Course	Course title		
EWA230	Fire Alarms, Telephone and Security Alarms		
Course description State the purpose and content of the course. Please limit to 500 characters.	This course teaches the fundamentals of fire alarm, tel installation, inspection, testing, and maintenance. Also performance, and administration. This course is taught at the IBEW local training center	ephone, and security alarm systems. Topics include: o covered are network cabling, pathways, system and is only open to apprentices accepted into a program.	
Course outcomes	Outcomes	Assessment	
List skills and knowledge students will have after	(applicable in all sections)	Methods for determining course effectiveness	
taking the course. Assessment method Indicate how student achievement in each outcome will be assessed to determine student achievement for purposes of course improvement.	After successful completion of this course, the student will be able to: 1. Explain fire alarm design and installation requirements 2. Identify basic alarm system components 3. Demonstrate basic phone system installation	This course is assessed externally by the local's Joint Apprenticeship Training Committee (JATC), consisting of NECA representatives (industry) and IBEW members. The local receives feedback on needed technical updates and apprentice skill performance.	
Course Objectives Indicate the objectives that support the course outcomes given above. Course Evaluations Indicate how instructors will determine the degree to which each objective is met for each student.	Objectives	Evaluation	
	(applicable in all sections) Objectives and methods of evaluation follow the curriculum set out by the National Joint Apprentice Training Committee (NJATC).	Methods for determining level of student performance of objectives	

List all new resources needed for course, including library materials.

All resources for the pro gram are in place at the Local 252 Training Center.

Assessment plan:

Learning outcomes to be assessed (list from Page 3)	Assessment tool	When assessment will take place (semester & year)	Course section(s)/other population	Number students to be assessed
Explain fire alarm design and installation requirements Identify basic alarm system	Contractors (employer) provide paper feedback forms for apprentice skill performance reviews.	Fall 2011 and every three years thereafter.	All	All
components 3. Demonstrate basic phone system installation	JATC contractor members provide specifications detailing technical updates.			

Scoring and analysis of assessment:

1. Indicate how the above assessment(s) will be scored and evaluated (e.g. departmentally developed rubric, external evaluation, other). Attach the rubric/scoring guide.

Apprentice feedback forms filled out by the employing contractor.

2. Indicate the standard of success to be used for this assessment.

The standard of success is set by the local JATC.

3. Indicate who will score and analyze the data (data must be blind-scored).

The data is analyzed by the JATC as a committee.

4. Explain the process for using assessment data to improve the course.

Results are initially shared with the training coordinator for the local. The training coordinator then works with appropriate instructor staff to make needed changes.
