Recommendation for New Programs for 2021-2022

Supply Chain Essentials Certificate of Completion – 6 credits Business and Computer Technologies Division Business Department

Description: This certificate of completion is designed for individual working in the industry who are seeking advancement in their field. This program is embedded in the supply chain certificate and associate of applied science degree programs. Completion of the certificate program will prepare the student to take two industry approved certification exams. The exams are the Certified Logistics Association Certification (CLA) and the Certified Logistics Technician Certification (CLT).

Need/Job Demand: The two classes being offered for this certificate of completion will allow students the opportunity to build their resume and pursue the complete program in Supply Chain Management. Upon completion of the two classes, students will be put in place to achieve two certifications of completion in the supply chain industry. This is a consistently growing area of business showing above average job growth in the future. Median earnings for positions in supply chain and its related field of logistics, \$66k, is also above average. Job opportunities can be obtained with experience and limited coursework (certificate).

Student Learning Outcomes:

1. Identify the supply chain ecosystem including the players, their roles, and corporate social responsibility.
2. Identify and apply the processes and practices needed in warehouse operations.

Curriculum Review: The Curriculum and Assessment Committees recommended approval of this program on 1/21/21.

Wage Data: In 2019, the median wage for positions in supply chain and its related field of logistics was \$66,000 annually,

Program Requirements:

| Course | Title | Credits |
|---------------|---|----------------|
| BMG 181 | Introduction to Supply Chain Management | 3 |
| BMG 182 | Warehousing and Logistics | 3 |
| Total | | 6 |

Recommendation for New Programs for 2021-2022

Principles of Cybersecurity **Advanced Certificate – 13 credits** **Business & Computer Technologies Division** **Computer Science and Information Technology Department**

Description: This program is designed to meet the emerging demand for highly skilled cybersecurity professionals within the information technology industry and business community. This certificate program provides an in-depth examination of cybersecurity technology with an emphasis on executing a vulnerability analysis of an organization network and network hardening. The student will be trained to use various tools to analyze networks for vulnerabilities and secure networks through the application of various defense mechanisms including firewalls, intrusion detection and Virtual Private Networks (VPN).

Need/Job Demand: The Cybersecurity profession is expected to grow faster than average, at a rate of 5% to 7%. This proposal changes the Principles of Cybersecurity certificate to an advanced certificate that recognizes the need for prerequisite knowledge and skills.

Student Learning Outcomes:

1. Apply knowledge and skills to install, configure and manage identity and access services when implementing and administering a secure network architecture.
2. Demonstrate test-taking strategies that will prepare the student for the CompTia Security+ certification exam.

Curriculum Review: The Curriculum and Assessment Committees recommended approval of this program on 2/4/21.

Wage Data: In 2019, the median wage for an Information Security Engineer was \$42.57 per hour or \$88,550 annually,

Program Requirements:

| Course | Title | Credits |
|---------|--|-----------|
| CSS 200 | Introduction to Network Security - Security+ | 4 |
| CSS 205 | Essentials of Network Penetration Testing | 4 |
| CSS 210 | Network Perimeter Protection - CCNA Security | 4 |
| CSS 295 | Cybersecurity Industry Certification: COMPTIA SEC+ | 1 |
| | Total Credits | 13 |

Recommendation for New Programs for 2021-2022

Cybersecurity Operations Advanced Certificate – 13 credits Business & Computer Technologies Division Computer Science and Information Technology Department

Description: In this program, students will develop the knowledge and skills associated with monitoring, detecting, investigating, analyzing and responding to security events, thus protecting systems and organizations from cybersecurity risks, threats and vulnerabilities. Students will prepare for the Cisco CCNA Cyber Operations Associate Examination.

Need/Job Demand: The Cybersecurity profession is expected to grow faster than average, at a rate of 5% to 7%. This proposal changes the Principles of Cybersecurity certificate to an advanced certificate that recognizes the need for prerequisite knowledge and skills.

Student Learning Outcomes:

1. Demonstrate the knowledge and skills required to monitor and analyze network traffic, host-based attacks and network intrusions.
2. Demonstrate test-taking strategies that will prepare the student for the Cisco CCNA Cyber Operations Associate Examination.

Curriculum Review: The Curriculum and Assessment Committees recommended approval of this program on 2/4/21.

Wage Data: In 2019, the median wage for an Information Security Engineer was \$42.57 per hour or \$88,550 annually,

Program Requirements:

| Course | Title | Credits |
|---------|--|-----------|
| CPS 141 | Python | 4 |
| CSS 225 | Cybersecurity Operations – CCNA Cyber Ops | 4 |
| CNT 290 | Network Forensics | 4 |
| CSS 296 | Cybersecurity Operations Certification Preparation | 1 |
| | Total Credits | 13 |

Recommendation for New Programs for 2021-2022

Cardiac Telemetry Technician Certificate of Completion – 6 credits Health Sciences Division – Health Science Department

Description: Students in this program learn the skills required to become Cardiac Telemetry Technicians. Cardiac Telemetry Technicians are health professionals responsible for measuring and reporting the patient's heart rhythm and rate. Students will learn to ensure proper electrode placement on the patient, record the ECG and measure, interpret and report Electrocardiogram (ECG) wave form results to the nursing staff and physician. Upon successful completion of the certificate, students will also be eligible to take the National Certification Electrocardiogram (ECG) Exam.

Need/Job Demand: In January 2020, WCC was contacted by both Michigan Medicine and Trinity Health inquiring about the possibility of developing a training program for Cardiac Telemetry Monitoring. The hospitals have agreed to provide clinical training to WCC Cardiac Telemetry students.

Student Learning Outcomes:

1. Identify cardiac anatomy.
2. Read and interpret cardiac rhythm strips by identifying common cardiac rhythms and arrhythmias.
3. Differentiate severity of arrhythmia blocks.

Curriculum Review: The Curriculum and Assessment Committees recommended approval of this program on 11/18/20.

Wage Data: The 2019 median wage was \$27.75 hourly or \$57,720 annually.

Program Requirements:

| Course | Title | Credits |
|---------|------------------------------|----------|
| HSC 131 | CPR/AED and First Aid | 1 |
| HSC 140 | Cardiac Telemetry Monitoring | 5 |
| | Total Credits | 6 |

Recommendation for New Programs for 2021-2022

Health Administration **Associate in Science – 60 credits** **Health Sciences Division – Health Science Department**

Description: The Health Administration program provides students with the skills necessary for entry-level employment in healthcare management. Students in this industry lead and oversee the operation of complex health care entities including, hospitals, outpatient facilities, health care systems, pharmacies, long-term care facilities, mental health centers, fitness centers insurance companies, schools and public health systems. Upon completion of this associate degree, the student should be able to: understand medical terminology, apply health care knowledge in economic analysis, accounting, and effectively communicate with team members.

Need/Job Demand: Local employer groups (St. Joseph Mercy-Ann Arbor, Michigan Medicine) require an Associate Degree for some supervisory positions. Employment in healthcare occupations is projected to grow 15 percent from 2019 to 2029, much faster than the average for all occupations, adding about 2.4 million new jobs. Healthcare occupations are projected to add more jobs than any of the other occupational groups. This projected growth is mainly due to an aging population, leading to greater demand for healthcare services.

U.S. Bureau of Labor Statistics

Student Learning Outcomes:

1. Evaluate accounting information to assess a company's performance and determine its ability to pay off its liabilities.
2. Manipulate supply and demand models to determine qualitative and quantitative changes in prices, output, allocative efficiency and economic surplus that result from real-world events and government policy change.
3. Prepare a healthcare practice proposal in the form of a presentation, publication or poster, based on the evidence-based practice process (EBP).

Curriculum Review: The Curriculum and Assessment Committees recommended approval of this program on 1/21/21.

Wage Data: The 2019 median wage was \$48.55 hourly or \$100,980 annually.

Recommendation for New Programs for 2021-2022

Program Requirements:

| 1st Semester | | | |
|--|----|---|----------------|
| <i>Class</i> | | <i>Title</i> | <i>Credits</i> |
