

## How to Configure iPad/iPhone to Get Your WCC Email

Note: these instructions can be used for iPad or iPhone.

1. Make sure that you are connected to a Wi-Fi or 3G network. Wi-Fi is better because it's faster.
2. Tap the **Settings** icon from the home screen, then **Mail, Contacts, Calendars**.
3. In **Mail, Contacts, Calendars**, tap **Add Account**.

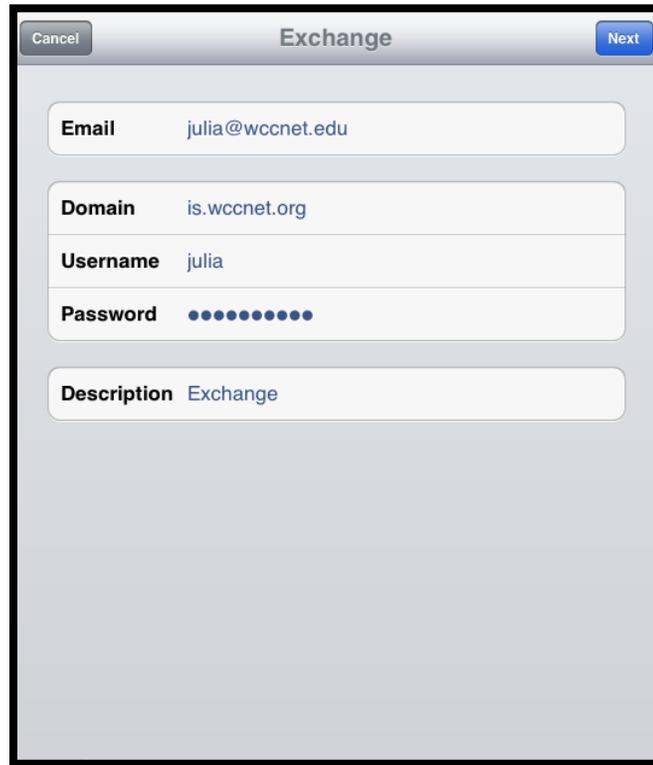

4. Tap the **Microsoft Exchange** icon.

5. Fill out the fields with the following information:

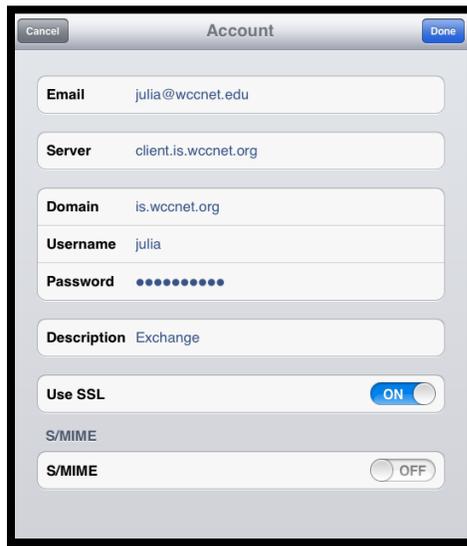

- **Email:** Your WCC email address
- **Domain:** is.wccnet.org
- **Username:** The part of your WCC email address before the “@” sign
- **Password:** Your email password
- **Description:** This is optional

The image shows a screenshot of an "Exchange" account setup dialog box. The window has a title bar with "Exchange" in the center, a "Cancel" button on the left, and a "Next" button on the right. The main content area contains five input fields, each with a label on the left and a text box on the right. The fields are: "Email" with the value "julia@wccnet.edu", "Domain" with the value "is.wccnet.org", "Username" with the value "julia", "Password" with a masked value of ten blue dots, and "Description" with the value "Exchange".

Field	Value
Email	julia@wccnet.edu
Domain	is.wccnet.org
Username	julia
Password	••••••••••
Description	Exchange

6. Tap **Next** and enter the server name: client.is.wccnet.org

7. Tap **Next**. The device will verify the configuration. The next screen will allow you to pick what you want to synchronize, such as Mail, Contacts, and Calendars (any or all).

8. Tap **Save** and the device will finalize the configuration and return you to the **Mail, Contacts, Calendars** menu while your device communicates with the server.

9. From the home screen tap the **Mail** icon to get your email.
