Subject
ML Firing Range Ductwork Replacement Contract

Date
June 25, 2019

Background

This project accomplishes the replacement of an existing outdated air handling distribution system serving the firing range in the Morris Lawrence Building. This work is a Deferred Maintenance project.

The existing air distribution ductwork servicing the firing range area is original to the 28-year old building. The system includes both supply and exhaust ductwork. The current age of the system and changes to design standards in firing range ventilation have evolved since originally installed. This contract includes the fabrication and new installation of both the supply and exhaust ductwork servicing that area of the building connected to AHU #4. The work scope also includes new wall penetrations, blower coil units, and ancillary piping.

Bids for this project were received on June 13, 2019. S&Z Sheetmetal Inc. of Flint MI was low responsive bidder for this project with a base bid totaling \$199,500.

RECOMMENDATION

It is the recommendation that the Board of Trustees approve a construction contract with S&Z Sheetmetal Inc in the amount of \$199,500.

A ROLL CALL VOTE WILL BE TAKEN
