Child Development (APCD)**Associate in Applied Science Degree****Program Effective Term: Fall 2022****High Demand Occupation**

The Child Development Associate Degree program prepares students to be childhood education professionals. The coursework and practica prepare students to work effectively with young children and families in a variety of settings. The program satisfies Michigan state requirements for licensing as directors of child care centers, lead teachers in child care centers, home-based center providers, and support staff in public school early childhood programs and Head Start agencies. It also prepares students to transfer into a bachelor's degree program.

Articulation:

Eastern Michigan University, BS degree

Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: <https://www.wccnet.edu/learn/transfer-wcc-credits/articulation-agreements.php> .

PROGRAM CHANGE FORM

Program Code: APCD	Current Program Name: Child Development	Effective Term: Fall 2022
Division Code: ATP	Department: PSC	

Directions:

1. Attach the current program listing from the WCC catalog or website and indicate any changes to be made.
2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using CurricUNET, but should be submitted at the same time as the program change form.
4. If changes affect the program assessment plan or if program outcomes are updated, please submit a [Program Assessment Plan Change](#) form. These changes must be approved separately from the program change form and should be submitted at the same time. Current program assessment plans can be found on the [Curriculum and Assessment Program Information page](#).

* Please submit a [Program Assessment Plan Change](#) form.

Note: A change to the Award Type requires the submission of a new program proposal form and a separate program inactivation form. Contact the Director of Curriculum & Assessment for more information.

Rationale for proposed changes:

CCP 218 is identical to ECD 280 except CCP 218 is a one-credit class and ECD 282 is a two-credit class. Because of the updated content to meet industry standards, it is more appropriate as a two-credit class.

A new course, ECD 282 has been created which is similar to the eliminated CCP 219, with the exception of the new course being a one-credit practicum class.

Financial/staffing/equipment/space implications:

Currently, CCP 204 is offered Fall Semester and CCP 218 is offered Winter semester. There are not enough students in either group separately to offer both classes each semester. Eliminating CCP 218 and requiring ECD 280 will allow us to offer one class, every semester, giving both Child Development students and Early Childhood Education students the opportunity to complete this final requirement in their program in either semester.

PROGRAM CHANGE OR DISCONTINUATION FORM

3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using a Master Syllabus form, but should be submitted at the same time as the program change form.

|--|---|

Show all changes on the attached page from the catalog.

Rationale for proposed changes or discontinuation:

The content in CCP 160 is redundant. The Student Learning Outcomes for CCP 160 are also outcomes in CCP 101, CCP 122, CCP 210, and CCP 218, all of which are required classes for the Child Development Associate in Applied Science degree.

Making CCP 209, CCP 211, CCP 220 and CCP 225 restricted electives would give students more flexibility to tailor their program to meet their educational goals.

Financial/staffing/equipment/space implications:

None.

This doesn't impact any other programs.
