Health Sciences

Health Care Foundations (CTHCF)

Certificate

Program Effective Term: Winter 2025

High Demand Occupation

Program is also available online

This program helps students acquire basic knowledge and skills in math, foundational sciences, healthcare terminology and general education courses. The certificate fulfills major pre-admission requirements for Nursing, Physical Therapist Assistant, Radiography, Surgical Technology and general education requirements for an Associate in Applied Science degree. It provides students applying for a "high demand" healthcare associate's degree program with a certificate for the completion of most general education and/or pre-admission course requirements of the intended program. Students who plan to enter healthcare programs are encouraged to contact a counselor and enroll in the Healthcare Exploration course.

Complete one of the following Concentrations:

Nursing Intent

Physical Therapist Assistant Intent

Radiography Intent

Surgical Technology Intent

No Specialty

Math requirements vary dramatically from concentration to concentration. Please see an advisor for assistance with selecting an appropriate math course.

Minimum Concentration Credits Required for the Program:**24**

Select a concentration for requirements and total credits required for program.

Health Care Foundations Concentrations

Nursing Intent (PNUR)		(28 credits)
BIO 111	Anatomy and Physiology - Normal Structure and Function*	5
COM 101 or	Fundamentals of Speaking	
COM 102 or	Interpersonal Communication	
COM 200	Family Communication	3
ENG 111 or	Composition I

PSY 206	Life Span Developmental Psychology	3

Minimum Credits Required for the Program:	24
--	-----------

Notes:

*CEM 101 Introductory Chemistry or high school chemistry is a required support course, with a grade of "C" or better.

**Completion of MTH 125X or MTH 160X will not raise the student's Academic Math Level to 3, which is required for at least one course or course prerequisite in these programs. Completion of MTH 168 and MTH 169 will not fulfill the MTA Mathematics requirement. Students planning to transfer should take MTA-approved math courses. Financial aid will not cover an additional math course if a student enters a program with MTH 168 or MTH 169 but still needs an MTA math course.

PROGRAM CHANGE FORM

Program Code: CTHCF	Current Program Name: Healthcare Foundations	Effective Term: W- 2025
Division Code: Health Sciences	Department: Health Sciences	

Directions:

1. Attach the current program listing from the WCC catalog or website and indicate any changes to be made.
2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using CurricUNET, but should be submitted at the same time as the program change form.
4. If changes affect the program assessment plan or if program outcomes are updated, please submit a Program Assessment Plan Change form. These changes must be approved separately from the program change form and should be submitted at the same time. Current program assessment plans can be found on the Curriculum and Assessment Program Information page.

Requested Changes:

- | | |
|--|---|
| <input type="checkbox"/> Remove course(s): _____ | <input type="checkbox"/> Program outcomes (may also result from removing or adding a course)* |
| <input checked="" type="checkbox"/> Add course(s): MTH 125X, MTH 160X, MTH 168 | <input type="checkbox"/> Program assessment plan* |
| <input type="checkbox"/> Program title (new title is _____) | <input type="checkbox"/> Accreditation information |
| <input type="checkbox"/> Description | <input type="checkbox"/> Other _____ |
| <input type="checkbox"/> Advisors | |
| <input type="checkbox"/> Program admission requirements | |
| <input type="checkbox"/> Continuing eligibility requirements | |

Note: A change to the Award Type requires the submission of a new program proposal form and a separate program inactivation form. Contact the Director of Curriculum & Assessment for more information.

Show all changes on the catalog page you attach.

* Please submit a Program Assessment Plan Change form.

Rationale for proposed changes:

New Dev Ed Requirements

Financial/staffing/equipment/space implications:

None

List departments that have been consulted regarding their use of this program.

PROGRAM CHANGE OR DISCONTINUATION FORM

Program Code: CTHCF **Program Name:** Health Care Foundations

Effective Term: Fall 2020

Division Code: HLT **Department:** Health Science

Directions:

1. Attach the current program listing from the WCC catalog or Web site and indicate any changes to be made.
2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using a Master Syllabus form, but should be submitted at the same time as the program change form.

Requested Changes:

<input type="checkbox"/> Review	<input type="checkbox"/> Program admission requirements
<input type="checkbox"/> Remove course(s): _____	<input type="checkbox"/> Continuing eligibility requirements
<input type="checkbox"/> Add course(s): _____	<input type="checkbox"/> Program outcomes
<input type="checkbox"/> Program title (title was _____)	<input type="checkbox"/> Accreditation information
<input type="checkbox"/> Description	<input type="checkbox"/> Discontinuation (attach program discontinuation plan that includes transition of students and timetable for phasing out courses)
<input type="checkbox"/> Type of award	<input checked="" type="checkbox"/> Other: Remove the Pharmacy Tech Intent Concentration (PPHT)
<input type="checkbox"/> Advisors	
<input type="checkbox"/> Articulation information	

Show all changes on the attached page from the catalog.

Rationale for proposed changes or discontinuation:
 The Pharmacy Technology program has been discontinued. As a result, the Health Care Foundations program needs to be updated to reflect the change. The Pharmacy Technology Intent is no longer a valid concentration for students to select.

Financial/staffing/equipment/space implications:

List departments that have been consulted regarding their use of this program.

Program Information Report

Health Care Foundations (CTHCF) Certificate

Program Effective Term: Fall 2018

High Demand Occupation

This program helps students acquire basic knowledge and skills in math, foundational sciences, healthcare terminology and general education courses. The certificate fulfills major pre-admission requirements for Nursing, Pharmacy Technology, Physical Therapist Assistant, Radiography, Surgical Technology and general education requirements for an Associate in Applied Science degree. It provides students applying for a "high demand" healthcare associate's degree program with a certificate for the completion of most general education and/or pre-admission course requirements of the intended program. Students who plan to enter healthcare programs are encouraged to contact a counselor and enroll in the Healthcare Exploration course.

Minimum Concentration Credits Required for the Program:

16

Select a concentration for requirements and total credits required for program.

Program Information Report

School of Nursing and Health Sciences

Find your place in the growing field of health care. The School of Nursing and Health Sciences provides a variety of programs designed to prepare the student for entry-level positions in dental assisting, pharmacy technology, physical therapist assistant, radiography, nursing assistant or professional nursing. The health care foundations certificate provides a starting point for prospective nursing and health science students or provides the general education courses to move from completion of a certificate program into an associate degree program.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

After completing a certificate, students can progress to the next level, the advanced certificate. The credit hours required for these programs also vary. This type of certificate provides a more specialized level of skill development, and often allows students to upgrade their positions at their places of employment.

The next level, an Associate in Applied Science, is available for some programs. For some career fields, it is possible to earn a certificate, an advanced certificate, and an Associate in Applied Science degree in the same field. In these cases, the credit hours from the certificate and advanced certificate can be applied to the credit hours needed for the Associate in Applied Science degree.

Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, an advanced certificate and General Education requirements.

Health Care Foundations

This certificate program can provide the essential basic skills to prepare for a specialized health care program.

Health Care Foundations (CTHCF) Certificate

Program Effective Term: Fall 2012

This program helps students acquire basic knowledge and skills in math, foundational sciences, healthcare terminology and general education courses. The certificate fulfills major pre-admission requirements for Nursing, Physical Therapist Assistant, Radiography and general education requirements for an Associate in Applied Science degree. It provides students applying for a "high demand" health care associates degree program with a certificate for the completion of most general education and/or pre-admission course requirements of the intended program. Students who plan to enter health care programs are encouraged to contact a counselor.

Minimum Concentration Credits Required for the Program:

23

Footnotes:

Computer and Information Literacy Requirement:

In addition, students must demonstrate basic computer skills and knowledge. Courses taken at other institutions, work experience, or transfer credit will not satisfy this requirement. Students can fulfill this requirement through either of the following options:

—1. Pass the Computer and Information Literacy test with a score of 70% or higher. Students

can take

~~the test two times. If a passing score is not attained, an approved Computer and Information~~

~~Literacy course must be taken and passed with a "C" or better.~~

~~OR~~

~~2. Pass, with a "C" or higher, specified courses that incorporate the Computer and Information~~

~~Literacy objectives. These courses might be taken as part of the degree requirements for a particular program.~~

~~The courses include:~~

~~a. CIS 100 Introduction to Computers and Software Applications;~~

~~b. CIS 110 Introduction to Computer Information Systems.~~

~~Students should take the Computer and Information Literacy test at their earliest opportunity, preferable upon admittance to the College. The test is administered in the Testing Center. The schedule for testing can be found in the Academic Class Schedule.~~

Chemistry:

CEM 090 Introductory Chemistry or high school chemistry is a required support course, with a grade of "C" or better.

Minimum Credits Required for the Program:

26

CIS 100 or CIS 110

~~Notes:
 Computer and Information Literacy Requirement:
 In addition, students must demonstrate basic computer skills and knowledge. Courses taken at other institutions, work experience, or transfer credit will not satisfy this requirement. Students can fulfill this requirement through either of the following options:
 1. Pass the Computer and Information Literacy test with a score of 70% or higher. Students can take the test two times. If a passing score is not attained, an approved Computer and Information Literacy course must be taken and passed with a "C" or better.
 OR
 2. Pass, with a "C" or higher, specified courses that incorporate the Computer and Information Literacy objectives. These courses might be taken as part of the degree requirements for a particular program.
 The courses include:
 a. CIS 100 Introduction to Computers and Software Applications;
 b. CIS 110 Introduction to Computer Information Systems.
 Students should take the Computer and Information Literacy test at their earliest opportunity, preferable upon admittance to the College. The test is administered in the Testing Center. The schedule for testing can be found in the Academic Class Schedule.~~

Chemistry:
 CHEM 090 Introductory Chemistry or high school chemistry is a required support course, with a grade of "C" or better.

SCHOOL OF NURSING AND HEALTH SCIENCES

Program Information Report

School of Nursing and Health Sciences

Find your place in the growing field of health care. Whether your interest lies in the traditional field of nursing or the new program in physical therapist assistant the School of Nursing and Health Sciences provides a variety of programs designed to prepare the student for entry-level positions in dental assisting, pharmacy technology, radiography, physical therapist assistant, nursing assistant or professional nursing. The health care foundations certificate provides a starting point for prospective nursing and health science students and provides the general education courses to move from completion of a certificate program into an associate degree program.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

After completing a certificate, students can progress to the next level, the advanced certificate. The credit hours required for these programs also vary. This type of certificate provides a more specialized level of skill development, and often allows students to upgrade their positions at their places of employment.

The next level, an Associate in Applied Science, is available for some programs. For some career fields, it is possible to earn a certificate, advanced certificate, and an Associate in Applied Science degree in the same field. In these cases, the credit hours from the certificate and advanced certificate can be applied to the credit hours needed for the Associate in Applied Science degree.

Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, advanced certificate and General Education requirements.

Health Care Foundations

Uncertain of your specific career path in the field of healthcare? This certificate program can provide the essential basic skills to prepare for a specialized program.

**Health Care Foundations (CTHCF)
Certificate**

Program Effective Term: Fall 2011

This program helps students acquire basic knowledge and skills in math, foundational sciences, healthcare terminology, and general education courses. The certificate fulfills major pre-admission requirements for Dental Assisting, Nursing, Pharmacy Technology, Physical Therapist Assistant, Radiography, and general education requirements for Associate in Applied Science degree.

Major/Area Requirements		(26 credits)
BIO 101 or	Concepts of Biology	4
BIO 102	Human Biology	4
CIS 100 or	Introduction to Computers and Software Applications	3

Notes:

Chemistry:

CEM 090 Introductory Chemistry or high school chemistry is a required support course, with a grade of "C" or better.

PROGRAM CHANGE OR DISCONTINUATION FORM

Program Code:
CTHCF

Program Name:
Health Care Foundations

Effective Term:
Winter 2010

Division Code: HAT

Department: Nursing and Health Sciences

Directions:

1. Attach the current program listing from the WCC catalog or Web site and indicate any changes to be made.
2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using a Master Syllabus form, but should be submitted at the same time as the program change form.

Requested Changes:

- | | |
|--|---|
| <input type="checkbox"/> Review | <input type="checkbox"/> Program admission requirements |
| <input type="checkbox"/> Remove course(s): _____ | <input type="checkbox"/> Continuing eligibility requirements |
| <input checked="" type="checkbox"/> Add course(s): | <input type="checkbox"/> Program outcomes |
| • HSC 100: Basic Nursing Assistant Skills (4 credits), <i>or</i> | <input type="checkbox"/> Accreditation information |
| • HSC 102: Introduction to Physical Therapy (1 credit), <i>or</i> | <input type="checkbox"/> Discontinuation (attach program discontinuation plan that includes transition of students and timetable for phasing out courses) |
| • PHT 106: Introduction to Pharmacy Technology (1 credit), <i>or</i> | <input type="checkbox"/> Other _____ |
| • RAD 100: Introduction to Diagnostic Imaging (2 credits) | |
| <input type="checkbox"/> Program title (title was _____) | |
| <input type="checkbox"/> Description | |
| <input type="checkbox"/> Type of award | |
| <input type="checkbox"/> Advisors | |
| <input type="checkbox"/> Articulation information | |

Show all changes on the attached page from the catalog.

Rationale for proposed changes or discontinuation:

Provide students with optional introductory courses with a career path focus in healthcare. Also, through completion of HSC 100, provides students with direct patient care experience and the opportunity for job placement in a patient care facility.

Financial/staffing/equipment/space implications:

None, all are existing courses.

List departments that have been consulted regarding their use of this program.
