AC motors and controls and electrical calculations introduced in HVA 101. Common control systems and applications, wiring schematics, and diagrams for both high and low voltage systems are also discussed. Basic diagnostic skills are introduced. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisites.

HVA 105: Heating, Ventilation, and Air Conditioning III  4 Credits
Prerequisites: HVA 103
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This course covers common domestic heating systems including fuels and combustion characteristics, furnaces and furnace components and accessories, burner efficiency, and supply systems. Students use charts and mathematical calculations to determine heat load and system sizing principles. Control systems are covered and basic diagnostic skills are discussed. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisites.
This course focuses on twentieth century world history; that is, United States from 1619 to the present.

This course investigates the evolution and expansion of Western institutions and values from the ancient Near Eastern civilizations through the High Middle Ages.

This course analyzes the character and evolution of Western institutions and values from the ancient Near Eastern civilizations through the High Middle Ages.

This course analyzes the character and evolution of Western institutions and values from the ancient Near Eastern civilizations through the High Middle Ages.

This course investigates the evolution and expansion of Western institutions and values from the ancient Near Eastern civilizations through the High Middle Ages.

This course focuses on twentieth century world history; that is, fundamental, historical changes within the last one hundred years. Particular attention is paid to the following four critical topics: political and social developments, economics, science and technology, and cultural trends.

This course examines the history of African-Americans in the United States from 1619 to the present.

The development of American cinema from its beginnings in 1896 to the present is studied. The films, viewed in class, are discussed in terms of technique as well as in terms of content. The course relates American cinema to themes in American culture.

This is the first half of the basic, introductory survey of American History. It deals with what happened in the part of North America that became the United States, from just before European contact to the end of the Civil War. Focal points are the interaction of Native, European, and African people, the emergence of political structures and cultural patterns under British colonial rule, the nature and impact of the American Revolution, the economic and social transformation of the United States after the Revolution, the origins and course of the Civil War and the impact of Reconstruction. This course is also taught as a television course using the program series “The American Adventure.”

This is the second half of the basic, introductory survey of American history. It examines the United States development into the world’s leading economic, political, and military power. Focal points are the era’s major political reform movements, the changing nature of American society and culture, the impact of war upon the nation’s economy and society, and the increased role played by the United States in world affairs.

This course traces the history of U.S. foreign policy from the Revolutionary era to the present. It will address the relationship between the American economic, social, and political systems and the conduct of the nation’s foreign policy. The role played by race, economics, ideology, and “national interest” will be assessed. Emphasis will be placed on the conduct of diplomacy immediately before, during, and immediately after periods of military conflict. The conduct of the Cold War will be reviewed in detail.
HST 216: U.S. Military History, Colonial Times to Present   3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 3 8 10 23 24
This course traces the American military from its pre-colonial origins to the present. It addresses the relationship between the American economic and social systems and the nation’s military, and addresses the effect of the nation’s geography on the mission and organization of the military. Key conflicts such as the American Revolution, the Civil War, the Second World War, and the Vietnam conflict are addressed in detail in an effort to discern if there is a unique “American Way of War.”

HST 220: The Civil War Era, 1845-1877   3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 2 3 8 10 23
This course deals with the causes, conduct, and impact of the American Civil War. It focuses on the political, social, economic, and racial background to the conflict, the conduct battles and campaigns, the formulation of strategy, the mobilization of the nations’ societies and economies, wartime diplomacy and politics, and the numerous issues surrounding Reconstruction. The course will assess the impact of the war on the nation’s society, political system, and economy.

HST 230: History of the Holocaust   3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 21 24
This course investigates the origins, development, and legacies of the Nazi onslaught against the European Jews from 1933 to 1945.

HST 240: The History of the Modern Middle East, 1798-Present   3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 10 14 21 24
This course provides an introduction to the history of the modern Middle East from the end of the eighteenth century to the present, focusing on the territories of the Ottoman Empire and its successor states. Major topics and themes will include Ottoman and Islamic institutions, the decline of the Ottoman and Persian empires and the rising influence of European powers; the emergence of Arab nationalism; the origins and development of the Arab-Israeli conflict; the emergence of radical Islamic movements; and contemporary events.

Hotel-Restaurant Management  HRM

HRM 104: Front Office Procedures   3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 6 7 9
The class provides an introduction to a systematic approach to front office operations as well as an overview of the flow of business through the hotel organization. Students complete exercises using front office simulation disks within the computer lab. Official certificate of completion is available from the American Hotel/Motel Association for those students who successfully pass the required exam.

HRM 174: HRM Co-op Education I   1-2 Credits
Prerequisites: 15 credit hours in APCULD program and Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
In this course students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. Students should contact supervising instructor for permission to register.

HRM 222: Lodging Marketing and Promotion   3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7
This course is designed to zero in on both hotel and restaurant marketing. A special emphasis is placed on sales and promotion of the hotel operation dealing with related activities such as banquet sales, convention planning and holiday packages. Official certificate of completion is available from the American Hotel/Motel Association for those students who successfully pass the required exam.

Human Services Worker  HSW

HSW 100: Introduction to Human Services   3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 8 9 21
This course is an introduction to basic human services work including discussion of the various target populations, the types of professions and careers, social organizations and systems, history and ethics and legal considerations. Self-exploration of values is also included.
HSE 150: Helping Approaches for Groups  3 Credits
Prerequisites: HSW 100
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfils Core Elements: None
This course introduces the beginning helper to using groups to promote change. The student learns how to screen candidates for groups, prepare potential members to use the group productively, use basic group techniques, attend to group process, and use specific activities and techniques to achieve desired outcomes. Students who have experience equivalent to HSW 100 may contact the instructor for permission to waive the pre-requisite.

HSE 200: Intro to Interviewing and Assessment Techniques  3 Credits
Prerequisites: HSW 100 and HSW 150
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfils Core Elements: 3 7 8 9 10 21
This course introduces students to basic interviewing skills and to the process of individual needs assessment. These form the basis of developing treatment strategies. Videotaped and/or audiotaped practice are used. Students with equivalent work experience may contact the instructor for permission to waive the prerequisites.

HSE 230: Field Internship and Seminar I  3 Credits
Prerequisites: HSW 100, HSW 150, HSW 200 with a 2.0 GPA in all HSW courses and Consent required
Corequisites: None
15 lecture, 0 lab, 180 clinical, 0 other, 195 total contact hours
Fulfils Core Elements: 1 7 8 9
This course integrates students into the working world by having them complete field work in a human service agency. Students have the opportunity to progress from observation, to directly supervised client, to indirectly supervised client contact. The field work is integrated with course work during a one hour per week seminar. Learning objectives are individualized according to the field placement and career goals of each student. Students must have a GPA of 2.0 or better in all previous HSW courses to register for this course.

HSE 232: Field Internship and Seminar II  3 Credits
Prerequisites: HSW 100, HSW 200, and HSW 230 2.0 GPA in all HSW courses and Consent required
Corequisites: None
15 lecture, 0 lab, 180 clinical, 0 other, 195 total contact hours
Fulfils Core Elements: 7 8 9
This course integrates students into the working world by having them complete field work in a human service agency. Students complete this internship at a different agency from the internship held in HSW 230 or hold a significantly different role in the same agency. The field work is integrated with course work during a one hour per week seminar. Learning objectives are individualized according to the field placement and career goals of each student. Students must have a GPA of 2.0 or better in all previous HSW courses to register for this course.

Humanities

HUM 101: Humanities I - Ancient to Medieval Times  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfils Core Elements: 7 13 14
This course explores the human experience in Western Culture expressed in art, literature, drama, music, and philosophy, from ancient times to the High Middle Ages.

HUM 102: Humanities II - Renaissance to Modern Times  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfils Core Elements: 7 13 14
This course explores the human experience in Western Culture expressed in art, literature, drama, music, and philosophy, from the Renaissance to the present.

HUM 140: Special Topics  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfils Core Elements: 2 7 10 13 14
Courses offered in this Special Topics series will provide a unique opportunity for alternative learning. Field work (trips to local museums), research projects, classroom discussions, slide lectures, and videos will be utilized to gather a wealth of materials which will allow a comprehensive understanding of a specific culture. Areas of study include the arts and architecture, religions, ways of life and thinking, cultural traditions and achievements and their implications for our contemporary world.

*Fulfills Core Elements: None*
INP 212: Web Imaging II 3 Credits
Prerequisites: INP 152 or INP 143
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This advanced course is an in-depth exploration into creating effective and attractive web site designs. Students learn advanced imaging techniques for the web, with a focus on user interface and navigation design. Industry-standard software applications for web design will be used in a computer-based classroom. This course was previously offered as INP 240.

INP 220: Internet Professional II 2 Credits
Prerequisites: INP 100 or INP Placement Test = Pass
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: None
In this course, students learn about the Internet and its history, core functions and components, standards approval processes, domain names, and IP addresses. Students analyze and validate Web sites; use browser options and plug-ins effectively; become acquainted with newsgroups, chat, FTP, and telnet; and explore options for organizations to connect to the Internet. Students learn about HTML, its strengths and weaknesses, and how to use email attachments and understand their types and limitations. This course was previously offered as INP 160 and before that as CIS 160.

INP 270: Internet Professional III 3 Credits
Prerequisites: (INP 210 or INP 200) and (INP 220 or INP 160)
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is an advanced course in publishing for the Worldwide Web. The focus is on exploring and incorporating advanced technologies into web sites. Topics range from technical to design, including creating advanced tables, frames, and style sheets; troubleshooting code; utilizing and modifying interactive forms and scripts; and discussing and evaluating new and emerging web technologies. Students use both code and industry-standard software for creating and publishing web sites. This course was previously offered as INP 230.

INP 272: Web Animation 3 Credits
Prerequisites: (INP 210 or INP 200) and (INP 152 or INP 143)
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course introduces students to effective use of animation for the web. Students learn a brief history of animation and how animation has become a growing trend in presenting information on the web. Macromedia Flash is used as the main tool to create web animations. Other forms of animation and software used on the web are also explored and discussed. Students learn when and why animation is used as well as when it should be avoided or minimized. All aspects of animating for the web from concept to storyboarding to final production and implementation is covered. Students gain a working knowledge of Flash as a design, animation, and drawing tool for web design and get valuable experience using the web as a resource tool to gain further animation knowledge, skills, and inspiration. This course was previously offered as INP 255.

INP 274: Internet Professional Co-op II 1-3 Credits
Prerequisites: INP 174 and Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
Co-op courses provide the student with worksite skills and experience in an approved, compensated position related to their chosen field of study. Together with an instructor, an employer, and the Workplace Learning Center, the student determines work assignments and learning objectives to connect classroom learning with career-related work experience. Registration for a cooperative education course requires attendance at a Co-op Orientation and a faculty co-op advisor’s approval.

INP 275: Web Database 3 Credits
Prerequisites: INP 230 or INP 270 (concurrent enrollment allowed)
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
Students learn to distinguish different types of databases and the software available to create them. They learn the principles of relational databases and how databases are connected to the World Wide Web. Students create both simple and relational databases using industry-standard software, put the databases on a Web server, and create the HTML code and scripts to link each database to the Web user. This course was previously offered as INP 283 and before that as CIS 283.

INP 282: Web Audio-Video 3 Credits
Prerequisites: (INP 152 or INP 143) and (INP 210 or INP 200)
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course focuses on incorporating audio and video into web sites. Topics covered include studying the following concepts as they relate to the web: capturing audio and video properly, editing audio and video, compression codecs required for optimization, and publishing compressed audio and video. Industry-standard hardware and software for manipulating, compressing and publishing audio and video for the web will be used. This course was previously offered as INP 250.
Internet Professional

**INP 285: Web Server Security**  3 Credits
Prerequisites: CIS 284
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course introduces students to Web server security. Using both Linux and Microsoft Windows NT, students learn how to identify security risks, how to configure servers to avoid unwanted access, where to find and how to read system log files, where to turn services on and off, and the basic theory of a firewall. Students also configure both Unix/Linux and NT servers to both allow and disallow various types of access, including password protecting directories, turning file transfer (FTP) on and off, and setting up file system permissions. This course has previously been offered as INP 287 and before that as CIS 287.

**INP 290: Internet Professional IV**  3 Credits
Prerequisites: INP 270 or INP 230
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is the capstone course in the INP degree and certificate programs. The focus is on acquiring and applying skills at the site level such as adding elements to pages globally, creating pages dynamically, managing a site, and collecting and evaluating site statistics. Students demonstrate their ability to create and manage web sites by working as development teams to plan, produce, and implement a fully functional client web site throughout the semester. Students also prepare professional online portfolios and resumes for later use in industry. This course was previously offered as INP 260.

Machine Tool Technology

**MTT 100: Machine Shop Theory**  4 Credits
Prerequisites: (COMPASS Reading = 70 or ACS 070 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091 concurrent enrollment allowed)
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 4 5 18 19
The purpose of this class is to obtain a general scope of the machine tool industry and manufacture of parts using metal removal techniques. This class is designed to supplement Machine Tool Theory and Practice. The theory, set-up, and operation of basic machine tools is presented. Major units include precision measurement, cutting tools, and speeds and feeds for various operations. Lecture will be supplemented with demonstrations in the machine tool laboratory.

**MTT 103: Introduction to Materials**  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 18
This course includes an introduction to the basic terms, processes and structures of materials. Hardness testing, classification systems and demonstrations of testing equipment are studied. Principles of heat treatments are studied and demonstrated.

**MTT 111: Machine Shop Theory and Practice**  5 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 75 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 4 5 7 9 18 19
This course provides an introduction to machine tool operation. Much emphasis will be placed on shop safety. Other topics that will be covered include measurement, blueprint reading, tool grinding, layout, and hand tools. In addition to the above, students will gain valuable “hands-on” experience learning basic operations on the cutting machines, drill presses, engine lathes, milling machines, and grinding machines.

**MTT 174: MTT Co-op Education I**  1-3 Credits
Prerequisites: MTT 202
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
Students are placed in an approved work experience to gain skills and knowledge offered by the employer. Together with the instructor and the employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experiences. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisites.

**MTT 202: Machine Tool Operations and Set-Up I**  4 Credits
Prerequisites: MTT 111
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This course is a continuation of MTT 111. More advanced techniques of measurement, blueprint reading, and tool grinding will be covered. In addition, the students will be introduced to the study of materials and the use of indicators. Also, machine accessories and special attachments/operations are covered for each of the machine tools. The student’s “hands-on” experience will include external and internal threading, surface grinding, E.D.M. machining, and producing a spur gear. Students who have experience equivalent to MTT 111 may contact the instructor for permission to waive the pre-requisite.
### MTT 203: Machine Tool Operations and Set-Up II  
**4 Credits**  
**Prerequisites:** MTT 202  
**Corequisites:** None  
**45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours**  
**Fulfills Core Elements:** None  
This course is a continuation of MTT 202. The study of materials will be more advanced along with the techniques of measurement and blueprint reading. The technology of metal cutting, dimensional metrology, and special processes will also be introduced. The student’s “hands-on” experience will include multiple lead threading, external grinding, E.D.M. machining, using the C.M.M., and producing a helical gear. Students who have experience equivalent to MTT 202 may contact the instructor for permission to waive the pre-requisite.

### MTT 210: Machine Tool Technology  
**4 Credits**  
**Prerequisites:** MTT 203  
**Corequisites:** None  
**45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours**  
**Fulfills Core Elements:** None  
This course is a continuation of MTT 203. It is also the last and most advanced machine tool technology course. Therefore, the most advanced information on materials, blueprint reading, measurement, metal cutting technology, and special processes will be covered. Along with that, the student will prepare a resume that will include his/her newly acquired proficiencies and well thought-out goals. The student’s “hands-on” experience will include acme threading, internal grinding, E.D.M. machining, using the C.M.M., and producing a pair of bevel gears. This course was previously MTT 201. Students who have experience equivalent to MTT 203 may contact the instructor for permission to waive the pre-requisite.

### MTT 274: MTT Co-op Education II  
**1-3 Credits**  
**Prerequisites:** MTT 174 and Consent required  
**Corequisites:** None  
**0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours**  
**Fulfills Core Elements:** None  
Students are placed in an approved work experience to gain skills and knowledge offered by the employer. Together with the instructor and the employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experiences.

#### Mathematics

**MTH 010: Arithmetic  
3 Credits**  
**Prerequisites:** None  
**Corequisites:** None  
**45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**  
**Fulfills Core Elements:** None  
This course is for students having difficulty with arithmetic. Topics include whole numbers, common fractions, decimal fractions, percents, and applications of arithmetic. Hand calculations are emphasized, however, work with calculators and computers is included. The course is offered only in an individualized format using a Satisfactory/Unsatisfactory grading system. This course may not be repeated for additional credit. Students are required to supply their own handheld calculators.

**MTH 011: Solving Equations  
3 Credits**  
**Prerequisites:** None  
**Corequisites:** None  
**45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**  
**Fulfills Core Elements:** None  
This course is for students having difficulty solving mathematical equations. Topics include: properties of real numbers, signed numbers, simplifying algebraic expressions, and solving simple equations. Work with computers is used to enhance the understanding of these concepts. The course is offered only in an individualized format using a Satisfactory/Unsatisfactory grading system. This course may not be repeated for additional credit. Students are required to supply their own handheld calculators.

**MTH 012: Geometric Figures  
3 Credits**  
**Prerequisites:** None  
**Corequisites:** None  
**45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**  
**Fulfills Core Elements:** None  
This course is for students needing to improve their skills with mathematics relates to basic geometric figures. Topics covered include: points, lines, rays, segments, descriptions of geometric figures, polygons, circles, perimeter, solids, area, and volumes. Work with computers is used to enhance the understanding of some of these concepts. This course is offered only in an individualized format using a Satisfactory/Unsatisfactory grading system. This course may not be repeated for additional credit. Students are required to supply their own handheld calculators.

<td>This course provides the computational skills needed to solve problems commonly encountered in various general occupational fields. Students with an interest in business should consider MTH 163, Business Mathematics. Students with an interest in health fields should consider MTH 165, Health Science Mathematics. Topics covered include: arithmetic review, sets, whole and integer number systems, practical algebra, geometry, measurements, the metric system, ratio and proportion problems, graphs, and statistics. This course is offered in a self-paced format and occasionally in the standard lecture format.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
The scope and content of this course is equivalent to a first-year high school algebra course. Topics include: the real number system, algebraic operations, solving equations, practical applications, inequalities, graphing, systems of equations, polynomial and rational expressions, roots and radicals, and quadratic equations. This is a standard lecture format course. The content of this course is offered in the self-paced format as MTH 097A and MTH 097B.

### MTH 097A: Introductory Algebra (first half) 3 Credits
- **Prerequisites:** MTH 062 or MTH 090 or COMPASS Prealgebra = 37
- **Corequisites:** None
- **Lecture Hours:** 45
- **Total Contact Hours:** 45
- **Fulfills Core Elements:** 4, 5, 7, 8, 9

This course is the first half of MTH 097. Topics include the rational number system, algebraic operations, solving equations, ratio and proportion, and practical applications. This course is offered only in the self-paced format.

### MTH 097B: Introductory Algebra (second half) 3 Credits
- **Prerequisites:** MTH 097A
- **Corequisites:** None
- **Lecture Hours:** 45
- **Total Contact Hours:** 45
- **Fulfills Core Elements:** 4, 5, 7, 8, 9

This course is the second half of MTH 097. Topics include inequalities, graphing, systems of equations, polynomials, rational expressions, roots and radicals, the real number system, and quadratic equations. This course is offered only in the self-paced format.

### MTH 107: Triangle Trigonometry 3 Credits
- **Prerequisites:** MTH 097 or COMPASS Algebra = 46
- **Corequisites:** None
- **Lecture Hours:** 45
- **Total Contact Hours:** 45
- **Fulfills Core Elements:** 4, 5, 7, 8, 9

This course is an introduction to the trigonometric concepts of the triangle. Topics covered include triangles and the basic trigonometric ratios, solving right triangles, laws of sines and cosines, trigonometric ratios of any angle, degrees and radians, and vectors. This course is currently offered only in the self-paced format. Students with very limited math experience may wish to take this course in preparation for MTH 170.

### MTH 148: Functional Mathematics for Elementary Teachers I 4 Credits
- **Prerequisites:** MTH 097 or COMPASS Algebra = 46
- **Corequisites:** None
- **Lecture Hours:** 60
- **Total Contact Hours:** 60
- **Fulfills Core Elements:** 4, 5, 7, 8, 9

This course is the first of a two-semester sequence presenting the mathematical concepts and problem solving techniques necessary for success in a teaching career at the elementary school level. It is not a course solely for teachers of mathematics, rather, it provides the general mathematical background for teachers on all subjects. Topics covered include problem solving, sets, functions, numeration systems, number theory and number systems, applications, and an introduction to probability. This course transfers to EMU’s Elementary Education Program.

### MTH 149: Functional Math for Elementary School Teachers II 4 Credits
- **Prerequisites:** MTH 148
- **Corequisites:** None
- **Lecture Hours:** 60
- **Total Contact Hours:** 60
- **Fulfills Core Elements:** 4, 5, 7, 8, 9

This course is the second of a two-semester sequence presenting the mathematical concepts and problem solving techniques necessary for success in a teaching career at the elementary school level. It is not a course solely for teachers of mathematics; rather, it provides the general mathematical background for teachers of all subjects. Topics covered include probability, an introduction to statistics, introductory geometry, congruence and similarity, and measurement concepts. This course transfers to EMU’s Elementary Education Program.

### MTH 151: Technical Algebra 4 Credits
- **Prerequisites:** MTH 062 or MTH 090 or COMPASS Prealgebra = 37
- **Corequisites:** None
- **Lecture Hours:** 60
- **Total Contact Hours:** 60
- **Fulfills Core Elements:** 4, 5, 7, 8, 9

This course introduces algebraic and geometric concepts in an applied setting and is primarily for trade and technical students. Topics, which emphasize applications, include: mean, median, mode, percents, ratio and proportion, operating with algebraic expressions, formulas and equations, area, volume, and right triangle trigonometry. This course is offered in both a self-paced format and the standard lecture format.

### MTH 152: Technical Geometry and Trigonometry 4 Credits
- **Prerequisites:** MTH 097 or MTH 151 or COMPASS Algebra = 46
- **Corequisites:** None
- **Lecture Hours:** 60
- **Total Contact Hours:** 60
- **Fulfills Core Elements:** 4, 5, 7, 8, 9

This course provides students with the geometric and trigonometric concepts needed to solve problems commonly encountered in technical and trade fields. Topics, which emphasize applications, include basic theorems of geometry, formulas for areas and volumes, trigonometric functions, solutions of right triangles, laws of sines and cosines, and the solution of oblique triangles. This course is offered in both a self-paced format and the standard lecture format.
MTH 160: Basic Statistics  4 Credits
Prerequisites: MTH 097 or COMPASS Algebra = 46
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 4 5 6 7 8 9 10
This course provides students with a general understanding of statistical concepts dealing with the processing and interpretation of numerical information. Topics covered include describing a numerical data set, central tendency, variability, probability distributions, inference, and hypothesis testing. This course transfers to many four-year institutions. A graphing calculator is required for this course. Consult the time schedule for current brand and model.

MTH 163: Business Mathematics  3 Credits
Prerequisites: MTH 062 or MTH 090 or COMPASS Prealgebra score = 37
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 4 5 6 7 8 9
This course provides the mathematical skills needed to solve business application problems and satisfies the math requirements of several one- and two-year WCC business programs. The topics, which emphasize business applications, include operations with whole numbers, fractions, decimals, and percents; measurement or computer mathematics; the metric system; signed numbers; solving equations; ratio and proportion; percent applications; circle, bar, and line graphs; savings and loans; taxes and payroll; and an introduction to statistics. This course is offered in a self-paced format, occasionally in the standard lecture format, and as a television course.

MTH 165: Health Science Mathematics  3 Credits
Prerequisites: MTH 062 or MTH 090 or COMPASS Prealgebra = 37
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 4 5 6 7 8 9
This course provides the mathematical skills needed to solve problems encountered in health-related fields, and satisfies the math requirements of several one- and two-year WCC occupational programs. The topics, which emphasize health science applications, include basic mathematics; operations with percents; fractions and decimals; geometry; the metric system; the apothecary and household systems; signed numbers; solving equations; ratio and proportion; instrumentation; circle, bar, and line graphs; an introduction to statistics; and exponents and logarithms. This course is currently offered only in the self-paced format.

MTH 169: Intermediate Algebra  4 Credits
Prerequisites: MTH 097 or COMPASS Algebra = 46
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 4 5 6 7 8 9
The scope and content of this course is equivalent to a second-year high school algebra course. Topics include the real number system, polynomials, linear equations, inequalities, absolute value, radicals and exponents, complex numbers, quadratic equations and inequalities, linear and quadratic functions, inverse functions, lines and linear systems, non-linear systems, systems of inequalities and determinants. This course is offered in the standard lecture format. The content of this course is offered in the self-paced format as MTH 169A and MTH 169B. Consult a counselor for information on course equivalency at four-year colleges.

MTH 169A: Intermediate Algebra (first half)  3 Credits
Prerequisites: MTH 097 or COMPASS Algebra = 46
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 4 5 6 7 8 9
This course is the first half of MTH 169. Topics include the real number system, polynomials, linear equations, inequalities and absolute value. This course is offered only in the self-paced format. Consult a counselor for information on course equivalency at four-year colleges.

MTH 169B: Intermediate Algebra (second half)  3 Credits
Prerequisites: MTH 169A
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 4 5 6 7 8 9
This course is the second half of MTH 169. Topics include radicals and exponents, complex numbers, quadratic equations and inequalities, linear and quadratic functions, inverse functions, lines and linear systems, non-linear systems, systems of inequalities, and determinants. This course is offered only in the self-paced format. Consult a counselor for information on course equivalency at four-year colleges.

MTH 176: College Algebra  4 Credits
Prerequisites: MTH 169 or COMPASS Algebra = 66
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 4 5 6 7 8 9
This course may serve as a terminal college algebra course or, together with MTH 178, provides the necessary background for calculus. Topics include: descriptive statistics, properties of real numbers, relations and functions, graphs, rational and non-rational functions, exponential and logarithmic functions, inverses, conic sections, sequences and series, and the binomial theorem. It transfers to most four-year institutions. A graphing calculator is required for this course. Consult the time schedule for the current brand and model. This course was formerly MTH 179.
MTH 178: General Trigonometry  
Prerequisites: MTH 169 or COMPASS College Algebra = 46  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 4 5 7 8 9  
This course provides a rigorous background in trigonometry necessary for students intending to study calculus. Topics include trigonometric functions, inverse trigonometric functions, trigonometric graphs and manipulations, identities, solutions of trigonometric equations, measurement of triangles and arc. This course transfers to many four-year institutions. A graphing calculator is required for this course. Consult the time schedule for current brand and model. (MTH 176 may be taken concurrently. If not taken currently, it is recommended that MTH 176 be taken first.)

MTH 180: Precalculus with Trigonometry  
Prerequisites: MTH 169 or COMPASS College Algebra = 46  
Corequisites: None  
75 lecture, 0 lab, 0 clinical, 0 other, 75 total contact hours  
Fulfills Core Elements: 4 5 6 7 8 9  
This course provides the necessary background in college-level algebra and trigonometry for calculus for those with a previous background in the study of trigonometric functions. Those without a trigonometry background should elect MTH 176 and MTH 178 instead. Topics include descriptive statistics, properties of real numbers, relations and functions, graphs, rational and non-rational functions, exponential and logarithmic functions, trigonometric functions, inverses, conic sections, sequences and series, and the binomial theorem. Consult a counselor for information on course equivalency at four-year colleges. A graphing calculator is required for this course. Consult the time schedule for current brand and model.

MTH 181: Mathematical Analysis I  
Prerequisites: MTH 169 or COMPASS College Algebra = 66  
Corequisites: None  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: 4 5 6 7 8 9  
This course teaches the methods and applications of finite mathematics applied to social science and business. Topics covered include solution to linear equations and inequalities, mathematics of finance, matrices, linear programming, set, probability, and statistics. Consult a counselor for information on course equivalency at four-year colleges. A graphing calculator is required for this course. Consult the time schedule for current brand and model.

MTH 182: Mathematical Analysis II  
Prerequisites: MTH 176 or MTH 181 or COMPASS College Algebra = 46  
Corequisites: None  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: 4 5 6 7 8 9  
This course teaches the elementary methods of calculus applied to social science and business. Topics covered include functions, differentiation of algebraic functions, optimization, exponential functions and logarithmic functions and their derivatives, integration, selected applications, and an introduction to multivariate calculus. Some four-year institutions accept this course as the calculus requirement of certain of their business and social science programs. A graphing calculator is required for this course. Consult the time schedule for current brand and model.

MTH 191: Calculus I  
Prerequisites: (MTH 176 and MTH 178) or MTH 180 or COMPASS Trigonometry = 46  
Corequisites: None  
75 lecture, 0 lab, 0 clinical, 0 other, 75 total contact hours  
Fulfills Core Elements: 4 5 6 7 8 9  
This is first-semester college calculus of one variable. Topics include limits, continuity, derivatives, applications of derivatives, elementory integration, and applications of integration. Consult a counselor for information on course equivalency at four-year colleges. A graphing calculator is required for this course. Consult the time schedule for current brand and model.

MTH 192: Calculus II  
Prerequisites: MTH 191  
Corequisites: None  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: 4 5 6 7 8 9  
This is second-semester college calculus of one variable. Topics include the calculus of transcendental functions, techniques of integration, indeterminate forms and improper integrals, sequences and series, parametric equations and polar coordinates. Consult a counselor for information on course equivalency at four-year colleges. A graphing calculator is required for this course. Consult the time schedule for current brand and model.

MTH 197: Linear Algebra  
Prerequisites: MTH 191  
Corequisites: None  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: 4 5 6 7 8 9  
This is an introductory college course in linear algebra. Topics include linear systems of equations, properties of vectors and matrices, determinants, vector spaces, linear transformations, eigenvalues, and applications. Consult a counselor for information on course equivalency at four-year colleges. A graphing calculator is required for this course. Consult the time schedule for current brand and model.

MTH 293: Calculus III  
Prerequisites: MTH 192  
Corequisites: None  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: 4 5 6 7 8 9  
This is the third-semester college calculus of more than one variable. Topics include geometry in the plane and in space, vector-valued functions, partial derivatives, multiple integrals, and an introduction to vector calculus. Consult a counselor for information on course equivalency at four-year colleges. A graphing calculator is required for this course. Consult the time schedule for current brand and model.
MTH 295: Differential Equations  4 Credits
Prerequisites: MTH 197 and MTH 293
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 4 5 7 8 9
This is a first college course in elementary differential equations. Topics include techniques for solving ordinary differential equations of order one, techniques for solving linear equations, applications, the Laplace transform, and solving linear systems of equations using eigenvalues. Consult a counselor for information on course equivalency at four-year colleges. A graphing calculator is required for this course. Consult the time schedule for current brand and model.

MET 100: Presentation and Computer Aided Drawing  4 Credits
Prerequisites: MTH 152 or COMPASS Algebra = 66
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None
This course is designed to increase the student’s competence in using presentation and drawing tools. The principles and applications of computer-aided drafting systems and familiarity with presentation of technical information are emphasized. Use of interactive graphic software, development of input and output skills, and familiarity with software, languages and CAD systems hierarchy are covered. The student is also introduced to three-axis creation of parts and the drafting of auxiliary views, details, assemblies, and solid models. Also covered are AutoCAD and Microsoft Office software. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

MET 110: Statics  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This course represents an introductory, analytical, and practical approach to the principles and physical concepts of statics as they apply to timber construction. The emphasis is on the mastery of basic principles. AutoCAD will be featured as a practical approach to problem solving.

MET 174: MET Co-op Education I  1-3 Credits
Prerequisites: Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
In this course students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the first of two co-op courses.

MET 188: Introduction to Engineering Design  4 Credits
Prerequisites: MET 100
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None
This course provides the beginning engineering student with an overview of engineering design, based on a “hands-on” experience with a client-centered engineering design project which includes a team-based design project, an introduction to the use of computer tools and lab/manufacturing techniques, and a survey of engineering disciplines involved with concurrent engineering projects. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

MET 211: Statics and Introduction to Solid Mechanics  3 Credits
Prerequisites: MET 100 and (MTH 191 or COMPASS Trigonometry = 46)
Corequisites: None
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 4 5 18
This course is an analytical and graphical study of the principles of statics including equilibrium and static equivalence. Also covered is determination of moment and force resultants in members, centroids, and moments of inertia. The course focuses on applications to engineering problems and the analysis of simple machines.

MET 220: Materials and Manufacturing  4 Credits
Prerequisites: CEM 111
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None
This is an introduction to materials, material processes and equipment used in the job shop, tool room, or manufacturing facility. The engineering properties of metals, polymers, ceramics and composites are correlated with the internal structure of the materials and the service condition.

MET 221: Computer Aided Mechanical Design  3 Credits
Prerequisites: MET 100 and MTH 192
Corequisites: None
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
Basic mechanical design and basic manufacturing processes are used to complete a design/manufacturing project. This course also examines the principles of parametric and feature based three-dimensional CAD models including the applications of creating parts, creating assemblies, creating drawings, and good design practices. Agile design models are created using Pro-Engineer and SEER-DFM and are used to verify system build and test.
MET 239: Design of Machine Components 3 Credits
Prerequisites: MTH 192, PHY 211, and MET 260
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
In this course students learn the methods of designing the common machine components applying the principles of mechanics of materials and other engineering sciences. The focus is on the safety, reliability and cost effective issues with emphasis on obtaining computer aided design criteria. Topics include load analysis and material strength overview, fatigue and failure theories, contact stress mechanics, hydrodynamic lubrication, and methods of design and performance analysis of machine members. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

MET 241: Introduction to Dynamics 3 Credits
Prerequisites: MET 211 and MTH 192
Corequisites: None
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 4 5 18
This course is an analytical and graphic study of the motion of rigid bodies. Vector description of force, position, velocity, and acceleration in fixed and moving reference frames are covered. Also included are kinetics of particles, assemblies of particles and of rigid bodies, energy and momentum concepts, and Euler's equations. Applications to engineering problems with principles of linkages, cams, gears, and displacement, velocity and acceleration analysis of mechanisms are included. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

MET 260: Strength of Materials 3 Credits
Prerequisites: MET 241 and MTH 192
Corequisites: None
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 4 5 6 18 19 20
In this course, students learn methods for calculation of shear, tensile, and compressive stresses in industrial materials. Topics include energy methods, buckling of columns, bending of beams, shear and torsion. The focus is on design of engineering structures with emphasis on problem solutions techniques, experimental analysis, and computer aided solutions. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

MET 274: MET Co-op Education II 1-3 Credits
Prerequisites: MET 174 and Consent Required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
In this course students gain skills from a new experience in an approved, compensated position in the field of Technology. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two possible co-op experiences.

MET 278: Finite Element Modeling Fundamentals 3 Credits
Prerequisites: MET 100
Corequisites: None
30 lecture, 15 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course provides a general introduction to Finite Element Modeling (FEM). The integration of finite element theory, principles, problem formulation, and computer analysis are introduced along with the use of commercially available finite element software. Emphasis is placed on practical modeling methods, understanding FEM and FEA concepts, interpreting results and obtaining realistic solutions. Attention is give throughout to the modeling of engineering problems. Pre and post processing concepts are discussed in conjunction with the HYPERMESH software. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

MET 278A: Finite Element Modeling Fundamentals 3 Credits
Prerequisites: MET 100
Corequisites: None
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This course is intended to provide a general introduction to Finite element Modeling (FEM). The integration of finite element theory, principles, problem formulation, and computer analysis are introduced along with the use of commercially available finite element software. Emphasis will be placed on practical modeling methods, understanding FEM and problems, Pre-and post-processing concepts are discussed in conjunction with the HYPERMESH software. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

MET 293: Introduction to Computational Fluid Dynamics 2 Credits
Prerequisites: MET 100 and Consent required
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
The aim of this course is to give students overall appreciation of computational fluid dynamics. The objective is to enable engineers to make informed use of CFD by appreciating the numerical, modeling, and computing issues associated with the current CFD codes. Aerodynamic, fluid dynamic, and thermodynamic examples are covered. FLUENT is used during the course. Students who have experience equivalent to MET 100 may contact the instructor to waive the pre-requisite.
MUS 103: WCC Community Jazz Orchestra   1 Credit
Prerequisites: None
Corequisites: None
0 lecture, 45 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1  7  13
This course in performance is open to those who desire to read, improvise and perform. An audition is necessary for registration; the course may be repeated for credit up to a maximum of four times.

MUS 105: Basic Combo and Improvisation   1 Credit
Prerequisites: None
Corequisites: None
0 lecture, 30 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 7  13
This is a basic performance skills class for instrumental and vocal solo or small group expression. Students learn basic improvisation and listening skills, how to express their original ideas through the acquisition of chord and scale relationships, and communication and group interaction skills. Students must demonstrate basic competency on their instruments.

MUS 106: Instrumental Combo   1 Credit
Prerequisites: None
Corequisites: None
0 lecture, 30 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 7  13
The Combo course is designed for the musician with some degree of competency to gain experience and skill in performance and improvisation of different styles of music. This is a performing group which offers concerts in the college community and community-at-large.

MUS 108: Musical Theater Performance   1 Credit
Prerequisites: Consent required
Corequisites: None
0 lecture, 30 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 7  13
This course provides the experience of participating in a production to a musical or musical revue. Students learn the basic vocal, acting and dance fundamentals necessary to learning their music, staging and choreography. Students receive experience in working with costumes, sets, lighting, props and sound in support of their performance. Students must audition to register for this course. This course was previously MUS 208.

MUS 135: Chorus   1 Credit
Prerequisites: None
Corequisites: None
0 lecture, 30 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 7  13
This is a course in performance of a wide variety of choral music. This group is open to all students. It may be repeated for credit up to a maximum of three times.

MUS 136: Gospel Chorus   1 Credit
Prerequisites: None
Corequisites: None
0 lecture, 30 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13
This course in gospel choral performance is open to all students. It may be repeated up to a maximum of six times.

MUS 140: Music Theory I   3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7  13
This course is designed to give students, prospective teachers and others a foundation in music theory and reading, concepts of rhythm, tonality, music composition, and other techniques, with the aim of developing musical skills and understanding. No musical experience is necessary. Instructional assignments are adapted to student goals.

MUS 142: Music Theory II   3 Credits
Prerequisites: MUS 140
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7  13
This course includes an in-depth study of melodic, harmonic and rhythmic aspects of tonal music related to various styles: European, rock, jazz, ballads and the Blues. The course equips students with a theoretical knowledge to extend and cultivate musical understanding and creativity while giving primary emphasis to the harmonic aspects of music.

MUS 143: Music Composition and Arranging   2 Credits
Prerequisites: MUS 140
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 7  13
This class is designed to enable students to develop skills and techniques in music composition, orchestration and arranging for all musical mediums. Students who have experience equivalent to MUS 140 may contact the instructor for permission to waive the pre-requisites.

MUS 146: Songwriting and Creative Improvisation   3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7  13
For the prospective song writer, this class deals with lyric writing and musical accompaniment. Students collaborate using their talents to produce songs and also become acquainted with musical styles through recordings and demonstrations. Music industry procedures concerning how to get a song published and recorded is discussed. Other areas of study include recording, the recording studio, record pressing, and copyright procedures.

MUS 209: Musical Theatre Song Performance Seminar 1 Credit
Prerequisites: MUS 204
Corequisites: None
0 lecture, 30 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13
This course is a studio/seminar on song performance in the musical theatre genre, and is intended for students with background in voice. Vocal technique, diction, performance techniques, and development of repertoire are emphasized in a studio class setting where students perform frequently in class for each other and receive coaching from the instructor as well as feedback from their classmates. It is suggested that this course be taken the first time in conjunction with DRA 209, Acting for Musical Theatre. Students who have experience equivalent to MUS 204 may contact the instructor for permission to waive the pre-requisite.

MUS 210: Functional Piano I 3 Credits
Prerequisites: None
Corequisites: None
0 lecture, 45 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 13
In this course, students who wish to learn the fundamentals of playing the piano develop the ability to read and execute keyboard music harmonically and melodically. The course covers basic musicianship, fundamentals of piano technique, elementary keyboard harmony, sight-reading, pedal technique, and keyboard facility for use in support of other music classes. The course also offers an introduction to how the piano works, its development, and composers and pianists in various styles.

MUS 211: Functional Piano II 3 Credits
Prerequisites: MUS 210
Corequisites: None
0 lecture, 0 lab, 0 clinical, 45 other, 45 total contact hours
Fulfills Core Elements: 13
This course is a continuation of MUS 210, providing studies beyond the beginning stage. The focus is on individual development in terms of technique, expression, and performance. The course also provides further keyboard skills and historical and theoretical background. This course was previously MUS 213.

MUS 216: Piano: Jazz & Blues 2 Credits
Prerequisites: None
Corequisites: None
0 lecture, 30 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13
This piano course is designed to cover such styles as Blues and jazz techniques. Music theory in terms of scales, scale patterns, diatonic chords, available tensions, triads, seventh chords, improvisation, and some simple voicing techniques is covered. This course is for pianists and other instrumentalists who want to develop their keyboard skills.

MUS 225: Drums: Beginning Jazz/Rock 2 Credits
Prerequisites: None
Corequisites: None
0 lecture, 30 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13
Rudimentary skills in jazz drumming are learned; study includes historical styles such as Swing, Be-Bop, and South American and African rhythms.

MUS 233: Beginning Guitar 2 Credits
Prerequisites: None
Corequisites: None
0 lecture, 30 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13
Designed for those with limited or no experience playing the guitar, this course teaches basic chords and techniques as well as folk and Blues songs. Class is keyed to students' interests and needs.

MUS 236: Intermediate Guitar 2 Credits
Prerequisites: None
Corequisites: None
0 lecture, 30 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13
This course is for students with a basic knowledge of guitar playing. There are opportunities to learn more advanced techniques as well as learning about song arrangements and theory. Class is keyed to students' interests and needs.

MUS 239: Jazz Guitar 2 Credits
Prerequisites: None
Corequisites: None
0 lecture, 30 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13
This course will focus on the styling of jazz guitar greats like Wes Montgomery, Kenny Burrell, and Joe Pass. Students will examine Montgomery’s chord melody solos, the melodic content of his solos, and the use of playing with octaves. Students will learn the importance of Burrell’s dynamics sensitivity, and will gain insight into Pass’ playing of chords, walking bass lines, and improvising. Through the use of videotape these guitar masters will be introduced into the classroom.

MUS 275: Audio Recording Technology II 3 Credits
Prerequisites: MUS 175
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 9 18
This is a career-oriented course for advanced audio technology recording. Students apply basic theory and recording skills to progressive recording of solo instrumental, small group and finally multi-track large ensembles. Students are assigned projects to record both student and professional groups within the college or externally.
MUS 285: Career Practices in the Performing Arts 3 Credits
Prerequisites: 8 credits of Performing Arts courses (MUS, DRA, DAN) and consent required
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is a career-oriented course for advanced audio technology recording. Students will apply basic theory and recording skills to progressive recording of solo instrumental, small group, and finally multi-track large ensembles. Students will be assigned projects to record such as student and professional groups within the college or externally. Instructor consent is required to register for this course.

NTR 110: Seasonal D.N.R. Park Off Training 8 Credits
Prerequisites: Consent required
Corequisites: None
114 lecture, 12 lab, 0 clinical, 0 other, 126 total contact hours
Fulfills Core Elements: None
This is a short course for training Department of Natural Resources Seasonal Parks and Recreation Officers. Individuals must be employed by the DNR and be designated for this training to register for this course.

NTR 120: DNR Enforcement Off Training 11 Credits
Prerequisites: Consent required
Corequisites: None
158 lecture, 34 lab, 0 clinical, 0 other, 192 total contact hours
Fulfills Core Elements: None
This course provides training in law enforcement skills for Department of Natural Resources Park and Recreation/Forest Fire Officers. Individuals must be employed by the DNR and be designated for this training to register for this course.

NCT 112: Introduction to CNC Machining 5 Credits
Prerequisites: (COMPASS Reading = 70 or ACS 070 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091 concurrent enrollment allowed)
Corequisites: None
52.5 lecture, 67.5 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 11
This course develops proficiency in setup and operation of CNC Machining and Turning Centers. Students master CNC machine tool controls through laboratory experiences and the manufacture of pre-programmed parts. Part holding techniques and alignment are included course material. Process planning, tooling for CNC Machine Tools and inspection of machined products are included in the course.

NCT 121: Manual Programming and NC Tool Operation 5 Credits
Prerequisites: MTT 111 and (NCT 112 concurrent enrollment allowed)
Corequisites: None
52.5 lecture, 67.5 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 4 5 7 9 11 18 19
This is the first in a two-course study of manual programming of CNC Machining and Turning Centers. Students experience the entire process of part manufacture by processing working drawings of sample parts, writing and editing of programs, setup and operation of CNC machine tools, and inspection of finished products. Feeds and speeds, fixed cycles, program editing, setup procedures, and tape preparation are major topics presented. Laboratory time is required outside of class time. Students with equivalent experience may contact the instructor for permission to waive the pre-requisite.

NCT 174: NCT Co-op Education I 1-3 Credits
Prerequisites: NCT 221 and Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
Students are placed in an approved industrial work experience to gain skills and knowledge and skills offered by the employer. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience.

NCT 221: Advanced Manual Programming and NC Tool Operation 5 Credits
Prerequisites: NCT 121
Corequisites: None
52.5 lecture, 67.5 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None
This is the second of a two-course study of Manual Programming and CNC Machine Tool Operation. Complex cutter path generation, cutter compensation, repetitive programming, multi-quadrant circular interpolation, three axis interpolation, threading, and other advanced programming techniques are practiced. The class format is similar to that of NCT 121. Students with experience equivalent to NCT 121 may contact the instructor for permission to waive the pre-requisite.
NCT 236: SURFCAM 2 Axis CNC Programming  4 Credits
Prerequisites: NCT 121
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7  11

Students generate tool paths for milling and turning machines which are CNC controlled, using SURFCAM CAD/CAM software. Part programs are constructed by defining the part geometry and then defining the tooling parameters and the tool path required to manufacture the part using SURFCAM, a “PC” based CAM system. Tool path generation on CAD produced databases are included as part of the class activities. Program editing and transfer of part programs to CNC machine tools from the CAM system are also included. The machining operations are considered to be “2-D machining” applications. Students are provided time outside class to use the CAM hardware and software to complete assignments.

NCT 247: SURFCAM 3 Axis CNC Programming  4 Credits
Prerequisites: NCT 236
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 9  11  12  18  19

This course builds upon skills learned in NCT 236. Students learn to create 3-D Wireframe drawings and surfaces using SURFCAM CAD/CAM software. Course concentration is on full 3 and 4 Axis machining of complex surfaces. Transfer of geometric data from CAD systems is included. Students are provided the opportunity to manufacture parts programmed on the CAM workstation. Students are provided access to the NC computer lab outside of class to complete assigned work.

NCT 249: Mastercam CNC Programming  4 Credits
Prerequisites: NCT 236
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 9  11  12  18  19

Students learn to use Mastercam CAD/CAM software to design parts and generate CNC Machine Tool Programs for part manufacture. Students practice the input of geometry as the basis for tool path generation. Both 2-D geometry and 3-D wireframe geometry are practiced. All methods of surface creation are presented and practiced using Mastercam. CNC Machine Tool Programs are created for the manufacture of parts within the software. Drilling, Pocketing and Contour milling are typical 2-D machining applications presented. Students are provided time in the CNC Machine Tool laboratory. Students who have experience equivalent to NCT 236 may contact the instructor for permission to waive the pre-requisite.

NUR 039: State Board Preparation  1 Credit
Prerequisites: Consent required
Corequisites: None
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: None

This course assists Nursing Program graduates in preparing for the State Board of Nursing Examination. Emphasis is placed on reviewing learned materials and on taking a national competitive examination. Grading uses the satisfactory/unsatisfactory system. Instructor consent is required for registration in this course.

NUR 101: Introduction to Nursing  1 Credit
Prerequisites: Admission to Registered Nursing Program
Corequisites: None
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: 1   2

This is the first course in the nursing sequence. Information which provides a foundation for other nursing courses is introduced. Topics include the roles of nurses, personal philosophy of nursing, an overview of nursing history. The course emphasizes associate degree nursing, the Code of Ethics for Nurses, universal precautions, basic legal issues, and medical terminology. Students must gain admission to the Registered Nursing program (APNURS) before registering for this course.

NUR 102: Fundamentals of Nursing  2 Credits
Prerequisites: (NUR 101, 104, 105, BIO 111, and HSC 147 with 2.0)
Corequisites: NUR 103
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 4   5   7   9  16

Theory which provides a foundation for other nursing courses is introduced, including Modeling and Role Modeling and the nursing process. Teaching and learning and the concepts of pain, sleep and cultural issues are included.

NUR 103: Fundamentals of Nursing - Clinical Practice  3 Credits
Prerequisites: (NUR 101, 104, 105, BIO 111, and HSC 147 with 2.0)
Corequisites: NUR 102
60 lecture, 81 lab, 60 clinical, 0 other, 141 total contact hours
Fulfills Core Elements: 4   5   7  9  16

Students will develop skills basic to nursing care in the nursing laboratory. Clinical practice will be in acute and extended care facilities. Emphasis is on assessment skills and implementation of care using standard nursing care plans for commonly encountered nursing diagnoses. The role of the ADN on the health care team is included. This course is graded on a Pass/No Pass grading system. Students must have a current CPR card or pass HSC 131 to register for this course.
NUR 104: Nursing of the Older Adult    1 Credit
Prerequisites: Admission to Registered Nursing Program
Corequisites: NUR 105
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: 10  16
This course uses the nursing process to promote self care for adults from mid-life to death. It focuses primarily on healthy, non-institutionalized older adults, their accommodations to normal changes, commonly encountered alterations in health maintenance, prevention and screening programs and national and state health systems. Students must gain admission to the Registered Nursing program (APNURS) before registering for this course.

NUR 105: Nursing of the Older Adult - Clinical Practice    1 Credit
Prerequisites: Admission to Registered Nursing Program
Corequisites: NUR 104
0 lecture, 0 lab, 45 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 10  13  16
Clinical practice in the nursing of the older adult is provided in community settings. Students explore community resources for the support of the older adult. Opportunities are provided for interaction with the healthy older adult to focus on psychosocial, nutritional, and mobility assessment. This course is graded on a Pass/No Pass grading system. Students must gain admission to the Registered Nursing program (APNURS) and must have a current CPR card or pass HSC 131 to register for this course.

NUR 115: Pharmacology    3 Credits
Prerequisites: Consent required
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
The following principles of pharmacology are discussed: drug sources, preparations, and legislation. There is a focus on major drug classifications using a body system approach. Discussion is directed at general mechanisms of action, clinical indications for use, common adverse reactions, general nursing implications, and significant drug interactions. Students are exposed to representative drugs of each class that are frequently used in clinical practice. Students must demonstrate proficiency in calculating drug dosages. Instructor permission is required to register for this course.

NUR 122: Nursing as a Societal and Interpersonal Profession    4 Credits
Prerequisites: Admission to the Nursing Transfer Program
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
The purpose of this course is to provide students with a foundation in the scientific and social dimensions of nursing as a discipline and a health profession. Students will examine the historical development of nursing and assess the impact of that development on contemporary nursing. Cultural variables and personal values will be examined by the student. Finally, the social context within which nursing is practiced is reviewed, providing the student with an appreciation of the health care system, with particular emphasis on legal and ethical frameworks. Only students admitted to the Nursing Transfer program (APNURT) may register for this course.

NUR 123: Acute Care Nursing I    3 Credits
Prerequisites: NUR 102, NUR 103, NUR 115, HSC 118 and (BIO 147 or BIO 237)
Corequisites: NUR 124
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 8
Students are introduced to principles and skills related to the care of clients/patients with problems of fluid and electrolyte balance, gas transport, inflammation and the immune responses and disorders. Using the nursing process as a framework, students learn preoperative, intraoperative and postoperative nursing care. Various nursing approaches which support an individual’s adaptation to stressors are examined.

NUR 124: Acute Care Nursing I - Clinical Practice    2 Credits
Prerequisites: NUR 102, 103, 115, and HSC 118 and (BIO 147 or BIO 237)
Corequisites: NUR 123
0 lecture, 0 lab, 90 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 18
This course builds on and supports skills learned in NUR 103: Fundamentals of Nursing Clinical Practice, and NUR 105: Nursing of the Older Adult Clinical Practice. Students gain increased competence in assessment skills including the integration of diagnostic tests and procedures and their results. Planning individualized nursing care including discharge teaching, based on appropriate nursing diagnoses and collaborative problems will be introduced. This course is graded on a Pass/No Pass grading system.

NUR 131: Nursing of the Childbearing Family    3 Credits
Prerequisites: NUR 102, 103, 115, and HSC 118 and (BIO 147 or BIO 237)
Corequisites: NUR 132
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1  6  16
This course introduces basic nursing care of the family during the childbearing process, including the antepartum, intrapartum, postpartum, and normal newborn period. Topics of fertility, infertility, and deviations from the normal maternity and newborn cycle will be addressed. Modeling and Role Modeling (nursing theory), development and characteristics of the human reproductive system, and conception and fetal development knowledge gained in prerequisite courses is part of the foundation for the study of the childbearing family.
NUR 132: Nursing of the Childbearing Family - Clinical Practicum 2 Credits
Prerequisites: NUR 102, 103, 115, and HSC 118 and (BIO 147 or BIO 237)
Corequisites: NUR 131
0 lecture, 0 lab, 90 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 7 8 9
Students use the nursing process to provide care for families in the childbearing cycle within the hospital setting. Use of family and wellness diagnoses is introduced. Emphasis is on health teaching to assist the family in adapting to parenting and recovery from childbirth. Some experience with high-risk mothers and newborns is provided. Students must have a current CPR card or pass HSC 131 before registering for this course.

NUR 201: Transition for LPNs 2 Credits
Prerequisites: Adv Stand Admission to Nursing Program Consent required
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This course is limited to licensed practical nurses. The course content and competencies selected are those required for the first three semesters of the nursing program which are not generally covered in a practical nursing program. Guided laboratory experience will provide opportunity to demonstrate mastery of psychomotor skills with emphasis on physical assessment and application of the nursing process. Note: The English, Biology and Computer Science requirements in the nursing program must either be taken before or concurrently with NUR 201. Instructor consent is required to register for this course.

NUR 222: Health Assessment Throughout the Lifespan 4 Credits
Prerequisites: Consent required
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 16
This course provides the beginning knowledge needed to assess the health status of individuals from infancy through old age, including physical, developmental, psychological, cultural and spiritual dimensions. The laboratory experience provides students the opportunity for skill acquisition in history taking, assessment skills, and documentation of findings, focused on the adult client. Instructor consent is required to register for this course.

NUR 223: Acute Care Nursing II 3 Credits
Prerequisites: (NUR 123, 124, 131, 132, HSC 128 and 220) or (NUR 201, HSC 128, 147, 220, MTH 165 and (BIO 147 or 237)
Corequisites: NUR 224
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 5 7 8 9 16 18
This course builds on principles and skills learned in NUR 123: Acute Care Nursing I in the areas of fluid and electrolyte balance, biologic defense mechanisms, metabolism/nutrition and elimination patterns. Additional principles introduced include disturbances in the functional patterns of activity/exercise, cognitive/perceptual and sexual/reproduction. Students learn holistic care of individuals with complex medical/surgical problems. The nursing process is used as the integrating framework.

NUR 224: Acute Care Nursing II - Clinical Practice 2 Credits
Prerequisites: Admission to Nursing Program and NUR 123, 124, 131, 132, HSC 128 and 220
Corequisites: NUR 223
0 lecture, 0 lab, 90 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: 5 7 8 9 16 18
This course builds on and supports skills learned in NUR 124: Acute Care Nursing I - Clinical Practice with emphasis on progressive development of technical skills. Students learn to care for clients/patients with complex medical-surgical problems in the acute care setting. Nursing process focuses on individualized care planning and evaluation. This course is graded on a Pass/No Pass grading system.

NUR 231: Nursing of Children 3 Credits
Prerequisites: NUR 223, NUR 224, NUR 255, NUR 256, and PSY 100
Corequisites: NUR 232
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course focuses on the care of children and their families during health and illness. Concepts learned in the previous semesters are applied to develop nursing interventions to care for this population. Principles of nursing care for children of all age groups experiencing health deviations and their adaptation to the stressors of hospitalization are addressed. Promoting health and fostering normal growth and development are emphasized.

NUR 232: Nursing of Children - Clinical Practice 2 Credits
Prerequisites: NUR 223, NUR 224, NUR 255, and NUR 256
Corequisites: NUR 231
0 lecture, 90 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
Clinical experience focuses on care of hospitalized children and support of their families in the acute care setting. Using the nursing process as a framework, students focus on incorporating growth and development assessment, as well as response to illness, into the development of nursing interventions appropriate for the specific child and family. Opportunities for interaction with the well child in community settings also is provided.
NUR 255: Mental Health Nursing  3 Credits  
Prerequisites: NUR 123, NUR 124, NUR 131, NUR 132, HSC 128, and HSC 220  
Corequisites: NUR 256  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 7  9  13  21  
This course develops an understanding of common mental health problems and skills necessary to provide basic mental health nursing care to selected clients in hospital or community settings. The central focus is to help the student become more sensitive to human behavior and to use him/herself in a therapeutic manner. Prevention of mental illness and maintenance and restoration of mental health are discussed.

NUR 256: Mental Health Nursing - Clinical Practice  2 Credits  
Prerequisites: NUR 123, 124, 131, 132, HSC 128 and 220  
Corequisites: NUR 255  
0 lecture, 0 lab, 90 clinical, 0 other, 90 total contact hours  
Fulfills Core Elements: 9  13  21  
This is the clinical component of Mental Health Nursing and should be (concurrent enrollment allowed) with NUR 255. Mental health nursing concepts are applied in hospital and community situations. Students gain experience with current methods of prevention, maintenance and treatment. This course is graded on a Pass/No Pass grading system.

NUR 261: Transition to Graduate Nurse Role  1 Credit  
Prerequisites: NUR 223, NUR 224, NUR 255, NUR 256  
Corequisites: NUR 262  
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours  
Fulfills Core Elements: None  
This course assists students in planning the transition from the classroom to employment. Principles of management including delegation, quality assurance, cost effectiveness, time management, therapeutic communication, and risk management are emphasized. Information useful in securing employment, membership in professional organizations, continuing education, and appropriate use of the Internet for the nursing professional will also be presented. This course meets two hours per week for half of the semester.

NUR 262: Transition to Graduate Nurse Role - Clinical Practicum  4 Credits  
Prerequisites: NUR 223, NUR 224, NUR 255, NUR 256  
Corequisites: NUR 261  
0 lecture, 0 lab, 180 clinical, 0 other, 180 total contact hours  
Fulfills Core Elements: None  
This course is intended to integrate students into the working role. Students are required to develop a professional portfolio, resume, and research summary. Experience is provided for each student to function cooperatively with members of the health care team. Attendance at continuing education programs are required for a total of 6-8 CEUs by the end of the rotation. Students will be introduced to delegation and the teamleading role.
Pharmacy Technology

**PHT 150: Pharmacy Operations and Compounding**  
**3 Credits**  
**Prerequisites:** (PHT 100, PHT 101, and PHT 103 with a 2.0)  
**Corequisites:** PHT 140 and PHT 198  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 5 7 8  
In this course, students gain knowledge and experience in ambulatory pharmacy prescription processing, nonsterile compound product preparation and institutional pharmacy prescription processing. Discussion includes drug information resources, telephone communication skill, and parenteral and enteral nutrition. Emphasis is on aseptic technique and parenteral product preparation where students develop skills in manipulation of parenteral drug products.

**PHT 174: PHT Co-op Education I**  
**1-3 Credits**  
**Prerequisites:** PHT 100, 101, 103, 140, 150, and 198 and consent required  
**Corequisites:** None  
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours  
Fulfills Core Elements: None  
In this course students gain skills from a new experience in an approved, compensated, position related to their chosen field of study. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the first of two possible Co-op experiences courses.

**PHT 198: Pharmacy Experience**  
**4 Credits**  
**Prerequisites:** PHT 100, PHT 101, and PHT 103 with a 2.0 or higher  
**Corequisites:** PHT 140 and PHT 150  
0 lecture, 0 lab, 360 clinical, 0 other, 360 total contact hours  
Fulfills Core Elements: None  
Skills and knowledge acquired in the first semester of the Pharmacy Technology program are applied in pharmacy practice settings. All experience is under the supervision of a registered pharmacist. Students obtain experience with ambulatory care and acute care pharmacy skills that can be applied to a wide variety of pharmacy practice. This course is graded on a Pass/No Pass grading system.

**PHT 274: PHT Co-op Education II**  
**1-3 Credits**  
**Prerequisites:** PHT 100, 101, 103, 140, 150, 198, and 174 and Consent required  
**Corequisites:** None  
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours  
Fulfills Core Elements: None  
In this course, the student gains skills from a new experience in an approved, compensated, position related to the chosen field of study. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two possible Co-op experiences.

Philosophy

**PHL 101: Introduction to Philosophy**  
**3 Credits**  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 7 9 10 14  
The course introduces the general nature of philosophical thought, its basic methods, problems and goals. It includes representative philosophers and such classic philosophical problems as the meaning of existence, the nature of reality, criteria of morality and the nature of the human mind. The class also uses philosophical concepts to help understand oneself, other people and the world around us, and focuses on formulating and defending individual viewpoints and developing personal skills in abstract thinking. An honors section is sometimes scheduled for this course.

**PHL 102: History of Philosophy**  
**3 Credits**  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: None  
The course emphasized the historical development of philosophy. It begins by examining the early roots of philosophy in ancient Greece, and proceeds through the medieval and modern periods, concluding in the work of contemporary philosophers. Special attention will be paid to the development of empiricist and rationalist thought during the modern period. The philosophers to be studied may include Plato, Aristotle, Anselm, Augustine, Locke, Hume, Berkeley, Descartes, Malebranche, Spinoza, Leibnitz, William James, Sartre, Wittgenstein, and Quine.

**PHL 120: Philosophy of Work**  
**3 Credits**  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 7 8 10 13 14 22  
The purpose of this course is to help students to explore all the philosophical dimensions of ‘work’; to cultivate critical thinking about a number of work-related concepts; to lead students to an understanding of a myriad of traditional, contemporary, and challenging perspectives on the nature, meaning, origin, and value of work; and finally to help students to form their own work-related beliefs with which they can lead more meaningful lives.
PHL 123: Critical Thinking 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fullfill Core Elements: 7 8 9 10
This course focuses on the practical side of logic and critical thinking. Students are expected to develop the ability to recognize and construct arguments of all kinds, and to identify and then correct errors in their reasoning. If some formal logic is included, it is used primarily as a tool for critical thinking in everyday life. Other topics include: the difference between thinking objectively and subjectively (and between thinking and feeling), overcoming prejudices, and learning how to learn.

PHL 200: Existentialism 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fullfill Core Elements: 8 9 10 13 14
A general introduction to the existentialist tradition of philosophy is provided as it is presented in the works of such representative thinkers as Nietzsche, Kierkegaard, Heidegger, Sartre and Camus. Special attention is paid to major existentialist themes; for example, authentic existence, integrity, freedom, anxiety, non-being, melancholy, death, guilt, conscience and values.

PHL 205: Ethics 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fullfill Core Elements: 8 9 10 14 22
This course provides an overview of the discipline of ethics. Theories used to assist in ethical decision-making will be discussed, as will the relationship between fact and value. To assist in the understanding of the concepts and theories examined, these will be applied to current ethical debates surrounding issues such as abortion, euthanasia and assisted suicide, capital punishment, sexuality, and affirmative action.

PHL 244: Ethical and Legal Issues in Health Care 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fullfill Core Elements: 14
This course provides an introduction to issues arising from the application of philosophical ethics or moral theory to the health care context. Different models of ethical decision-making will be used to examine current issues in health care. These models will involve the use of philosophical concepts as well as values clarification exercises. This course also provides an overview of legal theory and responsibility as it applies to the health care context, with an emphasis on professional negligence, and an introduction to different aspects of moral psychology. Topics to be discussed will include patient rights, informed consent, confidentiality, experimentation procedures, genetics, treatment of impaired newborns, euthanasia and assisted suicide, and HIV/AIDS. Special issues surrounding moral and legal responsibilities toward colleagues will also be covered.

PHL 250: Logic 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fullfill Core Elements: 1 7 8 9 10 15
This course offers an introduction to the nature of logical reasoning, especially as found in examples of everyday thought, and studies the role of language in reasoning and communication, the influence of emotions on logical thinking and the nature of inductive as well as deductive reasoning. Emphasis is on developing habits of good reasoning, as well as the ability to recognize and avoid bad reasoning.

PHO 101: Photography and Environment 3 Credits
Prerequisites: (COMPASS Reading = 70 or ACS 070 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091 concurrent enrollment allowed)
Corequisites: None
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
Fullfill Core Elements: None
This is a course for students wishing to understand basic photography and its processes. Primary emphasis is on understanding and using the camera and related equipment, picture taking, composition, lighting, film, etc. Students should own or have the use of some type of camera. No darkroom work is included in this course.

PHO 103: History of Photography 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fullfill Core Elements: 7 13 14 20
This course studies the chronology of photographic processes, the progression of social uses of the medium, and the history of photography as a technology and an art form.
### Photography

**PHO 111: Photography I**  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
**45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours**  
**Fulfills Core Elements:** 7 9 13  
This is a first-term course in basic photography including darkroom work. Areas of study include: camera and meter usage, film, lighting and composition, laboratory equipment and procedures, chemical mixing and handling, black and white film and print processing, etc. Students must have an adjustable camera.

**PHO 116: Studio Portraits**  
**Prerequisites:** PHO 117  
**Corequisites:** None  
**30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours**  
**Fulfills Core Elements:** 13  
This course is the study of basic lighting and posing techniques used to create studio portraits. Areas of investigation include photographic equipment used in a portrait studio, traditional and non-traditional lighting techniques, and business concerns for portrait photographers.

**PHO 117: Introduction to the Studio**  
**Prerequisites:** PHO 111  
**Corequisites:** None  
**45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours**  
**Fulfills Core Elements:** None  
This course provides a comprehensive introduction to the photographic studio environment and methodology. Students learn to work exclusively with a medium format camera, hand-held light meter, and color transparency films. Students also learn how to see and use light with a variety of techniques, utilizing tungsten and strobe lighting systems. Emphasis is placed on safe and effective handling of studio equipment and set construction. All of the equipment is provided by the department.

**PHO 122: Photography II**  
**Prerequisites:** PHO 111  
**Corequisites:** None  
**45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours**  
**Fulfills Core Elements:** None  
This course builds on skills acquired in Photography I. Areas of study include medium format camera operation, advanced black and white film processing and printing techniques, and further investigation and control of lighting conditions. Emphasis is placed on using advanced photographic techniques for visual problem solving. Students will need to purchase film, paper, and other supplies.

**PHO 124: Color Photography**  
**Prerequisites:** PHO 111  
**Corequisites:** None  
**45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours**  
**Fulfills Core Elements:** None  
This class provides a thorough exploration of color photography. Areas of investigation include color theory, color photographic materials and equipment, color film processing and color printing. Particular attention is paid to the ways in which photographers use color as a tool in a variety of photographic applications.

**PHO 127: Digital Photo Imaging I**  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
**45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours**  
**Fulfills Core Elements:** 11 12 18 19  
This course is designed to provide photography majors with a thorough introduction to current digital imaging technology as it relates to the production of photographic imagery. Through the use of digital cameras, scanners, printers and photo imaging software, students explore the world of the electronic darkroom. Prior computer experience is recommended but not required. Students must purchase printing and data storage materials. This course is required of photography majors. It is recommended that students take PHO 111 prior to this course.

**PHO 129: Black and White Digital Imaging**  
**Prerequisites:** PHO 127  
**Corequisites:** None  
**45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours**  
**Fulfills Core Elements:** None  
This course explores black and white photography using digital capture, adjustment, and printing. Students learn to use various cameras and digital printing processes to create black and white photographs. Students may work with digital capture, 35 mm, medium format, or large format cameras.

**PHO 174: PHO Co-op Education I**  
**Prerequisites:** PHO 111 and Consent required  
**Corequisites:** None  
**0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours**  
**Fulfills Core Elements:** None  
Students are placed in an approved industrial work experience to gain skills and knowledge offered by the employer. Together with the instructor and the employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experiences. This is the first of two possible co-op experiences.
PHO 210: Alternative Processes 3 Credits
Prerequisites: PHO 122
Corequisites: None
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 9 13
This course is an investigation of alternative processes and new technologies currently in use by commercial and artistic photographers. Students employ a variety of traditional and non-traditional darkroom techniques including digital image manipulation, to create new and exciting photographs. Emphasis is placed on the exploration of new techniques to develop a broad sense of options in visual problem solving. Students are required to purchase photographic supplies.

PHO 211: Large Format Photography 3 Credits
Prerequisites: PHO 111
Corequisites: None
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 5
This course introduces students to monorail and flatbed cameras in both 8x10 and 4x5 formats. Students learn to process the film in deep tanks, and to load and process Polaroid film. Other topics include the use of perspective and depth of field controls, correctly using shutter and aperture of a large format lens, the darkcloth, magnifier, film holder, tripod and filters. Also included is a discussion of color negative and positive films. Students are required to purchase a photographic loupe, film and paper.

PHO 212: Large Format Photography II 3 Credits
Prerequisites: PHO 211
Corequisites: None
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This course continues the exploration of large format photography. Topics include formats other than 4x5 roll film, contact printing, advanced methods of focus and perspective control, zone system controls, and various film types. Students are expected to pursue individual projects.

PHO 216: Environmental Portraiture 3 Credits
Prerequisites: PHO 117
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
Through a variety of location shooting assignments students learn to photograph people outside the photographic studio. Techniques using natural and artificial lighting for portraiture on location will be explored.

PHO 219: Photographic Design 3 Credits
Prerequisites: PHO 111
Corequisites: None
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 7 9 13
This is an intensive review of photographic composition and design techniques with emphasis on design in the photographic image through lecture, demonstration, critique, and darkroom practices. Included is a survey of contemporary photographers and new directions in modern photographic images and design.

PHO 220: Advanced Studio Techniques 3 Credits
Prerequisites: PHO 117 and PHO 127
Corequisites: None
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 7 8 9
This course is a deeper exploration of medium and large format cameras utilized in a commercial studio with film and digital image capture technologies. An emphasis is placed on logistical coordination of the components needed to produce an image. Assignments range from studio still life to on-location fashion work, yet individual choice of subject is also encouraged.

PHO 225: Digital Cameras 3 Credits
Prerequisites: PHO 117 and PHO 127
Corequisites: None
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 11 18 19
This course explores the current technology in digital cameras and their applications to a variety of photographic areas. Topics include the features, operation, and application of amateur and professional digital cameras. Students learn proper lighting methods for digital capture, both with natural and artificial lighting. In addition, they learn to create QuickTime movies of still objects. Students with equivalent experience may contact the instructor for permission to waive the pre-requisite.

PHO 227: Photojournalism 3 Credits
Prerequisites: PHO 111
Corequisites: None
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
In this course students receive a variety of photographic assignments involving newsworthy events, contemporary social issues, and human interest stories. Students work with black and white negative and color transparency films. An introduction to digital imaging technologies as they relate to photojournalism is included in the course. Students must own a manual electronic flash.

PHO 228: Digital Photo Imaging II 4 Credits
Prerequisites: PHO 127
Corequisites: None
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Fulfills Core Elements: None
This course provides an advanced level of investigation into digital photographic tools and techniques. Students will expand their understanding of digital input devices, photo imaging software, and output devices. Students will be encouraged to work toward developing their own creative style. Students with experience equivalent to PHO 127 may contact the instructor for permission to waive the pre-requisite.
### Photography

**PHO 230: Specialized Studies in Photography**  3 Credits  
**Prerequisites:** Consent required  
**Corequisites:** None  
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours  
**Fulfills Core Elements:** 8  
This course offers students the opportunity to work independently with faculty consultation in major areas of photography. Instructor consent is required to register for this course.

**PHO 231: Portfolio Seminar**  4 Credits  
**Prerequisites:** PHO 122, PHO 127, and PHO 211  
**Corequisites:** None  
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours  
**Fulfills Core Elements:** None  
Students who are nearing completion of the program will develop a professional portfolio, resume, and query letter in this course. Contact is made with a potential employer, client or transfer school. Professional critiques will be conducted on individual portfolios. Students with equivalent experience may contact the instructor for permission to waive the pre-requisites.

**PHO 274: PHO Co-op Education II**  1-3 Credits  
**Prerequisites:** PHO 174 and Consent required  
**Corequisites:** None  
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours  
**Fulfills Core Elements:** None  
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two Co-op courses.

### Physical Education

**PEA 102: Cardiovascular Training**  1 Credit  
**Prerequisites:** None  
**Corequisites:** None  
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours  
**Fulfills Core Elements:** None  
The purpose of this course is to develop a basic understanding of the equipment and physical requirements necessary for improved cardiovascular endurance and body fat reduction (caloric expenditure). Students are provided with an exercise recommendation based upon American College of Sports Medicine (ACSM) guidelines. Equipment includes treadmills, Stairmasters, Nordic tracks, rowing ergometers, airdynes, bicycle ergometers, and elliptical machines.

**PEA 103: Beginning Golf**  1 Credit  
**Prerequisites:** None  
**Corequisites:** None  
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours  
**Fulfills Core Elements:** None  
This course is designed for the beginning player who wants to learn the basics of golf. Priority is given to the general golf swing, chipping, putting, and course management. Students are given information on what type of equipment to use and how to use it, including proper warm up and stretches. Students in this course will pay greens fees and provide their own clubs.

**PEA 104: Intermediate Golf**  1 Credit  
**Prerequisites:** PEA 103  
**Corequisites:** None  
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours  
**Fulfills Core Elements:** None  
This course is designed for the intermediate player who wants to learn more about golf. Priority is given to golf etiquette, course management skills, golfing strategies, and golfing for conditions. Students will practice a variety of trouble shots and more advanced shots. Students in this course will pay greens fees and provide their own clubs. It is recommended that students have a golf score of 110 or less for 18 holes or have had PEA 103 before registering for this course.

**PEA 105: Weight Training-Cybex/Free Weights**  2 Credits  
**Prerequisites:** None  
**Corequisites:** None  
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours  
**Fulfills Core Elements:** None  
The purpose of this course is to develop basic weight training skills. Using Cybex and free weight equipment, students develop an understanding of the basic weight training exercises associated with each major muscle group. Emphasis is placed on understanding the proper form and technique necessary to train safely and effectively. (Free weight training is optional.)

**PEA 109: Beginning Tennis**  1 Credit  
**Prerequisites:** None  
**Corequisites:** None  
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours  
**Fulfills Core Elements:** None  
The purpose of this course is to introduce students to the game of tennis. The fundamentals of the game are taught in a progressive learning experience. Students are instructed in the areas of skill development and scoring. A tennis racquet and tennis shoes are required.

<tbody>
<tr>
<td>PHY 059:</td>
<td>Fundamentals of Physics</td>
<td>3</td>
<td>College Level Entry Scores</td>
<td>None</td>
<td>45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours</td>
<td>None</td>
<td>This is a course for students with no previous physics background. The emphasis is on acquiring the basic conceptual understanding necessary to succeed in later courses. The course is recommended for those students wishing to improve their physics background before taking 100 level physics courses, or students desiring an exposure to physics. Physics topics focus on mechanics and include motion, force, momentum, energy, rotation, and gravity.</td>
</tr>
<tr>
<td>PHY 105:</td>
<td>Conceptual Physics</td>
<td>4</td>
<td>MTH 090 or COMPASS Prealgebra = 24</td>
<td>None</td>
<td>45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours</td>
<td>None</td>
<td>Designed for both transfer and vocational students with no physics experience, but desiring a working knowledge of physics, PHY 105 surveys the major topics of motion, heat, waves, electricity, magnetism, light, and atomic energy using a conceptual approach with a minimum of mathematics.</td>
</tr>
<tr>
<td>PHY 110:</td>

<td>45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours</td>
<td>None</td>
<td>This class studies the forms and functions of American government with emphasis on national government. The decision-making process in Congress, the Presidency and the federal court system are studied. The course also examines the relationship of political parties and public opinion to the electoral process. This course is also taught as a television course.</td>
</tr>
</tbody>
</table>
PLS 150: State and Local Government and Politics 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 2 7 8 10 21 22 23 24
In the current political environment, many functions formerly performed by the national government are being shifted to the state and local governments examined in this course. Special emphasis on the governments of Michigan and Washtenaw County provide for an investigation of the challenges of making decisions and governing a society in response to the immediate needs of its citizens in a global society.

PLS 211: Introduction to Comparative Government 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 7 21 22 23 24
This class surveys the political systems of Great Britain, France, Italy, Germany, the former Soviet Union, and China. It is recommended that students take one course from the ANT, GEO, HST, or PLS disciplines or contact the instructor for permission before registering for this course.

Psychology

PSY 100: Introductory Psychology 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 6 7 15 16 21
This class provides an introduction to the scientific study and interpretation of human behavior surveying such topics as psychological development, learning, thinking, motivation, emotion, perception, intelligence, aptitudes and personality. Basic principles and their practical application are discussed. This course also is taught as a television course.

PSY 107: African-American Psychology 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 9 21
This course is organized around the premise that there is a distinctive Afro-American psychological frame of reference that is evident in the behavior and lifestyles of Black Americans. This is an attempt to build a conceptual model to help understand and explain the psychosocial behavior of black Americans.

PSY 130: Alcoholism and Substance Abuse 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 21
This course is a presentation of information concerning most aspects of alcoholism and how it affects the afflicted physically, socially, psychologically, vocationally and spiritually. Also, its effect on the significant others in his/her life is discussed.

PSY 200: Child Psychology 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 1 7 16 21
This course provides an overview of the psychology of human behavior from conception to adolescence. It includes the study of psychological processes involved in physical, cognitive, and social personality development, relying on research and theory.

PSY 206: Life Span Developmental Psychology 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 1 7 16 21
This course provides an overview of the biological, cognitive, social, and affective domains of human growth and development from the prenatal period until death. The course emphasizes the relationship of growth and development to behavior through the life span. Major theories of human development, as well as research methods, are reviewed and contrasted. The course is especially constructed and taught to be of value to those entering the fields of social work, elementary or secondary education, or nursing and various allied health fields.

PSY 209: Psychology of Adjustment 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 16 21
This course is a study of the processes involved in the adjustment of the individual to the problems of everyday living. Emphasis is given to the study of the development of techniques or adjustment to meet conflict situations in the social environment. It includes consideration of adjustment mechanisms of major societal institutions.

PSY 210: Behavior Modification 3 Credits
Prerequisites: HSW 100 or PSY 100
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 16 21
This course covers basic behavioral principles and their applications to individuals with mental illness, developmental disabilities, close head injuries, problems with aging, and problems of daily living. Students will learn to conduct psychosocial rehabilitation and psychoeducational groups.

PSY 257: Abnormal Psychology 3 Credits
Prerequisites: PSY 100
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 15 16 21 23
This is a course dealing with the abnormalities of certain types of personalities, their origin, symptoms, developments and treat-
ment, short of psychiatric competence. Main topics include: simple maladjustment; disturbances of emotional nature, of perception, memory, judgment, thought, disorders of mobility, speech, etc.; early symptoms of schizophrenia.

PSY 260: Introduction to Human Sexuality 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 6  7  15  21  23
This course provides a survey of the psychological research concerned with human sexuality. Areas presented include: research, anatomy, dysfunctions and their treatment, family planning methods, sexual communication, sexually transmitted diseases and sexual variation.

Quality Control Technology QCT

QCT 100: SPC Charting Techniques 2 Credits
Prerequisites: MTH 039 or COMPASS Math score = 24
Corequisites: None
30 lecture, 15 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course is designed to assist machine operators in understanding statistical process control charting as it applied to production machining. Students will develop skills in control charting on X & R (BAR) charts for quality characteristics. Topics include sampling and elementary statistics.

QCT 101: Process Quality Control 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
The concepts of variation and methods of measuring, evaluating and interpreting industrial data are discussed. An in-depth working knowledge of process control is imparted through the use of capability analysis and statistical control charts. Industrial applications are presented and class participation is used extensively in workshops.

QCT 122: Sampling Quality Control 3 Credits
Prerequisites: MTH 169 or COMPASS Algebra = 66
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course involves the theory of probability and basic concepts of statistical sampling; the development of sampling plans, the effect of sample size and acceptance number on the probability of acceptance, and the use of interpretation and of sampling acceptance plans are discussed. Military 105D, sequential and variable sampling are introduced and their effectiveness and industrial applications are analyzed. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

QCT 174: QCT Co-op Education I 1-3 Credits
Prerequisites: QCT 101 and QCT 122 and Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
Students are placed in approved industrial work experience to gain skills and knowledge offered by the employer. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience.

QCT 201: Quality Of Service 3 Credits
Prerequisites: QCT 101
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 5  6   7   8
The total quality control concept in planning, organizing and implementing a quality system for the service industry is the focus of this course. Topics include the application of the tools of quality to the business of service. This course examines the means for establishing a manageable quality system, improve customer satisfaction, reduce waste/cost and monitor improvement. Students who have equivalent experience to QCT 101 may contact the instructor for permission to waive the pre-requisite.

QCT 213: Quality Control by Statistical Methods 3 Credits
Prerequisites: QCT 101 and QCT 122
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is an introduction to statistical testing for differences in sample means, variability and fraction defectives. The concepts of linear correlation and regression analysis are introduced. Practical problems encountered in industrial quality control are solved in the classroom to illustrate the techniques presented. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisites.

QCT 224: Quality Control Problem Solving 3 Credits
Prerequisites: QCT 213
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course provides students with a synopsis of the material presented in the previous three courses (Process, Sampling, and Statistical Methods). The material is developed with a minimal amount of mathematical jargon which often does more to confuse than clarify. Course work stresses how to perform specific studies or techniques and does not merely inform the student. Generally, it provides a simplified procedure for applying the statistical tools which are most often used by the quality control practitioner. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.
Quality Control Technology

QCT 225: Quality Control Management 3 Credits
Prerequisites: QCT 101
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
The total quality control concept in planning, organizing and implementing an effective system is the focus of this course. Details of how to plan a quality system, set up the organizational structure, integrate support activities, install controls and measure results are discussed. The work of quality information equipment engineering is outlined. The main jobs of quality control are defined in terms of design control, material control, product control and special studies such as GMP manual development and compliance. Students who have experience equivalent to QCT 101 may contact the instructor for permission to waive the pre-requisite.

QCT 226: Dimensional Metrology and Testing 3 Credits
Prerequisites: (MTH 039 or COMPASS Math=24) and COMPASS Reading=70
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This is a general introduction to important aspects of precision measurement related to inspection and quality control. Included are the scientific techniques and instrument applications used in determining dimensional measurement as practiced by skilled tradesmen, inspectors and quality control technicians.

QCT 274: QCT Co-op Education II 1-3 Credits
Prerequisites: QCT 174 and Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two Co-op courses.

Radiography RAD

RAD 100: Introduction to Radiography 2 Credits
Prerequisites: Admission to Radiography program
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 9
This course includes the history of radiography, medical specialties, health care delivery, organizational structure of a radiology department, professional development and ethics. It is an introductory course for the beginning radiographer with emphasis on acquainting students with the goals, philosophies and organizations of the radiography program and radiology department.

RAD 101: Methods in Patient Care 2 Credits
Prerequisites: Admission to Radiography program
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: None
This course is designed to teach the radiographer how to interact with the patient, to provide for his or her physical and emotional needs and how to assist in moving patients by using various transfer methods. Included is some lab practice in basic techniques such as taking vital signs, blood pressure, venipuncture, and airway management.

RAD 110: Clinical Education 2 Credits
Prerequisites: Admission to Radiography program
Corequisites: RAD 112
0 lecture, 0 lab, 240 clinical, 0 other, 240 total contact hours
Fulfills Core Elements: 7
This course provides structured clinical experience in the application of knowledge and skills in positioning the upper extremity, chest and abdomen, trunk, spine and selected contrast studies, and the demonstration of knowledge in the design and operational characteristics of equipment and accessories in diagnostic radiography. This course is graded on a Pass/No Pass grading system.

RAD 111: Fundamentals of Radiography 2 Credits
Prerequisites: RAD 100
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 19
Imaging is the key to the primary responsibility of a radiographer. The intent of this course is to describe the various imaging modalities so that application of principles to produce optimum diagnostic radiographic images are understood.

RAD 112: Radiographic Positioning I 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: RAD 110
15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 19
This course includes pertinent nomenclature for radiographic positioning, preliminary steps in radiography, operation of the radiographic control panel, processing the radiograph and positioning of the chest, abdomen and upper extremity.

RAD 113: Radiographic Processing 2 Credits
Prerequisites: RAD 111
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 18
This course covers the principles of processing including discussion on darkroom design, radiographic film characteristics, processing chemistry, trouble shooting, maintenance, evaluation of radiographic films to determine diagnostic inadequacies resulting from artifacts and to correct or compensate for the cause.
RAD 120: Clinical Education  2 Credits
Prerequisites: RAD 110
Corequisites: RAD 123
0 lecture, 0 lab, 240 clinical, 0 other, 240 total contact hours
Fulfills Core Elements: 7
This course provides structured clinical experience in the application of knowledge and skills in positioning the upper and lower extremities, chest and abdomen, spinal column, contrast studies, and skull. Students demonstrate their knowledge in the design and operational characteristics of equipment and accessories in diagnostic radiography. This course is graded on a Pass/No Pass grading system.

RAD 123: Radiographic Positioning II  2 Credits
Prerequisites: RAD 112
Corequisites: RAD 120
15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course covers proper positions for radiography of the lower extremity, trunk and spine. Critiques on positioning and the anatomical appearance of structures on the radiograph are an essential function of the course.

RAD 124: Principles of Radiographic Exposure  3 Credits
Prerequisites: Consent Required
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 4 5 7 15 19
This course includes a comprehensive study of radiographic exposure techniques, radiographic quality, the use of radiographic accessories and how to select and apply this equipment to various situations.

RAD 125: Radiographic Procedures and Related Anatomy  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course covers radiographic procedures in which a contrast medium is used for demonstrating structures which are not well visualized on routine radiographs.

RAD 127: Principles of Radiographic Exposure Laboratory  1 Credit
Prerequisites: College Level Entrance Scores
Corequisites: RAD 124
7.5 lecture, 22.5 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 5
This course provides structured laboratory experience designed to illustrate film response to various exposure techniques. Emphasis is on evaluation of exposure techniques used in obtaining diagnostic information on x-ray film.

RAD 135: Pathology for Radiographers  2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: RAD 200 and RAD 225
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 16
This course is a survey of basic pathology and includes a study of the disease process and how various diseases alter the appearance and function of human organisms, including infectious diseases, tumors, chemical injuries and the conditions of illness involving the systems of the body.

RAD 150: Clinical Education  4 Credits
Prerequisites: RAD 120
Corequisites: None
0 lecture, 0 lab, 360 clinical, 0 other, 360 total contact hours
Fulfills Core Elements: 7
This course provides structured clinical experience in the application of knowledge and skills in positioning the upper extremity, chest and abdomen, trunk, spine and selected contrast studies. Students demonstrate knowledge in the design and operational characteristics of equipment and accessories in general radiographic rooms. This course is graded on a Pass/No Pass grading system.

RAD 200: Physical Foundations of Radiography  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 15
This course covers the theoretical and practical application of radiation physics with an emphasis on electromagnetic radiation, electricity, magnetism, x-ray circuitry, radiation production, and radiation's interaction with matter.

RAD 215: Radiography of the Skull  2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: RAD 217
15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7
Anatomy and radiography of the skull are studied so that students can correlate the relationship of external landmarks and positioning lines to specific internal structures. The course includes laboratory experience in skull positioning.

RAD 217: Clinical Education  3 Credits
Prerequisites: RAD 150
Corequisites: RAD 215
0 lecture, 0 lab, 336 clinical, 0 other, 336 total contact hours
Fulfills Core Elements: 7
This course provides structured clinical experience in the application of knowledge and skills in positioning the upper and lower extremities, chest, abdomen, spinal column, contrast studies, and skull. Students will demonstrate their knowledge in the design and operational characteristics of equipment and accessories in diagnostic radiography. Students will participate in surgical procedures that require diagnostic imaging and demonstrate competency in operating portable radiography units. This course is graded on a Pass/No Pass grading system.
Radiography

RAD 218: Radiation Biology and Protection 4 Credits
Prerequisites: Admission to Radiography Program and Consent required
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 17 20
This course is designed to acquaint students with the effects of ionizing radiation on the cells which form human tissue. The interaction of radiation with matter and the effect of exposure factors on radiation dose, biological effects, unit of measurement, dose limiting recommendations and exposure monitoring are covered.

RAD 225: Clinical Education 3 Credits
Prerequisites: RAD 217
Corequisites: RAD 200 and RAD 135
0 lecture, 0 lab, 360 clinical, 0 other, 360 total contact hours
Fulfills Core Elements: 7
This course provides structured clinical experience in the application of knowledge and skills in positioning the upper and lower extremities, chest and abdomen, spinal column, contrast studies, and skull. Students demonstrate their knowledge in the design and operational characteristics of equipment and accessories in diagnostic radiography. This course is graded on a Pass/No Pass grading system.

RAD 240: Clinical Education 2 Credits
Prerequisites: RAD 225
Corequisites: None
0 lecture, 0 lab, 225 clinical, 0 other, 225 total contact hours
Fulfills Core Elements: 7
Structured clinical experience is provided in all areas of radiography. Electives in specialized areas are explored (i.e., ultrasound, computed tomography, magnetic resonance imaging, radiation therapy, and nuclear medicine). This course is graded on a Pass/No Pass grading system.

RAD 260: CT Cross-sectional Anatomy 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course covers the study of cross-sectional anatomy of the pelvis, abdomen, thorax and great vessels, neck, maxillofacial region, brain and vertebral column. Related diseases, indications for CT imaging, patient preparation and scanning technique are discussed.

RAD 262: Principles of Computed Tomography 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: None
This course provides comprehensive coverage of the physical principles, clinical applications, and quality control concepts of Computed Tomography. This course is designed to lay the basic foundations necessary for the practical aspects of CT scanning.

RAD 280: Radiographic Critique 2 Credits
Prerequisites: RAD 112, RAD 123, RAD 124, and RAD 127
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: None
This course identifies and examines the technical factors that contribute to the formation of the radiographic image. Through discussion and demonstration, student learn how to critically analyze a radiograph and to determine how to modify the technical factors used in order to improve the quality.

REA 040: Elements of Reading, Writing, and Numerical Reasoning I 6 Credits
Prerequisites: None
Corequisites: None
90 lecture, 0 lab, 0 clinical, 0 other, 180 total contact hours
Fulfills Core Elements: None
This is an introductory reading course with writing and basic math exposure. This course is required for students who score below 36 on the COMPASS Reading test or below 30 on the ASSET Reading test. This course uses the satisfactory/unsatisfactory grading system.

REA 050: Reading Comprehension 5 Credits
Prerequisites: COMPASS Reading = 36 or ASSET Reading = 30 or REA 040
Corequisites: None
60 lecture, 0 lab, 0 clinical, 45 other, 105 total contact hours
Fulfills Core Elements: None
This is a low-intermediate reading course for comprehension. This course is required for students who score 36-50 on the COMPASS Reading test or 30-34 on the ASSET Reading test. Students who want to register for additional credits may take MTH 039, MTH 054, MTH 062, MTH 090, as appropriate, and/or ENG 050 and ACS 101 concurrently with this course.

Real Estate

RES 100: Real Estate Principles and Prelicensure 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 5 11
This is an introductory survey course in real estate principles, practices, and concepts. Students see a broad overview of the real estate field including varieties of residential and commercial brokerage, property financing, appraisal, investment, property management, land planning, property description, legal documents and contracts, title insurance, construction, condominiums, fair housing, civil rights, Board of Realtor functions, and State licensure and regulation. The course can begin
an academic foundation in real estate, provide information to homeowners and investors, determine a career interest in real estate, or meet the State course prerequisite to taking the State of Michigan exam for a Real Estate Salesperson’s license. This course is approved by the State of Michigan.

RES 120: Real Estate Finance 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 5 7
This course covers methods of financing residential, commercial, and income properties. Includes sources of funds, affordability issues, applications for loans, lender processing and risk analysis, creative financing, government programs, tax considerations, and secondary marketing. This course can help satisfy the State of Michigan education requirements for Real Estate Brokers. It is recommended, but not required, that RES 100 be taken before RES 120.

RES 130: Real Estate Appraisal 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 5 7
This course covers the nature of value, foundations of appraisal, valuation processes (including cost, market, income approaches, capitalization theory, and discounted cash flow). Also covered are appraisal ethics and reporting, and uses of the computer in residential and commercial appraising and valuation consulting. This course helps satisfy the State of Michigan course requirements for Real Estate Broker and Real Estate Appraiser licenses. It is recommended, but not required, that RES 100 be taken before RES 130.

RES 140: Real Estate Law 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 22
This course covers the laws and legal principles involved in residential and commercial real estate. Topics include evidence of title, deeds, financing, sale contracts, legal position of brokers, leases, zoning, fair housing and real estate taxes. This course helps satisfy the State of Michigan requirements for Real Estate Appraiser and Real Estate Broker licenses. It is recommended, but not required, that RES 100 be taken before RES 140.

RES 150: Real Estate Investment 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course covers investment in and development of land, homes, apartments, office buildings, retail centers, warehouses and hotels. Examples from the community and other states are used to illustrate the course objectives. Topics include financing, taxation and exchanges. This course helps satisfy the State of Michigan Real Estate Broker education prelicensure requirement. It is recommended, but not required, that RES 100 be taken before RES 150.

RES 160: Real Estate Property Management 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course provides an introduction to all the subfields of real estate property management including apartments, office, retail, and warehouse management. Materials used in this course are from the Institute for Real Estate Management (IREM), which is part of the National Association of Realtors (NAR) and other sources. This course helps satisfy the State of Michigan Real Estate Broker education prelicensure requirement. It is recommended, but not required, that RES 100 be taken before RES 160.

ROB 174: ROB Co-op Education I 1-3 Credits
Prerequisites: Consent required
Corequisites: None
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Fulfills Core Elements: None
In this course, students gain skills from a new experience in an approved, compensated industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the first of two possible co-op experiences.
**Robotics**

**ROB 212: Robotics II**  
*4 Credits*

- **Prerequisites:** ROB 121
- **Corequisites:** None
- **30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours**
- **Fulfills Core Elements:** 7 9 11 18 19

This class concentrates on programming techniques for industrial robots. Students learn to program different types of robots incorporating inputs and outputs into their programs. The course is based on a series of student projects that, step by step, introduce each new command or concept.

Students spend most of the class time in the lab and are expected to spend extra hours during scheduled open labs. Students who have experience equivalent to ROB 121 may contact the instructor for permission to waive the pre-requisite.

**ROB 222: Robotics Simulation**  
*2 Credits*

- **Prerequisites:** College Level Entrance Scores
- **Corequisites:** None
- **15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours**
- **Fulfills Core Elements:** None

This course provides an introduction to Robotic Simulation using the IGRIP software. Students learn how to build computer simulated models of robotic workcells. Programming and running these simulations are also covered. Hands-on use of the software is an integral part of the course.

**ROB 223: Robotics III**  
*2 Credits*

- **Prerequisites:** ROB 212
- **Corequisites:** None
- **15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours**
- **Fulfills Core Elements:** 7 9 11 18

Students learn to work with peripheral devices in various robotic workcells. Programmable controllers are used to interface robots with other automated equipment. Students are introduced to automated conveyors, vision systems, bar coding, and automated welding. It is recommended that students complete ELE 224 Introduction to PLCs before taking this course. This course should be taken the same semester as ROB 222 Robotic Simulation.

**ROB 224: Robotics IV**  
*4 Credits*

- **Prerequisites:** ROB 223
- **Corequisites:** None
- **30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours**
- **Fulfills Core Elements:** 7 8 9 11 12 18 19

This course involved advanced programming of robots and programmable controllers in an integrated workcell. Problems related to maintenance and trouble-shooting constitute a major segment of the course. A group project involving the design and construction of a workcell that simulates some industrial process is an enjoyable conclusion to this program.

**ROB 274: ROB Co-op Education II**  
*1-3 Credits*

- **Prerequisites:** ROB 174 and Consent required
- **Corequisites:** None
- **0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours**
- **Fulfills Core Elements:** None

In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two Co-op courses.

**Science**

**SCI 100: Introduction to Natural Sciences**  
*1 Credit*

- **Prerequisites:** College Level Entrance Scores
- **Corequisites:** None
- **7.5 lecture, 22.5 lab, 0 clinical, 0 other, 30 total contact hours**
- **Fulfills Core Elements:** 15 16 17 18

This course is designed to allow students to acquire an appreciation of the importance of the Natural Sciences to everyday life, including facts and familiarity with general concepts of how science works. The focus is on physical and biological aspects of science. Students who take this course discover that scientists are people and that science can be fun. The course is designed primarily for students in technology programs and includes directed study in the experimental sciences.

**SCI 101: The Nature of Science**  
*3 Credits*

- **Prerequisites:** College Level Entrance Scores
- **Corequisites:** None
- **45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**
- **Fulfills Core Elements:** 15 16 17 18

This course is designed to allow students to acquire an appreciation of the importance of the Natural Sciences to everyday life, including facts and familiarity with general concepts of how science works. The focus is on physical and biological aspects of science. Students who take this course discover that scientists are people and that science can be fun. The course is designed primarily for students in technology programs and includes directed study in the experimental sciences. The course is offered using Interactive Television.
SOC 100: Principles of Sociology  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 6 7 10 15 20 21 23 24
This course examines human interaction and the products of that interaction which include social structure and institutions, culture, social order, conflict and change. Emphasis is placed on the connection between self and society: that we think, feel and act as we do largely because of social forces that pressure us to conform or to deviate from social expectations. This course is also taught as a television course.

SOC 201: Medical Sociology  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 6 7 8 9 10 15 20 21 23 24
This course examines social and behavioral factors that account for the social differences in getting sick, getting care, getting well and staying well. Emphasis is placed on the socio-cultural definitions and distributions of illness, lifestyle, stress and illness, taking the sick role, seeking and using health care services, socialization of health workers, consumer-provider interaction, organization and distribution of services. Some issues which are examined pertain to the cost of care and health insurance, prevention, self-help movement, underserved groups, bio-medical technology and the quality of life.

SOC 202: Criminology  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 8 9 10 15 20 21 23
An examination is provided of the theories which attempt to explain criminal behavior. Punishment versus rehabilitation schools of thought is dealt with as well as capital punishment. Attention is also given to the functioning of police and court systems.

SOC 203: Aging & Society  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 6 7 8 10 21 24
This course examines social and social-psychological principles, practices, and problems of the aging process. Topics include the social and personal attitudes toward aging, ageism, role changes in mid-life to later life, and adaptive challenges of retirement: needs and problems relevant to housing, health care, finances, social support systems, and community services. Other issues such as political activity and cross-cultural differences are addressed.

SOC 205: Race & Ethnic Relations  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 10 21 22
This course provides an examination of the basic concepts of racial and ethnic relations and the concept of race. It examines and analyzes the course of oppression and suppression, superiority and inferiority, and majorities and minorities in racial subgroups.

SOC 207: Social Problems  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 6 7 9 10 15 20 21 23 24
This course examines how social forces can create and maintain or prevent major social problems that result from people’s efforts to meet their growth and survival needs. Emphasis is placed on the structural, institutional, technological and social-psychological causes, consequences, and solutions of problems relevant to inequality, institutional crises, deviance and social control, population pressures and ecological problems.

SOC 230: Marriage and Family  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 8 9 10 15 20 21 23 24
This course examines the principles, practices, and problems of mate selection, marriage, family and singleness. Emphasis is placed on how socio-cultural changes are reshaping lifestyle, choices, parenting, communication building and maintaining relationships.

SOC 250: Juvenile Delinquency  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 21
The growing-up process of late childhood and adolescence from a sociological and cultural viewpoint is a focus of this class. Problems of the individual in his/her social environment, group forces which lead to maladjustment and sociological principles for working with youth from the viewpoint of parent, teacher, police and youth organization leader are analyzed.
Spanish

SPN 111: First Year Spanish I  4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 13 14 24
This is a beginning course in Spanish using the conversational approach. Spoken language is mastered through classroom and laboratory practice. Cultural aspects of Spain and Latin America are highlighted.

SPN 112: Spanish Laboratory I  1 Credit
Prerequisites: College Level Entrance Scores
Corequisites: SPN 111
0 lecture, 30 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13 14 24
This course is intended to augment SPN 111. Students work in a supervised language lab with taped materials which correlate to the lessons in their texts and workbooks. Students are provided with supplemental listening aids that include both music and literature.

SPN 119: Spanish Language Adventures  1-3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
Fulfills Core Elements: 13 14 24
This course of independent study can be undertaken during any of the college field trip "Adventures" to Spanish-speaking countries. Students live in the host country for the duration of the Adventure, visit and study first-hand the outstanding cultural attractions, and have the opportunity to practice Spanish throughout their stay.

SPN 120: Beginning Conversational Spanish - Level I  2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13 14 24
Conversational in approach, this course assumes no previous knowledge of the language. It is designed for students who want to practice the fundamentals of spoken Spanish to enhance their travel enjoyment in Spain and Latin America. The course also promotes an appreciation of the Hispanic world. This course may be taken as a basic review of the first half of SPN 111.

SPN 121: Beginning Conversational Spanish - Level II  2 Credits
Prerequisites: SPN 120
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13 14 24
A continuation of SPN 120. This course is designed to further develop the skills acquired in Spanish 120. It is for students interested in expanding their speaking and comprehension skills, and their knowledge of Spanish grammar and Hispanic culture. Successful completion of this course satisfies the prerequisite for SPN 122. SPN 121 may be taken as a basic review of the second half of SPN 111. Students who have experience equivalent to SPN 120 may contact the instructor for permission to waive the pre-requisite.

SPN 122: First Year Spanish II  4 Credits
Prerequisites: SPN 111 or SPN 121
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 13 14 24
A continuation of SPN 111. Emphasis is on the spoken form and on the cultures of Latin American countries and Spain.

SPN 123: Spanish Laboratory II  1 Credit
Prerequisites: College Level Entrance Scores
Corequisites: SPN 122
0 lecture, 30 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13 14 24
This course is intended to augment SPN 122. Students work in a supervised language lab with taped materials which correlate to the lessons in their texts and workbooks. Students are provided with supplemental listening aids that include both music and literature.

SPN 211: Intermediate Conversational Spanish  2 Credits
Prerequisites: SPN 121
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 13 14 24
This flexibly-structured course provides vocabulary expansion and cultural insights through total student involvement in the conversation practice sessions. Students who have experience equivalent to SPN 121 may contact the instructor for permission to waive the pre-requisite.

SPN 213: Second Year Spanish I  3 Credits
Prerequisites: SPN 122
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 13 14 24
This is an intermediate course in Spanish that covers all of the basic grammar. Emphasis is on the written form through composition. Students who have experience equivalent to SPN 122 may contact the instructor for permission to waive the pre-requisite.
SPN 224: Second Year Spanish II  
Prerequisites: SPN 213  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 13 14 24  
This is a continuation of SPN 213 with special attention to reading and translating modern Latin American short stories. Students who have experience equivalent to SPN 213 may contact the instructor for permission to waive the pre-requisite.

SPN 225: Introduction to Business Spanish  
Prerequisites: SPN 213  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 13 14 24  
This course is designed to introduce students to business concepts and vocabulary through both written and oral forms. Students write business letters in Spanish and apply Spanish conversational skills to discussion of and participation in various business situations. Students who have experience equivalent to SPN 213 may contact the instructor for permission to waive the pre-requisite.

SUR 097: Sterile Processing and Distribution Theory  
Prerequisites: Consent required  
Corequisites: SUR 098  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: None  
This lecture/lab course provides students with the knowledge and techniques used to complete the cycle from decontamination to sterility of instruments and equipment used within a medical facility. Students are taught basic anatomy, infection control practices, safety hazards, instrumentation, inventory control and distribution systems. Professional preparation is addressed with resume writing, interviewing skills, and career mobility. Student must be at least 18 years of age to register for this course.

SUR 098: Sterile Processing and Distribution Clinical  
Prerequisites: Consent required  
Corequisites: SUR 097  
0 lecture, 0 lab, 0 clinical, 160 other, 160 total contact hours  
Fulfills Core Elements: None  
This course complements the theory course. Students are provided hands on experience at the clinical site in the areas of decontamination, preparation and packaging, operation of specialized sterilization equipment, measuring chemicals, inventory control and supply distribution systems. This course is graded on a Pass/No Pass grading system. Students must be at least 18 years of age to register for this course.
Surgical Technology

SUR 135: Surgical Technology II Clinical  2 Credits
Prerequisites: With a 2.0 or better: SUR 100, SUR 105, BIO 237, (BIO 111 or BIO 102) and Consent required
Corequisites: SUR 120, SUR 125
0 lecture, 0 lab, 225 clinical, 0 other, 225 total contact hours
Fulfills Core Elements: 9 16
This course complements the Surgical Technology II theory and lab courses. Students develop their technical skills through participation in a variety of basic surgical procedures at an assigned hospital operating room. This course is graded on a Pass/No Pass grading system.

SUR 140: Surgical Technology Pharmacology  2 Credits
Prerequisites: With a 2.0 or better: SUR 100, (BIO 102 or BIO 111), BIO 237, and Consent required
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 5
This course acquaints the surgical technology student with basic principles of pharmacology, allowing an understanding of the types, usage, and effects of various medications (agents) commonly used in the operating room environment. Measurement, terminology, proper handling, responsibility of the surgical technologist, preparation, and anesthesia will be covered.

SUR 150: Surgical Technology III Theory  3 Credits
Prerequisites: With a 2.0 or better: SUR 120, SUR 125, SUR 135, SUR 140, and Consent required
Corequisites: SUR 155, SUR 160
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 7 16
In this course, advanced principles of the surgical technologist's role are discussed. Students learn advanced surgical procedures. Also addressed are patient's rights and concerns; ethical, moral, and legal issues; job application; and graduate certification.

SUR 155: Surgical Technology III Clinical Practice  4 Credits
Prerequisites: With a 2.0 or better: SUR 120, SUR 125, SUR 135, SUR 140, and Consent required
Corequisites: SUR 160, SUR 150
0 lecture, 0 lab, 360 clinical, 0 other, 360 total contact hours
Fulfills Core Elements: 9
This course complements the Surgical Technology III Theory course. Students gain experience in the surgical technologist role by practicing in the scrub capacity in hospitals on a variety of cases. All surgical specialties are addressed with mastery of general cases and familiarity with more complicated cases expected. This course is graded on a Pass/No Pass grading system.

SUR 160: Surgical Technology Seminar  1 Credit
Prerequisites: With a 2.0 or better: SUR 120, SUR 125, SUR 135, SUR 140, and Consent required
Corequisites: SUR 150, SUR 155
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Fulfills Core Elements: None
This course assists the student in planning for employment in the field of surgical technology. Current topics in surgical technology are covered and the mock national certification exam is administered.

Tax

TAX 101: Income Taxes for Individuals  3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 5 7 9 11
This is a beginning course in Individual Tax Return preparation covering both Federal and Michigan taxes that affect individuals. Students receive practical experience in preparation of an income tax return, both manually and using tax return computer software. The course is the beginning of a series of courses designed for those seeking employment as paraprofessionals in the tax field. Individuals who simply wish to understand their own taxes can benefit as well. Students must be able to work with numbers and computer applications. It is recommended that students complete MTH 163 or have a minimum COMPASS Algebra score of 46.

Trade Related Instruction

TRI 092: Review for Apprentice Test  4 Credits
Prerequisites: COMPASS Reading = 51 or ASSET Reading = 35 or REA 050 (concurrent enrollment allowed)
Corequisites: None
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
This course is designed to help students pass the Apprentice examination. Students must have a working knowledge of the math skills necessary for normal function in the trades. Topics include conversion from 3-dimensional objects to 2-dimensional pictures. Students gain an understanding of machine workings and mechanical advantage. Students also learn test-taking techniques to give them more confidence when taking the Apprentice examination.
**Trade Related Instruction**

**TRI 099: Skilled Trades Industrial Safety**  
2 Credits  
Prerequisites: COMPASS Reading = 51 or ASSET Reading = 35 or REA 050 (concurrent enrollment allowed)  
Corequisites: None  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
Fulfills Core Elements: None  

This course is designed to increase industrial skilled trades persons knowledge of safety fundamentals and practices, accident causes, impact and prevention, safety organization in the plant, the need for safety rules, mechanical safeguards, and lockout procedures. Health and hygiene, industrial housekeeping, and fire safety information is included. Participants also study the hazards and safety rules associated with energy sources; hand, power, and machine tools; ladders; scaffolds; hazardous materials; hoists; cranes; conveyors; ropes; chains; slings; and operation of powered trucks.

**TRI 103: Sheet Metal Blueprint Reading and Layout**  
4 Credits  
Prerequisites: (MTH 039 or COMPASS Math = 24) and COMPASS Reading = 70  
Corequisites: None  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: None  

This course focuses on elementary sheet metal layout with an emphasis on developing sheet metal patterns by standard shortcut methods. Students gain hands-on experience fabricating the patterns into actual sheet metal locks, seams, clips, connectors, ducts, elbows, tees, and offsets.

**TRI 105: Advanced Sheet Metal Layout**  
3 Credits  
Prerequisites: TRI 103  
Corequisites: None  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: None  

This course teaches the actual development of more difficult sheet metal fittings, triangulation, and parallel line methods of development. In addition, participants learn about the development and fabrication of the fittings most often needed in today's modern heating, ventilating, and air conditioning systems. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

**TRI 111: Introduction to Code Enforcement**  
3 Credits  
Prerequisites: Consent required  
Corequisites: None  
45 lecture, 30 lab, 0 clinical, 0 other, 75 total contact hours  
Fulfills Core Elements: None  

This course covers legal authority, codes format, code fundamentals, plan review, permit processing, and inspection procedures. The course format includes lectures, discussions, and laboratory work. Instructor consent is required to register for this course.

**TRI 115: Blueprint Facilities Maintenance**  
3 Credits  
Prerequisites: (MTH 039 or COMPASS Math=24) and COMPASS Reading=70  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: None  

This course teaches the basics in reading engineering plans and drawings. Participants learn to understand electrical, mechanical, and fluid power systems through the use of schematic diagrams. Participants also learn the elements of machine drawings, hydraulics and pneumatics, building drawings, electrical drawings, sheet metal drawings, piping drawings, and welding processes and symbols.

**TRI 140: Millwright Theory**  
2 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
Fulfills Core Elements: 7 9  

This course teaches millwright practices. The topics covered include millwright fundamentals, fiber and steel rope, hoisting, structural woods and steels, scaffolding, strengths of timber and metal beams, cranes and derricks, rigging, transporting heavy shop equipment, accident prevention, standards, laws, and codes. Participants also learn about the maintenance of bearings, belts, chain drives, and conveyors.

**TRI 174: TRI Co-op Education I**  
1-3 Credits  
Prerequisites: Consent required  
Corequisites: None  
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours  
Fulfills Core Elements: None  

Students gain skills from new experiences in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience.

**TRI 201: Plumbing and Pipefitting I**  
3 Credits  
Prerequisites: MTH 039 or COMPASS Math score = 24  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: None  

This course is a practical study of plumbing and pipefitting fundamentals as well as the classifications and functions of boilers, steam, and hot water heating systems. Heating code is also covered.
### Trade Related Instruction

**TRI 202: Plumbing and Pipefitting II**  
4 Credits  
Prerequisites: TRI 201  
Corequisites: None  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: None  

This course is a continuation of Plumbing and Pipefitting I. Participants learn about water supply, waste disposal, drainage, venting, unit sanitation equipment, and plumbing codes. Students who have equivalent experience may contact the instructor for permission to waive the pre-requisite.

**TRI 220: Electrical Grounding**  
3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 18 19

In this class, students learn the basic concepts in electrical theory as it pertains to grounding and learn to properly install electrical grounding. Through discussion of the basic concepts of electricity, students understand how, why, and where proper grounding should be used.

**TRI 222: Electrical Wiring Industrial**  
3 Credits  
Prerequisites: College Level Entrance Scores  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: 18 19

This course focuses on concepts necessary for industrial electricians who have the responsibility of installing electrical systems.

**TRI 240: Plant Layout and Material Handling Systems**  
4 Credits  
Prerequisites: TRI 140  
Corequisites: None  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
Fulfills Core Elements: 9

This course teaches blueprint reading and simplified drawing of typical free and power type conveyor systems. In addition, students learn plant layout drawing of machinery, foundations, exhaust systems, heat treat furnaces, hoists, catwalks and platforms.

**TRI 274: TRI Co-op Education II**  
1-3 Credits  
Prerequisites: TRI 174 and Consent required  
Corequisites: None  
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours  
Fulfills Core Elements: None

In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two co-op courses.

### United Association Supervision  UAS

**UAS 111: Introduction to Construction Supervision I**  
3 Credits  
Prerequisites: Admission to the Construction Supervision Program  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: None

This course concentrates on the management and supervisory skills needed by new first-line supervisors. The course has practical applications taken from common workplace situations. Because employees generally receive promotion to supervision based on their technical expertise, this course provides the new management and people skills that add to these technical abilities.

**UAS 122: Construction Supervision II**  
3 Credits  
Prerequisites: UAS 111 and Admission to the Construction Supervision Program  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: None

This supervision course helps the student develop practical, operational management skills in the functional areas of planning, organizing, leading and controlling construction projects.

**UAS 211: Construction Supervision III**  
3 Credits  
Prerequisites: UAS 111 and Admission to the Construction Supervision Program  
Corequisites: None  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Fulfills Core Elements: None

This class covers basic human resources activities applicable to the construction industry. It covers employment techniques, wages and hours, job evaluation, training, employee performance reviews, collective bargaining, employment counseling and collateral benefits such as pensions and fringe benefits. The course also focuses on skills required to manage work habits and a career. It offers a system of goal management and tools for development, refining, and building interpersonal skills.
UAS 222: Project Management in the Construction Industry 3 Credits
Prerequisites: UAS 122, UAS 211 and Admission to the Construction Supervision Program
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course examines the various stakeholders of the construction project and their relationship to each other, with an emphasis on the balance maintained among the competing needs of these parties. Students become familiar with the basic functions of a project and how the activities performed contribute to the overall profitability and health of the project as a whole. The course prepares students to handle conflict in the workplace. Emphasis is on the impact at work and how to choose and apply approaches for resolving conflict. The course examines problem solving techniques and methods.

UAS 226: Legal Aspects of the Construction Industry 3 Credits
Prerequisites: UAS 111 and Admission to the Construction Supervision Program
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course provides an in-depth study of the legal aspects of the construction industry. Students explore the law of the contract at large, obligations of the parties, remedies under the contract, administration of the contract, warranties, bonds, payments, and subcontracting. Operational liabilities are also covered and include topics such as liabilities for defective structures, limitations of actions, claims processing, and dispute resolution.

UAT 111: Apprentice Training 3 Credits
Prerequisites: Admission to the Industrial Training program
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course will focus on the principles of learning, elements of trade teaching and the methods of teaching an applied technical skill.

UAT 121: Apprentice Training II 3 Credits
Prerequisites: Admission to the Industrial Training program
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course will focus on developing instructional objectives, planning and presenting related information lessons and the methods of teaching a second applied technical skill.

UAT 131: Apprentice Training III 3 Credits
Prerequisites: Admission to the Industrial Training program
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course will focus on the development of written tests, an elective professional skill, and a third teaching demonstration in a technical skill area.

UAT 141: Apprentice Training IV 3 Credits
Prerequisites: Admission to the Industrial Training program
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course will focus on discussion and interaction techniques, an elective professional skill and the teaching methods in a fourth technical skill area.

UAT 151: Apprentice Training V 3 Credits
Prerequisites: Admission to the Industrial Training program
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course will focus on innovations and problems in trade teaching, an elective professional skills, and methods of teaching in a fifth technical skill area.

UAT 161: Technical Seminar 3 Credits
Prerequisites: Admission to the Industrial Training program
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course will focus on the methods of teaching a technical skill area. Special approval required and will replace UAE 121, 131, 141, or 151.

UAT 171: Professional Seminar 3 Credits
Prerequisites: Admission to the Industrial Training program
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: None
This course will focus on instructional methodology and practices for the trade-related instructor. Special approval required and will replace UAE 121, 131, 141, or 151.
### Video Production

**VID 101: Video Production I**  
**Credits:** 3  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
**45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**  
**Fulfills Core Elements:** None  

This is an introductory course that teaches students the basics of the production process. Students are guided through the basic process of pre-production and production. Students develop their skills through a combination of lecture and hands-on use of digital camcorders through assigned exercises.

**VID 102: Video Production II**  
**Credits:** 3  
**Prerequisites:** VID 101  
**Corequisites:** None  
**45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**  
**Fulfills Core Elements:** None  

This course is designed to develop and expand skills learned in VID 101. More in-depth study of storyboarding, shot lists, scriptwriting, budgeting, videography, lighting, audio, and more advanced production techniques are covered. Through a combination of lecture and hands-on exercises, students develop skills to produce various styles of productions. Depending on the students’ interest, they may produce a finished informational, public service, advertisement, narrative, or artistic video production.

**VID 110: Digital Video Editing I**  
**Credits:** 3  
**Prerequisites:** VID 101 (concurrent enrollment allowed)  
**Corequisites:** None  
**45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**  
**Fulfills Core Elements:** None  

This course familiarizes students with the editing process. It introduces them to a variety of editing styles as well as help them develop skills in non-linear digital video editing. Imovie2 software is used on a Mac platform to edit assigned exercises as well as the student’s own footage from VID 101.

**VID 112: Digital Video Editing II**  
**Credits:** 4  
**Prerequisites:** VID 110 and (VID 102 concurrent enrollment allowed)  
**Corequisites:** None  
**60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours**  
**Fulfills Core Elements:** None  

Students learn advanced editing techniques using Final Cut Pro software on a Mac G4 computer. Students study and develop skills in system configuration and language, rough cut editing, editing for effect, match frame editing, printing to video/multimedia or web, as well as editing their own footage from VID 102. A combination of lecture and hands-on experience are combined to develop editing skills.

### Welding & Fabrication

**WAF 100: Fundamentals of Welding**  
**Credits:** 2  
**Prerequisites:** (COMPASS Reading = 70 or ACS 070 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091 concurrent enrollment allowed)  
**Corequisites:** None  
**15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours**  
**Fulfills Core Elements:** 5 7 17 18 19  

This is a basic combination welding course dealing with oxy-acetylene and arc welding designed to meet the needs of students enrolled in Auto Body Repair, Auto Mechanics, Detailer Draftsman, etc. Typical applications are made in a laboratory setting.

**WAF 101: Acetylene Welding**  
**Credits:** 2  
**Prerequisites:** (COMPASS Reading = 70 or ACS 070 concurrent enrollment allowed) and (COMPASS Writing = 72 or ENG 091 concurrent enrollment allowed)  
**Corequisites:** None  
**15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours**  
**Fulfills Core Elements:** 5 18 19  

Designed for students who need a knowledge of oxy-acetylene welding and a degree of skill required by industry. Primarily for students whose occupations are associated with welding.

**WAF 102: Basic ARC Welding**  
**Credits:** 2  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
**15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours**  
**Fulfills Core Elements:** 5 7 17 18 19  

This introductory course in arc welding covers theory and practice, and proper procedures for various welding positions. Topics include A.C. and D.C. welding, electrode identification, classification and proper applications to typical operations.

**WAF 103: Heli-ARC Welding**  
**Credits:** 2  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
**15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours**  
**Fulfills Core Elements:** 5 7 17 18 19  

Instruction is given in tungsten, inert gas, and shielded arc welding. Manually operated torches are used on such metals as aluminum, stainless and mild steels; includes theory directly related to the composition and properties of these metals.

**WAF 104: Soldering & Brazing**  
**Credits:** 2  
**Prerequisites:** College Level Entrance Scores  
**Corequisites:** None  
**15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours**  
**Fulfills Core Elements:** 1 5 7 17 18 19  

This course is designed to provide basic knowledge of soft soldering, brazing, silver soldering, copper tubing and fittings, brazing of steel, silver soldering of copper and stainless. Practical application included.
### WAF 105: Welding for Art & Engineering 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 1 5 18 19
This is a basic welding class. No welding experience is necessary. Oxyacetylene (welding and cutting), arc welding and soldering and brazing are explored with hands-on training provided. Students work on class competencies, at their own pace, beginning with safety practices and set-up in each area. The welding lab has individual work stations for a no waiting to work and a safe atmosphere. Students are given personalized instruction on every class objective to help with their mastery of the art of welding.

### WAF 106: Blueprint Reading for Welders 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Fulfills Core Elements: 4 5
This class is designed for the welders who are responsible for properly locating weld on the weldment and determining weld size, contour, length, type of filler metal and any applicable welding procedures.

### WAF 111: Welding I Oxy-Acetylene 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 5 7 17 18 19
This course focuses on the use of oxy-acetylene equipment to perform such operations as butt, lap, and fillet welds using filler rods; flame cutting, brazing and silver soldering. Safety procedures and practices of gas welding are emphasized.

### WAF 112: Welding II Basic ARC 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 5 17 18 19
This course involves the use of arc welding equipment both A.C. and D.C. to perform such operations as butt, lap and fillet welds using bare and shielded electrodes, all-purpose and special electrodes. Study of electrical welding, power supplies and electrodes is included. Safety procedures are stressed.

### WAF 123: Welding III Advanced Oxy-Acetylene (OAW) 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 1 5 7 18 19
Advanced instruction is provided in oxy-acetylene welding with emphasis on out of position welded joints. Procedures are covered and put in practice for fabricated welded joints on steel plate and pipe. Related theory is included.

### WAF 124: Welding IV Advanced ARC (SMAW) 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 5 7 17 18 19
Advanced instruction is provided in arc welding using both A.C. and D.C. arc welding equipment. Emphasis is on out of position welded joints in mild steel, alloy steels and procedures covered for cutting, beveling and fabricating various welded joints. Related theory, codes and standards are included.

### WAF 200: Layout Theory Welding 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours
Fulfills Core Elements: 1 5 18 19
This course involves layout problem solving for the welder including techniques using layout die, combination squares, protractors, center heads, trammel points, dividers, and straightedges. Template making for pipe cutting and joining is emphasized. A basic math review and the properties of a circle such as radius, chords, and degrees of angularity for jobs done in the field are included.

### WAF 210: Welding Metallurgy 3 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 1 5 7 18 19
This course focuses on metal properties and identification properties through testing, effects of alloying element, specification use and application of mild steel, low steel alloys, stainless steels, and principles of electricity as they apply to different welding applications’ heat treatment of metals.

### WAF 215: Welding V Advanced GTAW & GMAW 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 5 18 19
This course involves tungsten-inert gas shield arc welding with manually operated torch on such metals as aluminum, mild steel and stainless steel. Technical theory directly related to T.I.G. welding including the composition and properties of metals.

### WAF 226: Specialized Welding Procedures 4 Credits
Prerequisites: Consent required
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: 5 7 18 19
This course involves specialized oxy-acetylene welding, inert gas shield arc and consumable carbon dioxide welding. Emphasis is given to aluminum, stainless steel, high alloy steels and cast iron. Procedures for welding of the exotic metals such as titanium, columbium, zirconium, and molybdenum are included. Instructor consent is required to register for this course.
WAF 227: Basic Fabrication 3 Credits
Prerequisites: WAF 105
Corequisites: None
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: 4 5 7 18 19
For advanced welders planning to use their welding skills in manufacturing, this class teaches the skills necessary to design, cut and fit pieces to be welded. Welders are trained in the use of modern machines for bending, punching, cutting and shaping. Each student takes a self-chosen project and carries it through from blueprints to actual assembly. Estimation of material and labor costs is included.

WAF 229: Shape Cutting Operations 3 Credits
Prerequisites: Consent required
Corequisites: None
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Fulfills Core Elements: None
Students learn the shape-cutting process with oxy-acetylene and plasma cutting torches. With the use of the optical eye and Burny IV N.C. control, students learn how to cut mild steel, aluminum and stainless steel parts. Instructor consent is required to register for this course.

WAF 289: MIG Welding 4 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Fulfills Core Elements: None
This course focuses on the use of MIG equipment to perform such operations as BUTT, LAP, and Fillet Welds. The course emphasizes all weld positions using solid and flux cored wires.

YOG 101: Introduction to Hatha Yoga 2 Credits
Prerequisites: College Level Entrance Scores
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 16
This course provides an introduction to the philosophy and practice of Hatha Yoga.

YOG 102: Philosophy and Practice of Yoga 2 Credits
Prerequisites: YOG 101
Corequisites: None
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Fulfills Core Elements: 14 16
This course is a continuation of Yoga 101, Introduction to Hatha Yoga.

Faculty and Professional Staff

Abella, Mohammed .................................................1999
Faculty: Mathematics
    Ph.D. - University of Miami
    M.S. - University of Miami
    B.S. - University of Bradford, England

Abrams, Terry ......................................................1990
Faculty/Department Chair: Visual Arts
    E.D.M. - Boston University
    B.F.A. - Maryland Institute College of Art and Design
    Certificate - Agfa-Gevaert

Adler, Sally ....................................................1993
Faculty: Public Service Careers
    B.S. - Pennsylvania State University
    M.S. - Pennsylvania State University
    Certificate - PA Dept of Education

Aeilsts, Larry ..................................................1999
Associate Registrar
    B.B.A. - Cleary College
    M.S. - Walsh College

Allison, Lynn M. ...................................................1988
Faculty: Business Office Systems
    A.D. - Washtenaw Community College
    B.B.A. - Eastern Michigan University
    M.B.E. - Eastern Michigan University

Anders, Derek F. ...............................................1999
Specialist:Information Systems
    Certificate - Washtenaw Community College
    A.D. - Livonia Career Center

Anderson, Laurice A. ...........................................1998
Faculty: Performing Arts
    B.A. - Butler University
    M.F.A. - The University of Michigan

Andi, Kimberly M. ...............................................1995
Coordinator: Health / Public Services Programs
    A.D. - Washtenaw Community College
    B.A. - Eastern Michigan University

Atkinson, John H. ................................................1997
Faculty: Public Service Training
    B.A - The University of Michigan
    J.D. - Detroit College of Law
    M.P.A. - Eastern Michigan University

Avinger, Charles ...............................................1992
Faculty: English / Writing
    B.S. - University of Alabama
    M.A. - University of Alabama

Babcock, H. Lind ..............................................1994
Faculty: Visual Arts Technology
    B.F.A. - Michigan State University
    M.A. - Central Michigan University
    M.F.A. - Kent State University

Baker, Gerald A. ..............................................1975
Faculty: Allied Health / Radiography
    A.A.S. - Wayne County Community College
    B.S. - Ferris State University
    R.T. - The American Registry of Radiologic Technologists
    M.Ed. - The University of Michigan

Baker, Jennifer L. ..............................................1995
Faculty: Visual Arts Technology
    A.D. - Washtenaw Community College
    A.B. - The University of Michigan
    M.F.A. - Rhode Island School of Design

Baker, Mark E. ..................................................1994
Firearms Range Master: Public Service Training
    A.D. - Henry Ford Community College

Batell, Mark F. ..................................................1984
Faculty: Mathematics
    B.A. - Knox College
    M.A. - The University of Michigan
    M.A. - The University of Michigan

Bayer, Deborah K. ..............................................1994
Faculty: English / Writing
    B.A. - Michigan State University
    M.A. - Michigan State University

Beauchamp, Jillaine ...........................................1976
Faculty: Foods and Hospitality
    B.S. - Eastern Michigan University
    M.S. - The University of Michigan

Bellers, Clifford ...............................................1968
Faculty/Department Chair: Business / Accounting
    B.B.A. - Eastern Michigan University
    M.A. - Eastern Michigan University

Bertoia, Roger R. ...............................................1966
B.S.E. - The University of Michigan
    M.S. - The University of Michigan

Bhattacharyya, Nilotpal ......................................1999
Unix Administrator
    B.M.S. - University of Gauabti

Biederman, Rosalyn L. ......................................1967
Faculty/Department Chair: Foreign Languages
    B.A. - Ohio State University
    M.A. - Ohio State University
Bieszk

Bila, Dennis W. .................................................................1969
Faculty: Mathematics
  B.S. - Central Michigan University
  M.A. - Wayne State University

Boghi, Robert A. .............................................................1984
Instructional Lab Assistant: Automotive Services
  A.D. - Washtenaw Community College
  Certificate - State of Michigan
  B.S.Ed. - The University of Michigan
  Certificate - A.S.E.

Bracco, Patrick ..............................................................2000
  B.S.E. - The University of Michigan
  M.S.E. - The University of Michigan

Brandenburg, Elaine M. ....................................................1997
Director: Contract Training Project
  B.S. - Michigan State University

Bressler, Allan ...............................................................1980
Computer Operator II: Information Services

Brown, Bonita .................................................................1981
  Technician: Security/EMT
  EMT Certificate - State of Michigan

Brown, Kathie M. ............................................................1988
Specialist: Student Resources/Women's Center
  A.D. - Washtenaw Community College

Jennifer Brunt ...............................................................2000
Assistant: Human Resources Management
  A.D. - Washtenaw Community College

Burgen, Clarence ............................................................1997
Manager: Mechanical Systems

Burke, Starr .................................................................2000
Faculty: Behavioral Sciences
  B.A. - Wayne State University
  M.A. - Eastern Michigan University
  Ph.D - California Coast University

Bila, Dennis W. ...............................................................1969
Faculty: Mathematics
  B.S. - Central Michigan University
  M.A. - Wayne State University

Butcher, Kathleen ...........................................................1989
Faculty: Physical Science
  B.S. - St. Mary's College
  M.S. - Wayne State University

Bylsma, Donald, Jr. .........................................................1966
Faculty: Behavioral Science
  B.S. - Wayne State University
  M.S. - Wayne State University
  Ph.D. - The University of Michigan

Byrne, Heather .............................................................2000
Director: Student Activities
  B.A. - The University of Michigan
  M.B.A. - Goldengate University

Charlton, Eleanor ...........................................................1966
Faculty/Department Chair: Business Office Systems
  B.S. - Central Michigan University
  M.A. - Central Michigan University

Chesney, Cheryl ............................................................2000
Coordinator: Learning Support Services
  M.Ed. - University of Toledo
  B.S. - Bowling Green State University

Chisholm, Arnett ............................................................1988
Associate Counselor: Counseling, Career Planning and Placement
  B.S. - The University of Michigan
  M.A. - Eastern Michigan University

Clark, Diana .................................................................1989
Counselor: Counseling, Career Planning and Placement
  A.D. - Washtenaw Community College
  B.S. - Eastern Michigan University
  M.A. - Eastern Michigan University

Cleary, William T., Jr. .....................................................1983
Faculty: Electricity/Electronics
  A.S.E.E.T. - University of Maine
  B.E.E.T. - University of Maine
  M.B.A. - University of Maine

Cocco, Richard .............................................................2000
Classroom Technical Coordinator: Media Services
  A.D. - Washtenaw Community College

Crane, Elizabeth ...........................................................2000
Faculty: Internet Professional
  B.S. - Williamette University
  M.S. - The University of Michigan

Crean, Patricia K. .........................................................1996
Director of Lifelong Education: Continuing Education and Community Services
  M.A. - Michigan State University
  B.A. - Western Michigan University

Crider, Patricia ............................................................1997
Coordinator: Technical Education and Construction Institute
  A.D. - Washtenaw Community College
  J.M.N. - United States Department of Labor
  B.A. - Concordia College
Croake, Edith M. .................................................................1966
Faculty: English/Writing
  B.A. - The University of Michigan
  M.A.T. - Northwestern University
  M.A. - Northwestern University
  D.A. - The University of Michigan

Cullen, Kathy A. ...............................................................1996
Director: Customized Training Projects
  B.A. - State University of New York, Albany

Culver, Rosalyn ...............................................................1989
Faculty: Business Office Systems
  B.S. - Michigan State University
  M.A. - Michigan State University

Currie, Kathy .................................................................1989
Coordinator: Enrollment Services
  A.D. - Washtenaw Community College

Cygnar, Patricia ............................................................1989
Director: Curriculum and Articulation Services
  B.F.A. - University of Illinois
  M.Ed. - University of Illinois

Czinski, Margo ...............................................................1999
Faculty: English/Writing
  B.A. - Michigan State University
  M.A. - The University of Michigan

Daniels, Cheryl ..............................................................1990
Employment Specialist: Human Resource Management
  A.A. - Schoolcraft College

DeCamp, JoAnna .............................................................1996
Director: Cool Project
  M.S.W. - The University of Michigan
  B.A. - Brooklyn College

Dedhia, Hiralal ...............................................................1987
Clinical Instructor: Respiratory Therapy
  A.D. - Washtenaw Community College
  B.S. - University of Poona
  M.S. - Madonna College

Deinzer, Carol ...............................................................1999
Faculty: Foods & Hospitality
  A.C. - Monroe County Community College

DeMerrill, Diane J. ..........................................................1990
Coordinator, Eastern Extension Center: Adult Transition

Dick, Roger .................................................................1979
Faculty: Industrial Technology
  A.S. - Ferris State College
  B.S. - Western Michigan University
  M.A. - Eastern Michigan University

Diehl, Margaret ............................................................2001
  Systems Analyst II: Information Systems

Dixon, Barton ...............................................................1995
Security Patrol Officer: Campus Security
  A.D. - Washtenaw Community College

Donahey, Jeffrey ............................................................1984
Faculty: Industrial Technology
  B.S. - The University of Michigan

Donia, Richard L. .........................................................1999
Faculty: Automotive Services
  B.S. - Western Michigan University

Downen, Gary W. ...........................................................1983
Faculty/Department Chair: Electricity/Electronics
  B.S. - Western Michigan University

Downey, Patrick ............................................................1994
Specialist: Conference Services

Eby, David .................................................................1999
Information Technology Support Specialist: Information Systems
  A.S. - Northwestern Michigan College
  B.S. - Lake Superior State University

Egan, James .................................................................1989
Faculty: Mathematics
  B.A. - Case Western Reserve University
  B.S. - Case Western Reserve University
  M.S. - The University of Michigan
  M.S. - The University of Michigan

Ellen, Kim .................................................................1998
Coordinator, Northern Extension Center: Regional Services
  B.A. - Michigan State University

Ennes, Steven M. ...........................................................1987
Faculty: Business/Accounting
  A.A.S. - Macomb Community College
  B.S. - Western Michigan University

Everin, William J. ..........................................................1997
Research Analyst: Institutional Research
  B.S. - Northwestern University
  M.S. - Purdue University

Farrackand, Jamall .........................................................1997
Security Patrol Officer: Campus Security
  A.D. - Washtenaw Community College

Faulkner, Mary K. ..........................................................1983
Administrative Assistant to the President
  A.D. - Washtenaw Community College

Fauri, Greta .................................................................1977
Student Services Advisor: Children’s Center
  B.A. - Adrian College

B.S. - Eastern Michigan University
M.A. - Eastern Michigan University
## Program Advisory Committees

Working closely with the faculty to improve the curriculum, keeping instructors current on market trends, and providing advice for updating equipment and facilities are some of the major contributions of program advisory committees. Members of advisory committees, all local community volunteers, represent a wide and diverse spectrum of the business, industry, professional and educational agencies of the region. The College depends on the advice and assistance of these representatives to continually maintain the highest quality educational programs, courses, and services. Deans and department chairs are ex officio members of committees in their areas.

### Program Advisory Committees 2000-2001

#### Accounting
- **Crystal Davidson**
  - Mechtron Engineering Company, Inc.
- **Kathy Gram**
  - Mechtron Engineering Company, Inc.
- **Steve Schneider**
  - Weidmayer Schneider Raham & Bennet CPA
- **Judy Walker**
  - Cleary College
- **Alan Young**
  - Alan Young & Associates

#### Adult Transitions Advisory Committee
- **Diane DeMerrill**
  - WCC Harriet Street Center
- **William McFarlane**
  - Superior Charter Township
- **Diana McKnight-Morton**
  - WCC Board of Trustees
- **Ruth Moorman**
  - WCC Board of Trustees
- **Greg Peoples**
  - Eastern Michigan University
- **Pastor Garter Roberson**
  - Mt. Olive Baptist Church
- **Al Robinson**
  - Eastern Michigan University
- **David Rutledge**
  - WCC Board of Trustees
- **Clifford Smith**
  - Willow Run Public Schools
- **Pastor Ronald Warlick**
  - Friendship Baptist Church
- **Al Widner**
  - Lincoln Consolidated School District

#### Architectural Drafting Advisory Committee
- **Glenn Brightman**
  - Student, WCC
- **Brian Carter**
  - U of M, College of Architecture
- **Larry Darling**
  - International Masonry Institute
- **Terry Furst**
  - Pioneer High School
- **Brian Winkle**
  - Frye Associates
- **Lee Yaros**
  - Henry Ford Community College
- **Ray Zawacki**
  - Huron High School

#### Business Advisory Committee
- **Amelia Chan**
  - Eastern Michigan University
- **Colleen Holder**
  - Washtenaw County Treasurer’s Office
- **Richard King**
  - Small Business Development Center
- **Vicky Matthews**
  - Reinhart Realtors
- **Jennie Needleman**
  - IRI Consultants to Management
- **Michael O’Rear**
  - Ford Motor Company, Retired
- **Cecilia Paas**
  - Washtenaw Community College
- **David Stine**
  - Visteon, Inc.
- **Sarah Stitt**
  - Washtenaw Community College
- **Joyce Suber**
  - AAA Michian
- **Joan Williams**
  - Alcoa Fujikura-Ltd.

#### Business Office Systems Advisory Committee
- **Stephanie Bowens**
  - University of Michigan Hospital
- **Carla Baumann**
  - City of Ann Arbor Solid Waste Dept.
- **Susan Carlson**
  - Manpower Temporary Services
- **Phyllis Carr**
  - Pfizer Global Research & Development
- **Ron Fulkert**
  - Eastern Michigan University
- **Sandy Henkel**
  - University of Michigan Student, WCC
- **Jeanie Mahoney**
  - National City Bank
- **Michael Sullivan**
  - Eastern Michigan University
- **Darcelle White**
  - Catherine McAuley Health System

#### Computer Instruction Committee
- **Alan Augustine**
  - University of Michigan Credit Union
- **Daniel Bethuy**
  - Booth Computer Division
- **Dennis C. Carmichael**
  - Cimulus
- **Joyce Girdis**
  - Crystallize
- **Kathie Gourlay**
- **Peter Grey**
  - Technology Partners
- **Jacques Habra**
  - WebElite
- **Cindy Heilveil**
  - Mirco Source, Inc.
- **Jimmy Hsiao**
  - Logic Solutions
- **Michael Karaman**
  - Medstat Group
- **Joel Reoma**
  - Concordia College
- **Roy Schmidt**
  - Fry Multimedia
- **Hung-Lian Tang**
  - Eastern Michigan University
- **Laura Vancouver**
  - Health Media
- **Victor Volkman**
  - SDRC Imageware
### Program Advisory Committees

#### Construction Code Advisory Committee
- **Sue Dodson**  
  Building Official  
- **Jack Donaldson**  
  Consultant  
- **Harry Hutchinson**  
  City of Ypsilanti  
- **Steve Lindemyer**  
  City of Ypsilanti  
- **Scott McDonald**  
  Washtenaw County Building Dept.  
- **Tom Miller**  
  Inspector  
- **Larry Pickel**  
  City of Ann Arbor  
- **Jim Roberts**  
  City of Ypsilanti  
- **James Teevens**  
  Washtenaw Community College  
- **William Wroblewski**  
  Building Official  
- **Tom Yurkunas**  
  Ypsilanti Township  

#### Culinary and Hospitality Management Committee
- **Jim Bitzinger**  
  Dalhmann Campus Inn  
- **John Cleveland**  
  Gill and Grill  
- **Andy Dahmann**  
  Bell Tower Hotel  
- **David Doyle**  
  Mainstreet Ventures  
- **Jinan El-Khatib**  
  Exotic Bakeries  
- **Bob Hacker**  
  Comfort Inn  
- **Kevin Hill**  
  Howell High School  
- **Dan Huntsbarger**  
  The Moveable Feast  
- **Walter Laufenb**  
  Ypsilanti Marriott  
- **Debbie Locke-Daniel**  
  Ypsilanti Convention Bureau  
- **P.J. Moffet**  
  Real Estate One  
- **Judy Radant**  
  Saline High School  
- **Tom Recinella**  
  University of Michigan, Stockwell Hall  
- **Dave Rensi**  
  Cousins Heritage Inn  
- **Cindy Simonelli**  
  Clarion Hotel  
- **Anne Smith**  
  Ann Arbor Convention & Visitors Bureau  
- **Scott Storbeck**  
  Tecumseh Country Club  
- **Ann Tirapani**  
  Regional Career Technical Center  
- **Pam Winstead**  
  Pioneer High School  
- **Bill Wright**  
  Student, WCC  
- **Janna Wyrick**  
  Wendy's Corp.  

#### Dental Assistant Advisory Committee
- **Daniel Balbach, DDS**  
  Private Practitioner  
- **Sara Geise, CDA**  
  Debbie E. Priestap, DDS, MS, PC  
- **Carola Gerigk, DDS**  
  Private Practitioner  
- **Jed Jacobson, DDS**  
  U of M School of Dentist  
- **Kimberly Rice, DDS**  
  Private Practitioner  
- **Thomas A. Slade, DDS, PC**  
  Private Practitioner  
- **Jan Sprague, CDA, RDA**  
  Lenawee Vocational Tech Center  
- **Nancy Van Hofe**  
  U of M School of Dentistry  

#### Heating, Ventilating, and Air Conditioning Committee
- **Jim Hall**  
  Retired  
- **John Hansen**  
  Master Temperature Controls, Inc.  
- **Daniel Lawrence**  
  University of Michigan  

#### Human Services Advisory Committee
- **Betty Brown-Chappell**  
  Eastern Michigan University  
- **Nicole Copher**  
  Community Corrections  
- **Shannon Heffner**  
  Student, WCC  
- **Margaret O'Hare**  
  Student, WCC  
- **Kathleen Reynolds**  
  Washtenaw County Community Mental Health  
- **Kathy Walz**  
  Spectrum  

#### Internet Professional Advisory Committee
- **John Bebow**  
  Michigan Live  
- **Steve Beyer**  
  Student, WCC  
- **Jeff Callender**  
  QLTD  
- **Jamie Frech**  
  Beyond Interactive  
- **C. Olivia Frost**  
  U of M School of Information  
- **David Gore**  
  Eastern Michigan University  
- **Jacques Habra**  
  WebElite  
- **Tom Hollyer**  
  Fitch, Inc.  
- **Anna Lu**  
  Student, WCC  
- **Sandy McCarthy**  
  Washtenaw Community College  
- **Peter Morville**  
  Argus Center for Information Architecture  
- **Praveena Ramaswami**  
  Graduate, WCC  

#### Nursing Advisory Committee
- **Ruth Churley-Strom, RN**  
  Trinity Health System  
- **Scott Eldridge**  
  William Beaumont Hospital  
- **Kathleen Fischer, RN**  
  U of M Health System  
- **Pam McCoy**  
  VA Medical Center  
- **Cathy Mitchell**  
  U of M School of Nursing  
- **Michael Murphy**  
  Trinity Health System  
- **Rachel Rush**  
  Saline Hospital  

#### Pharmacy Technology Advisory Committee
- **Jamie Curry**  
  Daimler Chrysler  
- **Dennis Delonay**  
  VA Medical Center  
- **Peggy Eckhauser**  
  Washtenaw Community College  
- **Diane Gaul**  
  U of M Pharmacy Services  
- **Ron Lukasiewicz**  
  Oakland Community College  
- **Cari Marshall**  
  U of M Pharmacy Services  
- **Charles Myers**  
  U of M Pharmacy Services  
- **Kiel Samuels**  
  K-Mart Corporation  
- **Leza Taylor**  
  U of M Pharmacy Services  
- **Beth Weaver**  
  McKesson HBOC Pharmacy Systems
### Program Advisory Committees

#### Photography Program Advisory Committee
- **Nancy Dressler**: Nikon
- **Bob Foran**: Commercial Photographer
- **Ken Owen**: Jobo Fototechnic, Inc.
- **Matt Strum**: Foto 1 Photographic & Digital Imaging

#### Police Academy Advisory Committee
- **George Basar**: Chief, Ypsilanti Police Department
- **William Bess**: Director, U of M Department of Public Safety
- **Paul Bunten**: Chief, Saline Police Department
- **Walter Lunsford**: Acting Chief, Ann Arbor Police Dept.
- **Brian Mackie**: Washtenaw County Prosecutor
- **Dan Minzey**: Sheriff, Washtenaw County Sheriff's Department
- **John Phillips**: Director, Pittsfield Township Department of Public Safety
- **Lynn Reid**: Michigan Commission on Law Enforcement Standards

#### Radiography Advisory Committee
- **Betty Allen**: Veterans Administration Hospital
- **Susan Alsobrook**: Chelsea Community Hospital
- **Tim Baker**: Veterans Administration Hospital
- **Sherry Barker**: St. Joseph Mercy Hospital
- **Sharlene Campbell**: St. Joseph Mercy Hospital
- **Jody Dennison**: Wyandotte General Hospital
- **Gary Ferow**: Bixby Medical Center
- **Darla Gere**: Monroe Mercy Memorial Hospital
- **Peggy Goodman**: Chelsea Community Hospital
- **Susan Love**: Saline Community Hospital
- **Bernadette Makah**: Wyandotte General Hospital
- **Kevin McDonald**: Saline Community Hospital
- **Willie McLaughlin**: Veterans Administration Hospital
- **Cindy Smith**: Bixby Medical Center
- **Cathy Rayl**: Foote Hospital
- **Dianna Redman**: Monroe Mercy Memorial Hospital
- **Becky Schoenberg**: St. Joseph Mercy Hospital
- **Dorene Stegink**: U of M Health Services
- **Athlous Tinsley**: St. Joseph Mercy Hospital

#### Residential Construction Advisory Committee
- **Mary Branch**: Cardea Construction Company
- **Patricia Harroun**: Alpha Contacting, Inc.
- **Allen Lutes**: Duco Home Services
- **Jeff McCabe**: Salliotte Building Co, Inc.
- **Larry Salliotte**: Washtenaw County Homebuilders Assoc.

#### Scientific & Technical Communication Committee
- **Beth Apple**: ONE
- **Ruth Blough**: Open Door Communications, Inc.
- **Jill Bornemeier**: Cabletron Systems
- **Maryann Bowen**: Independent Contractor
- **Ginny Collins-Llope**: Collins Communication
- **Michael Dailey**: Interchange Software Group
- **Karen Gilbert**: Imageware/SDRC
- **Catherine Joon**: Stretch Media
- **Laurie Kantner**: Tec-Ed, Inc.
- **Heather Keeler**: Skipping Stones
- **Theresa Loveck**: Vector Research, Inc.
- **Margie Monforten**: Blue Cross Blue Shield
- **John Moreau**: ArborComm, Inc.
- **Sally Paul**: Creative Solutions, Inc.
- **Andrea Sayer**: Creative Solutions, Inc.
- **Catherine Titta**: ArborComm, Inc.

#### Surgical Technology Advisory Committee
- **Elaine Abbondanza**: Mott Children's Hospital
- **Michelle Diepenhorst**: St. Joseph Mercy Hospital
- **Lottie Finnegan**: Herrick Memorial Hospital
- **Jane Gay**: VA Medical Center
- **Anna Hruska**: St. Joseph Mercy Hospital
- **Fiona Jubenville**: Henry Ford Hospital
- **Val Marsh**: Chelsea Community Hospital
- **Marlene Mason**: Saline Community Hospital
- **Susan Sodegren**: Forrest Health Medical Center
- **Rebecca Trester**: Program Graduate
- **Sue Weir, RN**: McPherson Hospital
**Academic Honors**
Honors bestowed upon a student who has achieved a high level of academic success. Honors may be based upon performance over one or more semesters (Dean’s Honor Roll) or for cumulative performance at the time of graduation (Graduation Honors).

**Accreditation**
Recognition that the College or a College program has met standards or requirements set up by an external organization.

**Admission**
Acceptance of an applicant for enrollment in the College.

**Articulation**
The process of arranging instructional programs so that students may progress from one educational level to another without loss of credit.

**Assessment**
The process of determining a student’s interests or level of competence.

**Audit**
To enroll in a College academic credit-bearing course on a non-credit basis. Such credits as the course normally carries are not included as part of the total credit load, however, tuition is assessed like a credit registration. An auditor (“AU”) grade is issued and posted to the transcript.

**College Withdrawal**
The process by which a student discontinues enrollment in all courses.

**College Work-study**
An award of employment (i.e., an opportunity to work for paid wages on the campus) given to a student based on financial need.

**Continuing Education Units (CEU’s)**
A nationally recognized recording device for substantive non-credit learning experiences. One CEU is defined as ten contact hours of participation in an organized continuing education experience with responsible sponsorship, capable direction, and qualified instruction.

**Co-requisite**
An additional course which is required to be taken during the same semester with another course.

**Course Load/Overload**
The total number of credit hours a student is officially registered for in a given semester. A Full-time Student is one who enrolls in 12 or more credit hours per semester; a Part-time Student is one who enrolls in less than 12 credit hours per semester; a Half-time Student is a Part-time student enrolled in at least 6 credit hours per semester. Students enrolling in more than 18 credit hours per semester are considered to be carrying a Course Overload.

**Credit Hours**
The number of hours of credit granted for a particular course. The number of credit hours is normally equal to the number of lecture hours that a class meets each week e.g., a 3 credit hour class will meet for 3 hours each week for a 15-week semester.

**Cumulative Grade-Point Average**
A measure of a student’s scholastic success, which includes all coursework attempted at the College. The average is obtained by dividing the total grade points by semester hours of credit attempted.

**Curriculum**
A group of courses, sequences of subjects, or planned learning experiences.

**Educational Goal**
A student’s statement of the goal he/she intends to achieve by attending WCC.

**Elective Course**
A course which a student may choose to take from a number of alternative courses in order to fulfill a program requirement (see Open Elective and Restricted Elective).

**Emeritus Program**
A program for county residents who are at least sixty-five years of age which offers tuition-free participation in WCC credit and credit-free courses, workshops and seminars.

**Fees**
Charges assessed to students other than tuition charges.

**Financial Hold**
Students are placed on financial hold when they have not met their financial obligations to the College. Students placed on financial hold are not allowed to register for courses, cannot receive their College Certificate, Associate Degree or transcript and are not eligible to receive College services of any kind.

**Freshman/First Year Student**
A student who has completed fewer than 31 credit hours.

**GED Examination**
The General Education Development examination is a comprehensive test used to appraise the educational development of adults who have not completed a high school education. By achieving satisfactory scores on the GED adults may earn a high school equivalency certificate.
**General Education Requirements**
A body of learning areas which are incorporated into every WCC degree program of study. At WCC these areas include writing, speech, mathematics, natural sciences, social and behavioral sciences, arts and humanities, and computer information literacy.

**Grade Point Average**
The number of grade points earned divided by the semester hours of credit attempted.

**Grant**
An award of money given to a student based on financial need. Grants do not need to be repaid.

**Loan**
An award of money given to a student based on financial need. Loans must be repaid once a student leaves the College or does not continue at the college on at least a half-time basis.

**Open Elective**
A course that may be chosen from any credit course offered at WCC and applied to a program of study. The credit hours for elective courses will be counted toward the total hours required for program or certificate completion.

**Orientation**
A presentation for new WCC students to acquaint them with College facilities, programs, services and procedures.

**Post-secondary Education**
Education beyond the high school level.

**Prerequisite**
Requirements that must be met or courses which must be successfully completed prior to enrolling in a specific course or program.

**Program Advisory Committees**
A committee made of local community volunteers representing business, industry, professional and educational agencies that provide advice and assistance to WCC’s educational programs.

**Registration**
The process of officially enrolling in a course (or courses). Upon registration and payment, the course(s) are entered onto the student’s permanent record.

**Residency**
The official home address of a student which is used to determine the tuition rate charged and, if applicable, program admission priority. Residency classifications are In-District, Out-District, Out-State, and Out-of-Country.

**Restricted Elective**
A course that must be chosen from a specific list or a specific discipline in order to fulfill program requirements. The credit hours for elective courses will be counted toward the total hours required for program or certificate completion.

**Self-paced Instruction**
Instruction using a workbook, textbook, or computer, which helps the student attain a specified level of performance. Students proceed at their own pace through a series of steps, working with the instructor, as he/she finds necessary.

**Scholarship**
An award of money and/or special recognition given to a student for certain types of proficiency, such as academic, or because of financial need. Scholarship monies do not need to be repaid.

** Sophomore/Second Year Student**
A student who has completed 31 or more credit hours but has not received an Associate Degree or has not qualified for upper division classification in a four-year college or university.

**Transfer Agreements**
Written agreements between WCC and four-year institutions, which specify transferring of WCC earned credits to the specific four-year institution.

**Transfer Credit**
Credit that has been taken at another accredited academic institution that is accepted by the College for use toward a College Certificate or Associate Degree.

**Transcript**
A transcript lists all courses taken by a student, showing the final grade received for each course. The official transcript is housed in the Student Records Office.

**Tuition**
The monetary charge a student must pay at the time of registration for each semester hour of academic credit. The tuition rate is based on the student’s residency classification.

**Undergraduate**
A student in a higher education institution who has not yet achieved the Bachelor’s, or first professional, degree in a field of study.
Appendix A

MACRAO Transfer Agreement

The Michigan Association of Collegiate Registrars and Admissions Officers has developed an agreement to facilitate transfer from Michigan community colleges to baccalaureate colleges and universities. The agreement provides for transfer of up to 30 semester credit hours to meet many (in some cases all) of the General Education Requirements at participating Michigan four-year colleges and universities. Students should check with the college to which they plan to transfer to determine if the MACRAO agreement is honored or if the college puts limitations or provisos on the agreement.

How the Agreement Works

The MACRAO Transfer Agreement stipulates that 30 semester credit hours of 100-level and above, compatible, college-level coursework completed at one Michigan college or university will “transfer” to another Michigan college or university and be applied toward meeting the student’s General Education Requirements at the “transferred to” institution. A complete listing of course and credit hour requirements are included under MACRAO Transfer Requirements below. Specific courses in each category are determined by the institution offering the courses. Once you have completed the course work requirements for meeting MACRAO, you must request that your transcript be posted “MACRAO Agreement Satisfied”. You can do this in the Office of Student Records before having your transcript sent to the college to which you are transferring.

MACRAO Transfer Requirements

I. English Composition (6 credits)
Composition (ENG) ....................111, 122, 225

II. Social Science
(8-9 credits in more than one subject area)
Anthropology (ANT)....................201, 202
Economics (ECO)........................120, 211, 222, 280
Geography (GEO).......................101, 103
History (HST).............................121, 122, 123, 150, 160, 201, 202, 215, 216
Political Science (PLS)...............112, 150, 211
Psychology (PSY) ......................100, 107, 130, 200, 209, 210, 257, 260
Sociology (SOC) ........................100, 201, 202, 203, 205, 207, 230, 250

III. Science and Math (8-9 credits in more than one discipline, one must be a laboratory course)
Biology (BIO) ............................101, 102, 103, 107, 200, 208, 215, 216, 220, 227, 228, 237
Chemistry (CEM)........................105, 111, 122, 140, 211, 218, 222
Geology (GLG)............................100, 103, 109, 114, 125, 202
Mathematics (MTH)....................160, 169, 176, 178, 180, 181, 182, 191, 197, 293, 295
Physics (PHY) ............................105, 111, 122, 211, 222

IV. Humanities (8-9 credits in more than one discipline)
Art (ART) .................................101, 111, 112, 114, 120, 122, 125, 130, 143, 150
Communication (COM) ...............101, 102, 130, 142, 183, 200
Drama (DRA) ..............................192, 208, 220
French (FRN) ............................111, 122, 213, 224
German (GRM) ...........................111, 122
Humanities (HUM) .....................101, 102, 145, 160
Literature (ENG) .......................160, 170, 181, 200, 211, 212, 213, 214, 222, 223, 224
Music (MUS) ..............................140, 142, 180
Philosophy (PHL) ......................101, 102, 120, 123, 200, 205, 250
Spanish (SPN) ...........................111, 122, 213, 224
**Articulation Agreements**

Many WCC programs have articulation agreements with other colleges and universities that allow students to transfer credits directly to a bachelor's degree program. Many of these programs meet MACRAO requirements and should be followed carefully so as not to lose the benefits of MACRAO. If a program meets MACRAO it will be noted under “Articulation” in the program description.

**Four-Year Colleges that accept MACRAO**

Colleges marked with an * have limitations, exceptions, or provisos to the MACRAO Transfer Agreement. Check with your counselor and an admissions representative from the four-year college/university to learn about these exceptions before you begin selecting courses for your program of study.

Appendix B

Courses That Meet Core Elements 13 and 14

Programs that were offered from Fall 1993 through Spring/Summer 2000, frequently had as a requirement to select a course that meets core elements 13 and 14. This is a list of courses that currently meet this requirement. You may choose any of these courses to fulfill core elements 13 and 14.

Disclaimers

This document is for informational purposes only and is not to be construed as a binding Compliance Statement. This document was prepared in August, 2000 and is subject to change without prior notice. The Student Right to Know and Campus Security Act of 1990 is a federal law that mandates the disclosure by all institutions of higher education of the rates of graduation, the number of incidents of certain criminal offenses, and the default rate for student loans. The law also mandates that information be provided on the type of security provided on campus, the pertinent policies regarding security on campus, and policies that deal with alcohol and drug abuse. Washtenaw Community College is in full compliance with these provisions and provides the required information annually through college publications.

Inquiries concerning the Student Right to Know and Campus Security Act should be directed to Washtenaw Community College, Office of the Dean of Student Services, Room 221B, Student Center Building, Ann Arbor, MI 48106 (telephone (734) 973-3536).

Inquiries regarding compliance in employment should be directed to the College Affirmative Action Officer in the Office of Human Resource Management, Room 120, Business and Education Building, (734) 973-3497.

Inquiries concerning access to facilities should be directed to the Director of Plant Operations, Plant Operations Building, (734) 677-5300.

ADA/504/Title IX/Section 504 Compliance Statements

Washtenaw Community College does not discriminate on the basis of race, sex, color, religion, national origin, age, disability, height, weight, marital status, or veteran status in provision of its educational programs and services or in employment opportunities and benefits. WCC is committed to compliance in all of its activities and services with the requirements of Title IX of the Educational Amendments of 1972, Public Act 453, Section 504 of the Rehabilitation Act of 1973, Title VII of the Civil Rights Act of 1964 as amended, Public Act 220, and the Americans with Disabilities Act of 1990.

Inquiries concerning programs and services under Title IX and Section 504, and the Americans with Disabilities Act should be directed to the Office of the Dean of Student Services; Room 225A, Student Center Building, (734) 973-3536.

Inquiries concerning compliance in employment should be directed to the College Affirmative Action Officer in the Office of Human Resource Management, Room 120, Business and Education Building, (734) 973-3497.
