Recommendation for New Programs for 2020-2021

Addiction Studies Certificate

Certificate – 12 credits

Humanities, Social and Behavioral Sciences Division – Behavioral Sciences Department

Description: This program is designed for individuals interested in pursuing Certified Alcohol and Drug Counseling (CADC) certification through the State of Michigan. Courses focus on knowledge and skills necessary for working with clients with substance abuse disorders. This program will fulfill the educational requirements needed for CADC. Additional requirements for work experience and supervision must be met outside of this program.

Need/Job Demand: This certificate was originally created as a post-associates certificate. The credential, Certified Drug Alcohol Counselor (CADC) and the credentialing body (Michigan Certification Board for Addiction Professionals) do not require that professionals have a degree in order to be credentialed as a CADC. Therefore, it is being requested that these four classes be combined to create an Addiction Studies Certificate. According to the Bureau of Labor Statistics, Substance Abuse and Behavioral Disorder Counselors openings are expected to increase 11% between 2018 and 2028¹.

Student Learning Outcomes:

1. Demonstrate the professional expectations and responsibilities of an addiction professional outlined in the professional code of ethics.
2. Recognize and apply concepts of substance abuse counseling such as co-occurring disorders, cultural awareness, counseling, case management, assessment and treatment, biology, client, family and community education, and working with varying populations.

Curriculum Review: The Curriculum and Assessment Committees recommended approval of this program on 1/9/20.
